UNITED STATES BREAKS WITH ZELAYA.

GIVES PASSPORT TO NICARAGUAN CHARGE.

Knox Denounces the Peace Disturber; Virtually Recognizes Rebels.

Remarkable Letter from the Secretary of State, With President Taft's Sanction, Brands Head of the Central American Republic as Violator of Solemn International Conventions and Tyrant.

[BY DIRECT WIRE TO THE TIMES.]

WASHINGTON, Dec. 1.—[Exclusive Dispatch.] "The United States government is doing just what it is attempting to punish President Zelaya and Nicaraguans for," said Señor Felipe Rodriguez, charge d'affaires of the Nicaraguan Legation, tonight.

He added that he had not heard officially from President Zelaya, who he believed was safe and would fight the entire United States before submitting to this country's demands.

Señor Rodriguez said he had received the letter from the Secretary of State announcing passports would be furnished him and the members of the legation.

"The letter came by special messenger, and it went straight to my heart," Dr. Rodriguez continued. "I did not expect such treatment." He said he would not leave the country for the present at least.

WAR CRISIS NEAR.

WASHINGTON, Dec. 1.—Secretary of State Knox returned the passport of Felipe Rodriguez, chargé d'affaires of the Nicaraguan legation, late today with a letter scathingly denouncing the Zelayan administration of the government of Nicaragua. The letter is definitely declared to represent the views of President Taft and is about as plain spoken as anything emanating from the State Department in many years.

The extraordinary feature of the letter is that it seems to indicate an intention on the part of the United States to hold President Zelaya personally responsible for the alleged torture and execution of the Americans, Cannon and Groce, and exhibits the unique situation of one government holding the Chief Executive of another practically as a common malefactor.

Zelaya is branded as a violator of solemn international conventions, a disturber of national and international peace, a tyrant whose administration has been a blot upon the name of good government.

VIRTUAL RECOGNITION.

Secretary Knox virtually announces the recognition of the Nicaraguan revolutionists, declares it to be the conviction of the United States that the revolution represents the sentiments of a majority of the Nicaraguan people, and that there is evidently no responsible government with which the United States can deal. He therefore announces that all parties will be held accountable for their actions as affecting the interests of Americans and the peace of Central America.

He further informs Señor Rodriguez that, while he has lost his diplomatic quality, he may still serve as an "unofficial" channel of communication with the faction which he is regarded as representing.

This brings the crisis as near to the status of war as it could be brought by executive action without a definite declaration by Congress, which will convene next Monday.

HONDURAS ONLY WITH ZELAYA.

Mr. Knox's letter in all but so many words makes it plain that the action represents the wish and attitude of all the Central American States with the single exception of Honduras, which is regarded here as entirely dominated by Zelaya. Mexico has its sympathy with the United States in this matter.

Just what status consular representatives of the United States in Nicaragua now enjoy is not definitely explained today. It is expected, however, that Vice-Consul Caldera, who has been occupying the legation in Managua, and other Consuls in that country, will be given their passports tomorrow. This is the usual method of procedure.

Following is the text of Secretary Knox's letter to Señor Rodriguez.

TEXT OF KNOX'S LETTER.

"DEPARTMENT OF STATE.
"Washington, D. C., Dec. 1, 1909.

"Sir: Since the Washington convention of 1907 it is notorious that President Zelaya has almost continuously kept Central America in tension or turmoil, that he has repeatedly and flagrantly violated the provisions of the conventions and, by a baneful influence on Honduras, whose neutrality the conventions were to assure, has sought to discredit these sacred international obligations to the great detriment of Costa Rica, Salvador and Guatemala, whose governments meanwhile appear to have been able patiently to strive for the loyal support of the engagements so solemnly undertaken at Washington under the auspices of the United States and of Mexico.

"It is equally a matter of common knowledge that under the regime of President Zelaya opposition elements have ceased in Nicaragua to exist except in name, that public opinion and the press have been throttled and prison has been the reward of any tendency to real patriotism. My consideration for you personally impels me to abstain from unnecessary discussion of the painful details of a régime which unfortunately has been a blot on the history of Nicarasua and a discouragement to a group of republics whose aspirations need only the opportunity of free and honest government.

BARBAROUS CRUELTIES.

"In view of interests of the United States and of its relation to the Washington conventions, appeal against this situation has long since been made to this government by a majority of the Central American republics. There it now added the appeal, through the revolution of a great body of the Nicaraguan people.

"Two Americans, who, this government is now convinced, were officers connected with the revolutionary forces and therefore entitled to be dealt with according to the enlightened practice of civilized nations, have been killed by direct order of President Zelaya. Their execution is said to have been preceded by barbarous cruelties.

"The consulate at Managua is now officially reported to have been menaced. There is thus a sinister culmination of an administration also characterized by a cruelty to its own citizens, which has, until the recent outrage, found vent, in the case of this country, in a succession of petty annoyances and indignities which many months ago made it impossible to ask an American Minister longer to reside at Managua. From every point of view it has evidently become difficult for the United States further to delay more active response to the appeals so long made to its duty to its citizens, to its dignity, to Central America, and to civilisation.

"The government of the United

by Zelaya's order for which he will be held personally accountable, according to Secretary Knox's letter yesterday dismissing Nicaraguan charge d'affaires and practically recognizing revolutionists.

ZELAYA'S FRIENDS.

HONDURAS JOINS IN BAITING AMERICANS.

[BY DIRECT WIRE TO THE TIMES.]

NEW ORLEANS (La.) Dec. 1.—[Exclusive Dispatch.] Foreigners in Honduras have been subjected to many indignities and oppressions by petty officials of Atlantic ports since the trouble at Nicaragua started, it is claimed, and a strong protest will be filed at Washington for the protection of American citizens and the property rights of foreigners. This information was received here today from American passengers from Honduras. One of the Americans said the situation was becoming so unbearable that the foreigners would have to arm themselves to protect their interests unless the Washington authorities became more aggressive.

"Americans are in a desperate plight in Honduras," said an American with large interests in Honduras, who asked that his name be withheld from publication. "The petty officers of Honduras have no respect or consideration for an American. Every class of foreigners in Honduras receives better treatment than Americans, and we are getting thoroughly tired of it. The petty Honduras officials know that there is a crisis about to come in their affairs, and they are making hay while the sun shines. All are gathering in the shekels against the time when they will be out of office and will get all the spoils. The Americans are the sufferers and the extortions and injustices are many. Within the last few weeks I know of a case in which a man who had imported a costly steam tug, capable of carrying about 300 people, was told that he must surrender the vessel to the government, because Davila wanted to send a party of men to Cape Gracias, Nicaragua. The American refused to give up his tug and put an armed guard on it to prevent its seizure by the Honduran troops. Since that time he has been subjected to all sorts of petty annoyance and impositions of fines for trifling violations of regulations. Davila is the most unpopular man in Honduras. From all that I can learn, Manuel Bonilla, is preparing to invade the country. If Estrada should win, Davila would not last three weeks. Unquestionably, then, Gen. Bonilla would be President."

HISTORY MAKING.

"REPUDIATE PEERS" IS CRY OF LIBERALS.

Rallying Call Is Sounded in Manifesto Issued to Country in Struggle Between House of Lords and Commons.

[ASSOCIATED PRESS NIGHT REPORT.]

LONDON, Dec. 1.—The National Liberal Federation issued a manifesto tonight to the country, which may be regarded as a party rally for the elections. It concentrates attention entirely on the constitutional struggle between the House of Lords and the House of Commons. It says:

"If the present action of the peers is not repudiated swiftly by the people, rights and privileges won so dearly by our forefathers in their great struggles for freedom are all surrendered."

The manifesto declares the peers' power of veto must be restricted so that the last word on legislation and finance will rest with the House of Commons. Otherwise no liberal ministry again can assume the responsibilities of office.

"In the fight forced upon us," the manifesto continues, "the electors will have to decide whether they wish to govern themselves or be governed at second hand by a few hundred hereditary peers who have thrown the constitution into the melting pot in order to shift the burden of taxation from wealthy land and liquor interests upon food and the necessaries of life."

ROSEBERY DISPUTES CURZON.

Lord Rosebery, in a letter to the press tonight, repudiates the charge made by Lord Curzon that he led an army to the walls of a fortress and then abandoned it. Lord Rosebery reiterates that throughout he has opposed and warned against the course the lords have taken as one calculated to affect injuriously the House of Lords itself and to enhance what popularity the budget may possess.

Premier Asquith announced today in the House of Commons that tomorrow he would move a resolution that the action of the House of Lords in refusing to pass the budget was a breach of the constitution and a usurpation of the rights of the House of Commons.

When the Premier entered the chamber this afternoon the supporters of the government rose and greeted him with ringing cheers. Immediately after routine business the Prime Minister took the floor, and as soon as he concluded the House adjourned.

TODAY'S PROGRAMME.

In introducing his resolution tomorrow Premier Asquith will go exhaustively into the question of the respective privileges of the House of Lords and the House of Commons, and state in detail the government's intentions. He will also fix the day of prorogation, which will probably be next Friday.

Former Premier Balfour, leader of the opposition in the Commons, will reply, setting forth the view that the new and important departure in public policy represented by the budget bill should be submitted to the people. John Redmond, head of the Irish party, and possibly one representative of the Labor party will follow with speeches.

The Cabinet, which had already determined on the policy it would pursue in the event of Lord Lansdowne's amendment being carried, held an unusually early meeting today to confirm its decision and consider the wording of the motion which Premier Asquith will ask the House of Commons to adopt.

All members of the Cabinet were present at the meeting, which excited so much popular interest that a great crowd gathered in the vicinity of No. 10 Downing street, the official residence of the Premier.

CAMPAIGN ON FRIDAY.

The election campaign will open in earnest on Friday, when David Lloyd George, Chancellor of the Exchequer, and Winston Spencer Churchill, president of the Board of Trade, who are held chiefly responsible for the budget, and Lord Lansdowne and J. Austin Chamberlain, the most ardent opponents of the government's measure, will deliver speeches, and with the exception of a brief respite at Christmas, will continue the fight until election day.

In many respects the impending struggle will be the most interesting in the Parliamentary history of England. Some of the peers have decided to take the unusual course of stumping the country to explain their action against the budget. The Unionists, though not so well equipped with orators, are determined upon a stern campaign.

They will devote their energies to the exposition of tariff reforms and a denunciation of socialism, towards which they will claim the budget is a first step.

The laborites, all strong supporters of the budget, will meet tomorrow to arrange their campaign, and efforts are being made (and with some success) to prevent a three-cornered fight.

As a part of this programme, the laborites are withdrawing their candidates from those districts where the Liberals have a better chance of success, while the Liberals are doing a similar service for the Labor party where the latter is stronger.

The election in Ireland will be the most interesting since 1886.

BALKY AUTO IS FATAL.

ALAMOSO (Colo.) Dec. 1.—Clyde L. Shumacher of Blanca was fatally injured last night when his automobile balked in crossing the Denver and Rio Grande Railroad and was struck by a train. Two other passengers saved themselves by jumping.

CRUSHED BY HIS HUNTER.

WHITE PLAINS (N. Y.) Dec. 1.—Fletcher Harper, member of a wealthy New York family, is in a critical condition at the country mansion of Eugene S. Reynal, near here, suffering from injuries sustained Saturday when his hunter toppled over upon him.

CISSY LOFTUS BREAKS DOWN.

Cancels All Engagements and Will Go to London in Permanent Retirement.

[BY DIRECT WIRE TO THE TIMES.]

TORONTO (Ont.) Dec. 1.—[Exclusive Dispatch.] The permanent retirement from the stage of Cecilia (Cissy) Loftus, was announced here tonight at the Majestic Music Hall where she is filling a week's engagement.

All her future engagements have been canceled and the actress herself said she was going to London, Eng., to join her husband, Dr. Brockman, a distinguished physician. While it was at first given out here that Miss Loftus was simply retiring to join her husband, it was learned later that she has several times exhibited signs of a nervous breakdown.

Monday afternoon at her opening performance Miss Loftus was noticed to be appearing at a disadvantage and it was commented upon by more than one paper in referring to her performance. That Miss Loftus was ill at the time was admitted tonight. She has been curtailing her performances every day since. The chief trouble appears to be with her throat.

OH, JOY!

SOUL KISSES TO LIFT MORTGAGE.

OTHER KINDS OF CARESSES CHEAP AT CHICAGO.

Four Thousand Tickets Already Sold to Affair at Which Twenty-five Charming Young Women Will Welcome All Comers With Smacks Costing from Two-Bits to $2.50.

[BY DIRECT WIRE TO THE TIMES.]

CHICAGO, Dec. 1.—[Exclusive Dispatch.] Twenty-five hundred dollars worth of kisses—real lip-to-lip kisses not candy kisses—are to be disposed of at the North Side Turner Hall next Sunday.

Kisses are to be purveyed by twenty-five chic and charming young women to all comers, and the money is to go to raise the debt of the Temple Emanuel.

The bill of fare for the evening will run as follows:

Snippy snips (fine for bashful young men,) 25 cents.

Kiss caresses (for old ladies and elderly married women,) 25 cents.

Smushy smacks (for uncles, grandfathers and aged widowers,) 50 cents.

Kiss direct (for folks who are kiss broken,) 50 cents.

Kiss ardest (for bold bachelors,) 75 cents.

Soul kiss (for boldar bachelors,) $1.

Kiss furious (only one or two to be sold during evening,) $2.50.

Four thousand tickets already have been sold, netting $2000. Five hundred dollars, it is expected, will be realized from other features of the bazaar, leaving $2500 to be raised by kisses.

FIGHT ON MODERN SCHOOLS.

PARIS, Dec. 1.—A special from Madrid, via the frontier, says: "The Spanish Episcopate has petitioned the government to close all the lay and modern schools in the kingdom."

COST OF UNIONISM.

BUSINESS CRIPPLED.

Strike Bad Blow To Northwest.

Railway Tie-up Affects Many Lines of Industry; Men Idle Everywhere.

Flouring Mills, Mines and Packing-houses First to Feel Union's Grip.

Yards in All Terminal Cities Crowded With Stalled Trains of Freight.

[ASSOCIATED PRESS NIGHT REPORT.]

ST. PAUL (Minn.) Dec. 1.—Every line of industry in the Northwest dependent upon the movement of supplies is seriously affected by the strike of the railroad switchmen, which began last evening.

It is estimated that upwards of 12,000 men are idle tonight because of the strike order, thousands of freight handlers and teamsters are losing time because of the freight blockade, and a continuance of the strike for several days will throw additional thousands out of work.

The railroad yards in all terminal cities are filled with stalled freight trains, and an attempt to move a few by the aid of the office men drafted as switchmen is making no impression.

The members of the Railroad Managers' Committee announced today that they were bringing to St. Paul new switchmen to take the places of the strikers. To this President Hawley of the Switchmen's Union said:

"All right; let them come. We will not object."

Business men generally are beginning to feel the effects of the strike. The first to be affected were the wholesale grocers, and their business is falling off rapidly. Wholesale grocers report that nothing is moving. The commission houses are doing nothing, and their customers in the small towns who get their supplies day by day will soon be unable to serve fresh vegetables and fruit. Some of the larger commission houses today reduced their working forces, and will make further reductions if the strike long continues.

FLOUR MILLS CLOSE.

In Minneapolis the flour mills closed tonight and it is estimated that 1500 men employed in them are idle. A continuation of the strike will throw out 1500 more men employed in the cooperage and allied trades.

In South St. Paul, where the stock yards are situated, only 300 head of cattle were received today. The daily average is 1800. Manager Hanks of Swift & Co. said the question of a reduction in the packing-house force depended entirely upon the duration of the strike.

In the iron range, in the northern part of Minnesota, small towns will soon be facing a famine unless foodstuffs can be sent in. In Superior 300 men were laid off in the Great Northern machine shops.

Mines will be affected by stopping freight traffic. On the ore docks at Duluth and Superior within forty-eight hours 10,000 men will be out of work, and the general business loss will run into thousands of dollars.

In all cities in the Northwest the strike will be felt. The most serious effect will be in Montana, where copper mines and smelters are situated.

In Montana and Eastern Idaho freight traffic is tied up. About sixty freight trains are stopped, as the switchmen are in control of all terminal points. This territory is taken care of by the Great Northern, the Northern Pacific, and the Chicago, Milwaukee and Puget Sound roads. Unless the roads can carry coal and ore to the smelters, operations must cease.

Butte is absolutely dependent upon the operation of the mines and smelters. When they stop, everything stops. Many big mining companies run com-

(Continued on Second Page.)

SLEEP WALKER HARD TO HURT.

Walks Off Speeding Train, Struck by Another—Only Slightly Injured.

[ASSOCIATED PRESS NIGHT REPORT.]

HAMMOND (Ind.) Dec. 1.—While in a somnambulistic sleep on a fast Lake Shore train today, J. M. Ashcraft, aged 72, of Red Key, Ind., walked off the train while it was running sixty miles an hour, near Chesterton, Ind., and was virtually uninjured. He fell on a parallel track and while getting up was struck by another train. He suffered only a slight scalp wound, and was able to continue his journey.

After Election, What? The Midwinter Number of The Times.

The World's Biggest Newspaper Annual, Devoted to the World's Most Wonderful Wonderland

RAILROAD RECORD.

SYSTEMS ARE NOW SEPARATE.

Rock Island-'Frisco Divorce Is Accomplished.

Rumors Persist of Hawley-Yoakum Alliance.

Commission Denies Intention of Prosecuting.

[ASSOCIATED PRESS NIGHT REPORT.]

NEW YORK, Dec. 1.—Six thousand five hundred miles of railroad, forming the St. Louis and San Francisco Railroad Company, changed hands in New York today by its severance from the Rock Island company, with which it was merged in 1902.

The purchasers are B. F. Yoakum, former chairman of the 'Frisco-Rock Island Executive Committee, and B. L. Winchell, former president of the Rock Island, who now becomes president of the 'Frisco. It is understood that Messrs. Winchell and Yoakum have as their associates in the deal some of the leading capitalists of the Middle West, including Adolphus Busch and F. J. Wade of St. Louis, as well as the Union Trust Company of that city.

All accounts agree that the dissolution was brought about through fear of Federal intervention. The Rock Island and 'Frisco lines parallel and touch each other at various points, and there is reason to believe that the Interstate Commerce Commission had taken cognizance of the fact.

Another interesting phase of the transaction is that, despite denials, the current belief is that the 'Frisco will form some alliance with the lines of Edwin Hawley, the newcomer in the railroad world, who recently acquired, with B. F. Yoakum, control of the Missouri, Kansas and Texas.

RELATIONS STILL FRIENDLY.

At the same time, the relations of the 'Frisco and the Rock Island are to be friendly, and for the benefit of both.

According to official statements, interests now in control of the St. Louis and San Francisco will operate that road as an independent property, although the actual transfer cannot be effected until the $17,364,000 of 5 per cent. collateral bonds of the Rock Island, which controls $28,000,000 of St. Louis and San Francisco common stock, have been retired.

The redemption price is 102½ and large quantities of the bonds have recently been traded in on the stock exchange at a steady advance from 96 to 101¾, the latter, or top price, being reached today. A formal offer of redemption probably will be made at once.

The St. Louis and San Francisco Railroad Company was organized in 1896 as the successor of the railway company of that name, which had been sold in foreclosure. When taken over by the Rock Island company, control of property rested with B. F. Yoakum and his friends, and Mr. Yoakum was made chairman of the Rock Island Executive Committee.

HAWLEY RUMORS CREDITED.

Credence is given the rumors of a Yoakum-Hawley alliance in more ways than one. Besides the "Katy," recently purchased, they have other interests in common.

Mr. Hawley is credited with the control of the Chesapeake and Ohio, the Chicago and Alton, the Minneapolis and St. Louis, the Iowa Central, and the Toledo, St. Louis and Western; while he is interested in Hocking Valley, Toledo and Ohio Central, Western Pacific, the Atlantic Coast Line and Louisville and Nashville.

The St. Louis and San Francisco has been a profitable subsidiary of the Rock Island system, for the Rock Island, being responsible for the 'Frisco bond, was practically paying what the 'Frisco did not earn. Both roads, therefore, look for improvement under the new management.

COMMISSION HAD NO HAND IN MATTER.

[ASSOCIATED PRESS NIGHT REPORT.]

WASHINGTON, Dec. 1.—If Federal intervention has been planned to accomplish the dissociation of the Rock Island and 'Frisco lines, such a movement did not have its inception in the Interstate Commerce Commission. Commissioners said tonight that the combination of the Rock Island and 'Frisco lines had not been discussed by that body for three years.

Members of the commission are of the opinion that B. F. Yoakum and B. L. Winchell have acquired the 'Frisco, not with the idea of a possible combination with the rapidly forming Hawley system, but to round out a Southwestern system of their own.

Mr. Yoakum is interested in the development of the Southwest, and by getting back his 'Frisco, it is said, he hopes with the connection with the Seaboard Line at Birmingham to carry a large portion of the traffic that now goes through St. Louis.

It is understood that in taking back the 'Frisco, which he practically turned over to the Rock Island a few years ago, Mr. Yoakum turned over his interest in the Rock Island company.

ONLY AWAITS ORDERS.

WESTERN PACIFIC READY.

[ASSOCIATED PRESS NIGHT REPORT.]

DENVER, Dec. 1.—"The Western Pacific is ready for operation and we are awaiting word from Washington to begin acceptance of interstate shipments," said E. B. Boyd, assistant to the vice-president of the Gould lines today, upon his arrival from San Francisco. Mr. Boyd said freight and passenger tariffs have been filed with the Interstate Commerce Commission, and that the road will accept shipments as soon as the commission gives the word.

RAPID RAILWAY DEAL.

BOUGHT IN FOUR HOURS.

[ASSOCIATED PRESS DAY REPORT.]

NEW YORK, Dec. 1.—Announcement was made today that a flying visit which Charles M. Hays, president of the Grand Trunk Railway, paid to New York yesterday was for the purpose of purchasing the Pontiac, Oxford and Northern Railway. His errand was accomplished, and he was off again for Montreal four hours after he reached New York. The railroad which the Grand Trunk has thus secured is an independent route in Northern Michigan, only about 200 miles long. It connects with the Grand Trunk Western at Pontiac. No

FEDERAL OFFICIALS GIVE UP HOPE OF ENDING STRIKE.

Heads of Departments

of Interstate Commerce and Labor who yesterday were told their offers of assistance in arbitrating big railroad strike would not be accepted and left for Washington.

MAKING THE BEST OF IT.

PACIFIC NORTHWEST EXPECTS EARLY STRIKE SETTLEMENT.

[ASSOCIATED PRESS NIGHT REPORT.]

SEATTLE, Dec. 1.—Although the movement of freight on the Northern Pacific and the Great Northern lines is suspended and passenger traffic delayed because of the switchmen's strike, there has been little commotion today in business and railroad circles, for there is a general feeling that the strike will not continue long.

On all bulletin boards of the railroads notice of an increase of 2 cents an hour in switchmen's wages was posted today, but not a switchman returned to work, so far as known.

No freight trains are running. Perishable freight is refused, and other freight is accepted subject to delay.

Passenger trains are leaving their stations an hour or two late. Yardmasters and station employes are making up the trains.

Good order has been maintained by the strikers at all points.

Railroad officials say they have received assurances from members of the Brotherhoods of Locomotive Firemen and Engineers and conductors and trainmen that there is no possibility of a sympathetic strike. None of the railroad employes not on strike has shown the least wish to delay traffic.

Operating officials in the Northwest have made no attempt to hire new men and are awaiting instructions from St. Paul. It was said at the Northern Pacific offices here tonight that new men would be employed as soon as it was decided to begin the movement of freight, and that it was not feared the strike would spread when the new men went to work.

The Chicago, Milwaukee and Puget Sound Road has not been affected by the strike.

Most of the cities in the Pacific Northwest are reached by other roads than the two whose switchmen are out, and consequently a shortage of coal and supplies will not result.

William M. Clark, president of the Order of Railroad Conductors, is due in Seattle tomorrow.

AUTO SCARED MULES.

NEGRO PREACHER BURNED FOR SHOOTING WHITE MAN.

[ASSOCIATED PRESS NIGHT REPORT.]

COCHRAN (Ga.) Dec. 1.—John Harvard, a negro preacher, who shot and fatally injured W. B. Booth this afternoon, tonight was captured five miles from here and burned at the stake.

Booth is a well-known business man of Hawkinsville, Ga., and was en route to Cochran in an automobile when the shooting occurred. He drove up behind Harvard, who was in front of him in a wagon.

Harvard charged that Booth's machine frightened his mules. After a few words he drew a pistol and fired at Booth, three shots taking effect. Booth returned the fire and slightly wounded the negro in two places.

Harvard was found in a barn three miles from the locality of the shooting.

Booth was brought here immediately. Physicians said tonight there was little hope for his recovery. He has a wife and several children.

Officers from Hawkinsville went to the scene of the shooting in automobiles, but a party of citizens was formed and tracked the negro to his hiding place. He showed fight, but was suffering so severely from his wounds that he could offer little resistance. He freely admitted the shooting and it is said justified himself by the fact that Booth's automobile frightened his mules.

Harvard was given an opportunity to pray, after which he was bound with chains to a stake

When leaving the stage Mrs. Edmonson is quoted as having said:

"This is my last public appearance. I have left the stage for good."

The remark started friends to figuring and the story of her elopement leaked out.

Edmonson formerly was cashier at the San José postoffice and is now salesman for a leading seed-growing house. He is well and favorably known all through this section.

Santa Fe Raises Telegraphers.

CHICAGO, Dec. 1.—Telegraph operators in relay offices, wire chiefs and managers on the Santa Fé Railroad system will receive an increase of $5 a month, it was announced today. Operators are unorganized and had made no demand for an increase.

Stock Offered to Shareholders.

NEW YORK, Dec. 1.—It was announced today by the Chicago and Northwestern Railroad that stockholders would be offered the privilege of subscription to the new stock issue at par to the amount of 25 per cent. of their holdings. The new issue of stock amounts to about $25,000,000.

Chamberlain's Cough Remedy has become famous for its cures of coughs colds, croup and influenza. Try it when in need. It contains no harmful substance and always gives prompt relief.—[Adv.

STREET CAR DELIVERY.

Early Newspaper and Passenger Service.

To facilitate an earlier delivery of The Times in the southeastern and southwestern parts of the city, arrangements have been made with the street railway companies by which yellow car starts from The Times Office, corner First and Broadway, at 4 a.m. daily. It runs via Broadway to 12th, to San Pedro, to South Park avenue and Slauson avenue.

An interurban car, running via Hill street to 10th, to Burlington, to Vermont and to Santa Barbara, leaves The Times Office at 2:30 a.m., taking papers to the southwestern section.

Both cars carry passengers, and will undoubtedly prove a convenience for many late risers and night members workers.

BUSINESS CRIPPLED

(Continued From First Page.)

pany stores. A miner's credit is good there only as long as he works. Anaconda and Great Falls employ 7500 smelter hands.

That all hopes of a speedy settlement of the strike are gone is indicated by the departure for Washington tonight of Martin A. Knapp of the Interstate Commerce Commission and Labor Commissioner Neill. Mr. Knapp said he could do nothing but offer his services, and at this time they were not wanted.

The railroad managers' committee announced that efforts were being made to bring in new men to take the places of the striking switchmen.

The switchmen declared if the railroads attempted to use non-union switchmen the locomotive firemen might refuse to handle cars, and it is understood from one member of the Locomotive Firemen's Union that the chief of that organization has instructed the men to decline to work with non-union men.

It is said that the moral and the financial support of the National Railway Association is being given to the railroads to overcome union rule.

Passenger traffic was maintained in the Twin Cities last night and this morning, though with considerable delay, but very little freight was handled anywhere except between the Great Lakes and the Pacific Coast.

The switchmen are firm in their determination to hold out for an increase of 6 cents an hour in wages, with double time for overtime, Sundays and holidays, together with other concessions, while the railroads claim that things will adjust themselves to their normal conditions within a few days, despite the walk-out.

While some new men have been employed at passenger stations, so far as could be learned early this morning, no attempt had been made to bring in strike-breakers, the railroads claiming there are enough old men left, together with others that can be pressed into service, to do the work.

No freight was handled out of St. Paul last night, or this morning, and only one train left Minneapolis, that soon after the strike was declared.

Railroad officials, train dispatchers and members of the train crews did the switching in the Twin City yards.

The freight handlers at the Minneapolis transfer yards, the freight gateway of the Northwest, following instructions, did not report for work today.

STANDSTILL AT LAKES' HEAD.

All freight trains at Duluth and Superior were at a standstill this morning.

The strike order generally was obeyed between here and the Pacific Coast, and where traffic was not entirely tied up it was seriously delayed.

In most places freight trains were sidetracked, as at Missoula, Great Falls, Livingston, Grand Forks, Fargo, Mandan, Jamestown and Havre, and agents refused to accept freight for shipment.

At some points in Montana, as at Billings and Helena, all the switchmen did not strike, some of them belonging to the Brotherhood of Railway Trainmen.

Reports from Wallace, Butte, Forsythe and Paradise are that the men refused to strike, and that freight is being handled.

MONTANA SMELTER FORCED TO CLOSE.

[ASSOCIATED PRESS NIGHT REPORT.]

GREAT FALLS (Mont.) Dec. 1.—As a result of the switchmen's strike, the Boston and Montana smelter, employing about 1200 men, has partially closed down, and will be closed completely within twenty-four hours.

The manager of the American Smelting and Refining Company at Helena said tonight that his plant could run a month on the ore supply now on hand. This plant is also supplied with coal, coke and flux. The smelter maintains its own switching crew. The bullion will be loaded and the cars held until the railroads are able to move them.

The other Butte mines, which ship to Anaconda, will continue running, as the switchmen on the Butte, Anaconda and Pacific Railroad are not involved.

Forty-five switchmen are out here. Except passenger trains and one or two freights that can move without switching, no trains are going.

Smaller industrial concerns here, employing 2000 men, will be compelled to close in the next few days if the strike continues.

The thirty-four striking switchmen at Missoula have established headquarters near the depot.

Switchmen belonging to the Brotherhood of Trainmen and Order of Conductors are striking all over this division of the Northern Pacific, as their working contract was made through the Switchmen's Union.

President Hoffness of the Missoula union said today that there was not a man working on the division with the exception of a crew at Wallace, Idaho.

Passenger traffic is on time, but there was no freight movement during the day.

The Chicago, Milwaukee and Puget Sound is handling both through and way freight through Missoula. It employs no switchmen on this division.

At Helena, the eighteen members of the Brotherhood of Trainmen running switch engines joined the strikers.

At Butte, freight paralysis on the Great Northern and the Northern Pacific is complete, and members of the trainmen's union are striking.

Members of the trainmen's union have generally remained on duty.

At Helena freight is being refused by the three roads, under orders from headquarters.

At Livingston, last night, fifteen trains were tied up, and at Great Falls traffic was at a standstill.

MISSOULA TIE-UP COMPLETE.

[ASSOCIATED PRESS DAY REPORT.]

MISSOULA (Mont.) Dec. 1.—Not a freight car was moved in the Missoula yards of the Northern Pacific last night or today.

A meeting of the Brotherhood of Railway Trainmen was held at 10 o'clock to consider action in regard to the strike.

AT HEAD OF THE LAKES.

[ASSOCIATED PRESS DAY REPORT.]

DULUTH (Minn.) Dec. 1.—Only two switch engines are working today at the head of the lakes, and the tie-up of traffic resulting from the strike of the switchmen is virtually complete.

If the situation is not quickly remedied, 10,000 men will be out of work here within forty-eight hours. Railroads, mines, coal docks, ore docks, elevators, blast furnaces and all other industries will contribute to the unemployed.

The Northern Pacific has two engines in operation.

The grain men have been the heaviest hurt by the strike. The local market is in confusion today, with the prospect of heavy losses. Every man engaged in the handling of grain faces loss through being forced to break contracts. A delay of even a few hours is serious, for the insurance on all boats and cargoes on the lakes expires December 5.

COLORADO TOURIST RATES.

RAILWAY OFFICIALS TO MEET.

[BY DIRECT WIRE TO THE TIMES.]

CHICAGO, Dec. 1.—[Exclusive Dispatch.] Chicago railroad officials will hold a special meeting Monday to consider the proposed reduced rates on tourist travel to Colorado for the summer of 1910. Gov. Shafroth of Colorado and a number of Colorado business men will appear before a special meeting of the Executive Committee of the Western Passenger Association in the interest of the lower rates.

Reduced rates have been requested that they be placed on the basis of $25, round trip, instead of the $30 rate, which has been in effect for several years. The rate under consideration would affect the round-trip summer fare between Chicago and other points and Denver, Pueblo and Colorado Springs.

In railroad circles it is not regarded as probable that the desire of the western delegation will be granted.

Should the railroads take favorable action it is believed that the whole structure of summer tourist rates would be shaken.

ACTRESS SECRETLY WEDS.

Mae Keane, Well-Known on Coast, Marries Social and Business Leader of San Jose.

[BY DIRECT WIRE TO THE TIMES.]

SAN JOSE, Dec. 1.—[Exclusive Dispatch.] Mae Keane, known all over the Coast for her emotional roles with stock companies, was married secretly in Sacramento November 17 to Joe Edmonson, well known in local society and political circles, according to friends of the couple.

The news of the wedding leaked out among a few intimates last evening after the annual benefit performance of theatrical talent in the interests of the Theatrical Mechanics' Association.

LEADING CITIZENS PLEAD GUILTY TO LAND FRAUDS.

[BY DIRECT WIRE TO THE TIMES.]

...LAND (Or.) Dec. 1.—[Exclu... ...c Dispatch.] Fines aggregating ...5,000 were paid into the Federal ...rt here today by fifteen leading ...ens of Umatilla county, who had ...pleaded guilty to participation in ...fraud...

...J. H. Raley, one of the most ...ainent attorneys of Eastern Ore... ...paid the heaviest fine, $10,000. The ...rs who pleaded guilty and the ...unt of fine assessed against each ...: Alonzo Knotts, $3500; John W. ...e, $5000; William Caldwell, $2500; ...am Slusher, $5000; William Rahe, ...John M. Winn, $3500; C. W. ...ews, $4500; Bailey Ross, $500; ...Olmstead, $500; Robert E. Porter, ...ence postponed; George McDon... ...$2500; James G. Parks, $500; ...ge E. Adams, $2500.

...the men are prominent, among ...being stockmen, ranchers, busi... ness and professional men. All will be able to pay the fines without embarrassment.

Raley made a sensational plea for leniency to the court.

"I never intentionally violated any law," he said brokenly, "and never intentionally did any wrong. My connection with these cases is an open book. All of us believe we have acted within the pale of the law."

After Raley had addressed the court, exhibiting emotion, all the defendants were called forward and entered a general plea of guilty.

United States Dist.-Atty John McCourt described the case in detail and asked the court to extend leniency. He told of the manner in which the land, 120 claims or more, was obtained by the defendants through arrangement and by contract with settlers, to many of whom filing fees were advanced before the land was taken up.

COURT FEARS BIAS.

MPARTIAL PHYSICIANS TO PASS ON RUEF'S HEALTH.

[ASSOCIATED PRESS NIGHT REPORT.]

...AN FRANCISCO, Dec. 1.—In re... ...sponse to the petition to be ad... ...mitted to bail, filed by Abraham ..., who is awaiting appeal from a ...ence of fourteen years' imprison... ...t imposed on him when he was ...d guilty last year of bribery in ...nection with the granting of an ...ad trolley franchise to the ...ed Railroads, Judge Cabaniss to... ordered that the prisoner be ex... ...ed by three impartial physicians, ...e appointed by the court.

...ey will ascertain whether or not ...continued incarceration in the ...ncisco county jail will dangerously ...t Ruef's health.

...e attorneys for Ruef yesterday ...ented statements signed by twenty ...icians, who asserted that further ...tement would be dangerous. When ...matter was again taken up today, ...-Atty. Langdon objected to the ...sideration of the statements of the ...sicians who had signed the petition ...the ground of bias.

It was in response to this objection that the court decided to appoint an impartial board of physicians to make an examination. Their report will be heard tomorrow.

After court adjourned for the day, Judge Cabaniss appointed Drs. Joseph G. Morrissey, A. P. O'Brien and E. B. McGill to make an examination of Ruef.

After selecting the board of physicians, Judge Cabaniss made the following statement:

"I selected a board of examiners of my own, not because I wish to cast any reflections on the physicians who have already certified that Ruef is in poor health as the result of his confinement, but because I find among their number certain men who were closely connected with the prisoner in political and social capacities while his star was still in the ascendant, and as a natural result they might be accused of prejudice in spite of their well-known reputation for honor and integrity."

CONFLICTING.

...ALT ACCUSES CAPT. WARNER.

CROIX OFFICER FLOURISHED GUN AND BOTTLE.

...an Corrigan Testifies That Ex... ...ves "Acted Like Crazy Man, ...ing Every One Between ...s"—Quartermaster Denies He ...d Anything Against Master.

...ED PRESS NIGHT REPORT.]

...FRANCISCO, Dec. 1.—Conflict... ...counts of the burning of the ...x St. Croix marked the investi... ...into the disaster today.

...Corrigan, an able seaman of ..., stated that he saw Capt ... standing on the deck of the ...ssel with a bottle in one ...d a revolver in the other, act... ...a crazy man, cursing every ...ne drinks," and that he ...atened to shoot the third mate if ...went above first.

...ese statements were first made by ...witness at Los Angeles, and he re... ...ted them today, although he had ...iously declared that Warner was ...ommand of himself at all times ...attended to his duties.

...arter Peters, whose absence ...the investigation caused some ...n Monday, was brought in by a ...y marshal, but denied that he ...ver said that Capt. Warner re... ...some of his personal effects at ...Pedro.

...e declared that he was near the ... during the fire and ashore, and ...t see him drinking at any time.

...ANCE IN WILL CONTEST.

...e Estate of Well-Known Citi... ...Reveals Alleged Illegitimate ...Son as Contestant.

...RECT WIRE TO THE TIMES.]

...JOSE, Dec. 1.—[Exclusive ...] The allegations that ... Cooper, who has filed a con... ...t will of the late Samuel ...resident of the Bank of ...and one of the county's best-...izens, is an illegitimate son, ...ight in the hearing of the ...Superior Court today. The ... of the will advance the ...ile birth was the result of ...e in Iowa just before the ...of the late Cooper and one ...

...e Cooper was the adopted ...el Cooper is not contested ...ponents of the will, but ... he has been amply pro... ...rough gifts when he came ...ority, and they allege his ...test is simply an attempt ...t is not his right from the ...h is worth between $50,000 ...

...e Cooper, brother of the ...d executor of the will, de... clares that George Cooper is no son of his brother, but the illegitimate son of F. W. Cuzard, a close friend of the deceased and a member of the regiment which Samuel Cooper led during the Civil War.

To add complications to the case, there are two Melissa Lanes. One of them is here to testify for George Cooper and the other's testimony will be taken by deposition, she being unable to make the trip to California owing to ills due to old age.

REACHES MARE ISLAND.

REFORM ORDER RECEIVED.

[ASSOCIATED PRESS DAY REPORT.]

VALLEJO, Dec. 1.—Secretary Myer's order for the reorganization of the navy, as provided for by the recommendations of the Swift board, was announced to the heads of the various departments of the Mare Island navy yard today by Rear-Admiral Thomas Phelps, Jr., at an executive meeting called for the purpose. The new order is said to be the most lengthy ever received here. The principal matter of interest at Mare Island pertains to the change in the position now held by Naval Constructor Holden A. Evans, who, for the past ten months, has had the management of the works there. The order reestablishes the steam engineering department, independent of the department of construction and repair.

NOT BURIED ALIVE.

SHE WAS DEAD, ALL RIGHT.

[ASSOCIATED PRESS DAY REPORT.]

TILLAMOOK (Or.) Dec. 1.—An impression that Mrs. L. A. Holdredge, one of the victims of the wreck of the steamer Argo, was buried alive, gained such strong foothold after the funeral ceremony Tuesday that 200 residents of the city went to the cemetery, three miles out of town, at midnight, exhumed the body, and after examination by the physicians, it was pronounced that the woman was dead before she was buried. The idea that the woman was still alive seems to have arisen from the fact that her face was highly colored and her body and limbs relaxed at the time burial was made.

HUGE DAMAGE SUIT.

OVER MILLION DEMANDED.

[ASSOCIATED PRESS NIGHT REPORT.]

SALT LAKE CITY, Dec. 1.—E. A. Wall brought suit today in the District Court against the Utah Copper Company and its president, D. C. Jackling, to recover damages of $1,290,000. It is alleged in the suit that the Utah Copper Company has extracted 215,000 tons of ore from the Amanda mining claim, which adjoins the Utah Copper Company's mine in Bingham Canon, and which is the property of Wall. He asks for a restraining order prohibiting the Utah Copper Company from paying any further dividends, and prays for a commission to ascertain the extent of the alleged damage to the Amanda mine.

MINING EXPERT A SUICIDE.

Capt. Johnson, After Notable Career, Threatened With Eviction, Takes Poison in Hotel.

[ASSOCIATED PRESS NIGHT REPORT.]

SALT LAKE, Dec. 1.—Threatened with eviction from the hotel where he had been stopping with his bride, because he could not pay his bill, Capt. W. A. Johnson, one of the best-known mining experts in the profession, took cyanide of potassium and was found dead in a room at the Belmont Hotel today. Acquaintances say that Capt. Johnson was formerly manager of the mining property of the Guggenheims in Nicaragua and South America, served Cecil Rhodes in South Africa, and made a brilliant record in the Boer war under the British flag. He is said to have put a large fortune into a group of mining claims at Yerington, Nev. His widow was formerly a school teacher at Yerington.

AFTER THIRTEEN YEARS.

California Rules at Last North Dakota Divorce Is Invalid; Bound to Second Wife.

[ASSOCIATED PRESS NIGHT REPORT.]

SAN FRANCISCO, Dec. 1.—After thirteen years of litigation, instituted by a divorced wife to secure the annulment of her husband's second marriage, after she had succeeded in having the original divorce decree set aside, Judge Sturtevant of the Superior Court here today ruled that George Sterlein, the man on the case, is legally wedded to his second wife and that the annulment of the divorce by a North Dakota court was invalid.

Thirteen years ago, Sterlein secured a divorce from his wife in North Dakota after settling property on her to the value of $10,000. Later he came to this city and again married. Shortly after this second marriage, his first wife procured the annulment of the divorce on the ground that it was the result of collusion and fraud. She then came to this city and entered suit to have the second marriage of Sterlein annulled.

This suit has been dragging through the local Superior courts for more than twelve years and the case did not end until Judge Sturtevant decreed today that the North Dakota court was without jurisdiction when it annulled the divorce decree.

STORK INVADES DEPOT.

Train Delayed by Official Flurry Over Arrival of Baby Girl in Portland Station.

[BY DIRECT WIRE TO THE TIMES.]

PORTLAND (Or.) Dec. 1.—[Exclusive Dispatch.] The stork invaded the Union passenger station today and stirred up more excitement than the place had ever seen. Passengers hurrying to their trains stopped to see what was the matter. The 9 o'clock train on the Southern Pacific was delayed ten minutes because the trainmaster, in his excitement, forgot to send it along, station employés and policemen took orders, and Mrs. Clara Fields, matron, was the busiest person in the big building. It was all occasioned by the visit of Mr. and Mrs. Robert McFadden of Dilley, Oregon, who were on their way to Albany to visit the latter's mother. The couple intended to take the 9 o'clock train and were waiting in the large room, when the husband excitedly ran to a policeman and the two ran to Matron Fields.

Several women clerks around the building were consulted and all attention was then directed to the improvised hospital in the women's waiting room. In the meantime an ambulance had been summoned, but it arrived too late.

All this time McFadden was the most interested person in the crowd outside the emergency hospital. Soon the matron came out and said it was a girl and had blue eyes. The mother and child remained at the station until evening and were then taken to a hospital.

PREPARED TO SUE.

PATENTS ARE INFRINGED.

[BY DIRECT WIRE TO THE TIMES.]

STOCKTON, Dec. 1.—[Exclusive Dispatch.] C. P. Zoerb, formerly of San Francisco, where he conducted a large leather goods house previous to the big fire, but who came to Stockton after being burned out, left here this evening with papers in two suits he will institute in the Bay City tomorrow. He refused to give the names of the defendants, but admitted they were prominent leather dealers of San Francisco and they would be accused of infringing patents he held for a certain kind of leather work. One suit is for $25,000 and the other $10,000 damages.

CANDLE COSTS A LIFE.

Little Lake Man Kills Because He Was Charged Nickel for Tallow and Wick.

[ASSOCIATED PRESS NIGHT REPORT.]

BAKERSFIELD, Dec. 1.—Hamilton Proctor, a resident of Little Lake, was shot to death last night in C. R. Berry's store in that town by a man named Garrity, and the murderer is now a fugitive somewhere on the great desert between Little Lake and Mojave, with a large posse of men on his trail. A reward of $200 has been offered for his capture.

Garrity came into Berry's store about 7 o'clock last night to purchase a candle, for which he paid a nickel. He grumbled over having to pay so much for a candle, when Proctor, who was in the store said:

"Give him the nickel back and I'll take the candle."

Garrity drew his pistol and shot Proctor, who died three hours later.

MINING MAN MISSING.

BONDSMEN ARE IN A HOLE.

[BY DIRECT WIRE TO THE TIMES.]

NEVADA CITY, Dec. 1.—[Exclusive Dispatch.] If E. H. Wilson, former superintendent of the fabulously rich Sixteen to One mine at Allegheny, fails to appear in court in this city next Monday morning his bondsmen will be called upon to forfeit $5000. Wilson, who is prominent in the bay cities and in several mining counties, was twice indicted for felonious embezzlement and was to appear last Monday for preliminary examination, being out on $3000 bonds. He was not on hand and the case will be continued until today, a bench warrant being issued. This was returned this morning unserved and Judge Jones raised the missing man's bonds to $5000. The sureties on the bond are Dr. C. L. Mueller, S. Lee Leiter and R. J. Bennets, each for $750. Judge Allen, attorney for Wilson, claims the missing superintendent will be in court Monday. It is said Wilson is either in Sonasto or Butte county. Efforts to locate him in Alameda failed.

"MATE COWARD, SHIP ROTTEN."

Investigation of Wreck of Steamer Argo Promises Several Marine Sensations.

[BY DIRECT WIRE TO THE TIMES.]

PORTLAND (Or.) Dec. 1.—[Exclusive Dispatch.] J. A. Johnson, mate of the steamer Argo when she was wrecked at the entrance to Tillamook Bay last Friday, will be placed under fire before the United States inspectors tomorrow, when an investigation of the wreck is to be held.

"Johnson failed me in the crisis," is the charge Capt. Snyder of the Argo has made. "He was of no use as an officer."

John Woldhouse, who took Johnson's place for a time, has laid the charge of cowardice against the mate.

"Johnson was clearly rattled," he declares, "and while we are trying to raise a sail with which to navigate the disabled Argo, he disappeared. He was found later in the forecastle."

The charge that the Argo was rotten and fell to pieces when she struck and that her machinery was in bad condition, also will be probed thoroughly.

SLOPE BRIEFS.

Lumber Rates Are Advanced.

PORTLAND (Or.) Dec. 1.—Beginning today, the rate for the transportation of lumber from Portland to San Pedro and other Southern California points will be advanced from $4.50 to $4.75 per 1000 feet. The existing rate of $4 a thousand to San Francisco will continue in force. The charter rates for Coast lumber carriers have advanced frequently during the last few months.

Big Loss of Hay and Grain.

TACOMA (Wash.) Dec. 1.—The hay and grain warehouse of John R. Stevens & Co. was burned today. The loss was $100,000 partially insured. A large amount of hay was in the building, ready for shipment on government contracts, on a steamer due tomorrow.

"A New Judaism" are the titles of articles which will appear in The Times Magazine the coming Sunday

WASHINGTON.

ARMY NOW TO BE REFORMED.

Secretary of War Urges Many Military Changes.

Wants Troops Near Cities, Not in Remote Forts.

Favors Weekly Riding or Walking Tests.

[ASSOCIATED PRESS NIGHT REPORT.]

WASHINGTON (D. C. Dec. 1.—Many changes in the military establishment are suggested today by Secretary of War Dickinson in his annual report. He recommends:

A change in the Roosevelt physical tests, so as to require of officers, in addition to the annual, a weekly riding or walking test.

The division of the United States into Territorial and tactical districts so the organized militia of the States may be conveniently combined with the regular army stationed therein, into permanent brigades, divisions and corps for instruction and tactical organization.

The location of troops in or near the principal cities, instead of distributing them at remote forts; to meet the requirements of economy, possibility of rapid movement and the training of the militia.

More officers for the army and promotion on the merit system.

Liberal appropriations for the completion of fortifications projects of the Philippines, Honolulu and Pearl Harbor.

Encouragement of rifle practice among citizens and school boys.

The establishment of a national park at Niagara Falls, to preserve its scenic features.

The Secretary made public his estimates to Congress for the coming fiscal year, amounting to $95,325,390, or $6,000,000 less than appropriated for the present fiscal year.

During the fiscal year three 8-inch and twenty-eight rapid-fire guns were added to the sea coast defenses of the United States. It is also declared that the coast defenses in the country's insular possessions are in a forward state of construction. Special mention is made of the increasing efficiency in marksmanship shown by the men who serve the guns in the sea coast batteries and also in the field artillery of the army. Praise also is given the men of the regular army for excellent records made with small arms.

Among a great number of other matters touched upon in the report, Secretary Dickinson speaks briefly but approvingly of the aeroplane and dirigible ballon as engines of war. He adds, however, that because of the necessity for retrenchment he will submit no plea to Congress this year for an appropriation to admit of the purchase of a proper aeronautical equipment of the army. He adds, however, that "the fact must be recognized that all first-class powers except the United States are providing themselves systematically with aerial fleets. Germany and France being notably in the lead."

MILLIONS FROM COMPANIES.

Excise Tax on Corporations Will Boost Internal Revenue Collections for 1910 by $25,000,000.

[ASSOCIATED PRESS DAY REPORT.]

WASHINGTON, Dec. 1.—It is estimated that there will have been collected from the special corporation excise tax by July 1, 1910, $15,000,000, and that an additional $10,000,000, collectable for the calendar year from January 1, 1909, to December 31, 1909, will be collected subsequently to July 1, 1910, making the estimate for the total amount of the collection for the fiscal year 1910, $25,000,000.

In this way, Commissioner of Internal Revenue Cabell in his annual report, made public today, discusses the corporation tax law.

The internal revenue receipts for the fiscal year were $246,212,719, a decrease of $5,4[illegible]30 from last year, but the receipts for the first three months of the current year, $65,176,628, increased $2,665,657 over the same period a year ago.

"It is estimated," says the commissioner, "that receipts from corporations in 1910 will amount to $15,000,000 and from all other sources to $255,000,000, making a total of $268,000,000. It also is estimated that the receipts from incorporations in 1911 will amount to $25,000,000, and from all other sources to $285,000,000, making a total of $280,000,000. During the last year there was collected on distilled spirits $128,315,151; on fermented liquors, $56,303,467, and on tobacco, $51,867,178.

Beer production has decreased and tobacco and snuff manufacture has increased. There were 139,891,631 gallons of distilled spirits produced during the year, 6,000,000 more than the previous year. The total estimated expense of the service for the fiscal year ending 1911, is $5,303,640, including $100,000 for the collection of the corporation tax.

MEDICOS PROMOTED.

CHANGES IN MEDICAL CORPS.

[ASSOCIATED PRESS NIGHT REPORT.]

WASHINGTON, Dec. 1.—A number of changes in the assignment of officers in the medical corps, as a result of the retirement of Chief Medical Officer Byrne, of the Department of the East, was announced today at the War Department. Col. John Van R. Hoffs succeeds Col. Byrne; Col. Hoffs will be succeeded by Col. Louis Maus of the Department of the Dakotas; Col. Maus by Lieut.-Col. Henry I. Raymond of Fort Sam Houston; Col. Raymond by Maj. Allen M. Smith of the Presidio, California, and Maj. Smith by Maj. Philip G. Wales of Fort Apache, Ariz.

"GAG" ORDER ISSUED.

TO STOP BUREAU LEAKS.

[ASSOCIATED PRESS DAY REPORT.]

WASHINGTON, Dec. 1.—A "gag" order affecting the furnishing of information to any committee of the House or Senate, or to any member of Congress, unless authorized by the head of the department concerned, has been promulgated by the President. The order is directed to bureau or division chiefs, and officers of the army, navy and marine corps stationed in Washington. In explanation it was stated the order had for its object the centralization of authority.

SHAKE-UP CONTINUES.

MORE CUSTOMS' HEADS FALL.

[ASSOCIATED PRESS NIGHT REPORT.]

WASHINGTON, Dec. 1.—Another shake-up in the New York customhouse was announced at the Treasury Department today. Inspector Timothy D. Lane has been suspended on charges and the department has approved the discharge of ten assistant weighers. John G. Shand has been appointed assistant superintendent of sugar samplers. Several other changes in the customs service outside of New York also were announced.

UP AND DOWN THE VALLEY.

PITH OF THE NEWS FROM OUT THE MIDDLE WEST.

[BY DIRECT WIRE TO THE TIMES.]

DOWIE'S LIBRARY SOLD.

[ASSOCIATED PRESS NIGHT REPORT.]

CHICAGO, Dec. 1.—The library of John Alexander Dowie, who founded the Christian Catholic Church, today was ordered sold to a Chicago bookseller for $7000, by Judge Landis, in the Federal District Court. The library contains many valuable historical works.

ITO'S ASSASSIN IN CHICAGO?

[ASSOCIATED PRESS DAY REPORT.]

CHICAGO, Dec. 1.—Search for Koreans who may have been implicated in the murder of Prince Ito of Japan, at Harbin, Manchuria, last October, is being made in this city today. The police received information that wealthy and prominent Koreans, suspected of complicity in the murder, had fled hither. They are supposed to have been the originators of the plot against Prince Ito. Efforts were made to prevent publicity being given to the search for the Koreans here.

TO PASS ON WALSH CASE.

[ASSOCIATED PRESS DAY REPORT.]

CHICAGO, Dec. 1.—The United States Circuit Court of Appeals on Friday will pass upon John R. Walsh's petition for a rehearing. The petition was filed November 4 by Attorney John S. Miller, for the banker. District Attorney Edward W. Sims's application for increased bail for Walsh and Miller's motion for oral arguments on the rehearing petition also will be decided. Judges Grosscup, Seaman and Baker will preside when the decision is handed down. The case has been under advisement by the judges and yesterday they announced when a decision would be ready.

COOKED ALIVE IN BATH.

[ASSOCIATED PRESS DAY REPORT.]

BENTON HARBOR (Mich.) Dec. 1.—Literally cooked alive in a Turkish bath establishment at South Bend, Ind., Leslie Holcomb of this city is still living, but is in a precarious condition. Entering a bath in the Indiana city, Holcomb, it appears, was forgotten by the attendants and remained in the small steam-heated, box-like affair until he became unconscious. He did not regain consciousness for many hours after being taken out of his boiling prison. Holcomb was removed to a hospital.

GIVES LIFE FOR MANY.

[ASSOCIATED PRESS DAY REPORT.]

MEXICO (Mo.) Dec. 1.—To prevent a passenger train from being wrecked, Curtiss Gentry, a section hand, sacrificed his life yesterday. Gentry and several laborers were repairing the Wabash track near Thompson, when a passenger train approached. The day was foggy and the men did not see the train until it was near them. One rail of the track was raised with a jack under it. To leave the rail in that condition meant a wreck. To release the jack meant probable death to the workmen. All except Gentry ran. Gentry stayed and removed the jack. The engine struck and killed him just as he jerked the jack out of the way and the rail dropped into its normal position. Passengers made up a purse for Gentry's family.

LOOK PLEASANT, PLEASE.

APPENDICITIS NOW MERRY MALADY.

ROUMANIAN SURGEON ROBS OPERATING TABLE OF DREAD.

Prof. Jonnesco, at Behest of Rockefeller, to Give First American Demonstration of Anesthetic Treatment Without Loss of Consciousness or Feeling of Pain.

[BY DIRECT WIRE TO THE TIMES.]

NEW YORK, Dec. 1.—[Exclusive Dispatch.] At the Rockefeller Institute next Tuesday Prof. Thomas Jonnesco, the famous Roumanian surgeon, who allows his patients to chat merrily with him while he is operating on them, will give the first American demonstration of his anesthetic treatment, which permits of the most serious operation without the patient losing consciousness or suffering pain.

Prof. Jonnesco, who is dean of the University of Bucharest, when seen today, said that Dr. Coley of the Rockefeller Institute had called, on the order of John D. Rockefeller, and arranged for the demonstration.

He said:

"I will face a number of serious and delicate operations, among them appendicitis, and other abdominal cases, and will endeavor to prove to the American surgeons that stovaine and strychnine, when injected into the spinal canal in proper proportions, causes a complete paralysis of the nerves of either the lower or upper sections of the body, as desired.

"Instead of the collapse which follows anesthesia by chloroform or ether, they will suffer no ill effects except those which result from the shock of operating."

Prof. Jonnesco will visit a number of western cities.

"I have arranged for a month's stay in America," he said, "and in the event I cannot make the cities I have planned to visit in that time, I shall stay two months. I want to visit my old friend, Dr. Wakefield, in San Francisco."

ESPEE REDUCES RATES.

TUCSON (Ariz.) Dec. 1.—Announcement was made today by the Southern Pacific of a general reduction in freight rates, affecting all Arizona points, commencing January 2. The new rates effect a reduction of 13 to 50 per cent. on all classes of freight. The territory benefited is from El Paso to Yuma, including branch lines. The basis adopted is the current class scale from Los Angeles eastward to Arizona main-line points, applied westward from Deming and El Paso to the main-line stations, with application of the same basis in the construction of class rates for equal mileage locally within Arizona and New Mexico. Current class rates from gateway points and eastern defined territory have been held as maxima. The rates were filed with the Arizona Railway Commission today.

Post Presents Early Urged.

WASHINGTON, Dec. 1.—It is being urged by the Postoffice Department, in an official circular, that people who contemplate the mailing of Christmas packages for delivery in rural communities, post them as early as possible, in order to avoid congestion and consequent delay. One delivery made on all rural routes on Christmas.

Carlisle's Property Attached.

WASHINGTON, Dec. 1.—Property here owned by John G. Carlisle, former Secretary of the Treasury, was attached today to satisfy a claim of $2395 made against Mr. Carlisle by a New York jewelry firm.

HUGE SUMS FOR VICE.

Anti-"White Slave" Lecturer Presents Some Startling Figures on Traffic in America.

[ASSOCIATED PRESS DAY REPORT.]

CHICAGO, Dec. 1.—"At $1800 a head, the average price of negro girls on the auction block fifty years ago, the 300,000 'white slaves' in the United States today represent an investment of $540,000,000. Each year 67,000 or $128,000,000 worth of these women are sacrificed in the highly-financed districts of vice throughout this country, and an equal number of recruits are procured each year to take the places of those who have worn themselves out in sin. Of this vast army of unfortunates, whose march from the home to the morgue or the insane asylum by the vice route has been shown by statistics to average but five miserable years, Chicago today contributes 37,000."

In these words Dr. Jean T. Zimmerman, president of the National White Cross League, in an address before the Woodlawn Woman's Club yesterday afternoon on the "Black Slavery of Our White Girls," strove to impress upon her audience the extent and horror of the traffic in women through-out the United States and Chicago's part therein.

The battleship Minnesota yesterday joined in Hampton Roads the battleships Missouri and Rhode Island and the dispatch boat Yankton, awaiting the arrival of other battleships from New York, Boston and Philadelphia, preparatory to their departure for winter maneuvers and drills in southern water.

WASHINGTON BRIEFS.

Advises Forts for Panama Canal.

WASHINGTON, Dec. 1.—Estimating the total cost of the Isthmian Canal, when finally opened for traffic, at $500,000,000, Representative Shirley of Kentucky, chairman of the Subcommittee on Fortifications of the House Committee on Appropriations, today declared his purpose of urging upon Congress the necessity for building fortifications on both ends of the waterway, while other work was progressing on the canal.

DEVOTES LIFE TO BROTHERS.

SISTER OF BIDWELL BROTHERS, FAMOUS FORGERS, DEAD.

Mrs. Harriet C. Mott Spent Big Fortune and Many Years in Vigorous Fight for Men Who Looted the Bank of England of $1,000,000—Died Penniless, But Free of All Debt.

[ASSOCIATED PRESS DAY REPORT.]

MUSKEGON (Mich.) Dec. 1.—A life of sisterly devotion that has few equals in history was brought to a close by the death yesterday, at the age of 78 years, of Mrs. Harriet C. Mott, sister of the notorious Bidwell brothers, who made themselves the most famous forgers of the nineteenth century by their $1,000,000 swindle of the Bank of England.

Mrs. Mott, who outlived her brothers, died practically penniless, although she once owned one of the finest farms in Muskegon county, and valuable property in New York State. All her property went toward promoting the cause of her brothers' freedom.

When Austin and George C. Bidwell committed their famous swindle in 1873, Mrs. Mott vigorously entered into the fight to win the liberty of her kin, and carried her cause into the White House and before the nobility of England.

She went everywhere raising funds, and made nine trips across the Atlantic. She refused to look upon her brothers as great criminals, and considered that their sentences to life imprisonment were miscarriages of justice.

When at length she triumphed and saw the last of the brothers, Austin Bidwell, leave Old Newgate in 1885, the devoted sister returned to Muskegon and set about raising money to pay off the debts of her campaign.

The brothers died in the West while on a lecturing tour, but she kept on. A book written by Austin Bidwell on his experience was her chief asset.

She boasted that she paid back every penny borrowed in her long fight.

CEASE CUTTING TIMBER.

Government Agents Inquire Into Sales of Valuable Wood Lands by Indian Irresponsibles.

[ASSOCIATED PRESS NIGHT REPORT.]

ST. PAUL (Minn.) Dec. 1.—Following a recent conference here between E. D. Linnen and Warren K. Moorehead, Indian agents, and representatives of certain lumber companies operating near the White Earth (Minn.) Indian reservation, announcement was made today that the timber companies have agreed to cease cutting timber where claims are disputed and to give bond for the full satisfaction of the allottees of timber in case illegal cutting has been done.

Certain full-blood Indians and minors, when in need of money, have been selling their valuable timber rights for almost nothing. About $5,000,000 is said to be involved.

Suits will be started by the government to determine whether the sales were by full-bloods and minors, wards of the government, or by mixed-bloods, who are authorized to handle their own affairs.

HETTY GREEN CUTS RATES.

NEW YORK, Dec. 1.—Mrs. Hetty Green has again become an interesting figure in Wall street. Within the last two days, she has been a large lender of money in the financial district, advancing funds for time loans at 4½ per cent. interest, a figure slightly below the current rate.

RECORD FOR EXCHANGE SEAT.

NEW YORK, Dec. 1.—A Stock Exchange seat was sold today for $90,000, establishing a new record price. Several years ago a seat sold for $95,000. Yesterday a seat was transferred at only $1000 below the record figure.

LOCAL TRAVELERS.

Los Angeles People Who Are Registered at Hotels in Other Cities.

On car lines transferring to all parts of city. Omnibus meets all trains and steamers. Elaborate booklet with splendid map of San Francisco free on request.

Hotel Stewart

The combined resources of all the banks of the United States reach a total of more than $21,000,000,000, or about one-fifth of the entire wealth of the country, according to special reports compiled for the use of the National Monetary Commission. These reports, comprising returns from 22,500 banks and trust companies, show that the actual cash held by these institutions amounts to about $1,500,000,000, while their bond holdings are more than $4,500,000,000.

STRENGTHENED.

ESTRADA GETS NEW SINEWS.

Cargo of Arms and Ammunition Lands.

Rebels Will Assume Aggressive at Once.

Said Zelaya May Resign Office to Minister Irias.

[ASSOCIATED PRESS NIGHT REPORT.]

BLUEFIELDS (Nicaragua) Dec. 1.—The Norwegian steamer Stavangeron has arrived here from New York with arms and ammunition for the insurgents. The latter have been handicapped to this time by a lack of ammunition, but are now well equipped.

Accordingly, it is announced at the insurgent camp, the plan of action will be changed. Gen. Estrada immediately will assume the aggressive.

The insurgents here claim to be confident of ultimate success. They state that recruits are arriving from many sources and the impression is general that the situation now existing will soon end despite President Zelaya's claims to the contrary.

It is reported the Nicaraguan President has fewer than 5000 troops at all points. Many prominent liberals who were fugitives from Managua are joining the forces of Gen. Chamorro.

Reinforcements have been sent to Gen. Matuty, who reported a decisive victory over the government troops near Rama on Monday. He announced the expected another engagement.

Matuty is a Peruvian and relieved Gen. Fornos Diaz at the head of an insurgent force. Diaz is incapicitated by illness.

ZELAYA READY TO QUIT.

[ASSOCIATED PRESS NIGHT REPORT.]

WASHINGTON, Dec. 1.—Dispatches continue to arrive at the State Department, indicating that Zelaya is contemplating retiring from the Presidency of Nicaragua. One of the latest ones stated Zelaya in all probability would turn over the Presidency to Irias, his Minister-General. Whether this is Zelaya's real intention or whether it is a ploy for time, is not known here.

ANCE REQUESTS DATA OF OUTRAGES.

[ASSOCIATED PRESS NIGHT REPORT.]

PARIS, Dec. 1.—The Foreign Office cabled today to the French consuls in Nicaragua instructing them to furnish information regarding the published reports that citizens of France had been ill-treated in Nicaragua.

There are consular agents of France stationed at Grenada and Leon, Nicaragua, and it is probably these whom the French government has addressed. France has no regular consuls in Nicaragua. A recent dispatch from San Jose, Costa Rica, said that an official complaint had been lodged with the French Consul-General there by Bruno Montel, a Frenchman, who said he was attacked and brutally beaten by troopers who represented themselves to be members of the Nicaraguan army.

France has one minister to Central America. He is Jacques de Cozotto, who is located at Guatemala. The consular agents in Nicaragua are A. Chevret, at Grenada, and Levy Fernd, at Leon.

ATEMALAN OFFICER APPROVES KNOX'S ACT.

[BY DIRECT WIRE TO THE TIMES.]

WASHINGTON, Dec. 1.—[Exclusive Dispatch.] Central American sentiment, outside of the beneficiaries of Zelayan policy in Nicaragua, is in the insurrectionists in the present Central American crisis.

According to Señor Sanchez, treasurer of the republic of Guatemala, it is by the observation of the restrictions put upon Guatemala by the international treaty between the Central American nations that has kept Guatemala from taking a hand in the strife.

"Guatemala is separated from Nicaragua by Honduras and Salvador. It would have been different had we been contiguous to the Nicaraguans. Such a neighbor as Zelaya would never have been allowed to exist if Guatemala had been near enough to get at him," says Señor Sanchez believes the steps taken by the United States are fully justified.

TING MARINES AND ARMS READY.

[ASSOCIATED PRESS NIGHT REPORT.]

PHILADELPHIA, Dec. 1.—Detachments of marines, aggregating 400 men from the Brooklyn, Washington and Annapolis, arrived at the Philadelphia navy yard today to augment the complement of 400 from the local station already were prepared to form the auxiliary cruiser Prairie. Her three-inch field pieces, 800,000 rounds of ammunition, tents to accommodate 700 men and fifty camp followers were added to the cargo of the vessel today.

It has been a revival of the rumor that the real destination of the Prairie is Nicaragua, despite the reiterated statement from Washington that she will go to Panama.

ARMS WERE SENT TO REBELS.

[ASSOCIATED PRESS NIGHT REPORT.]

NEW YORK, Dec. 1.—Nicaraguan sympathizers of New York, in sympathy with the insurgents, are celebrating the news from Bluefields that the fruit steamer Stavangeren has landed there her arms and ammunition for the forces operating against President Zelaya. The vessel was chartered on November 1 by a New York merchant for a month's trip to a West Coast port not named. When she left port on November 17, her cargo was listed as petroleum, watches, hay and lard.

Captain Nordbden of the Stavangeren has proceeded with due regard for the decorum of the high seas, instead of going direct to Bluefields, which would have been an offense against maritime laws, put into various ports, and then cleared for the port of the Nicaraguan Consulate. Nothing is known of the disposition of the cargo of the Stavan-

WAR CRISIS NEAR.

(Continued From First Page.)

States is convinced that the revolution represents the ideals and the will of a majority of the Nicaraguan people more faithfully than does the government of President Zelaya and that its possible control is well-nigh as extensive as that hitherto so sternly attempted by the government at Managua. There is now added the fact, as officially reported from more than one quarter, that there are already indications of a rising in the western provinces in favor of a Presidential candidate intimately associated with the old régime. In this it is easy to see new elements tending toward a condition of anarchy which leaves, at a given time, no responsible source to which the government of the United States could look for reparation for the killing of Messrs. Cannon and Groce, or indeed, for the protection which must be assured American citizens and American interests in Nicaragua.

"In these circumstanies the President no longer feels for the government of President Zelaya, that respect, that confidence which would make it appropriate hereafter to maintain with it regular diplomatic relations, implying the will and the ability to respect and assume what is due from one state to another.

"The government of Nicaragua which you have hitherto represented is hereby notified, as will be also the leaders of the revolution, that the government of the United States will hold strictly accountable for the protection of American life and property the factions de facto in control of the western portions of the republic of Nicaragua.

REPARATION QUESTION.

"As for the reparation found due, after careful consideration, for the killing of Messrs. Groce and Cannon, the government of the United States would be loath to impose upon the innocent people of Nicaragua a too heavy burden of expiating the acts of a régime forced upon them, or to exact from a succeeding government, if it have quite different policies, the imposition of such a burden. Into the question of ultimate reparation there must enter the question of the existence at Managua of a government capable of responding to demands. There must enter also the question whether it is possible to reach those actually responsible and those who perpetrated the tortures reported to have preceded the execution, if these be verified, and the question whether the government be entirely disassociated from the present intolerable questions, and worthy to be trusted, to make impossible a recurrence of such acts, in which the President, as a friend of your country, as he is also of the other republics of Central America, might be disposed to have indemnity confined to what was reasonably due the relatives of the deceased and punitive only so far as the punishment might fall where really due.

"In pursuance of this policy, the government of the United States will temporarily withhold its demand for reparation, in the meanwhile taking such steps as it deems wise and proper to protect American interests

HERE'S YOUR PASSPORT.

"To insure the future protection of legitimate American interests, in consideration of the interests of the majority of the Central American republics, and in the hope of making more effective the friendly offices exerted under the Washington conventions, the government of the United States reserves for further consideration at the proper time the question of stipulating also that the constitutional government of Nicaragua obligate itself by convention, for the benefit of all the governments concerned, as a guarantee for its future loyal support of the Washington conventions and their peaceful and progressive aims.

"From the foregoing it will be apparent to you that your office of chargé d'affaires is at an end. I have the honor to enclose your passport, for use in case you desire to leave this country. I would add at the same time that, although your diplomatic quality is terminated, I shall be happy to receive you, as I shall be happy to receive the representative of the revolution, each as the unofficial channel of communication between the government of the United States and the de-facto authorities to whom I look for the protection of American interests pending the establishment in Nicaragua of a government with which the United States can maintain diplomatic relations.

"Accept, sir, the renewed assurances of my high consideration.

[Signed] "P. C. KNOX.

"To Felipo Rodriguez, Esquire."

NEUTRALITY VIOLATION.

Just what Secretary Knox meant in his letter to Señor Rodriguez by the reference to the Washington agreement of two years ago, is disclosed by reference to that convention.

Through the efforts of Mr. Root, then Secretary of State, representatives of the Central American republics, then on the point of a general warfare, largely due, it was alleged, to the ambition of President Zelaya to become dictator of Central America, were brought to Washington and induced to enter into a compact to refrain from exploitation of the territories of one another and to observe rules of civilized intercourse. Especially they were pledged to submit to arbitration, instead of putting to the test of war, any differences that might arise among them. The integrity of Honduras was guaranteed.

Secretary Knox practically charges that all these stipulations have been violated by President Zelaya. He has dominated Honduras, whose President is declared to be only his mouthpiece, and Zelaya has not hesitated to violate the laws of neutrality by sending troops ... warrant or permission into Salvador and Costa Rica. There is no doubt that he would have done the same in the case of Guatemala had the revolution extended to the northern frontier of Nicaragua.

MORAL SUASION FAILS.

It is well understood, though never reduced to the form of a treaty that not only the United States, but Mexico, would undertake to see that the provisions of this treaty were effective, though purely moral suasion was supposed to be the main reliance to accomplish this.

This has utterly failed, after a trial of nearly two years. Reports to the Department of State from its diplomatic and consular agents have shown that in that period President Zelaya has been stirring up discontent in other Central American republics, giving substantial aid to would-be revolutionists and doing everything possible to bring about a state of affairs that would warrant him in invading territory of his neighbors. But internal conditions in Nicaragua revealed by these reports never have been made public because the moral turpitude involved is almost beyond belief.

While these reports are still withheld from publication officials of the Department of State have disclosed enough to show that a condition of absolute despotism has existed in Nicaragua with accompaniments such as rapine, murder, extortion and barbarous treatment of political prisoners, unknown since mediaeval times.

PROTESTS ARE VAIN.

As Secretary Knox said in his letter, other Central American republics have protested in vain against conditions in Nicaragua, but the State Department has felt loath to violate its old traditions of non-interference in the internal affairs of other nations and probably would have refrained even now had not Zelaya gone to the length of torturing and killing two Americans engaged in honorable warfare.

In answer to the department's demand for an explanation, Zelaya's agents simply stated that the executions were in accordance with the laws of Nicaragua, but the State Department finds that that law is Zelaya, and that the action was in violation of all rules of civilized warfare.

Realizing that there is no actual government in Nicaragua, the department necessarily arrived at the conclusion that Zelaya is only an international brigand and must be so treated. He must be held responsible for the killing of these two Americans as if he were a private individual, and it is probable that he will be captured in Nicaragua or reclaimed from any country to which he attempts to escape, if an extradition treaty can be invoked, and tried as a common malefactor.

DIAZ WAS MOVING FACTOR.

It is believed that President Diaz of Mexico was the deciding force in this matter, and that it was because of energetic declarations by him of the guilt of Zelaya and the necessity for intervention, received in Washington within the last twenty-four hours, that the State Department reached its decision.

In the ordinary course, this government would content itself with the payment of a heavy monetary indemnity to the families of the victims of Zelaya's edict. But as Secretary Knox clearly indicates in his letter, it is not the purpose of the American government thus to tax the great majority of the Nicaraguan people, who did not sympathize with Zelaya's action. The status may be summed up as follows:

Diplomatic relations between the United States and Nicaragua have been terminated. Dr. Hazera, Minister designate from Nicaragua, will not be received at the State Department. Señor Rodriguez, the chargé of the Nicaraguan legation, has been given his passports and so has no official standing here.

On the receipt of the letter of Mr. Knox through a State Department messenger, Señor Rodriguez notified his government by cable. He is awaiting a reply and will remain here a few days.

When seen tonight, Señor Rodrigues was excited, but his discussion of the situation was brief.

"We are stricken to the heart; we are paralyzed," was his expression.

There was, however, little evidence at the Nicaraguan legation of so profound a feeling. On the contrary, it was the scene of much gaiety.

NO ORDERS AT MARE ISLAND.

(ASSOCIATED PRESS NIGHT REPORT.)

VALLEJO (Cal.) Dec. 1.—No orders bearing on the Nicaraguan situation have been received at Mare Island navy yard, according to the officials in charge. The Navy Department has directed that work on the cruisers Cincinnati and Raleigh, which have been lying off Mare Island for more than two years, be rushed, but it is not believed that the cruisers are to be repaired because of the Nicaraguan difficulties. It is thought that they will be sent to the Asiatic squadron in the spring to relieve the Chattanooga and Cleveland, now under orders to proceed to this coast for overhauling.

ZELAYANS CLAIM BLOODY VICTORY.

(ASSOCIATED PRESS NIGHT REPORT.)

MANAGUA (Nicaragua) Dec. 1.—Although admitting many losses, the Nicaraguan government claims to have won a victory over the revolutionists at Zahino, near Rama, on Monday. The battle lasted several hours and many men on both sides were killed and wounded.

The report that President Zelaya has made overtures to the revolutionists respecting his retirement from the Presidency, it is announced, is false. Congress met today, but little business was transacted.

GUNBOAT GOES ASHORE; LITTLE HURT.

(ASSOCIATED PRESS NIGHT REPORT.)

ASTORIA (Or.) Dec. 1.—Private advices received here late today from South Bend, Wash., state that the United States gunboat Princeton, bound from the Bremerton navy yard to Nicaragua, lost her bearings off the entrance to Willapa harbor Monday and went on the Nortn Spit. The Princeton sent up signals of distress and the North Cove life saving crew went to her assistance and stood by her all Monday night. The tug Daring towed the Princeton off yesterday and brought her inside the harbor. The Princeton sustained only minor injuries and will be ready to continue on her way in a few days.

Nothing Heard of Lost Sailors.

WASHINGTON, Dec. 1.—Nothing was heard from the Marietta today in regard to the lost sailors in the whaleboat. Each hour that passes made it more certain in the minds of naval officers that the men never will return.

Zelaya Sends Personal Emissary.

WASHINGTON, Dec. 1.—In order to place before Secretary of State Knox the explanation of President Zelaya of Nicaragua, concerning the trial and execution of Cannon and Groce, the two Americans recently put to death in Nicaragua, Pedro Gonzales has arrived here as a privy emissary of Zelaya. He bears no official credentials, but will make an effort to arrange an interview with Secretary Knox.

FUND TO FIGHT TRUST.

Independent Telephone Interests Raise $100,000 to Oppose Bell Monopoly of Business.

(ASSOCIATED PRESS NIGHT REPORT.)

NEW YORK, Dec. 1.—Independent telephone interest have an available fund of $100,000 subscribed to do battle against the Bell telephone interests wherever the latter attempts to wipe out competition.

This was the gist of testimony by D. A. Wilson of New York, prominently identified with the independent interests, at the State investigation of telephone and telegraph companies today.

"The disposition on the part of the Bell company is to annihilate the independent companies all over the country," said Mr. Wilson. "The National Association of Independent Telephone Companies has created a fund of $100,000 to fight the Bell people wherever they try to wipe out competition. This was formed three months ago.

"The way the Bell company deteriorates the independent companies is to buy a company here and there, thus breaking up the chain. There are 2,000,000 telephones in New York, New Jersey and Connecticut that cannot enter New York City because there is no independent company here."

PIERCE PLEADS IMMUNITY.

AUSTIN (Tex.) Dec. 1.—When court opened today in the case of the State vs. Henry Clay Pierce, charged with false swearing, the defense filed a petition claiming immunity from trial because, upon numerous occasions, Mr. Pierce had been forced to testify in court in New York, Missouri and elsewhere, as to the dealings of his company, and that this testimony was now being offered in evidence against him.

GEN. BOOTH GOING BLIND.

LONDON, Dec. 1.—A cataract is rapidly forming on the remaining eye of Gen. Booth, head of the Salvation Army. An operation is inevitable. Meanwhile he is busy addressing meetings, controlling the army and dictating correspondence.

HEARST SUED FOR DEBT.

El Paso Theater Manager and Others Want Pay for Expenses Contracted for Publisher.

[BY DIRECT WIRE TO THE TIMES.]

EL PASO (Tex.) Dec. 1.—[Exclusive Dispatch.] To collect bills aggregating over $200, which were contracted in El Paso for William R. Hearst during his campaign for Thomas Hisgen for President in 1908, suit will be filed in New York soon with Frank Rich, manager of the El Paso Theater, and other El Pasoans as plaintiffs.

Rent on the theater where Hearst read the Standard Oil correspondence, it is alleged, is not paid. It is also set out in the petition that a bill of the Buie-Rood Printing Company for advertising matter, as well as the bill of the Pass City Band for music furnished, are among the unpaid bills. Papers have been forwarded to New York for filing the suit against Hearst.

STEAMER ASHORE.

NEW YORK, Dec. 1.—The steamer Neuces, of the Mallory line, is ashore off French Reef on the Florida coast. The Neuces has sent out a call for assistance, and the government tug Osceola has been sent to her aid. The sea is smooth and the steamer is not believed to be in imminent danger.

We Redeem Piano Credits

Having just made special arrangements with piano manufacturers to allow us several thousand dollars for advertising, we are now able to obtain from them the amount of your credit, even though it may be for as much as $100.00, and charge the same to their advertising department, which enables us to sell a piano at the same price if a credit is used as though we got all cash, or even if you prefer purchasing on small monthly payments.

Our prices are considered to be lower than those of any other piano establishment on the Coast, considering the high quality of pianos, and just at this time we have a special sale of Exposition prize-winning models of the old time-honored makes. Reduced $125, $150, $175 and even $250 from the regular list prices. Used pianos $150 to $475.

If you are the holder of a piano credit of any kind, no matter by whom issued, bring it to our store at once, and see how much more it will enable you to buy here than elsewhere.

Call or write, Piano Department.

Broadway Department Store

Broadway Cor. 4th. Los Angeles. Arthur Letts

Second Day for

Fine Tailored Suits at $24.50 and $39.50

If you have attended every sale of high-class tailored suits this season we believe you will be surprised at the values possible for us to offer in this sale at $24.50 and $39.50. The garments carry with them the air of an exclusive New York manufacturer. Even if you don't need a new suit, see these if you want to know what are being worn now in the East. Two prices include as follows:

Suits at $24.50

These are made of rich broadcloths, cheviots, serges, rough and wide wale materials, the quality of which are seldom seen in suits at $24.50. Come, look at their marked prices if you want to fully realize the importance of this sale.

Suits at $39.50

Whether trimmed with new garnitures or in attractive braided effects, the styles at this price are the very newest and most popular. Made of fine French broadcloth or imported rough material, in black or the new shades. Unparalleled in value at $39.50.

All-Wool Sweater $1.95

Such a price is typical of Broadway value-giving. Made of all-wool yarn in white, gray and cardinal. Single or double breasted, $1.95.

Changeable Taffeta Waist **$5**

These are waists of extraordinary beauty, with their rich, luminous taffeta in changeable and two-tone color effects. Fronts trimmed with accordion pleated ruffle; self collars and cuffs. Also clever models of plain taffeta and messaline. Priced at $5.00.

Novelty Cloth Skirts **$5**

These novelty fabrics include Scotch plaid cheviots, English worsteds, striped woolens and a few handsome broadcloths; plenty of blacks among the most wanted shades. Regular prices range from $6.95 to $15.00. Choice Thursday $5. Second Floor.

The Book Dep't Broadens in a Night

All Ready Now For Great Activity

"My gracious, what have you done to the book department? I bought thread and notions here yesterday and today this entire space is occupied with books." That's a remark the first customer made who came to the book counter after the change had been enacted. Two complete aisles, 2 and 3, from the main cross aisle to the rear of the store, now given over to the sale of Holiday books. You'll wonder where they all came from. Books for boys and girls, special gift books, all the late copyrights at $1.18. The new rebound copyrights at 50c, books in sets, religious books and special books of various descriptions. Hundreds and hundreds of them—yes, even thousands. It's going to be Los Angeles' most popular Holiday book store. Low prices play an all-important part.

Gift Calendars In Aisle 3

It's almost like trying to describe the pictures of an art gallery in Paris as to attempt a description of calendars we are showing for Christmas. Water colors, pastels, pen and ink sketches, and all sorts of art work that go to make this showing unsurpassed. Prices start at 5c and extend on up to $2. Aisle 3.

New Copyrighted Fiction Just Published ... **$1.18**

Isn't that better than paying $1.50, or $1.35? We have the newest books as soon as they are issued by the publishing houses. Some of the new titles include:

"The Foreigner," by Ralph Connor.
"When a Man Marries," by Mary Roberts Reinhart.
"The Pool of Flame," by Louis Joseph Vance.
"The Silver Horde," by Rex Beach.
"The White Prophet," by Hall Caine.
"Margarita's Soul."
"Martin Eden," by Jack London.
"Truxton King," by George H. Mocutcheon.

Latest Popular Fiction at **50c**

Some of the recent big hits at $1.18 have just been published in this 50c edition:

"The Shuttle."
"The Circular Staircase."
"Arizona Nights."
"Six Cylinder Courtship;" this is boxed ready for Christmas gifts.
"The Little Shepherd of the Hills."
"Rebecca of Sunnybrook Farm."
"The Doctor."
"Lavender and Old Lace."
And numerous others.

M'CAREY CHARGES COMBINE AGAINST LOS ANGELES BID.

San Francisco Interests in Cahoots to Take the Big Fight North With Tex Rickard as the Dark Horse Willing to Take the Battle Most Anywhere If He Is Successful Bidder.

[ASSOCIATED PRESS NIGHT REPORT.]

NEW YORK, Dec. 1.—Bids for the big fight include:

Thomas J. McCarey, Los Angeles—All the fight receipts and fifty per cent. of the pictures; or $110,000 and 50 per cent. of the pictures.

James W. Coffroth and John J. Gleason, San Francisco—$125,000 for all privileges, or $75,000 and two-thirds of the picture receipts.

Eddie Graney, San Francisco—Eighty per cent. of gross receipts, with guarantee of $75,000 and sole ownership of pictures; or 80 per cent. of the gross with $70,000 guarantee, and $20,000 for one-third pictures; or 90 per cent. of the gross with no guarantee.

Tex Rickard of Ely, Nev.—$101,000 and two-thirds of the picture receipts.

Hugh McIntosh, Australia—$37,500 to $50,000 to each fighter, according to where they desired the fight to be held.

McCarey said before the bids were opened:

"The cards have been stacked against my Los Angeles club. But if the highest and best bid that has no private strings attached to it is to be accepted, Los Angeles will get the fight."

After the bids were opened he said:

"I have bid the most money, a guarantee of $110,000 and 50 per cent. of the picture proceeds. If they turn that down, it shows that somebody is getting more than appears on the bids submitted."

NEW YORK, Dec. 1.—[Exclusive Dispatch.] It was practically decided this evening at a conference following the opening of bids for the Jeffries-Johnson fight that the combination of Tex Rickard and J. J. Gleason of $101,000 cash and two-thirds of the picture privileges would be accepted.

Rickard and Gleason want to hold the fight either at Ely, Nev., or San Francisco, on July 4.

Their bid is considered by many to be the best of the five offered as the moving picture privileges are estimated to be worth at least $50,000, which would make the sum offered for the ring contest $151,000.

A virtual acceptance of the joint bid of the two promoters was reached some time after the bids had been opened, but it was not definitely announced and will not be until tomorrow.

Bids were opened this evening at Naedil's Hotel, Hoboken, five aspirants for the privilege of holding the world's championship battle submitting propositions.

Bids ranged from 7500 pounds sterling offered by Hugh McIntosh, the Australian promoter, who stipulated that he was to retain all the picture privileges for himself, up to the $125,000 guaranteed purse offered by J. W. Coffroth and Jack Gleason to hold the contest at Colma, Cal., they likewise to retain the picture privileges.

From each of the five bidders came propositions ranging between these two extremes. Some offered guarantees, others a percentage of the gross receipts, and all had different stipulations about the picture privileges which are estimated as being extremely valuable.

Tom McCarey of Los Angeles offered $110,000 cash and 50 per cent. of the moving picture receipts. None of the offers were rejected or accepted. The decision as to who will be awarded the plum will be made tomorrow after the bids have been given closer consideration.

JEFFRIES ABSENT.

Jeffries was not at the meeting. He was represented by Sam Berger, his manager. Jack Johnson was on the scene, in person, attended by his manager, George Little. Robert R. Murphy, preliminary stakeholder, opened the bids.

Nearly a thousand of the best-known sports and theatrical men and scores of promoters were present.

Had the meeting been held at Meyers Hotel, as originally planned, there would not have been room for a quarter of those who desired to see the bids opened, and made the journey to Hoboken for that purpose after Gov. Hughes had prohibited the affair being held in New York.

Several of the bidders sought for information on the picture privileges as soon as the gathering was ready for business. Johnson spoke up briskly and declared that the revenue from the moving pictures must go to the fighters.

"It's the only fair way and it was so understood from the beginning," he declared.

"Coffroth is not here. We've only got the little fellows on hand to bid," then declared Berger.

"Coffroth and I are bidding together," said Jack Gleason, which settled Berger's objections.

Murphy was then made recipient of five bulky envelopes, after which he declared the bidding closed and proceeded to open the propositions. The bid of Eddie Graney was first to be opened.

"It all sounds big to me, gentlemen, but I am going to have something to say in making up my own mind and I ain't got the education to figure out what they mean in a minute," declared Jack Johnson after the bids had been opened.

"There ain't any great need of hurry and we better let this all go over until tomorrow so we can think about it. I won't sign today and that's all about it."

His attitude was duplicated by Sam Berger, representing Jeffries. Both men wanted time to consider, and, although every effort was made to have them reconsider and accept definitely this afternoon, they refused. It was finally decided to postpone acceptance or an offer until tomorrow afternoon at 1 o'clock at the same place.

DETAILED ACCOUNT.

SPORTS SORE AT POLICE.

[ASSOCIATED PRESS NIGHT REPORT.]

NEW YORK, Dec. 1.—Sporting men gathered here were keenly disappointed in what many considered a puritanical interposition of the anti-prize-fight laws in this State, but Police Commissioner Baker had served notice that no such announcement could be made in New York with propriety. Accordingly it was decided to press the New Jersey city across the Hudson, where the bids were opened today, into service again tomorrow for the final award.

Gossip in sporting circles tonight picked as the winner, James Coffroth of the Colma Athletic Club, San Francisco; Jack Gleason, the California baseball magnate, and Tex Rickard, the Nevada boomer, who apparently have formed a triple alliance to get the fight. Coffroth is commonly credited with a close alliance with the persons controlling the two basic patents of the moving-picture machine.

Gleason is known as a close personal friend of Sam Berger, manager for Jeffries. Thus, the talk among sporting men is that Gleason and Coffroth looked their interests, but that at the latest minute Rickard, who pulled off the Gans-Nelson fight, came in with a threat to bid such an enormous sum that it would not be denied.

The result was, according to general belief, that Gleason, already united with Coffroth in one bid for "Colma, Ocean View or San Francisco," also united with Rickard in the offer for "Utah, Nevada or California."

Tom McCarey and Eddie Graney, both big bidders, seemed to realize that they were not to be considered seriously.

REVEALS COMBINATION.

The opening of the bids today, besides revealing the apparent Coffroth-Gleason-Rickard combination, yielded another surprise, the fact that a promotor could offer and back it with cash, a purse of $110,000 to be divided as the contestants saw fit.

While the sporting public had commonly agreed that this is to be the greatest fight in the history of the prize ring, it was not believed that a promotor would bid more than $80,000 and would then claim one-third of the moving-picture revenue. Incidentally, it is conservatively estimated that, if the fight runs twenty or twenty-five rounds on a clear day, the moving pictures, if displayed throughout the world, will be worth at least $500,000. Both Jeffries and Johnson appeared in a ring at the Madison Square Garden tonight, in what probably will be their last similar display before the public prior to the fight. But, contrary to expectations, the garden was not well filled.

Johnson came on first and sparred with a white opponent in a mild manner. Jeffries came on an hour and a half later and went five snappy rounds with Sam Berger, the fastest work he has done in public since he started training for the fight. The crowd sised Jeffries up as being in good condition and showing good form, but his old nose trouble bothered him considerably.

BIDS OFFERED.

Th bids were: Graney, representing the Tuxedo Athletic Club of San Francisco, made a bid involving three different propositions. In his first proposition, Graney offered $0 per cent. of the gross receipts, with a guarantee of $75,000, the management to have sole ownership of the picture privileges; the second was 80 per cent. of the gross receipts, with a $70,000 guarantee, and an offer of $20,000 for one-third of the picture proceeds, and the third proposition was 90 per cent. of the gross receipts with no guarantee.

Graney agreed, if the offer was accepted, to build a pavilion seating 25,000 persons in or within five miles of San Francisco.

John J. Gleason of San Francisco in combination with James W. Coffroth, submitted a bid of $125,000 for a fight on July 4, at either the Colma Athletic Club, or Ocean View, or San Francisco, reserving full rights to the pictures. Gleason agreed if the bid was accepted, immediately to deposit a check for $30,000. Gleason made a second proposition offering a purse of $75,000 and 66 2-3 per cent. of the picture receipts. A third proposition by Gleason provided an offer of 80 per cent. of the gross receipts and 66 2-3 per cent. of the picture receipts. Coffroth agreed to deposit $10,000 if the offer was accepted.

A cablegram was received from Hugh McIntosh, of Australia, offering $37,500 to each of the fighters for a contest in this country; $40,000 to each fighter for a contest in either England or France, and $50,000 to each fighter for a contest in Australia. No check accompanied the offer, and McIntosh's bid was not considered.

E. M. (Tex.) Rickard, of Ely, Nev., submitted a bid in which he offered $15,000 in cash and a check for $5000 for a fight on July 4 in either Utah or California, and a cash purse of $101,000 and 66 2-3 per cent. of the receipts of the moving pictures. If the bid was accepted, Rickard agreed to deposit within sixty days, $30,000 and the remaining $50,000 forty-eight hours before the fight.

Thomas J. McCarey of the Pacific Athletic Club of Los Angeles, offered the receipts of the entire house and 50 per cent. of the moving picture receipts, or a purse of $110,000 in cash, and 50 per cent. of the moving pictures. If his offer was accepted McCarey wanted the new articles signed within twenty-four hours.

NORTHERN ATTITUDE.

FORGETTING LOS ANGELES.

[BY DIRECT WIRE TO THE TIMES.]

SAN FRANCISCO, Dec. 1.—[Exclusive Dispatch.] Eddie Graney tonight sent from New York the following wire to the sporting editor of the Chronicle:

"Rickard or I will get the fight."

The Graney offer, in fact, is the second best bid. Rickard has offered $101,000 and two-thirds of the moving pictures, and Graney's offer, stripped of technicalities, is $90,000 and two-thirds of the pictures.

"Rickard will get the fight, but I am not disappointed," was the gist of a telegram received tonight by Gregory Mitchell from James W. Coffroth in New York.

Coffroth doesn't explain at length what he means, but it is surmised the Colma match-maker thinks the promoters are going beyond safe water when they offer so large a cash guarantee and the lion's share of the moving pictures. Figured in dollars and cents, and assuming that the moving pictures will net at least $50,000, the Rickard offer is the best on the boards. As a flat offer the Coffroth-Gleason proposition of $125,000 involved a lot of coin, and Coffroth is probably thinking of that when he says he is not disappointed.

It is hard to see how Rickard can break even. If he stages the fight in Nevada he cannot expect to draw anywhere near the fact of the purse offer, and his one-third interests in the fight pictures would hardly make up the deficit. He might, however, secure subscriptions in Nevada, counting the match as an advertising scheme. If the match should be held in San Francisco or in this vicinity he would have to depend upon legitimate gate receipts, and $100,000 is a world of money to draw with any kind of an attraction.

Although the story of the opening of the bids states that Gleason has entered into a combination with Rickard, it gives no details. It may be Rickard has entered into an agreement with the idea of securing an arena in which to hold the match providing the subscriptions for a Nevada fight are not sufficiently attractive.

WEBSTER-ATTELL GO.

BOYS MAY SIGN TODAY.

[BY DIRECT WIRE TO THE TIMES.]

SAN FRANCISCO, Dec. 1.—[Exclusive Dispatch.] Unless some unforeseen hitch occurs, Monte Attell and Danny Webster of Los Angeles will sign articles tomorrow for a twenty-round fight to take place at Dreamland Rink, Friday night, December 17. Ed Nolan, who is arranging the benefit for Johnny Murphy, has secured the consent of Eddie Webster, foster brother and manager of the fighter, and does not anticipate any trouble in the final matching of the two men.

Trouble at first arose over the weight problem, but Webster today agreed to 116 pounds at 3 o'clock in the afternoon. He wanted Jack Welsh as referee and this was satisfactory to both Nolan and "Harry" Foley, representing Attell. Nolan will give the men 50 per cent. of the receipts, to be divided 60 per cent. to the winner and 40 to the loser. John T. Clark has been selected as the stakeholder and will hold the forfeits, which are to be posted immediately after the men have signed.

The match looks to be a strong card and ought to help make December a better pugilistic month than was expected. It will be the third fight between the pair. Twice Monte Attell has fought ten rounds with Webster in Los Angeles, and on each occasion Webster has had better than an even break from the newspaper men of Los Angeles who give the decisions.

The first fight they were all agreed that Webster was entitled to the decision, and the second time there was some difference of opinion. Attell claimed that he was entitled to the decision, and a twenty-round fight ought to settle it once for all.

BACKED BY ESPEE.

SAYS JOE WOODMAN.

[BY DIRECT WIRE TO THE TIMES.]

BOSTON, Dec. 1.—[Exclusive Dispatch.] Joe Woodman, who is manager for Sam Langford, asserted here this afternoon that T. J. McCarey of Los Angeles is backed in his big bid for the Jeffries-Johnson fight by the Southern Pacific Railroad, and that McCarey has had for some days a private understanding with Johnson that he will urge an acceptance of the McCarey bid.

Woodman also declares that John Brink, Frank Morley and Henry Berry of Los Angeles have been concerned with McCarey in the alleged deal to secure the battle. He says that it is the plan to have the fight take place at the Arcadia race track, on the "Lucky" Baldwin ranch, about twenty miles from Los Angeles.

Woodman is so certain he is right and that his information is from the "inside" that he offered to bet any reasonable amount the match would be given to McCarey.

Langford's manager claims that both McCarey and Johnson are desirous of having the fight conducted under London prize-ring rules, like the Sullivan-Mitchell fight at Chantilly.

SALT LAKE'S CHANCE.

OFFICIALS ARE AGIN IT.

[ASSOCIATED PRESS NIGHT REPORT.]

SALT LAKE CITY, Dec. 1.—The following telegram was received from Tex Rickard in New York:

"Salt Lake has offered the largest purse for the fight, and claims to have cinched the contest. Decision delayed twenty-four hours."

Job P. Lyon, the County Attorney of Salt Lake county, when shown the message from Rickard, said:

"My attitude toward the Jeffries-Johnson fight is no different from my attitude toward any other prize fight. Prize-fighting is clearly against the law in Utah, and I shall do all in my power to prevent the fight, or to punish offenders."

The county authorities have prevented prize-fighting in this county for three years.

Gov. Spry said tonight:

"This matter comes unexpectedly to me, and I cannot make a statement of my attitude until I read up and find what is the law. I will give you a statement tomorrow.

MONEY FOR WEBSTER.

VERY EASY PICKING.

The proposition for Monte Attell and Danny Webster to fight in San Francisco cuts out all possible talk of a meeting here between Conley and Webster, as many of the local fight bugs had hoped for and the chances are that Webster will meet Attell, for it is understood that Danny is to get $2000 for his end, win, lose or draw.

The local boy has already made more than $2000 from his two fights with Attell this summer, and $2000 more would add a lot to his bank roll. It is not likely he will get as square a deal in San Francisco as Attell got here.

BAR RECKLESS CHAUFFEURS.

New License Law Adopted in New York Aims to Do Away With Incompetents.

[ASSOCIATED PRESS NIGHT REPORT.]

NEW YORK, Dec. 1.—The weeding out of reckless and incompetent chauffeurs through a new license law is advocated by Samuel I. Koenig, Secretary of State of New York, in a statement given to the public today.

"There should be rigid examination and supervision of all applicants for chauffeurs' licenses," said Mr. Koenig. "I suggest the creation of a State commission with branches in cities throughout the State which will examine all would-be chauffeurs as to their fitness. Under the present law any man who signs the application and pays the fee is granted a license. This must be changed and a new law passed which will safeguard the public."

The pleasant purgative effect experienced by all who use Chamberlain's Stomach and Liver Tablets and the healthy condition of the body and mind which they create, makes one feel joyful.—Adv.

LONG GRIND.

TWELVE MOTORS MAY LINE UP STARTER IN SIX-HOUR RACE.

TWELVE cars only can start in the six-hour race a week from Sunday. The Apperson "Jackrabbit," the Pullman, and the Cadillac are already entered. Harris Hanshue is to drive the "Jack," George Kussman the Pullman, and Walter McKeague the Cadillac. Other possible starters are the Sunset, with Larry McLarty; the Stearns, Charles Soules; the Corbin, with Al Livingston; Palmer-Singer, Frank Siefert; the Maxwell, with Clarence Smith; Dorris, the Pennsylvania, the Alco and possibly the Thomas and the Buick.

The second turn is to be repaired at once, according to Walter Hempel. Oil-sand and gravel is to be used liberally to fill the holes and ruts. Then the entire curve for 100 yards is to be tamped and made safer. This is to be done before the morning of the six-hour race day. This turn is faster than the first curve near the grand stand. As a result cars go into it at terrific speed and chop the surface to ribbons. Before the race automobiles are to be sent around the turn to test the new surfacing.

J. S. Conwell, local Maxwell representative, who is to enter the car which made a sensation at Redlands Thanksgiving Day, raises an important point. One of the A.A.A. racing rules now in force requires that a driver and mechanic on a racing car must make all repairs during the race. Conwell has written the Los Angeles Motor Racing Association suggesting an amendment or at least a change in this rule for the long race.

The Contest Board is to be asked to allow two assistants for each car crew in the race. The pace is to be terrific. It is to be a test of nerve and skill and after a driver sits at a wheel for two, three or four hours, he will be ready to drop from his seat. If he can have assistance when tires are changed he has a chance to rest.

With ten or twelve cars in the long race places at the repair pits may be at a premium toward the end of the contest. There is room for twelve cars on the boards. It will behoove the driver of a car needing repairs to drive carefully toward the pits when completing his mile as it is almost certain that others will be at work changing tires or pouring oil or gasoline.

This race should be one of the most spectacular ever held on Ascot. There will be all the pyrotechnics ever witnessed at a motor car race. Action should come every minute of the long grind. The race is to be started at 10 o'clock in the morning, in time to finish early in the afternoon.

ANOTHER INVASION.

Picked Teams of National League Ball Players Intend to Start Today on Cuban Trip.

[ASSOCIATED PRESS NIGHT REPORT.]

CHICAGO, Dec. 1.—Chicago will be invaded tomorrow by a small army of major league ball players, who will gather here before starting on the trip to Cuba. Those expected to report are Addie Joss, of the Cleveland Americans; Simon, Miller, and Hiat of Pittsburgh; Merkle, of New York; McMillen, of Brooklyn; Archer, of Chicago; Meyer, of Philadelphia, and Thomas, of Boston. Rucker and Howard Camnitz probably will be picked up on the way south. Mordecai Brown and Herman Schaefer, who also may be taken, are here.

Atie Hoffman yesterday signed up with the expedition and will join the squad in Cuba. Hank O'Day will be taken along to umpire all the games. The team is due to leave here tomorrow night or Friday morning.

SUNDAY BASEBALL.

OCCIDENTALS AND ALL-STARS.

The colored Occidentals and the All-Stars are to play another game at the Chutes grounds next Sunday afternoon and both teams are to be strengthened. Jesse Stovall, Roy Brashear and Eli Cates are to be with the Stars Sunday, the line-up to be about as follows:

All-Stars.		Occidentals.
Jesse Stovall	left field	Meddelton
Truck Egan	second base	Robinson
R. Brashear	shortstop	Lane
Firman	catcher	Langley
		Pettus
G. Stovall	first base	Pettus
Devereaux	third base	Hawkins
Tonneson	center field	Langford
Cates		Hicks
Haley	right field	Black
Tonneson	pitcher	Smith
Cates		Harrison

Umpire—Bull Perrine of the American League.

DENVER CLUB SOLD.

M'GILL ASSUMES OPTION.

[ASSOCIATED PRESS NIGHT REPORT.]

DENVER, Dec. 1.—James W. McGill yesterday paid the balance of the purchase price of $10,000 for a half interest in the Denver Western League Baseball Club, thereby closing the twenty-day option for former President R. R. Bucke's interest in the franchise. McGill was elected president of the club.

Jack Hendricks, for the last five years manager of Central League teams, is expected here this morning to open negotiations looking to his management of the team.

McGill is well known as a former racing man. He is a nephew of "Pittsburgh Phil" Smith, the famous plunger.

WHITTIER BEATS L. A.

Quaker High School Basketball Team Too Much for City Boys on the Court.

[BY DIRECT WIRE TO THE TIMES.]

WHITTIER, Dec. 1.—[Exclusive Dispatch.] In a hard-fought basketball contest Whittier High School defeated Los Angeles High yesterday afternoon on the local court by the score of 29 to 8. The city quintette played classy ball, but they were bothered by the new court and baskets. Their guards played a strong game and Capt. Spencer connected with the basket for three goals.

McCaslin played a great game for the Quaker lads, saving many points from his opponents by his brilliant playing. The local lads excelled in team work and basket throwing when closely guarded. Whittier is to play Pasadena next Saturday at the Crown City and a hard game is expected. The line-up was as follows:

Whittier.		Los Angeles.
French (c.)	forward	Spencer (c.)
Louden		Magors
Oliver	center	Clark
		Bryant
Mann	guard	Lee
McCaslin		Brigham

Referee, Feeler; Umpire, Chapman.

"Ah, That Delicious Flavor"

That's what the critical smoker says as he lights his first Optimo.

The rich, aromatic leaf—bought by experts in the famous Vuelta Abajo—gives it a supremely delightful fragrance, a rich, nutty flavor that no other cigar can have.

A delicious, free-burning cigar—far and away the most delicious you ever tasted. Smoke one today and see.

LATHAM SETS NEW RECORD.

[ASSOCIATED PRESS NIGHT REPORT.]

MOURMELON (France) Dec. 1.—Battling against a wind of nearly forty miles an hour, Hubert Latham, the French aviator, attained a height today of between 450 and 500 meters (about 1600 feet,) beating the world's official record.

had another good day today. The feature of the afternoon was the exciting finish in the third, when Bronte beat Miss Palladini by an eyebrow. Results:

Six furlongs: Flashing won, Icarian second, Capt. Glore third; time 1:20.

Seven furlongs, selling: Oserine won, Hans second, Otillo third; time 1:31 3-5.

Five furlongs: Bronte won, Miss Palladini second, Zeola third; time 1:06 4-5.

Five furlongs, selling: Warden won, Autumn Girl second, Judge Dundon third; time 1:06.

Six furlongs: Grenada won, Escutcheon second, Admonitor third; time 1:19.

Mile and an eighth: Oroonooka won, Vanon second, Waterlake third; time 2:03 1-5.

JACKSONVILLE EVENTS.

HONORS FOR ROSTRUM.

[ASSOCIATED PRESS NIGHT REPORT.]

JACKSONVILLE (Fla.) Dec. 1.—A large gathering witnessed brilliant racing at Moncrief Park today. Rostrum won the Pablo Beach selling stakes, the feature of the afternoon programme, beating Sir Cleges in a supreme stretch battle. Oberon offered the surprise of the day by winning the closing event from County Clerk.

Speculation at Moncrief is increasing daily. Twenty layers were forced to work at top speed to take care of the bettors. Results:

Six furlongs: Firm won, Square Deal second, Blue Point third; time 1:17 1-5.

Five furlongs, selling: Gerando won, Phoronia second, Lorimer third; time 1:03 1-5.

Seven furlongs, selling: Cowen won, Robin Grey second; Endymion third; time 1:29.

Pablo Beach Stakes, selling, mile and an eighth: Rostrum won, Sir Cleges second, The Minks third; time 1:55 1-5.

Six furlongs: Seymour Butler won, Roseboro second, Grande Dame third; time 1:15 2-5.

Mile and a sixteenth, selling: Oberon won, County Clerk second, Agreement third; time 1:49.

DRIVING CLUB MATINEE.

GOOD CARD FOR SATURDAY.

The Los Angeles Driving Club speed committee received the entries for the Dan Patch and Minor Heir matinée to be given Saturday afternoon at Agricultural park, and judging from the list there should be some interesting sport, if bad weather does not again interfere. Dan Patch and Minor Heir will attempt some speedy miles in what may be Patch's last public appearance, and the programme as outlined should be sufficiently interesting to please any lover of harness horse racing.

There will be the usual pacing and trotting events, and also a six-furlong dash for running horses. The officials selected are as follows:

T. H. Smith, C. A. Canfield and Wm. Garland, judges; Dr. Ralph Hagan, Frank Williams and R. A. Smith, timers; E. J. Delorey, starter; A. I. Stewart, announcer.

The entries received last night are: Black Beauty, Kentucky, Liberty Song, Mazeppa, Jay Direct, Pedro, Lonora M., Drummer Boy, Major Gifford, Diabieta, Dottie Dimple, Red McK., Rancho del Paso, Artesia, Steve Bailey, Walter Barker, Romeo, Zombretta, Goldenut, Daisy K. W. L., Black Filly.

The entries for the running race are: Cowboy, Golden Ledge, Flora Maxine.

NAGS SELL WELL.

BRADLEY BUYS ONE.

[ASSOCIATED PRESS NIGHT REPORT.]

LEXINGTON (Ky.) Dec. 1.—Spirited bidding and higher prices than were paid yesterday were features of the second day of the annual fall sale of horses. The 155 horses sold brought an average of almost $268 a head, an aggregate of $41,510.

The highest price was for a chestnut colt by Conrard-Eonice, which went to E. R. Bradley of Lexington for $5100.

J. L. McGinnis of New York paid $1600 for a chestnut colt by Conrard-Bonihle, and E. R. Bradley paid $1100 for a chestnut filly by Conrard-Bertha.

A Mexican chestnut gelding, 6 years old, consigned by W. R. Adams, went to Milton Young of Lexington for $2500.

DEMAREST BEATS CLINE.

Philadelphian Eliminated in World's Championship Billiard Match.

[ASSOCIATED PRESS NIGHT REPORT.]

NEW YORK, Dec. 1.—The first game of the triple tie between Demarest, Cline and Sutton in the international professional 18.2 balk line billiard championship, was won tonight, at Madison Square Garden, by Calvin Demarest of Chicago from Harry P. Cline of Philadelphia by a score of 500 to 388. The winner's highest run was 108, while Cline reached 102.

Score:

Demarest—500; average, 25; high runs, 108, 82, 75.

Cline—388; average, 20 8-19; high runs, 102, 76, 44.

Billings Race-Track.

MEMPHIS (Tenn.) Dec. 1.—Efforts were renewed yesterday by G. C. Bennett, the local turf man, to secure a lease on Billings Park, a track heretofore used exclusively for harness races, for a proposed spring meet to follow the Florida running races. The oral betting system is believed to be possible under the Tennessee law barring bookmaking.

Joe Gleason Is Dead.

NEW YORK, Dec. 1.—Joseph J. Gleason, for many years one of the best known bookmakers on the big tracks, and the inventor of "one-two-three" system of betting, is dead at his home in New Rochelle, N. Y. Following the adoption of anti-race track gambling laws in several States, he retired from the turf and engaged in the real estate business.

Hoarseness in a child subject to croup is a sure indication of the approach of the disease. If Chamberlain's Cough Remedy is given at once or even after the croupy cough has appeared, it will prevent the attack. Contains no poison.—[Adv.

Profit in "Times" Liners.

A splendid opportunity is offered real estate dealers and owners in the classified department of the forthcoming Midwinter Number of The Times, to be issued January 1. This special edition, with a guaranteed circulation of 125,000 copies, will be an especially desirable medium through which to exploit attractive offers for the sale of agricultural properties as well as city homes. Copy will be accepted until December 28. Rate, 2 cents per word.

DR. ERNEST CRUTCHER, offices 410 Exchange Bldg., corner Third and Hill sts.

Dan O'Leary,
who is the rival of Edward P. Weston in long distance walking.

REAL HIKER.

FAMOUS WALKER CLIMBS LOWE.

DAN O'LEARY WOULD CONTEST WITH ED WESTON.

Says He Has Beaten Aged Pedestrian Three Times and Can Do It Again—In Los Angeles to Stimulate Local Meets and to Secure Entries for Eastern Event.

Dan O'Leary of Chicago, the veteran 66-year pedestrian, who claims the long-distance walking championship of the world, alleging to have defeated Edward Payson Weston on three different occasions, is making a four weeks' visit in Los Angeles, with the aim of arousing interest in a great athletic carnival to be held in Lowell, Mass., next Fourth of July.

Humphrey O'Sullivan, the millionaire enthusiast who financed the Lowell five-day automobile meet held in Lowell last August, is backing the proposed athletic meet, and has already offered $25,000 as prize money for the various events. It is planned to have both professional and amateur events on the big programme.

In order to stimulate interest in walking and running contests, O'Leary plans to arrange several local meets, in which some of the local athletes can try out. O'Leary himself is willing to enter go-as-you-please contests of several miles, offering to walk against runners for the distance.

One practive walk was taken yesterday with a party of young Englishmen and Scotchmen whom O'Leary met on the train, the tramp being to Mt. Lowe and back. Tomorrow the same party plans to take a day's outing, walking to one of the beaches and back. As O'Leary puts it, the party is to "just take a little, easy, practice walk, twenty-five or thirty miles."

Like Weston, O'Leary was famous as a long-distance pedestrian a quarter of a century ago, when he defeated all comers in England in the first of the "go-as-you-please" races. In the 144 hours of the race O'Leary covered 520¾ miles, winning by twenty miles "in a walk." He won Sir John Astley's gold championship belt and about $20,000 in cash.

But O'Leary claims that he is no runner.

"I'm just a walker. Straight heel and toe for mine. These go-as-you-please races were brought in to beat me, and they can do it. That is, for 500 miles. I'd go against any man in the world for 1000 miles, go any way you like. I'll put up $5000 on that. But at 500 the runners could beat me. I'll walk any man in the wrold 500 miles at any time."

Three times O'Leary met Weston in walking exhibition, on Chicago, in 1875; London, 1877, and San Francisco, 1880, winning each of the 500-mile contests by good margins. Now that Weston has gained his latest laurels by the across-the-continent tramps, O'Leary wants to meet him again.

"I've got one more good race left in me," he says, "and I'd like to go against Weston once more. I've done him every time, and I can beat him again. Why, there's $100,000 in Chicago that could be picked up in a 500-mile race. But I'll take him on walking—not go-as-you-please."

TWO-YEAR-CONTRACT.

Pennsylvania and Michigan to Play at Least Two More Games on the Gridiron.

[ASSOCIATED PRESS NIGHT REPORT.]

PHILADELPHIA, Dec. 1.—Philadelphia football enthusiasts who admire the Michigan warriors may have at least two more opportunities to lay their bets for or against the chances with Pennsylvania.

Announcement was made that Pennsylvania would offer Michigan a two-year contract and that it would be gladly accepted is the belief here. The red and blue eleven has met Michigan four times and once was beaten by the Michigan team. Yost, who will coach the westerners next year, was anxious for at least two more games against Pennsylvania and he will be glad, it is thought, to hear the action of the University Football Committee.

DROP FOOTBALL.

REQUIRE BIG CHANGES.

[ASSOCIATED PRESS NIGHT REPORT.]

WALLA WALLA (Wash.) Dec. 1.—Following the serious injuries to five players in the Thanksgiving Day football game here between Whitman College and Washington State College, the faculty of Whitman College announced today that the game would be abolished at this institution next year unless mass plays were eliminated from the game by the Committee on Rules.

Whitman College is the first institution in the Pacific Northwest to take action towards forcing reform in football rules.

Daly Chosen Captain.

NEW HAVEN (Ct.) Dec. 1.—By a unanimous vote of the members of the Yale football eleven, Frederick J. Daly of Cambridge tonight was elected captain for 1910. Daly is a member of the class of 1911 and has played half-back for two years.

Jim Hart Ill.

CHICAGO, Dec. 1.—James A. Hart, former president of the Chicago National League Baseball Club, will be operated on for appendicitis tomorrow morning at the German Hospital of Chicago. Hart's condition is not serious, as he was at his office yesterday. The operation will necessitate the abandonment of his annual trip abroad.

Game Called Off.

SACRAMENTO, Dec. 1.—The All Nationals and Athletics abandoned the ball game scheduled in this city today, on account of rain.

PROSPERITY WEEK DISPLAY.

Matter Suggested at Meeting of Directors of Chamber of Commerce. Important Matters.

At the Chamber of Commerce directorate meeting yesterday the Exposition Committee reported in favor of the proposed convention of the Stationary Engineers in this city, the coming year. It was suggested the occasion be utilized for making a "Prosperity Week" display.

The question of making short loans on farms in the Imperial Valley was considered of such importance that the Committee on Mercantile Affairs recommended that a joint meeting of representatives of local banks and members of the committee be held to discuss methods of loaning money to settlers who have proper title to land.

It was suggested by the same committee that an effort be made to secure a drug-inspection laboratory for this city as provided under the pure food and drugs act. There are laboratories of this class in Seattle, Portland and San Francisco. It is probable that Senator Flint will be asked to use his influence with the Secretary of Agriculture.

JUDGMENT AFFIRMED.

The Supreme Court has affirmed judgment for the plaintiff in the case of R. B. Wardlow against Martha T. Middleton, J. W. Tucker and Carrie V. Tucker. It was an action to foreclose on a mortgage. The appeal was taken by the Tuckers, who claimed some interest in the property.

GRAND PRIZE RACE IS OFF.

[ASSOCIATED PRESS NIGHT REPORT.]

PARIS, Dec. 1.—Lists for the Grand Prix of the automobile club of France closed last night. Insufficient entries were received and this will mean abandonment of the race in 1910, unless some modification of the regulations can be arranged.

Constipation the Cause of Disease

Nature's Own Remedy.

Constipation is not only disagreeable, it is dangerous. If allowed to become chronic it will prove the forerunner of disease. Nature intended the bowels to move regularly once a day. The delicate stomach and bowels are the keystone of the physical organization, and should be kept in normal working order to preserve health. When the bowels become sluggish they require a natural and harmless laxative. Too often they are permanently damaged by powerful drugs taken to force action. In the famous Natural HUNYADI JANOS Water, Nature herself has provided her own harmless laxative, which can be relied on for quick and sure results. ½ a tumblerful on arising will, within an hour, move the bowels gently and copiously. A bottle costs but a trifle and contains many doses.

Look out for unscrupulous druggists, who will substitute unless you ask for Hunyadi JANOS.

Strength for Weak Men

To You! New Vigor!

Do you want to feel as vigorous as you were before you wasted your strength? To enjoy life again? To get up in the morning refreshed by sleep, and not more tired than when you went to bed? To have no weakness in the back, or "comes and go" pains? No indigestion or constipation? To know that your strength is not slipping away? To once more have bright eyes, healthy color in your cheeks, and be confident that what others can do is not impossible to you? In short, do you want to be what nature intended you to be? Then use Dr. McLaughlin's Electric Belt—the modern and natural vitality renewer.

It makes people strong. It causes the nerves to tingle with the joyful exhileration of youth; it fills the heart with a feeling of gladness, makes everything look bright, and makes the nerves like bars of steel.

It is the modern cure, the grandest remedy of the age. Worn while you sleep; it fills the body with electrical currents, which give strength to every organ; makes the blood circulate more rapidly; warms the stomach and liver; overcomes all pain and restores strength to every part. You can feel its soothing glow, but it never burns or blisters.

Orange Cove

Orange Land With Water Only $200 an Acre Up

$5 Per Acre Cash $5 Per Acre Monthly

Buy acreage close to the city, and it will make you rich. Buy close-in orange land, and it will pay you a handsome income as long as you want to work it. Then you can sell it as the city grows—sell it for building lots, as so many have done hereabouts. Orange Cove is close-in acreage—and orange land at that. It's only thirty-five minutes from Los Angeles, ten miles away. It's in a district where tremendous developments are now in progress—where values are already showing a marked increase. I offer you this property for only $200 an acre up, with water, on terms that make it an opportunity for everybody. Come in and get full information. Then see Orange Cove and you will realize this land will make money for you.

388,800 Gallons of Water for Every 5 Acres, Every 30 Days

Orange Cove soil is a true alluvial silt, washed down from the mountains through generations. It lies close to the foothills, at an elevation above the frosts. The water goes with the land—a share of water stock with every acre purchased—a water right of 30 inches (388,800 gallons) for every five acres for 24 hours every thirty days. The land slopes naturally for easy irrigation. As an orange proposition Orange Cove is perfect.

This land can raise other fruits than oranges—it's splendid for vegetables. The great Los Angeles markets close at hand, within easy driving distance, afford a ready market for all products of the soil. Develop it to oranges by all means if you can, as oranges grown in the vicinity of Orange Cove are perfect fruit. But buy here anyway. Work your land if you can—if impossible, then hold it as an investment. It will surely make you money. I know of no safer nor surer investment in and around Los Angeles today than Orange Cove.

CUT OUT THIS COUPON and mail if you cannot come in person.
Send me full information about ORANGE COVE.

About Oil Stocks

Good California oil stocks are in favor today with the shrewd investor who seeks the largest possible earning capacity compatible with safety of principal.

We make a specialty of the better class of listed, dividend-paying oil stocks, stocks that are listed on either the Los Angeles Exchange or the California Stock and Oil Exchange of San Francisco.

A few weeks ago we advised the purchase of ILLINOIS CRUDE when it was quoted around 25c per share. The stock has advanced within the past few weeks more than 100 per cent.

Two weeks ago we advised the purchase of S. W. & B., a Coalinga oil company listed on the California Stock and Oil Exchange. The stock was then quoted at 40c. It has since advanced to and sold at 75c per share.

For the past few days we have been advising the purchase of SECTION SIX. A great many of our clients secured this stock at the first price of 50c per share. It is now listed on the Los Angeles Exchange, and the last sales were made at 57½c. We believe that SECTION SIX will advance to $1.50 a share within the next few weeks. It will advance rapidly from this time on. Every day that you delay your order will mean that you must pay an additional price for the stock.

We have prepared an illustrated circular describing the holdings of the SECTION SIX OIL COMPANY, together with maps, special reports, pictures of the wells, etc. On your request we will send you full details of the organization of the SECTION SIX OIL COMPANY, its past and present development, production and future prospects.

If you care to consider an investment in a legitimate listed, dividend-paying oil stock, call, write or wire our nearest office today for full particulars.

Notice to Road Building Contractors.

PHOENIX, ARIZ., Nov. 17, 1909.

Sealed proposals will be received until 2 o'clock p. m., December 16, 1909, by the Board of Trustees of Special Road District Number One for the construction of six and five-eighth miles of Oil Macadamized Road.

The Board of Trustees will supply Steam Roller, Rock Crusher, Road Grader, Sprinkling Wagon and the Asphaltic Oil, while the Contractors will be required to furnish all other tools and machinery necessary for the satisfactory completion of the work. Contractors are also requested to submit bids on the basis of their supplying the Steam Road Roller, (Not less than ten tons) and Rock Crusher.

A deposit of $5.00 will be required for a set of specifications which may be obtained from Major Edwin M. Lamson, Clerk of the Board. This amount will be refunded to the bidder upon the satisfactory return of the specifications.

A certified check in the amount of Two Thousand ($2000.00) Dollars must accompany each bid.

The Board of Trustees hereby reserves the right to reject any or all bids.

(Signed)

LIFE'S SEAMY SIDE.

WOMAN SHOT, MAN IS SILENT.

Former's Wound Fatal; Latter Has Hole in Arm.

Refuses to Tell Even Wife Details of Tragedy.

Victim Has Record of Revolver Flourishing.

[BY DIRECT WIRE TO THE TIMES.]

HAVANA (Ill.) Dec. 1.—[Exclusive Dispatch.] No motive has been given by Thomas J. Royston for the wound in his right arm and the fatal shooting through the left breast of Mrs. William Ischmael, in his office at the Illinois Central Railway station, of which he is agent at Easton, Ill.

During the noon hour today, Royston rushed from his office down the street to a physician's office, handing his keys to a friend on the way and asking him to go to the station and lock it immediately. The friend found Mrs. Ischmael lying on the floor of Royston's station office, mortally wounded and unconscious. Physicians hurriedly summoned reported her beyond their aid.

Royston admitted a telegram which he had copied on a blank was one Mrs. Ischmael had desired to send to her parents, Rev. and Mrs. D. W. Cheek, Pleasant Hope, Mo., informing them that she would start home tomorrow.

Mrs. Ischmael's maiden name was Ruth Cheek, and she was a beautiful and popular society woman until a year ago, when she, at the point of her revolver, compelled a prominent business man of the community to leave town, promising under pain of death, never to return.

Her husband, William Ischmael, has since that incident been sent to the State Insane Asylum at Jacksonville.

It is thought she shot Royston and herself today. Even Royston's wife is said not to have learned from him the details of the tragedy.

OBJECTS TO "JOY RIDE."

Jealous Wife Points Her Protest With Bullets—Husband Probably Fatally Wounded.

[ASSOCIATED PRESS DAY REPORT.]

OKMULGEE (Okla.) Dec. 1.—When Mrs. B. Coleman, young and pretty, suspected her husband of infidelity yesterday, she hired a saddle horse, stuck a revolver in her belt, and started to look for him. She met him in Main street here "joy riding" with another woman.

When Coleman refused to get out of the automobile his wife opened fire, one bullet striking him in the spine. Another man and woman were in the machine, and these, reinforced by the police, returned Mrs. Coleman's fire. More than twenty shots were fired. In the excitement the chauffeur tried to escape in the automobile, but ran it upon the curb and it overturned.

In the meantime, Mrs. Coleman had dismounted, and when the machine overturned it struck her and broke two or her ribs. This enabled the police to capture her, and she is now in the jail hospital. Her husband is not expected to live.

FOUGHT FOR REVENGE.

THREE PROBABLY WILL DIE.

[ASSOCIATED PRESS DAY REPORT.]

KIEFER (Okla.) Dec. 1.—One man was killed and two probably fatally wounded in a street fight with revolvers here today. Melvin Ooley is dead, and the wounded are Deputy Marshal Gooch and Thomas Boxley, a carpenter. The shooting grew out of the killing, a month ago, of Homer Ooley, a gambler, by Marshal R. P. Highnote. When Melvin Ooley met Highnote and Deputy Gooch he took them to task for the death of his brother. The argument waxed warm, and finally Ooley drew a revolver and shot Gooch, inflicting a fatal wound. As Gooch dropped, Ooley struck him about the head with his rifle stock. Highnote, who had been taken by surprise, had by this time drawn his revolver and began firing. Ooley returned the fire, and in the exchange of shots Ooley was killed and Boxley, a bystander, was shot in the head and probably fatally wounded. For a time following the affray, a pitched battle between friends of Ooley and the authorities was threatened.

SARTIN COMMITS SUICIDE.

Hangs Himself in Sacramento Prison While Arkansas and Texas Officers Race for Him.

[ASSOCIATED PRESS NIGHT REPORT.]

SACRAMENTO, Dec. 1.—Gus Sartin, wanted in Arkansas for murder, and in Texas for robbery, committed suicide this morning in the City Prison by hanging.

Sartin came to Sacramento by way of Los Angeles several weeks ago, with Laura Denton, a young woman of Sherman, Tex. She is grief-stricken by his suicide. She was familiar with Sartin's troubles in Sherman where he conducted a "blind pig" and later stole $1000 worth of diamonds from his partner in the illicit liquor traffic. The woman denies knowledge of the murder in Fayetteville, Ark., where he is said to have killed aged Mrs. John Winkleman on August 26, last, getting away with $12,000 in bank notes.

Chief of Police Despain of Fayetteville, Ark., is coming here with requisition papers to get Sartin, while Sheriff Rich of Grayson county, Texas, in which Sherman is situated, will be here tomorrow with papers. It is stated the two officers are rivals for the $4400 reward offered for Sartin.

CLUB SNUBS STUBBS.

Exclusive Topeka Social Organization Refuses Its Hospitality to Governor of Kansas.

[ASSOCIATED PRESS NIGHT REPORT.]

TOPEKA (Kan.) Dec. 1.—The Topeka Club, Topeka's most exclusive organization, today by vote of the board of directors, refused to permit Gov. Stubbs to be entertained at the club. Gov. Stubbs was scheduled to speak at a banquet to Chief Justice Johnson, to be given tomorrow night by Del Valentine, clerk of the Supreme Court. Today Mr. Valentine was notified that the invitation to the Governor must be withdrawn.

Gov. Stubbs was formerly a member of the club, but withdrew because the club would not abolish the locker system for keeping liquor at the clubhouse.

Admiral Togo, chief of the general staff of the Japanese navy, retired yesterday from the naval command and became a member of the military council. He is succeeded by Vice-Admiral Sir Gero Ijuin.

A BAD BREATH BOON

Her cheeks were aglow like roses in bloom,
Her lips red as cherries thrice over;
Her teeth like the pearl;
Her hair tangled curl;
Her breath like sweet blowing clover.

So much for poetry. But STUART'S CHARCOAL LOZENGES ARE prose as well. They are practical and for every-day use, and they will make any one's breath just as sweet and wholesome as the girl's breath in the song.

And what is nicer than a sweet, clean breath and what more offensive than a bad, foul one? Every one tries to get rid of it themselves and tolerate it in their friends, but—it is awfully trying and puts friendship and sentiment to a severe test.

A bad breath is a sort of unspoken imputation on cleanliness; you can't get away from it and can't explain. You can take foolish little remedies to disguise it for an hour or so; but this is suggestive; your breath is unnatural and your friends wonder why.

Bad breath comes once in a while from decayed teeth, but there is a quick and effectual remedy for this—the dentist. It comes as a rule 99 times out of 100 from a bad stomach. Foods gone wrong; digestion impaired; assimilation imperfect; nutrition misdirected and a consequent misunderstanding all around.

And meanwhile a bad condition of things is inaugurated. There is flatulence, sour stomach, and with these two past masters of evil Pandora's box is opened and a tribe of troubles let loose, any one of which might appal.

With all manner of chemical changes taking place in the stomach by fermentation—which should not—is it any wonder that some startling and disagreeable results are evolved? Bad breath is conspicuous among them, because always in evidence. No use to doctor this or disguise it. It is an innocent sufferer.

GO STRAIGHT TO THE CAUSE—the STOMACH. Put that in order and the breath will take care of itself. Charcoal has been a remedy for disordered stomachs for centuries. It is one "cure" that is almost as "old as the hills."

Summing up, charcoal in its pulverized state is a stomach tonic and absorbent. Stuart's Lozenges supply a want; a remedy that is simple, handy and efficient. They embody a plain, practical proposition.

Stuart's Charcoal Lozenges are for sale everywhere, 25c a box, guaranteed to contain nothing but young willow wood charcoal and pure honey; sample sent free upon request. Address F. A. Stuart Co., 200 Stuart Bldg., Marshall, Mich.

HORRIBLE.

TUMBLES INTO HEATED KETTLE.

WORKMAN RECEIVES TERRIBLE BURNS, MAY DIE.

Falls Into Cauldron Used to Heat Asphalt—Fellow-Workers, at Great Risk, Tear Off His Burning Garments—Boy Risks His Life Trying to Save Cows.

SAN BERNARDINO, Dec. 1.—George Rosenbeck, 70 years old, escaped a horrible death in an immense caldron, at the E. R. Werdin plant this forenoon. The big kettle had been emptied of its contents, it being used for heating asphalt for road work, when Rosenbeck suddenly missed his footing and slipped into the kettle. The temperature registered 250 degrees. His screams attracted fellow-workmen, who quickly drew him out.

His clothing was aflame, and at great personal risk the workmen tore off the burning garments with their bare hands, and then turned a stream upon the man. He was hurried to the County Hospital, where it was found that he had sustained frightful burns all over the body. Owing to his advanced age his recovery is in doubt.

Rosenbeck is father of Miss Rosenbeck, a well-known business woman of this city.

Russell Tagg, son of a local dairyman, had a close call from death beneath the wheels of a passenger train this morning, while trying to save a drove of dairy animals, which had wandered on the track. He succeeded in getting all but three cows out of danger when the train whized by, and stumbled as he was leaping from the track or he would have been struck by the engine. Three cows were killed outright.

William Charles has commenced suit in the Superior Court for the annullment of his marriage to Estella C. Charles. The couple are well along in years. They were married in the East a year ago. Since then the wife communicated to her husband that she supposed she had received a decree of divorce from her first husband, but now discovers that the final decree has not been rendered. In order to remove all possible tangles over property rights should Charles die, it is proposed to annul the marriage, permit Mrs. Charles to obtain her final decree, and again venture on the matrimonial sea more securely tied.

How to Make Better Cough Syrup Than You Can Buy.

A full pint of cough syrup—enough to last a family a long time—can be made by the recipe given below in five minutes, for only 54 cents. Simple as it is there is nothing better at any price. It usually stops a deep-seated cough in twenty-four hours, and is a splendid household remedy for whooping cough, colds, hoarseness, bronchitis, etc.

Take a pint of granulated sugar, add ½ pint warm water and stir about two minutes. Put 2½ ozs. Pinex in a pint bottle and fill up with syrup. Take a teaspoonful every one, two or three hours. It keeps perfectly and the taste is pleasing.

The chemical elements of pine, which are very healing to membranes, are obtained in high proportion in Pinex, the most valuable concentrated compound of Norway White Pine Extract. None of the weaker pine preparations will work with this recipe. Your druggist has Pinex or can easily get it for you.

Strained honey can be used instead of the syrup, and makes a very fine honey and pine tar cough syrup.

Kranich & Bach *The Piano With the "Violyn" Plate*

To early educate the child so that it becomes familiar with the refinements of perfect tonal quality is the first element of musical culture. To accustom the delicate and maturing hand of a child to the great possibilities of a properly constructed piano action, not only facilitates correct technique but avoids the necessity of subsequently unlearning faults that retard correct advancement. KRANICH & BACH PIANOS possess structural features that place them in a class of their own in the small group of Strictly High-grade instruments, and it is extremely important to intending piano purchasers that these exclusive improvements be investigated. Come in and let us show you the "Isotonic" pedal used in Kranich & Bach Grands, and the "Violyn" plate used in the Upright and Player Pianos. Kranich & Bach Pianos $450 to $1000 on terms of $10 monthly. Players $950.

SWIFT WATER.

OWENS RIVER HERE IN THIRTY MONTHS.

Mulholland Promises that Wondrous Blessing, and its Achievement for Less Than the Money Provided. New Rush on Great Task.

OWENS RIVER water in Los Angeles May 1, 1912, a year ahead of schedule, and the aqueduct completed to the San Fernando reservoir, inside the $23,000,000 provided, are the promises made by William Mulholland, chief engineer, at a meeting of officials yesterday.

This means that Los Angeles is to prove that it has the capacity to push the work to success in defiance of predictions by some eminent engineers that it would not be done at all in the time specified originally—five years—or for many millions more than were estimated and provided by the people.

Mulholland said the aqueduct forces are now sure of what they can do, and that acceleration of speed in the construction work is the thing needed to advance the end one year. It will mean a municipal triumph and a performance that will not only bring renown to the city, but will reinforce her credit in the financial world.

The chief engineer's presentation resulted in the unanimous approval of the steps to hasten the work, and jubilation that the city is nearing a goal that seemed far off when the 'small army under Mulholland first attacked the rockbound fortresses of nature in the mountains of the Jawbone section.

It was at the beginning that an eminent engineer who is now head of the United States Reclamation Service declared that $50,000,000 and twice the years estimated would not bring the end sought.

But this did not deter the aqueduct officials. The little army was gradually augmented until it reached 3000, and now it is proposed to enlist at least 1000 men more, and renew the attacks with greater vigor.

The meeting was called by the Aqueduct Advisory Committee, which includes the members of the Board of Public Works, and those present were the Mayor, the President of the Council, the Council Finance Committee, the City Engineer, the aqueduct engineer, the acting City Attorney, and the aqueduct counsel.

It was called because a preliminary of the scheme is the provision by the Council for raising by additional taxation in 1911, $250,000 to pay interest that will accrue a year earlier because of advancing the programme one year. Assurance was given that this provision will be made.

Advancing the date of completion, of course, will bring the entire indebtedness to full issue in 1912 instead of 1913. This will also operate to bring the extinction of the debt one year earlier—that is, 1936, instead of 1937. That is the occasion for raising the extra amount for interest, but it is merely raising in 1912 what would have to be raised in 1937. It is almost as broad as it is long.

BENEFITS COME ALONG.

But advancement, Mulholland pointed out, also brings its equalizing benefits. The income from sales of water will be advanced a year and will probably offset the amount that must be raised for interest.

Another incidental necessity will be an increase in the daily consumption of cement. The work is now using 1000 barrels a day. At the high speed proposed it will require 1750 barrels. This will mean that the city must buy approximately 750 barrels a day, necessitating special arrangements with the cement factories. The municipal cement mill at Monolith may be depended on for from 1000 to 1100 barrels daily, and it is not deemed economy to increase its capacity.

The increase in the number of men will represent only the cost of men and materials, because the administration charges are now fixed. It will not increase the administration expense to largely increase the forces and work with greater rapidity, and the shortening of the time one year will practically cut off twelve months of the administration expense. It is estimated that this saving will almost equal the extra interest charge necessary.

Of the thirty-two miles of tunnel work over twenty-seven have been completed and the work will now be in the open where larger numbers may be used. The longest tunnel of the big ditch is well under way. It is the Elizabeth Lake bore, 26,000 feet in length, and it will be completed in sixteen months. It is the last hard job of the vast project.

MIGHTY ACCELERATION.

The request of Pasadena for water by purchase was something of a factor in bringing about the disclosure of the acceleration planned. If the water department is to answer Pasadena its answer must conform to a definite policy as to the distribution of surplus water. It would be useless to bring the water here without prearrangement for its disposal. For this reason the answer to Pasadena must be an answer to all prospective patrons of the Los Angeles system, and the time of delivery is one of the essential considerations. That is why Mulholland and the other officials want to put on a full head of steam and push the work to completion a year ahead of schedule.

During the past four months the giant strides in the work have shown the soundness of the judgment of the aqueduct officials and the possibilities of increased forces. It was known in July that the work was months in advance of its schedule, something almost unprecedented in municipal work and unheard of before in an enterprise of such magnitude. Not only this, but more work had been accomplished for less money than was deemed possible even by the most optimistic engineers.

The plan is to increase the forces in the spring and make a broader campaign against the obstructions of nature. Mulholland has planned the new campaign like a strategist, and now knows the inability of the rock-bound hill and desert plateaus to resist the numbers he will officer.

POWER PLANS GO ALONG.

The advance of plans will not affect the power proposition, as it will move along just as rapidly, providing the people vote the bonds at the election in February, as asked. As the power would not be available until the water is flowing, it will be advanced if anything almost in proportion to the other work. But this is a matter for consideration after the initia $3,500,000 has been provided for the power development.

To test the validity of the power-bond election, which is called for the same day as the harbor-bond election—February 16—the Council yesterday authorized the City Attorney to apply to the Supreme Court for a writ of mandate to compel the City Clerk to publish the ordinance calling the election. Clerk Lelande refused, asserting that it was illegal to hold a double election. The Council authorized $250 to pay attorney's fees for the Clerk in this suit. James G. Scarborough will represent Lelande and dispute the legality of the election. Similar litigation tested the validity of the aqueduct bonds before they were voted on in 1907.

The Council yesterday invested $50,000 of sinking fund money in aqueduct bonds maturing in 1911 to 1915. The purchase was made after investigation by the Finance Committee from N. W. Harris & Co., of Chicago and New York. In thus buying back its own bonds the city is lending strength to the financing of the aqueduct.

HATS AND MIND.

How Often Has a Woman Right to Change Either Is Tough Question for Justice.

How often may a woman legally change her mind?

Justice Stephens will have to answer this question, which would probably stagger the wise men of the East.

Yesterday John B. Pratt, appearing for his daughter, Jessie Pratt, filed suit in Stephens's court for $5, which he alleges was paid for a hat. Florence Jennings, a milliner, is the defendant in the action.

The complaint sets forth that Miss Pratt visited the millinery establishment and purchased a hat on condition that if her parents did not like it she could return it and get another. The parents did not like it and the girl got another one. The parents did not like that one and Miss Pratt went back to exchange it, but the milliner would not consider a second change. The suit followed.

GOO-GOOED.

REFORM BRAND FOR DOG MEN.

UNCLE ALECK ONCE MORE DOES SOME POLITICS.

Four Pound Inspectors "Fired" Because They Did Not Work for Churl and His Figurehead on Primary Day—City Auditor Holds Up Pay Roll for Investigation.

Acting upon information that the deputy inspectors of the Humane Animal Commission have been devoting more days to politics than to dog inspection, City Auditor Mushet has held up the November pay roll until he has time to investigate the charges.

If the Auditor verifies what has been told him, it will reveal just how Your Uncle Aleck, that good, old, disinterested perpetual office-holder, manages to do his politics through others while he is censuring everybody else for doing the same thing.

According to the best evidence, the Humane Animal Commission, which is composed theoretically of three members, but practically of one—Francis G. Haley—has been using its enormous force of deputies (there are only twenty) in doing politics for the recall administration.

And because four of them refused to do Uncle Aleck politics, they were dismissed from the service Tuesday. Two of those dismissed are E. A. Evans and R. A. Payton. Their story will be told the Auditor today, and several others later.

The Humane Animal Commission is an example of what happens when persons take office in a "crisis," as Uncle Aleck says he did. It was a "crisis" that tied up the funds due the Humane Animal League, an efficient organization, because some friends of the recall administration wanted to get control of the dog license fund, which usually contains a tidy $20,000 each year.

Upon a promise to appoint a commission that would keep the dog question free from strife and politics the

(Continued on Seventh Page.)

HIS WATERLOO.

BOLD BURGLAR HELD FOR COP.

Resident Manages Intruder and Wife Telephones.

Housebreaker Prevented from Using His Revolver.

Brags of Exploits; Stolen Articles Recovered.

Unarmed, and chased into a closet at the point of a burglar's pistol, Romeo E. Ellithorp, an electrician living at No. 814 East Adams street, clutched the intruder by the throat and held him until a policeman, for whom Mrs. Ellithorp telephoned, could arrive and take the prisoner in. At the Central Station, the man, who gave his name as Fred Murray, laughed at the officers who searched him and brazenly admitted that he had broken into the house and was robbing it when he was surprised and stopped by the proprietor.

"They got me in a house," airily replied Murray to the reporter who asked him where and why he had been arrested. "The people who live there weren't home when I got in, and they came back before I could get away."

"How did you get into the house?"

THE CAPTURE.

"I broke the glass on the back door and turned the key from the inside. When the people came back I tried to run out. I opened a door and rushed through. I thought it was a door leading to the outside, but it was only a closet, and they got me. I could have shot my way out, but I didn't care to do anything like that. There was a man and a woman, and all they had was an old umbrell."

The Ellithorp residence is a two-story house. When Mr. and Mrs. Ellithorpe, who had been out for the evening, returned home at about 7 o'clock, they started upstairs briskly. They had gone out for an automobile ride, but had left the automobile in the garage and walked home from there, which is presumed to have thrown the "lookout" off his guard, as he must have been expecting the Ellithorps to return home in a machine, and he failed to recognize them when they came on foot.

As Mr. and Mrs. Ellithorp reached the landing at the turn of the stairs they met Murray running from the front room on the upper floor, which he had been in the act of ransacking when the Ellithorps opened the street door.

ATTEMPTS TO SHOOT.

"As soon as he saw me," said Mr. Ellithorp last night, "the burglar

(Continued on Eleventh Page.)

Mr. and Mrs. Romeo E. Ellithorp,
who captured and overpowered an armed burglar last night and held him until the police arrived.

HERE HALF A CENTURY.

Death Comes to Pioneer Woman Within Sight of Spot Where She Arrived in Early Days.

Mrs. Maria A. Ballerino, a pioneer of Los Angeles, died yesterday morning at her home, No. 2440 West Pico street, within sight of the spot where, more than half a century ago, she had come with her husband to wrest fortune and happiness from the wilderness.

Mrs. Ballerino was 75 years old. She came from Mexico. For forty-two years she resided at the Ballerino ranch house, just opposite the present family home.

Shortly after her arrival in Los Angeles Mrs. Ballerino and her husband moved away out in the county. At that time it was considered foolish to take up land that far from civilization. They filed on 160 acres of public land at $1.25 an acre. That is now known as Westmoreland Place, with lots valued at $10,000 and up.

For many years the Ballerinos attended their vineyard and winery on the land. Eight years ago they sold most of it and moved from the ranch-house to a modern home.

Mrs. Ballerino leaves nine children. Her will provides for the distribution of extensive realty holdings among them.

Funeral services will be held tomorrow morning at the residence, and interment will be in Calvary Cemetery.

RATES DOUBLE UP.

End of Steamship War Next Monday When Price of Tickets Will Go Kiting.

Beginning next Monday the Pacific Coast Steamship Company will change the passenger rates from Redondo to San Francisco. The step marks the termination of the steamship-rate war and fulfills prophecies made at the time of the St. Croix disaster. First-class passage on the steamships Governor and President will now be $11.50, and second-class $8.25.

Passage on the steamers Santa Rosa and State of California will be, first class, $10.50; second class, $7.25.

The steamer City of Topeka will be replaced by the State of California, which will go into service from San Francisco next Friday.

DIRE THREAT IN LETTER.

Missive Received by Prosecuting Attorney May Be Turned Over to Federal Officials.

Chills of terror played up and down the spine of Guy Eddie, prosecuting attorney, yesterday morning, when he opened his mail.

From an innocent-appearing envelope he drew forth a sheet of paper which threatened him with dire things and called down a curse on him.

The prosecutor declares that the letter was sent him by some liquor dealer, who has been recently arrested and is in danger of losing his license. He expects to place the case in the hands of the Federal authorities.

The missive was written in capitals on a typewriter. It read as follows:

"Guy Eddie: Your are not a prosecuting attorney but a persecuting one. Should you succeed in persecuting a certain man you have practiced law for the last time. Shooting is too d—d good, but you will be crippled. May the curse of God rest upon your d—d soul."

WHAT NEXT?

ALEXANDER SLEUTH RIPS SMITH CARDS.

ONE of Uncle Aleck's special police sleuths is going about the city, tearing down and suppressing every possible bit of advertising matter posted by the Republican City Central Committee. This officer, in plain clothes and wearing the star of a sergeant of police, forced a Central-avenue barber to remove from the window of his shop a card bearing the pictures of George A. Smith and other Republican candidates. Almost at the same time, a number of Republican posters were removed from a billboard just across the street from the barber shop.

Joseph L. Deloe, whose shop is at No. 2505 Central avenue, is the barber who was forced by the Alexander officer to turn the faces of Smith and other candidates to the wall. The card had been placed inside the window of the tonsorial parlor, and it rested there for several days before it attracted the attention of Uncle Aleck's able minion.

Entering the shop, the sleuth, declaring he was an officer, and displaying a badge which Deloe recognized as that of a sergeant of police, ordered that the card be removed from the window, or, at least, that its face be turned to the wall.

Deloe, ignorant of the law, and fearing that he might be haled into court, promptly obeyed the order, and yesterday the Republican poster was found in his shop, carefully screened behind a rack of magazines, and with only its white back showing.

When told that he had a perfect right to display the card in the window of his shop, Deloe insisted that he would take no chances, and now there is one barber shop on Central avenue in which no Republican campaign poster may be seen.

At a meeting of a Republican club Tuesday evening at No. 1790 East Main street, a patrolman refused to permit a band to play in front of the building, declaring that it was tooting in violation of a city ordinance.

FOUGHT WHITE STATUE.

UNCLE ALECK'S GRUDGE.

The investigation of Uncle Aleck's record in connection with the county's purchase of voting machines while he was a member of the Board of Supervisors has brought to light once more the bitterness of his fight against the placing of the Stephen M. White memorial on the Courthouse grounds.

It is shown by the minutes of various meetings of the board during the time Alexander was a member that he constantly, regularly and strenuously opposed the plan to honor the memory of this eminent statesman, now dead and gone, by providing a place on county property for the magnificent statue which since has been erected.

Alexander's narrowness in connection with this project, and his A.P.A. sentiments, were at that period a subject of common comment, but he was unable to make any permanent headway against popular opinion, which provided a prominent place for the memorial to the man who, in his life, had done much for the good of all the people of the county.

REPUBLICAN MEETINGS.

FOUR OF THEM TONIGHT.

Four Republican meetings will be held in various parts of Los Angeles tonight, and at each of them most of the party candidates will appear, together with other prominent speakers.

The Railroad Men's Political Club, which has a membership of 1200, will meet at 8 o'clock at Hotel Nadeau, First and Spring streets. Chairman Eagan and others will speak.

H. Lee Clotworthy, former manager of the Mushet campaign, will be the principal speaker at a meeting at Old Masonic Hall, First and Chicago streets, and the programme also will include addresses by G. Ray Horton, John R. Layng and George A. Smith.

At Rhoades Hall, Fifty-fourth street and Moneta avenue, the speakers will be R. W. Richardson, J. J. Gosper, George A. Whiteleather and W. H. O'Connell.

A meeting at Central avenue and Adams street will be addressed by Gesner Williams, formerly of the Mushet forces; Grove L. Walter, who supported Parish at the primaries; Stanley B. Wilson, and George A. Smith.

AFTER LATEST IDEAS.

Architect of Alexandria Annex and Huge Office Blocks Off to Study Eastern Buildings.

John Parkinson, of the architectural firm of Parkinson & Bergstrom, left for San Francisco last night on the first leg of an extensive tour of the larger cities of the United States. He will devote the better part of a month to visiting and studying the best known hostelries in the country, with a view to getting valuable ideas for incorporation into the plans for the magnificent new Alexandria annex.

It is the intention of Mr. Parkinson also to devote time to the inspection of office buildings in Kansas City, Chicago, St. Louis, Buffalo, Philadelphia and New York. The ideas gleaned from these investigations he promises to use in the perfecting of the working plans for the ten-story structure for the Chester Building Company at the northeast corner of Fifth and Spring streets, and for the Los Angeles Savings and Trust building at the northwest corner of Sixth and Spring.

PETTY CARPING BY PETTY MEN.

THE attacks of the Silk Socks on the Republican candidate for Mayor, Mr. George A. Smith, are petty. Their frivolous accusation with regard to the buying of voting machines by the city and county—as to which there was a very general agreement, it being an experiment which the people wanted to try—rebounded on the Alexander people with a thud. The Silk Sock organs are forced to print the record showing that Supervisor Alexander made the original motion that resulted in the purchase of the machines.

And now the squirming Silk Socks seek to make capital against Smith out of the fact that The Times criticised methods in the auditing department when Smith was Chairman of the Finance Committee of the Council. The Times pointed out juggling with figures in that department, and its criticisms had the desired effect. It stays by all it said then. It subsequently criticised the school management for just such juggling. What has that to do with the good record of Mr. Smith? He stands on his own feet.

It has not yet been denied that he made an efficient and faithful Councilman. He does not advertise himself as a saint with a crown on, or as a Santa Claus producing all the prosperity in the country, as Uncle Aleck does; but he will make a good Mayor. When his would-be detractors dig up something to his discredit, it will be time enough to take their mud-slinging seriously. If they have any facts proving him an unfit man for Mayor, why don't they produce them?

PUBLIC SERVICE.---OFFICIAL DOINGS.

SUMMARY OF THE DAY.

Councilman Dromgold is to urge the use of voting machines at the next annexation election, and cites their economy.

An action brought in the Superior Court yesterday against Louis T. Stensgaard, alias Alton B. Hill, of Pomona, made the allegation that he changed his name for the purpose of escaping payment of a judgment for about $6000 secured by the St. Paul Title and Trust Company.

Twelve boys, ranging in age from 11 to 16 years, were before Judge Wilbur yesterday on the charge of stealing two gallons of ice cream from the girls of the Twentieth-street school, and they all admitted their guilt.

Another action was started yesterday in connection with the Ballerino case, to recover $25,000 from Maria Ampero Ballerino and the heirs of the late Bartolo Ballerino, for legal service in connection with the contest of his will.

Harry D. Browne told in Judge Willis's court how he happened to sell his father's horse and wagon and flee to San Francisco with a young woman who deserted him as soon as his money was gone.

Mrs. Lillian B. Peters, who uses several aliases, and is designated by the police as a musical impostor, was released on bail yesterday for appearance before Justice Williams Saturday.

Mrs. C. N. Cortwright, a prominent Southern woman, who has well-known relatives, yesterday won a temporary victory over her husband, whose arrest she caused on a charge of non-support.

AT THE CITY HALL.

LARGE ECONOMY IN MACHINES.

DROMGOLD URGES TRIAL AT ANNEXATION ELECTION.

Believes Voting Should Be Preceded by a Campaign of Education, and the Utility of Machines Thoroughly Demonstrated—Big Saving Figured If Now in Operation.

Councilman Dromgold thinks Uncle Aleck was right and that George A. Smith was right, too, in favoring the purchase of voting machines. So thoroughly does he believe it that he will urge the Council at its next session to end the proposed sale of the 158 machines that have never left their boxes and prepare to make use of them at the next annexation election.

Dromgold says their use then will familiarize the voters with them and establish them as indispensably in future elections as adding machines are to well-conducted offices.

"These machines," he says, "have been discredited from the start because of prejudice and erroneous ideas. They were a good investment for the public and I can show that if they had been used in the past year Los Angeles would have saved tens of thousands of dollars in election expense.

"In addition there would have been no delays about the results of elections. We would have known in two hours how everything went. The people would have voted with more personal satisfaction than ever before.

"But we have been neglectful, shamefully neglectful of our duty, and it is now time that we gave the machine method a fair trial."

In support of the assertions of Dromgold, Deputy City Clerk Wilde, who has handled election affairs for many years, yesterday made an estimate as to the saving that would be made in the election next Tuesday if machines were in use.

"With machines we would have not eight officers in each of the 200 precincts at $10 each a day, but we would have four at $5 a day. This makes a saving alone of $12,000. In addition I estimate we would save $800 on supplies, $1100 on ballots and $1200 on polling places." This makes a total of $14,700 in one election.

"Not only this, but it would be possible to have the returns from every precinct in the possession of the City Clerk by 8 o'clock in the evening and complete results an hour later."

Dromgold will urge that the Council "wake up" and bring an expert from the factory of the company which made the machines, and train a force of demonstrators. These men will exhibit the machines in many localities and explain their workings and the ease with which any kind of a vote may be cast. This will antedate the next annexation election, which is expected to be that providing for the absorption of Hollywood.

Practice at the election will be gained by the voters because the question will be simple. At the bond election following the simple question will give more practice and frequent demonstration will make the first general election voting in the fall easy.

The city purchased fifty-two machines and the county 102 in 1906 and they have never been out of the boxes. They cost $111,600 of the taxpayers' money and in addition several thousand dollars freight charges. They were never used. A recent bid for those owned by the county brought such a ridiculously low price that interest in the costly machine has been revived. Attempts to make recall politics out of the purchase failed because both Mayor Alexander, who was then a Supervisor, and George A. Smith, then in the Council, favored the purchase.

"They were both right," said Dromgold, "and a little test will show that the machines will please the people and be a great economy for the public treasury."

UNCLE ALECK STUNG.

IN COURT ELECTION DAY.

Unless Judge James relents or the District Attorney waives his presence, Your Uncle Aleck will sit all of election day in Department No. 1 of the Superior Court waiting to give his testimony in the suits of the Pasadena Gas Company and the Los Angeles Gas and Electric Company against the county, to overthrow tax assessments.

A subpoena was served on the Mayor yesterday demanding his presence in court. When he found that it deprived him of election day he smiled grimly, but declared he would obey the summons and "stick it out."

The Mayor was a Supervisor when the assessments of the corporations were made and he is summoned as a witness for the county.

CIVIL SERVICE MUSIC.

MAY HOLD UP PAY ROLL.

The Municipal Music Commission, which has a contract with Harley Hamilton for a municipal band, may be subject to investigation by the civil service commission, if it presents a pay roll to the City Auditor for payment this month.

The civil service will hold that the musicians are employes of the city and are included under the civil service laws and regulations. So far the music commission has not reported the list of musicians to the civil service office and until they are the approval of the pay roll will be withheld.

The music commission has a contract with Hamilton to furnish the band and it is likely the payment will be made in a lump sum to him and the jurisdiction of the civil service thus evaded.

THE REPUBLICAN TICKET.

FOR MAYOR	GEORGE A. SMITH
CITY CLERK	H. J. LELANDE
CITY ATTORNEY	L. R. HEWITT

HENRY H. LYON	SEVENTH WARD
BERNARD HEALY	EIGHTH WARD
R. E. WIRSCHING	NINTH WARD

Vote for Republican supremacy in nation, State and city!

Huntington Park Would Enter.

Huntington Park is making ready to knock at the door of Los Angeles, according to a committee of residents, headed by D. B. Lyons, which visited the Board of Public Works yesterday. The visit was made merely to make known the purpose and to let the board know that Owens River water will be wanted when the aqueduct is completed. Until then the Huntington Park delegation thought it had plenty of water for its needs.

No San Pedro Sewer.

San Pedro's hope for a storm sewer system in the business part of the harbor city was dashed to pieces yesterday when the City Engineer reported that the policy adopted by the Council prevented any action at this time. The Council refused to authorize the creation of storm sewer assessment districts declaring that the policy of paying for storm sewers out of bond funds or current revenues to be the only equitable method. As there are no bond funds and the city revenue is already depleted the Engineer could see no other course and the Board of Public Works approved his recommendation.

City Hall Brevities.

The City Engineer has asked the Board of Public Works to ask the City Attorney to bring suit against the Miller Box Company for $47.50 rent for a piece of land occupied by the company after it was deeded to the city by the Salt Lake Railroad for right of way for the new Buena Vista-street bridge. The box company paid the Salt Lake road for the land at the rate of $5 a month, but has, the engineer states, refused to pay the city.

Chainmen employed by Los Angeles receive $70 a month, which is more than any private corporation pays, the City Engineer reports. He says he can find no reason for recommending an increase as the chainmen have asked of the Council.

Sunset boulevard, east of Marion avenue, is to be paved with asphalt from Marion avenue to Hill street. East of Hill street to Main street the paving will be of vitrified brick. This recommendation of the City Engineer was approved by the Board of Public Works yesterday.

The improvement of South Park avenue, from Jefferson street to Slauson avenue, will be of asphalt and not asphalt concrete, according to the decision of the City Engineer, approved by the Board of Public Works yesterday. The property owners asked asphalt concrete without a concrete base, but the engineer deems this class of pavement undesirable for many reasons. He suggests a forty-five-foot roadway.

AT THE COURTHOUSE.

WOULD REOPEN OLD JUDGMENT.

MAN ESCAPED FROM THE DEBT TO MAKE FORTUNE.

After Many Years Stensgaard Is Discovered Under New Name and Corporation Seeks to Recover in Spite of Statute of Limitations. Wife Sues for Support.

Some weeks ago there was a hearing in Judge Houser's court in an action instituted by Mary K. Stensgaard against Louis T. Stensgaard, now known at Pomona as Alton B. Hill, where he is a well-known orange grower, and prosperous.

The wife sought maintenance on the part of the derelict husband, who had deserted her, according to her testimony, at St. Paul, Minn., some years ago, and come West. Here he changed his name, and tried to hide his identity, succeeding in doing so until the information was furnished by the plaintiff in the action. Stensgaard is the father of six children, and it was alleged in the complaint that he is now a very wealthy man, and well able to give his wife and family $300 a month. The case was heard and submitted.

Yesterday another leaf in the checkered career of Stensgaard appeared in a petition filed in the Superior Court by the St. Paul Title and Trust Company to recover $5097.75, alleged to be due the plaintiff from Stensgaard, alias Hill, by virtue of a judgment secured in the District Court of Ramsey county, Minn., May 6, 1891. It is set out in the complaint that soon after the rendition of the judgment, Stensgaard left St. Paul and changed his name to Hill, concealing his identity to his family and friends, and is now supposed to reside in Los Angeles county.

The prayer of the petition is that the plaintiffs be relieved of the operations of the statute of limitation and recover the amount named from Stensgaard or Hill.

It seems from a history of the case that Stensgaard became involved in St. Paul and left his family and friends, coming direct to Southern California and began the battle of life anew. His wife was able to locate him through a friend, and her suit followed. The St. Paul company learned of his whereabouts by the publication of the testimony in the maintenance suit, and action is now brought to collect the old debt, which ordinarily, under the laws of Minnesota, would be uncollectable by reason of the statute of limitation.

COME HOME TO LIVE.

FORTUNE BRINGS THEM.

The opportunity to secure an estate valued at about $30,000, has added another family to fast-growing Los Angeles, John Bowe and family, for years residents of a little suburb outside the city of Baltimore, have removed to this city and become permanent residents. The glorious climate is not the only thing that holds the Bowe family in thrall.

Some time ago Thomas A. Bowe, the only brother of John Bowe, died here, leaving an estate of much value, consisting of lots in Pasadena and along Central avenue, near Slauson Junction. Under the laws of California only a resident of the State can administer the property, and it behooved John to become a Californian if he cared to handle the estate of his brother, ...e Maryland man being the only known relative of the deceased.

Some time ago Public Administrator Bryson filed a petition asking to be nominated as administrator of this estate, but about that time the only brother slipped out from that little Maryland town, and after falling off the water wagon in San Francisco, reached Los Angeles just in time to file a counter petition asking for his appointment as the only known heir of Thomas A. Bowe.

Several hearings were had in the case, and it will be finally determined by Judge Rives today. It is likely that no further opposition to the selection of the brother will be interposed by the Public Administrator, and that John Bowe will receive every dollar of the estate.

At the last hearing he testified that he had never worked for wages exceeding $2.50 a day in his life. He has always been a poor man, and could hardly raise the money to make the trip across the continent. After his debauch in San Francisco he was out of money, and was compelled to ride down the Coast to this city on the bumpers of a fast freight.

BALLERINO'S GHOST.

BOBS UP IN LAW SUIT.

The ghost of Bartolo Ballerino, like that of Banquo, will not down. It was supposed that with the probate of the will and the formal division of the property left by the former king of the "Tenderloin," that the remains of the old man would rest easily, but an action was filed in the Superior Court yesterday, indicating that there are others to be settled with before the celebrated case becomes a part of the judicial history of Los Angeles county.

The plaintiffs in the action at bar are George H. Smith, Kenton A. Miller and William A. Phelps, doing business as attorneys under the firm name of Smith, Miller & Phelps, and the defendants are Maria Amporo Ballerino, widow of Bartolo Ballerino, and the children named under the terms of settlement already agreed upon.

The petition asks for a judgment of $75,000 in all, of which amount $25,000 is for professional services alleged to have been performed in connection with the proposed contest of the will of Bartolo Ballerino, and an additional $50,000 for the abrogation of a contract entered into between the plaintiffs and defendants.

It appears from the allegations of the petition that immediately following the death of Ballerino, July 11, last, the widow and her children made a contract with the firm of Smith, Miller & Phelps, under the terms of which it was arranged that the firm should represent the widow and her children in the proposed contest of the will, and the allegation is made that following the employment the attorneys did a large amount of work in preparing the case.

On July 21 the defendants repudiated the contract, other arrangements being made at that time that finally resulted in the amicable arrangement dividing the estate of Bartolo Ballerino among the heirs, not including the widow, who renounced all right to any portion of the property, and the attorneys other than the plaintiffs who conducted the negotiations.

The hearing of the case is likely to bring again to the notice of the public all of the developments in relation to the life, death and liaisons of Ballerino, who made much of his money in questionable ways.

SUIT FOR BONDS.

LIVELY CONTEST AHEAD.

Judge James heard the arguments of counsel in the case of John I. Dillon, special administrator of Rosina Stely, against William Kretzschmer and his wife, Eva Kretzschmer, to recover $10,000 worth of bonds of the Covina Irrigating Company.

Mrs. Stely died at Hollywood January 18, last, possessed of a home on Wilcox street, and it was supposed that she also owned the bonds in question. After her death it came out that the home place had been deeded to the Kretzschmers, the alleged consideration being the care the couple had taken of the old lady in her last days. She was more than 70 years old at the time of her death.

An action was brought to set aside the deed on the ground that undue influence had been employed on Mrs. Stely by defendants to induce her to give them the property, and a contest of the probate of the will was also instituted. These actions are still pending.

With the beginning of the contest on the will, it was ascertained that the Kretzschmers had the bonds, they contending that they had been given the property some months before the preparation of the will or the death of Mrs. Stely. It is alleged that this claim was made so that possession of the bonds might be retained, no matter if the probate of the will is defeated.

In the case just concluded it was alleged that the bonds had been given to the defendants by reason of services rendered the deceased. On the other hand undue influence was set out by the plaintiff representing two grand-children interested in the distribution of the estate.

EDITRESS IS SUED.

MAGAZINE "DROPS DEAD."

A lively contention between Mabelle Burbridge of Los Angeles, and Harriet M. Barry of Monrovia, is indicated in an action filed by the first-named in the Superior Court yesterday, to recover $2500 alleged to be due on the purchase of a magazine known as the Pacific Fancier.

It seems from the complaint that on July 12 last, the two ladies entered into a contract by the terms of which the plaintiff was to transfer to the defendant the good will, business, subscription lists, paste and glue pots with other impediments used in connection with "editing" a magazine, for which the defendant was to pay $200 in cash, and the balance of the agreed upon price, of $2800, to be paid out of the net cash profits of the receipts of the publication.

The defendant took possession of the property, and proceeded to stop the magazine, not a single number appearing after the deal had been made. Not only that, but the defendant neglected to pay the $200 cash in hand, and suit is now brought to collect the entire purchase price. The complaint is accompanied with an exhibit showing just what articles were included in the business, and in addition to the pots mentioned, the schedule calls for tables, chairs, type, etc., in fact, everything, but the office towel, that was probably standing in the corner and was not observed by the appraisers when the list was made.

RAID BY BOYS.

EVEN DOZEN IMPLICATED.

Twelve boys, ranging in ages from 11 to 16, were before Judge Wilbur yesterday in the Juvenile Court, charged with stealing two gallons of ice cream that had been furnished by the girls connected with one of the rooms in the Twentieth-street School building.

On the night of November 19, the girls purchased the cream, expecting to have a class treat at the home of a Mrs. Robinson, No. 1625 East Twenty-third street. Everything was ready for the serving of the frozen dainty, when, horrors, it was discovered that every drop of the cream had been stolen by a number of the boys connected with the school. An inquiry was instituted and the culprits located. Their arrest soon followed.

There was an even dozen lined up before the court. Their names were: Fred Mayhew, Roy Flood, Lynn Stephens, Ernest Valenzuela, Arthur Barnfeld, George Dudley, Jacob Bernson, Delos Banks, Raymond Dudley, Clyde Gendre, Ben Smith and Alfred Rennie. When arraigned every mother's son unblushingly admitted his guilt, but excuse was made that they thought it a great joke that the girls were compelled to buy the cream and then got none of the toothsome viand to eat.

The lady at whose house the theft took place was not strongly in favor of prosecuting the lads, except that she thought it a shame that after the girls had paid out their money for the cream the pesky boys should steal it.

Judge Wilbur made an order to the effect that the culprits should report to him every two weeks for two months to expiate the crime.

EXCUSE FOR CRIME.

WOMAN LEAVES HIM "BROKE."

Young Harry D. Browne pleaded guilty in Judge Willis's court yesterday to securing money under false pretenses in that he sold a horse and wagon belonging to his father to A. A. Warren of Pasadena, for $30. The accused asked for probation, and the court will determine the matter December 10.

It seemed from the story told by the young man that a siren of Pasadena was his undoing, but her name did not come out in the testimony. Browne said he had driven his team over to the Crown City when he fell in with a young woman whose physical charms appealed to him, and it was not long until he had scraped up an acquaintance. She suggested that they fly away together, but Browne did not have the price. Then the suggestion was made that he sell the team, and this he did.

They took the first train north and reached San Francisco, where they remained several days enjoying themselves. But the money did not go very far in looking upon the sights of Market and other streets, and when he was broke the woman deserted him.

About that time he received an invitation from his folks in Los Angeles to come down and attend his sister's wedding, and he had no sooner struck the town than he was taken into custody by the unfeeling police. The story he told sounded pretty good, and there will be a strong effort on the part of friends to have him the recipient of the mercy of the court.

OAK DIVORCE.

POPS UP ONCE MORE.

The marital infelicity of Jennie May Doak and her husband, David Perry Doak, the well-known Mexican railroad magnate, is about to be settled in the courts by the hearing of the divorce action brought by the wife, August 23 last. The action was on the calendar of Judge James's court for several weeks on an order to show cause why Doak should not pay his wife a lump sum for her maintenance pending the hearing of the divorce action, and another allowance for her attorney fees, but all at once the action was stricken from the docket. It was announced that the terms of a settlement were being arranged.

It is understood now that within the next two weeks the matter will be heard in Judge Houser's court, the only thing before the court being the sufficiency of the evidence against the husband alleging adultery. The settlement upon the wife along the line of her community property rights has been about arranged, and it is claimed that it is on very generous lines.

TRIAL OF GRIDER.

TESTIMONY ABOUT RING.

In the case against Charles C. Grider, a real estate man, charged with embezzling a diamond ring worth $550 from Mrs. A. D. Van Houten, being tried in Judge Davis's court, all of the testimony except that of the accused was taken yesterday. Grider will go on the stand today.

Oliver P. Thomas, of the Pioneer Investment and Trust Company, testified that in the proposed trade for the Redondo property, the diamond ring was not mentioned as a part of the consideration. J. H. McCarthy, of the same corporation, gave similar testimony. It was this firm that Grider had told Mrs. Van Houten demanded the ring.

John W. Watson, an expert judge of diamonds and in the money-lending business, testified that he would give Mrs. Van Houten $300 on the ring. In his opinion the bit of jewelry was worth $600.

KEPT THE MONEY.

CHARGE MADE BY WOMAN.

Annie F. Krepps brought an action in the Superior Court yesterday against L. L. Barnes, asking for a judgment against the defendant for $3000. The plaintiff alleges that one J. F. Cullen had a claim against her husband, J. E. Krepps, for $3000, and that she furnished Barnes with the money to settle the account; but that later on, in August, 1909, her husband paid the money, Barnes having failed to settle with Cullen as he had agreed to do.

Mrs. Krepps also declares that according to her best belief Barnes has converted the money to his own use. Barnes, it is said, when asked by Cullen to pay the claim, and after he had the money from Mrs. Krepps, refused to do so.

BALDWIN ACRES.

SALE CONFIRMED BY COURT.

The sale of seven more pieces of land belonging to the estate of E. L. ("Lucky") Baldwin, was confirmed by the court yesterday. The aggregate payments were $58,424.10. The purchasers and individual amounts were as follows:

Robert J. Bigelow, southwest one-half of lot No. 391, Rancho la Puente, $3015.00; P. T. Sullivan, lots Nos 11, 12, 13 and 15, Rancho Potrero Grande, $12,997.50; Willis W. and Marie Benson, lots Nos. 3 and 4, and south one acre of lot No. 2, same subdivision, $6886; Samuel F. Pearson, southwest one-third of northeast two-thirds of lot No. 262, Rancho la Puente, $2500; Joseph C. Pearson, lot No. 134, same subdivision, $7500; Jane A. Unruh, lots Nos. 1, 2, 3 and 4, Arcadia, $675; Frank P. O'Connor, lots 389, 390, 408 and 409, Rancho la Puente, $24,850.

FOR MISSIONARIES.

SMALL ESTATE DIVIDED.

By the terms of the will of Lydia M. Phillips, filed for probate yesterday, several small bequests are made for missionary and temperance organizations. The estate is valued at $10,000. The Woman's Baptist Home Missionary Society of Chicago gets $200, the Southern California Women's Christian Temperance Union is willed a like amount, and the Ransome Home of Los Angeles is bequeathed $200.

After giving her household goods and a number of articles of bric-a-brac to personal friends, she wills all the remainder of her estate of every description to Mary E. Phillips of Long Beach.

COURTHOUSE NOTES.

BREVITIES MISCELLANEOUS

ACTION FOR DAMAGES. Judge Hervey and a jury are hearing the case brought by F. B. Osborne, a traveling man of this city, against the Los Angeles Pacific Railway, to recover $42,000 alleged to be due on account of an accident occurring at the intersection of Sixteenth and New Hampshire streets, last January. The plaintiff was riding in his auto and the machine was struck by a car en route to Santa Monica. The action was heard in Judge Conrey's court sometime ago, but was remanded for a new trial.

NOVEMEER RECEIPTS. The receipts of the County Clerk's office for

(Continued on Tenth Page.)

"What wonder man should say 'Oh, Fudge'—when Fountain Pens their fingers smudge. Be sensible, and find the cure—by using 'Clean to Handle' Moore."

Moore's Non-leakable Fountain Pen

These pens being constructed upon entirely different principles from other Fountain pens are, without doubt, the nearest perfection of any pens ever manufactured. All the undesirable features of other Fountain pens have been eliminated. Every person that has carried a Fountain pen realizes the necessity of carrying it in the pocket point up, as directed, or their clothing will soon be badly soiled with ink; also their hands when using it. Not so with these pens. Being air and ink tight, they can be carried in any position in any pocket when filled with ink, and cannot leak—a feature which Fountain pen users fully appreciate. Ladies can carry them in their purse or hand-bag with perfect safety, which they cannot do with other styles of Fountain pens.

The Following Claims We Guarantee

1. That pen is filled without unscrewing the section or pulling out the pen, thus avoiding soiling the fingers with ink when filling.
2. That pen is drawn back into the barrel or reservoir after using, and when the cap is turned on is absolutely air and ink tight.
3. That the barrel being air tight the ink never thickens or dries up, and if the pen is not used for a year it writes just as readily the instant it touches the paper.
4. That our "Tourist" or Military pen is the best pen made for travelers or military use.
5. That we use nothing but the highest grade of gold pens.
6. That any person can use this pen a lifetime and never soil their fingers with ink.
7. That we use pure gum rubber, and the superior finish and lustre on our holders is very noticeable when compared with others made from common stock.

Every Pen is guaranteed as represented or money refunded.

Fine, Medium or Stub Points to suit Every Hand.

The Best from a Million Bushels —Del Monte Tomatoes

A Tomato, you know, is nearly all water.

If you take off the skin, there is not enough fibre left to hold it together, so that in stewing Tomatoes, you never add water — there is enough without it.

Some canned Tomatoes, most brands, in fact, are watery and mushy, so that when you buy a can you buy more water than real Tomato to meat. Water, at the price of Tomatoes, is expensive. In the Del Monte brand we take out most of the water. We pack over a million bushels of Tomatoes a year, under 400 different labels. Some sell as low as four or five cans for 25c, but Del Monte retails at 12½c per can. But if you will weigh the actual Tomato meat of the cheaper can, after draining off all the water or juice, and then do the same with Del Monte, you will find that Del Monte contains two or three times as much actual Tomato meat as other brands.

Del Monte is the choice pack of the world's largest canners. We pack all grades of Tomatoes. All are wholesome. All are packed under the most sanitary conditions.

But, they vary in the quantity of Tomato meat contained, as compared to the water or juice. A can of Del Monte brand is solid all Tomato.

Del Monte Tomatoes are vine-ripened, carefully washed, peeled and cored. It is impossible to have Tomatoes as even as Del Monte brand are vine alike. For "a well-considered haw will choose the best. Greater care is used in handling. A large percentage of the water is taken out. You get the best we know how to make. You are always sure if you get Del Monte.

Del Monte

Canned Fruits and Vegetables

Packed Where They Ripen
The Day They're Picked

We Pack Other Brands as Good as Del Monte

But you have no way of knowing them. We put up over four hundred different brands of canned and dried fruits, vegetables, jams, jellies, preserves catsups, honey and condiments. Most of the brands are for dealers who own their own labels.

Quality does not affect the wholesomeness of the goods. All packers, we believe, put up only wholesome goods. Quality refers to flavor and the quantity of solid vegetable or fruit meat as compared to the water or juice. If you were able to select all other brands from those of cheaper quality, you would find exactly the same quality as you obtain in Del Monte, but there is no way in which you can tell which are safe, except by specifying Del Monte.

THE OIL INDUSTRY.

GOVERNMENT SHOULD LEASE

Federal Geologist Talks of Withdrawal Order.

Locations Under Placer Law Unsatisfactory.

Mobility of Oil Considered an Important Factor.

Dr. C. W. Hayes of the United States Geological Survey has issued a statement as to the recent withdrawal from entry of all public oil lands. He says that the executive action is only temporary and taken to preserve the status quo until Congress can enact a more satisfactory way for disposing petroleum than under the placer laws, "framed primarily for placer gold mining entries." It is anticipated that Congress will act shortly.

Dr. Hayes says that when the placer law was passed probably no one ever thought it would be made to cover deposits so far removed from every essential characteristic of auriferous gravels as oil and gas. Yet when petroleum was found on public land there was no other law under which it could be acquired and this anomalous condition still holds to the great detriment of both the government and the oil industry.

The fundamental basis of location is discovery, and the courts uniformly hold that there can be no legal location unless there is a discovery. But in the case of oil there can be no discovery in the sense that a well is drilled at great expense, but purely geological inference, as primarily there are no surface indications, thus leaving the driller wholly unprotected against rival claimants until he completes his first well.

Dr. Hayes refers to the gypsum lands and declares that thus land worth thousands of dollars an acre has been acquired at $2.50 an acre to put oil development and usually rich corporations. This, he says, is one very common method of evading the law." He speaks of the gypsum deposits as "rarely of sufficient purity or purity to be profitably used, even if favorably located for transportation and market." Strong reference is also made to the homestead entries that are made on wholly worthless lands useless for farming when a well is successful."

GOVERNMENT TO LEASE.

Dr. Hayes holds that in view of the great expense of discovery the prospector must be adequately protected by law, both before and after discovery, and the acreage to which he is entitled, preferred rights should be large enough to justify his initial investment in such compact shape that he can retain his discovery from encroachment by drilling on subsequent entries. Under its incidental advantages of great importance to both government and operator, "a well-considered haw will be the most effective means of the conservation of oil and gas resources by enabling the government to regulate development so as to prevent much of the criminal waste now prevalent."

Dr. Hayes, the geologist says:

"The law which will adequately meet the requirements must recognize the fundamental difference between oil and other minerals, namely, that they flow from a distance underground across boundary lines, and exclusive possession of the product is acquired only when it reaches the surface. It follows, therefore, that oil can be disposed of by the government or other owner of the land in which it occurs as a commodity and not in terms of land like coal or other minerals occupying fixed locations. This fact is so well recognized that it has created the leasing system which is practically universal in all the oil fields where the land is in private ownership. The government cannot do better than to adopt the plan which has worked out through long experience, and, where the holdings are extremely large, found thoroughly satisfactory, both to the oil operator and to the private land owner. Why should not the government as a land owner deal directly with the producer rather than through the intervention of a middle man to whom title to the land is passed?

"Under the present system the owner of a ten-acre placer claim is compelled to drill and pump the oil from his land with all possible speed regardless of transportation facilities or for otherwise his competitors in adjoining claims will take a large part of it away from him. In the case of a feverish exploitation half a dozen or more wells may be drilled where one would have secured the whole amount of oil—a serious economic waste to the nation and a heavy burden to the ultimate consumer. Also, unrestricted drilling by careless or unskilled operators may ruin a valuable deposit by admitting water to the oil sand from a higher or lower water-bearing stratum. Many examples of this kind of waste resulting from the too rapid exploitation of oil fields could be cited."

GENERAL CONSUMPTION.

The government is likely to become the largest oil consumer with the introduction of petroleum in the navy, now that it should take steps to secure a fuel supply. Six of the new battleships in commission or under construction use oil or coal and oil, and of the largest destroyers burn oil exclusively.

The statement closes with an appeal for conservation and declares that the oil fields remaining in government possession are the heritage of the whole people, and the idea that they should be economically utilized for the general good rather than for the enrichment of a few individuals is rapidly crystallizing in public opinion. The enactment by Congress of a law providing for the leasing of oil lands will be a logical and much needed action in the "government management of its great oil property.

KALINGA PROGRESS.

OLD AND OLD ACTIVE.

Kalinga Unity No. 3 has been completed and will be put on the pump in a day or two. It should be good for 1000 barrels. Something like 150 feet of pipe has been passed through. Lumber is on the ground for the second well and the derrick is to be started shortly. The company expects to start two additional wells in a few days. Marion Mesmer, who has been shut down because pipe lines cannot take care of his output, has sold his 1000 barrels of oil stored. With the Homestake is said to have 5000 barrels of oil stored. With the Kern and Associated pipe line in operation, this condition will be alleviated.

THE OIL INDUSTRY.

GOVERNMENT SHOULD LEASE.

Federal Geologist Talks of Withdrawal Order.

Locations Under Placer Law Unsatisfactory.

Mobility of Oil Considered an Important Factor.

Dr. C. W. Hayes of the United States Geological Survey has issued a statement as to the recent withdrawal from entry of all public oil lands. He says that the executive action is only temporary and taken to preserve the status quo until Congress can enact a more satisfactory way for getting petroleum than under the placer laws, "framed primarily for placer gold mining entries." It is anticipated that Congress will act shortly.

Dr. Hayes says that when the placer law was passed probably no one ever thought it would be made to cover deposits so far removed from every essential characteristic of auriferous gravels as oil and gas. Yet when petroleum was found on public land there was no other law under which it could be acquired and this anomalous condition still holds to the great detriment of both the government and the oil industry.

"The fundamental basis of location is discovery and the courts uniformly hold there can be no legal location until there is a discovery. But in the case of oil there can be no discovery until a well is drilled at great expense on purely geological inference, as ordinarily there are no surface indications, thus leaving the driller wholly unprotected against rival claimants until he completes his first well.

Dr. Hayes refers to the gypsum locations and declares that thus land worth thousands of dollars an acre has been acquired at $2.50 an acre without oil development and usually by rich corporations. This, he says, is "one very common method of evading the law." He speaks of the gypsum deposits as "rarely of sufficient quantity or purity to be profitably mined, even if favorably located for transportation and market." Strong reference is also made to the homestead entries that are made on wholly valueless lands useless for farming whenever a well is successful."

GOVERNMENT TO LEASE.

Dr. Hayes holds that in view of the large expense of discovery the prospector must be adequately protected by law, both before and after discovery, and the acreage to which he is given preferred rights should be large enough to justify his initial investment and in such compact shape that he can protect his discovery from encroachment by drilling on subsequent entries. Besides the incidental advantages of importance to both government and operator, "a well-considered law will afford the most effective means of the conservation of oil and gas resources by enabling the government to regulate development so as to prevent much of the criminal waste now prevalent."

Finally, the geologist says:

"Any law which will adequately meet the requirements must recognize the fundamental difference between oil and gas and other minerals, namely the mobility. These elusive products can be drawn from a distance underground across boundary lines, and exclusive title to the product is acquired only when it reaches the surface. It follows, therefore, that oil can be disposed of by the government or other owner of the land in which it occurs only as a commodity and not in terms of the area like coal or other minerals occurring in fixed locations. This difference is so well recognized that it has determined the leasing system which is practically universal in all the oil fields where the land is in private ownership. The government cannot do better than to adopt the plan which has been worked out through long experience, and, where the holdings are sufficiently large, found thoroughly satisfactory, both to the oil operator and to the private land owner. Why should not the government as a land owner deal directly with the producer rather than through the intervention of a middle man to whom title to the land has passed?

"Under the present system the owner of a forty-acre placer claim is compelled to drill and pump the oil from it with all possible speed, regardless of transportation facilities or market, for otherwise his competitors on adjoining claims will take a large part of it away from him. In the case of feverish exploitation half a dozen or more wells may be drilled where one would have secured the same amount of oil—a serious economic waste to the nation and a heavy loss to the ultimate consumer. Also, unregulated drilling by careless or unskilful operators may ruin a valuable property by admitting water to the oil sand from a higher or lower water-bearing stratum. Many examples of needless waste resulting from the unrestricted exploitation of oil fields might be cited."

GENERAL CONSUMPTION.

"The government is likely to become the largest oil consumer with the introduction of petroleum in the navy, and that it should take steps to assure a fuel supply. Six of the new battleships in commission or under construction use oil or coal and oil, and the largest destroyers burn oil only.

"The statement closes with an appeal for conservation and declares that oil fields remaining in government possession are the heritage of the whole people, and that the idea that they should be economically utilized for the general good rather than for the enrichment of a few individuals is rapidly crystallizing into public opinion. The enactment by Congress of a law providing for the leasing of oil lands will be a logical and long needed action in the wise management of its great mineral property.

KERN RIVER PROGRESS.

NEW AND OLD ACTIVE.

Kern County No. 1 has been shut down will be put on the pump within two. It should be good for something like 150 feet when it has passed through. Lumber is on hand for the second well and work is to be started shortly. Operator expects to start two additional rigs in a few days. Marion Island, in some thirty days ago when the pipe lines have been shut down because the Homestake cannot take care of the thousands of oil stored. With the Standard and Associated pipe line connections, this condition will be shortened.

Contract for famous section 13, Midway, has been let and will start its first hole shortly. The Pacific Coast No. 1 derrick is up.

The K. T. and O. is running nineteen strings and has another derrick going up. The Blue Moon, after a considerable idleness has put another well on the pump. The production is around 800 barrels, 22 gravity oil. This hole was brought in at 2300 feet.

Homestake No. 4 has just been put on the pump. It was brought in at 940 feet, the oil testing 15 gravity.

The American Petroleum, from its six wells, all of which were brought in around 1850 feet, is getting approximately a million barrels a year, 17 gravity.

The Nevada is just in oil at 3200 feet, gravity 23. The first attempt to cement this hole failed and it has not yet been put on the pump, but is expected to do something like 400 barrels.

The proven territory covers an area of fourteen miles long by from one and a half to two and a half wide, with the exception of the north end, the field limits have never been defined. The daily production is 43,000 barrels, from 520 wells, with the selling price averaging 63½ cents a barrel. The Good Luck, on 22-19-15, has just paid its first dividend of one and a half cents a share on the 1,000,000 shares, from the production of its No. 1 well, brought in last July, and sold on a 500,000 barrel, 50 cent contract, with the Associated. The Good Luck expects to have its second well producing in about two weeks. This is down 1240 feet, and the water has been shut off for the third time. The indications are that this will be a better well than the first brought in as the sand is about sixty feet deeper. Miss Cora St. Clair, a sister of L. P. St. Clair, president of the Producers' Transportation Company and the Bakersfield Agency, is to form a company to operate eighty acres adjoining the Tejon wells in the Kern River field.

Santa Fe Gets Gusher.

The Santa Fé brought in a big gusher that is doing around 1500 barrels a day with its No. 2 on section six, Midway field, Sunday.

The oil spouted over the derricks at the rate of four to five thousand barrels for a considerable time. Temporary reservoirs were hastily thrown up in the cañon, and an unsuccessful effort made to save some of the oil. The well was brought in at 1900 feet.

St. Lawrence Sanded.

The St. Lawrence on section five, Midway, which flowed for a couple of days last week at the rate of 1000 barrels a day, sanded Saturday, and advantage was taken to connect with the reservoir before breaking the sand.

Proves New Field.

The Yancy well brought in by J. F. Yancy and associates on 6-30 north of McKittrick, was put on the beam a few days ago and is pumping around 150 barrels daily in spite of the fact that it is sanded fifty feet above the perforation. The hole is down 1100 feet. This strike is thought to prove a new field as it is two miles or more from any good producing wells and is separated from the McKittrick field by territory not yet proved. If the theory is correct, a strip paralleling the McKittrick field and extending some twelve miles will be developed.

DEATH ACCEPTS INVITATION.

Discouraged Youth Takes Poison and Turns on Gas—Efforts to Save Him Unsuccessful.

Life held no allurements for Harold Watrous, 20 years old, after he had quarreled with his sweetheart, disagreed with his step-father and resigned his position, Tuesday night. The future looked too black for him to face and he took a fatal dose of poison early yesterday morning.

The young man rented a room at the Western Hotel, No. 327 South Main street, from Mrs. L. E. Frye, the landlady, shortly after midnight. Several hours later, Frye was awakened by the odor of gas. He traced it to Watrous's room. Breaking in the door, he found his guest lying on the bed in his underclothes, with the gas jets open, and an empty bottle, which had contained strychnine, on the dresser.

Watrous was taken to the Receiving Hospital. He admitted having taken the poison and said that he had no desire to live. His stomach was washed out and antidotes were given him, but he died at 6 o'clock in the morning. The body was taken to Pierce Brothers' morgue. The Coroner will probably sign a certificate of suicide.

Watrous was formerly employed by the Amos News Company. His mother resides at No. 1561 East Thirty-third street. Three brothers live at the Essex Hotel.

MEAGER CLEWS.

MURDER SECRET HARD TO SOLVE.

IDENTITY OF BODY FOUND IN WELL STILL A MYSTERY.

Bones of Leg and Forearm Brought to Surface—Shirts and Hatband Found, Which Appear to Have Been Thrown in Shaft Recently—Theories Regarding W. H. Welch.

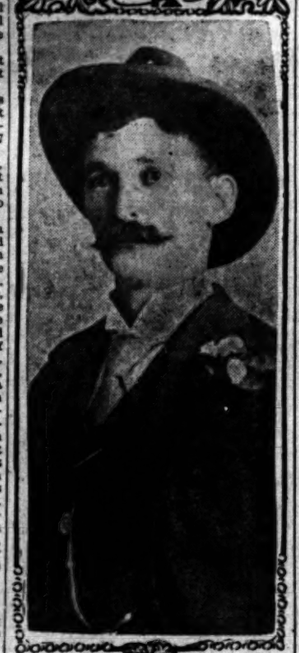
No further clews leading toward the identity of the man whose body was found in a well in Coyote Pass were discovered yesterday. After reaching the bottom of the shaft the workmen brought up the bones of a leg and two forearms, which were missing from the corpse when the undertaker removed it from the water.

Two cheap shirts and a leather hatband were found in the bottom of the well, but they had every appearance of having been recently put there. It is believed that some hobos or passing herders may have thrown their cast-off clothes through the small open place in the side of the well without being aware of the ghastly secret below.

The only piece of clothing known to have been a part of what the murdered man wore is the black cotton shirt, a part of which was found on the body caked with alkali. Another piece of the same shirt was raised yesterday. The fact that no shoes, trousers or underwear were found indicates that the slain man either met his death when sleeping or else was stripped of his own clothes before he was taken to the well.

After listening to a report made by his deputies, Aguirre and Mathewson, the Sheriff said yesterday that his original theory, that the man was murdered in bed, still holds. "That man was probably killed while he slept or while he was undressed. It is easy to destroy clothes by burning them, but a human body is different. After destroying all telltale clothes, the assassins may have wrapped their victim in a gunnysack, placed him in the bottom of a wagon, and dropped the body in the well, previously selected," said the Sheriff.

If the body is that of W. H. Welch, who was possibly murdered while pursuing or attempting to capture two desperate criminals, it is probable that he met his end in this city. When he left Alhambra, Welch said that he was going to watch the rooms of the suspected French burglars. Perhaps he found their lair, and entered it, and



W. H. Welch,
the missing marshal of Alhambra, and possibly the man whose body was found in the well.

while there was shot by one of the men while battling with the other. On the other hand, his foes may have discovered that the Alhambra Marshal was following them, and set a trap or lured him to his death.

"There is a strong probability that Sheriff Hammel's theory is correct," said Deputy Sheriff Aguirre last night. "The man found was probably carried from a distance, and he may have been killed in bed, but who the victim is or exactly where he was slain can now only be determined by lucky chance. Whether the victim is rich or poor, white, black or yellow, it, of course, follows that I will work equally hard to bring the slayer or slayers to justice."

Several have advanced the theory that the body is that of a man killed by the "Belvidere Owls," an organization of wild youths who terrorized that region two years ago. The Sheriff scoffs at this idea, and says that the hoodlums could have had nothing to do with this sort of a crime, as it was entirely out of their line. "Cool heads and hands, deft in the wielding of murderous weapons, committed this murder," said the Sheriff.

A strange feature in connection with the discovery of the crime is that one or two farmer boys have been found who, when pressed by thirst, let a can down the well on the end of a string and drank some of the water in which the corpse lay. They noticed nothing other than that the water was murky and contained much alkali.

STARTS SUIT ON NOTES.

Local Capitalist Made Defendant by Milwaukee Man, Who Seeks Possession of Stock.

A suit to foreclose a lien on 701 shares of the Schmitt Bros.' Tobacco Works Company to recover $30,290, alleged to be due on three promissory notes executed by Mathias F. Schmitt of this city and others, was begun in the Circuit Court at Milwaukee, Wis., yesterday by E. C. Franke. Franke asks permission to bid in the shares at the sale of the stock.

There are notes, dated June 25, 1907. The first is for $11,750, and was payable July 1, 1909; the second note for $8320, payable July 1, 1910, and the third note is for a like amount, due July 1, 1911. There was the stipulation in the agreement that in case of the failure of the debtors to meet any one of the notes, the other notes should become due.

PIANO
BROWN LOGIC
"Good Will"
Every business man knows what "good will" is.
The price of an "established business" for sale, has in addition to the value of assets a "price" on the "good will" or "name."
Now the point is this:
Some piano factories rely on the merit of an old "name" for which "good will money" was paid.
Some others use fictitious names; these are stencil pianos properly called "thump boxes," "cheap pianos at cheap prices"—the kind that are usually offered in "guessing contests and other something-for-nothing schemes."
J. B. Brown Music Company (642 S. Broadway, opposite Bullock's) offer the "Krakauer" because the makers rely on the "merit" of the piano—not on a "good will" name.
Krakauer quality is so good—the tone is so fine—that imitation is impossible.
Like a Whistler or VanDyke painting, the Krakauer stands alone—a masterpiece of the piano maker's art.
You are always welcome to hear the "Krakauer."
Prices range from $400 up.
A Few Bar gains in Used PIANOS Lots More in the Store
H. BORD, full 7 octaves, walnut case, ivory keys, an upright piano, never sold at a like price before..... $65
"SCHAFF BROS." in fanciest carved walnut; the price is low, quality high; has had very little use..... $265
Genuine BRADFORD, elegantly polished oak case. This price will find a quick buyer..... $185
COLUMBUS BOUDOIR, suitable for small apartments, mahogany case, a piano distinctly "worth while" $165
FISHER, cased in fanciest mahogany. Three pedals, large size. Little used $315

Toilet Articles
Make Pleasing Gifts
In selecting your gifts for Christmas, remember the Sterling Silver toilet and manicure articles always make acceptable gifts. They combine beauty with service—that is why they are doubly welcome.
We are showing a complete line in the newest and most artistic designs, including: California Poppy, Nasturtium, Cherry Blossoms, Sweet Pea and Thistle.
Special attention is called to our line of Sterling Silver shoe horns, button hooks and manicure articles at 50c, 75c and $1.00 each.
Parisian Ivory
Toilet and Manicure Articles
A selection from this line would be both wise and tasteful, for Parisian Ivory so nearly resembles the real that it makes any articles very desirable.
We sell them in complete sets for the dressing table, or in separate articles. These goods can be engraved with initials which greatly increases their individuality.
Orders for engraving should be left now, so to insure delivery before Christmas.
Special Packages of Toilet Requisites
We arrange special Christmas packages for individual tastes. Consisting of a collection of: powders, toilet water, sachet, perfume and soap. Price and quantity made to conform to your taste and purse.
Investigate this today.
High Grade Perfumes

We are showing a very extensive assortment of the finest imported and domestic perfumes—put up in fancy packages for Christmas gifts. What could be more acceptable for a gift to a fashionable woman, than —perfume?
We offer an attractive line of petite boxes of perfume for children, in dainty and delicate odors, from 25c up.

A FEW REASONS WHY
You should go to Agricultural Park Saturday Afternoon, December 4th
To See
Dan Patch
and
Minor Heir
The World's Fastest Harness Horses
Race and attempt to Lower the World's Record
DAN PATCH 1:55 IS
—THE fastest harness horse of history.
—the result of the combined breeding knowledge of the ages.
—the world's most famous horse.
—the world's best loved horse.
—the embodiment of supreme power, gameness, speed and intelligence.
—the horse that is valued at $250,000, or over $227 per pound.
—the horse that always gives a great exhibition.
—the horse that has gone more miles under two minutes than all the other trotters and pacers of the world combined.
—the horse that knows.
And this will be positively your last chance of seeing in action this champion of all champions.
MINOR HEIR 1:59¼ IS
—second only to Dan Patch in breeding, speed, intelligence and gameness.
—the only horse that has a chance of beating Dan Patch.
—the horse that all the world expects to take Dan Patch's place after Saturday's exhibition.
COPA DE ORO, MARGIN and other great horses will give exhibitions and compete in the best matinee program ever given anywhere.
—See performances by over half a million dollars' worth of horses.
This opportunity never came before. It will never come again. You should not miss it.

PUBLISHERS OF

Los Angeles Daily Times

Pronounced Loce-AHNG hayl-ais.

Vol. 56, No. 152.

Daily, tri-weekly, Sunday and Weekly Magazine. Founded Dec. 4, 1881. Twenty-seventh Year.

EVERY MORNING IN THE YEAR.

THE NEWS—Our Associated Press service covers the globe, transmitting over 85,000 words daily, not including specials.

TERMS:—Daily, Sunday and Magazine, 15 cents a month, or $9.00 a year. Daily, without Sunday, $7.50 a year; Sunday, $3.50; Magazine, $2.50; Weekly, $1.50.

TELEPHONES:—Counting-room, Subscription Department, Editorial Rooms, City Editor and Local News Room: Sunset, Main 8200; Home, ask for THE TIMES.

AGENTS: Eastern Agents, Williams & Lawrence, Brunswick Building, 5th Ave. and 30th St., New York; 1324 Marquette Building, Chicago; Washington Bureau, 48 Post Building. (THE TIMES on file) San Francisco office, Room 1205 Call Building. R. J. Bidwell, Representative.

SWORN CIRCULATION:—Daily, net average for 1894, 13,801; for 1897, 14,958; for 1898, 26,187; for 1899, 29,731; for 1900, 36,935; for 1901, 39,845; for 1902, 39,930; for 1903, 36,346; for 1904, 37,702; for 1905, 45,150; for 1906, 39,501 copies; for 1907, 42,311 copies; Sunday average for 1907, 69,157 copies; for 1908, 59,200 copies.

THE TIMES has a far larger bona-fide circulation than any local rival. Its industrious, substantial, liberty-loving classes are its steady patrons. The greatest volume of business advertising, the finest display, the best classifications, the largest results to advertisers. Proofs undeniable.

Offices: Times Building, First and Broadway. Branch, 531 South Spring Street.

Entered at the City Postoffice as mail matter of the second class.

Part II: Editorial and Business—City and Country

Editorial Pen Points

So, ho! We are to aviate.

What kind of a Republican do you call a Republican who doesn't vote the Republican ticket?

In the meantime, is Los Angeles itself not to have an entry in the coming airship races?

Put the X rays on your Uncle Aleck and you can see a pawnbroker and a rebater every time.

On the other hand, there are lots of poor men who have also been threatened with assassination.

Another thing that makes Mrs. Stetson's action seem queer is that she gave up a salary of $5000 a year.

You see, Los Angeles wants to stay clean and decent, but it has no desire to pose as a whited sepulcher.

A Cleveland paper speaks of "the blow struck at the Standard Oil Company." Does the Standard know about it?

No matter how many ostrich plumes your wife or your daughters may have, they can always make use of another.

We hope old Count Zeppelin will attend the Los Angeles airship races. Honest, he's the sportiest flyer of them all.

If this were an "Uncle Aleck town" it would be no more like the town it is than a wheelbarrow is like an automobile.

If the present Mayor should happen to be reelected, Los Angeles may as well prepare to take its pleasures sadly.

If when the balloons come to Los Angeles we can put an office in one of them, that's the one Uncle Aleck will want to take.

If Nicaragua is to be spanked it is to be hoped that it will be done with a good strong shingle and not with a feather duster.

We would suggest to Mr. Rockefeller that he put himself in the hands of a few good prize fighters and gun men and quit worrying.

The question in the present political campaign is, does Los Angeles want to play a joke on itself by reëlecting a joke Mayor?

A Goo-Goo city administration for Los Angeles would be as consistent as a metropolitan administration would be for a country village.

Certainly if Uncle Aleck is to be reëlected "Doc" Howton ought to be put back in the Council. The recallers should not play any favorites.

The sooner the election is over the better it will be. The real Christmas spirit is impossible until we have sloughed that dratted thing off.

We learn from an old book on statistics that the first torpedo was made in 1777. It was a black day for the world when that happened.

Uncle Aleck's part in the advancement of this town has been to keep himself steadily fed at the public crib; simply that and nothing more.

We suggest as the open course for flying machines the round trip from the top of Mt. Lowe to the hill back of Avalon on Santa Catalina Island.

It is three weeks and more until Christmas Day, but you would think it was to come day after tomorrow if you peep at the crowds in the stores.

There is not another place in the world over which an airship could possibly feel so much at home as in the calm breezes that fan Los Angeles.

A machine has been perfected which will do embroidery as fine as any done by hand. It ought to make Christmas easier for a lot of women we know.

What the assassins hope to gain by sticking a knife into Mr. Rockefeller it is difficult to understand. It would do them or Mr. Rockefeller or the people no good.

We shall, of course, have aëroplanes, biplanes, monoplanes, dirigible balloons and every kind of flying machine known to history since the days of Darius Green.

If there is also to be an exhibition of balloon busting when we have the aviation week, we suggest that there is no better man in that line than Walter Wellman.

We venture to say that if Alma Bell takes to the stage the frost which attended the lecture performances of Matt Henson will appear like a hot desert wind in comparison. The public is sick of that kind of slush.

A new automatic gun small enough to be carried in the pocket will fire a projectile through a half-inch of steel. Thus protected, no man need fear to meet a rhinoceros.

This is a town that has always gone ahead in spite of drawbacks, and that will continue to go ahead in spite of drawbacks; but what's the use of having drawbacks, anyway?

The argument that Uncle Aleck is responsible for the unparalleled and unprecedented prosperity of Los Angeles is of a piece with all the other "arguments" in favor of his reëlection.

We are pleased to note that there are a great many old-line Democrats in this town who have the decency to vote a straight Republican ticket in preference to the mugwump thing that masquerades under the false pretenses of "Goo-Gooism."

REPUBLICAN SOLIDARITY.

The Times finds that very many Republicans, who always have been rather lax in their regard for party ties and obligations, are in accord with the view of this journal that the only safe course is to support the straight Republican ticket in this municipal election.

Under the operation of our sadly bungled election laws there are but two courses open to the independent voter. These are:

(1.) To vote to give the control of the city to a self-constituted clique of politicians, with private ends to subserve, and presided over by the most unscrupulous and persistent boss that ever guided a political machine in Los Angeles. Or

(2.) To commit the destinies of the city to a government nominated by a convention of 2000 delegates representing the Republican party and responsible to that great and dominant party at the head of which is William Howard Taft.

The Times has often been dubbed "a maverick." It has been an independent of independents. It has frequently bolted the party ticket. It has advocated non-partisanship in local affairs. But in this emergency it unreservedly urges the election of the straight Republican ticket.

There is no non-partisan ticket in the field; there is no chance to vote such a ticket. Opposed to the Republican ticket is the ticket of the most dangerous machine we ever had here. It represents the attempt in State and nation to wrest the control of the Republican party from true Republicans by false pretenses.

The integrity of the great Republican party of the nation is at stake. By a sly breach here and a sly breach there the Free Traders, Populists and southern Democrats, who are trying to steal or break up the party, hope to succeed after all open and general assaults have failed. President Taft sounds the right slogan when he calls for party solidarity as a checkmate for the game of the La Follettes, the Earls, the Lissners and all the plotting insurrectos.

The Times is glad that the great majority of Los Angeles Republicans are ready to heed this call. And it is equally glad to see so many square-dealing Democrats, lovers of fair play, disposed to unite with the Republicans against a boss-controlled Mayor with his "Our Set" collar, his peanut politics, his billy-goat personality and his intolerant A.P.A.ism.

THE ASTUTE "ELDER STATESMEN."

The Japanese government is about to reform its land laws, we are told, in order to permit persons of alien birth to acquire real property in the empire. It is only a little over half a century since Japan, theretofore hermetically sealed against foreign intercourse, opened its ports at all to allow foreigners to visit the country. They have progressed a great deal since then and are now a world power in every sense of the world. They kept their ports sealed against the outside world because in their narrow view they conceived it was for the happiness and prosperity of their own people. They have never become altruistic to the smallest extent, and each concession made has been from the point of view of what was beneficial to Japan. The proposed departure from ancient usages is probably exactly in the same direction as other movements in Japan.

We have no right and no disposition to find fault with this policy. It is after all the inspiration which guides the movements of nearly all nations. The Japanese have been honestly disposed to make an open avowal and therefore must be exculpated from all charge of hypocrisy. But, though this is true, it is competent for us to weigh well the motive at the bottom of this Japanese reform.

The people of the Mikado's empire have been coming to the United States, to Canada and to Mexico in large numbers. The population is congested in the islands and an outlet is sought in many directions. There are multitudes of them in the Sandwich Islands, a country under the American flag. Everywhere they are acquiring property at a very rapid rate. They are frugal as well as industrious, and ambitious to better their station in life, a most commendable trait.

At many points on the west coast of America some misgivings arise out of the acquisition of real property by Japanese people. At Fresno they have possessed themselves of so many parcels of vineyard devoted to the production of raisins that the American operators in the same business find the Japanese difficult rivals to compete with. They are satisfied with very small gains, and their manner of life enables them to be content with a much narrower margin than Americans could survive upon. There has been a good deal of agitation for the passage of laws which would hinder these Asiatics from acquiring real property in the United States. We have had a strong argument in favor of such a course in the laws of Japan which have prohibited aliens from doing what the Japanese are permitted to do here. Here we probably see the motive underlying this proposition to change the existing laws in Japan.

What effect it will have upon the lawmakers of America is not easy to forecast. The number of Americans who will seek to obtain real property in Japan will be less than one to a thousand of the Japanese who will be disposed to invest money in real property in America. The new law may take away from us one argument on our side, but it is not going to settle the controversy. If it is made plain to our State Legislatures and to Congress that it is detrimental to our people, speaking in a broad way, to permit the people of any nation to acquire property in the United States, it will be competent for our legislators to prohibit it.

Of course no law will be retroactive and capable of disturbing vested rights.

MARSHALL STIMSON, HUMORIST.

We see by the Evening Express that Marshall Stimson made his debut as a funny man at a large and enthusiastic mass meeting of eighty-seven admirers of the Goo-Goo statesman night before last. Good! A little humor honeys the acerbities of a political campaign; and when it comes in large chunks, as Marshall is said to have dealt it out, it is even more agreeable. We quote from the Express:

"Mr. Stimson put the blundering reactionary morning organ in a ridiculous position which his audience was quick to appreciate. Some of the incongruous statements were so funny that the audience received them with shouts of laughter."

Orator Stimson certainly had a most discriminating audience. As one reads the report of his masterly effort in the evening Goo-Goo one clearly understands why his appreciative auditors could not restrain their hilarious laughter.

The facetious Stimson first demonstrated that The Times roasted the methods of the city's auditing department in 1905. [Laughter.]

Humorist Stimson then brought out the fact that The Times is now supporting ex-Councilman Smith for Mayor. [Uproarious laughter.]

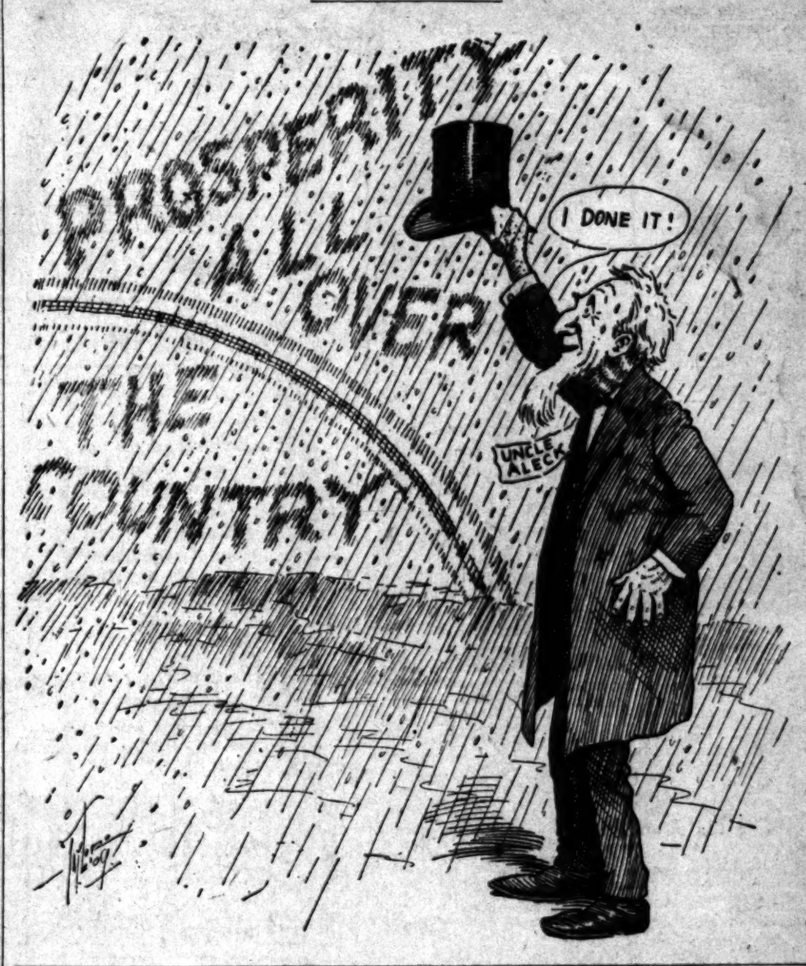
One's imagination easily conjures up the whole jolly scene. Here is the clever comedian, Stimson, portraying The Times as criticising the improper transfers of funds in the auditing of the city's books. [Great and uncontrollable laughter.]

Then the climax—behold the amusing Stimson (while his hearers hold their sides to keep them from bursting with merriment) depicting The Times as now saying that Mr. Smith made a good Councilman. [Boisterous and prolonged laughter and applause.]

Any lover of innocent amusement must wish, as he reads, that he had been there to share in the gayety. The Express gives an excellent description of it. Marshall must have told the Express folks about it himself.

Oh, "Mush," you are almost as funny as Uncle Aleck!

THE RAINMAKER.



AVIATION WEEK AND MR. HUNTINGTON.

There is a real thrill in the announcement that Los Angeles is likely to be given a week of flying-machine exhibitions. It was, of course, to be expected that this city would sit up and take notice of the most fascinating subject in the world at the present time, but it must be confessed that some "nerve" was required to pay the high price necessary to make a week or even a day of aviation possible out here on the golden rim of the world, so far away from the places where airships are in existence.

We see, however, that Mr. H. E. Huntington, who has made so many things possible in Los Angeles, is still in the arena with his old and well-known habits of enterprise. If the airship is destined to put the railroads and the trolley cars out of business it doesn't seem to worry Mr. Huntington to an extent that anybody would notice it. He cabled a deposit of $25,000 across to France the first rattle out of the box, just to show the aëronauts over there that Los Angeles is here with the goods. There is a good deal of sporting blood in this neck of the woods, and "H. E. H." has again given ample evidence that he has his share of it.

With $50,000 already guaranteed by Mr. Huntington, the additional like amount necessary ought to be easy to raise among the people of this kind of a town. A week of airships that are really airships is surely worth while. We have had some mighty exciting times in the old pueblo that Felipe de Neve founded a century and a quarter ago, but we have had nothing that could possibly be compared to what this would be. The thing is to get busy and pull the exhibition off with a whoop. Meanwhile let us say a hearty "thank you" to Mr. Huntington.

UNAPPRECIATIVE GERMANY.

About the most disheartening report to come to the surface in the news of recent days is that the statue of Heinrich Heine which was erected some years ago in his native town in Germany has been tumbled from its pedestal, rolled into the corner of a garden and there left neglected. If the story stopped there it would be bad, but that is only the beginning of the tale. A few friends of the poet have undertaken to rescue the statue and reërect it in some place where it will attract the attention of an admiring world. But, strange to say, in all Germany no city opens its gates to admit the "counterfeit presentment" of the great German lyric poet. Worse and worse, the authorities are said to have raised a very strong hand in opposition to the movement on the part of the few friends who still remember to love that sweetest of all German singers, Heinrich Heine.

Of course there is a reason for it. There is a reason or an excuse for everything. In this case the excuse is the advanced democracy developed in the dead poet's writings. He was a democrat in every fiber of his mind and had but little respect for inherited privileges or prejudices. Nobility was his pet abomination until he reached royalty, and then his sarcasm cut more deeply and his irony was all the more bitter. This does not quite explain it. Germany is honeycombed with democratic principles. It is strange that Germans of these views do not come to the support of a man who sowed the seeds of their principles so successfully in the past.

We suggest to Americans, especially those of German birth or German descent, who have learned here to appreciate truly the value of democratic forms of government and are so deeply imbued with democratic thought, that they come to the rescue of the memorial of the dead singer. There is possibly no more fitting spot on earth for the placing of a monument to this great poet than Los Angeles. Heinrich Heine was of the old Jewish stock in his racial blood. No doubt many of this race would be glad to contribute a little toward bringing the statue of Heinrich Heine to some place in America and setting it up in proper dignity.

Inconsistency, thou art a joke! Look at the Evening Express railing at the Liberal Alliance for supporting "Doc" Howton, the same Howton whom the Express itself brought out, supported and glorified as the original recall Councilman. Huh! If Marshall Stimson, humorist, really wants to make a hit he should resurrect some of those fervent eulogies of Howton from the Express files.

BURDETTE'S COMMENTS.

IX.

Prison Maladies; Cause and Cure.

Mr. Abraham Ruef, a well-known statesman and financier of San Francisco, now resident of one of the unpopular resorts of overworked statesmen who dabble in finance, not wisely but too well for the good of the State, and of financiers who mix in politics with the same proportions of wisdom and good, has expressed his desire to leave his sanatorium and try the open-air treatment for a change. Twenty physicians—count them—twenty—are agreed—note that, twenty consulting physicians in harmony concerning the condition of the patient and the proper treatment for his maladies. What mighty reagent can have been used to secure this simple precipitate? Surely the snow-white dove of universal peace has alighted on the mortar, and her next perch will naturally be the siege gun. The twenty physicians agree that "incarceration in the County Jail" is slowly and surely, none too slowly but all too surely, undermining the health of the distinguished and partially extinguished invalid. It seems that the heart, lungs and eyesight of the recluse have been affected. If he is not permitted to take the out-of-doors treatment for which he longs, it is very probable that he may be prostrated with some disease, and even be obliged to call in a doctor.

A County Jail is not builded primarily for a sanatorium, although, in passing, the Los Angeles County Jail is known to be one of the cleanest institutions of the Best County Ever. And remarkably healthful. The death rate is far lower than that of the county almshouse and hospital, which are, in a measure, sanatoriums. The Black Maria, with its healthy cargo of husky, clever, active, but misguided guests, is much more in evidence at the jail than is the hearse. Men who are at all careful of their health, however, avoid the County Jail. The plain, substantial food, served at regular hours and in carefully measured quantity, disturbs the pampered stomach accustomed to dine long and late from French menu cards, irrigated from preliminary cocktail to the post-prandial cordial, with wines of the finest. It requires some little time and use to accustom the aristocratic stomach to the sudden change from dinner to chuck. Be it ever so wholesome, chuck is nothing but chuck.

But men are not sent to jail for their own health. As a rule they are sent into this quiet retirement for the health of the community of which they have been, in too diversified ways, active members. The public is not hard-hearted. It is rather tender-hearted. A professional murderer has to kill several members of a juror's family before that sympathetic citizen will vote to impose the death penalty upon him. And if a man has lived an unappreciated life, uncheered by applause or sympathy, he need only shoot his sister and brain his wife with an ax to see his cell a-bloom with bouquets of lilies and roses, sent by sappy mortals—"no sex bein' named, no offense can be took"—who have tears on tap for everybody connected with the tragedy except the victims. There is always an abundance of sympathy and pity for the evil-doer.

But the community has some sense and a little wholesome selfishness. It pities the burglar who made a misstep—for even the cleverest of us, with the best intentions, are liable to make mistakes—in his burglaring, and had a couple of bullets placed in hot storage in his person. None the less it insists that the trained nurse who watches at his bedside shall be chaperoned by a detective. We want the poor burglar to get well. Hence the nurse. Well enough to stand the journey to the penitentiary. Hence the detective. When he has been in prison long enough to have recovered his health, and is sufficiently well to resume his financial operations, it is quite the thing for him to reach out a hand to feel the throbbing of the public heart. But when he assures us that his sight is failing, and that if he remains in prison a few months longer he will be totally blind, the community is apt to say: "Well, that's a sad thing for the burglar. But let us not act hastily upon the assurance of the criminal, and the 'twenty'"—again count them—"twenty physicians of repute who declare that he is going blind. The reason we sent him to prison was because he 'went it blind' when he was in our midst. Let us wait until the prison doctor makes affidavit that he has gone totally blind. Then we can let him out and still continue to sleep sweetly in our beds o' nights. Whatever else he may do when once more the freedom of the streets is his, he will not burgle."

It is a harsh thing to permit a man not under sentence of death to die in a prison cell, with the taint of his offense on his life and name, even as he passes into the presence of the Judge of all the earth, whose pity is tenderer than his justice is severe, and for whose mercy daily the best of men and women implore. But when a man retains the most robust health during all the days of his pilfering, thrusting his lusty arms up to the elbows into the municipal treasury, and only goes into a decline when he is placed where there is nothing to steal, we are apt to be just a little bit suspicious that what ails him is liable to receive a miraculous cure on the first day of his liberation.

There are so many diseases like a boy's stomach ache that begins half an hour before school and passes away with the permission to remain at home, and gives place to the most exuberant health on the way to the swimming hole. The opinion of twenty—once more number the array of medical experts—twenty physicians could be secured to the effect that the boy's stomach ache is of the same type of disorders as his mother's headache and his father's old wound, which he received in the muscles of both legs while beating the record from Bull Run to Washington, which recur so regularly about church time Sunday morning.

Let us be sympathetic, but let us be certain. The maladies which affect Mr. Ruef. The earthquake in San Francisco, it will be remembered, was followed by an agonizing nausea a few years ago. It was the case of Mr. Abraham Ruef and Mayor Schmitz. And now in a few weeks the country has been astonished to see the city recover its former condition of robust health and cry for more of the things that made it sick, after the manner of the dog mentioned in scripture. It seems that Mr. Ruef cannot participate in this joyous recovery if he remains in prison. He must needs have the free street with unbounded opportunity, and the same old pull and combination "open sesame" to the strong box of the county, in order to resume the old activities.

Let's try a continuance of the prison cure until we can secure the opinion of, say, forty physicians. tellers will please count them—forty physicians agreement upon the prisoner's malady and the advisability of the out-of-doors treatment. The name of a rather well-known practitioner, Dr. Mayor Taylor, is suggested as the first member of the medical commission.

Gift-worth Art Goods

A stroll through this Art Dept. will be productive of more suggestions than a week's study at home.

Our hand-made ribbon and cretonne novelties make acceptable gifts for men, women and children.

Among those buyable at 75c are—

Neckwear boxes, glove boxes, handkerchief boxes, collar bags, hat pin holders, hair receivers, needle cases, recipe books, etc.—all artistic and useful.

A big importation of silver-mounted glassware, consisting of vases, fern dishes, salad bowls, salt cellars, bon bon dishes, candlesticks, fruit bowls, oil and vinegar cruets, etc., all priced surprisingly low.

Dresser scarfs, 18 inches wide by 36, 45 or 54 inches long with German Cluny lace edges and insertions—also 30-inch center pieces to match—all priced $1.25 each; well worth double.

(Third Floor.)

Musical toys

An extensive showing of imported musical toys

Chimes, 75c to $2.
Zithers, $1 to $4.50.
Violins, 75c to $4.50.
Bells—8-note keyboard—25c to $1.50.
Music boxes—one record included—$1 to $6. Records, separately, 15c to 35c.
Organs, 25c to $2.50.
Pianos, $1.50 to $9.50.
Musical horns, 35c to $1.
Banjos, 35c.
Accordions, 25c to $1.25
Musical horns, 25c to $1.75.
Musical drums, $1.25 to $1.75.
Harmonicas, 25c to $1.

(Fourth Floor. Take Rear Elevators.)

Rare values in bedding

Winter only just begun, and here are price-cuts that you might count yourself lucky to get in midsummer!

$6 heavy white wool blankets, eleven-quarter size, with wide silk bindings, $4.50.

Eleven-quarter blankets of fine white wool with just enough cotton in the warp to prevent shrinking when washed—$6.50 values, now $5.

Eleven-quarter blankets of fine white wool—absolutely all wool—with three-inch silk binding, trebly stitched, cut from $12.50 to $9.50.

Eleven-quarter blankets of fine white wool with about 5 per cent. cotton in the warp to prevent shrinking—$12 and $13 grades, $10 a pair.

Fine heavy white wool blankets in extra large size—80x90 inches—specially priced at $12 a pair.

Standard size comforts filled with excellent quality down and covered with best grade sateen in light dainty colorings—$8 values—now $6.

Same kind in size 6x7 feet, cut from $10 to $8.

Standard size comforters, filled with one sheet of carded lamb's wool, covered with fine silkoline and faced with 6-inch border of silk, specially priced at $5.

Floss, felt and hair mattresses of the best grade—our own make, so we know what they are.

Bed pillows filled with chemically cleansed feathers—and nothing BUT feathers—no dust and no odor—$2 to $6 a pair.

Silk sale continued
$1.25 to $2 fabrics at 95c

NEW silks, mark you—weaves and colors that are now in the height of their popularity.

Shantung silks, for tailor and Trotteur suits.

Tussah silks, in the weaves that have won the highest favor—Motora, Cotele, Bazantine, Swivel, Shantungs, in self-colored figures and stripes, checked Motora, Rajahs, Mirage, etc., ranging in width from 22 to 32 inches.

None sent C.O.D. or on approval.

THE WORD CROWN
stands for all tha tis best and most desirable in piano and player-piano construction. In every respect—tone, action, case design and finish the Crown Piano and Combinola player piano are second to none, yet the prices are lower than on other pianos of high quality. And you can buy them on easy terms to suit your convenience. Let us talk piano with you. With our low rent we can save you money.

VISIT OUR FOURTH FLOOR CAFE—OPEN FROM 11:30 TO 5:30

Our Fourth Floor Cafe

will prove a splendid meeting place for you and your friends. Make use of it; take luncheon (11:30 to 2:30;) secure a cup of tea, coffee or chocolate in the afternoon, with a salad, sandwiches or light luncheon.

Men will appreciate the Men's Grill, where a splendid a la carte luncheon is served daily; smoking permitted.

Use either the store entrances, or the exclusive entrance at 204 South Broadway—through the B. F. Coulter Building.

Inexpensive Remembrances

Those friends and acquaintances whom you wish to remember with some inexpensive sort of a gift may be very appropriately presented with something from the following:

Christmas cards, holiday seals, boxes of stationery put up in clever boxes. Greetings in book form, or with envelopes to match; Holiday Thoughts, with envelopes to match; dainty calendars, with Beatitudes and like sacred quotations upon them; hand decorated place cards, bon bon boxes, pin trays, desk sets, memorandum books. Dainty and practical receipt books, address books, memorandum books, Waterman's Ideal Fountain Pens, post card albums, photograph books, mottoes, telephone desk pads, and brass mounted letter openers, ink wells, blotters and desk sets—these are but a few from scores of things which will serve to bring you pleasantly to your friends' minds. And prices present an unusually wide range, too.

Handkerchief Novelties

If you want something off the common for your friends, by all means see these handkerchiefs. Travelers, and those who have shopped in town, tell us that we are the only store hereabouts to show some of them:

Hand embroidered handkerchiefs, in exclusive corner patterns, at fifty cents to two dollars and higher.

Handkerchiefs with colored borders are not only new, but very stylish; they are done on the finest hand-loom linen; shown in all-white, too.

Glove handkerchiefs are extremely fashionable now in European fashion centers; we show them first here; your friends who've been abroad will appreciate these.

Real California Indian handkerchiefs and laces are on display in our "Indian Booth," near the Handkerchief Section.

Gifts Bought Here, Attractively Boxed

Why not have such little extra things as these when you purchase gifts—they cost nothing additional, and add much to the value of any remembrance:

We enclose all glove purchases (of $1.50 or higher) in holiday boxes, with a Christmas greeting, free of charge.

We enclose handkerchiefs in boxes for mailing, with a Christmas card, without charge. Boxes of three, at 50c, 75c and $1.00.

And with the three for a dollar handkerchief purchases, we will, if you like, present you with a real sepia tinted box, done with pen and ink in poppy and other designs, instead of the other.

These boxes are artistic in themselves—white moire, with the name "Coulter" upon them; California poppies, holly, violets and like flowers done in natural colors.

And with ribbon purchases you may have gift boxes and cards, also, without extra charge.

For smaller purchases (fifty cents or less) we give a neat grey envelope, ready for sealing with a Christmas seal, which we provide for the purpose.

We are sole Los Angeles agents for two fine linings—Grow Grain taffeta, which sells for thirty cents; and Marvel Silk—a fine percaline lining, also thirty cents a yard.

Gift Hosiery Here

A gift of hosiery may be classed among the things that a woman will certainly be pleased with. Selection here means added satisfaction, because of the invariably high quality of the merchandise:

Novelties are here—silk in gold color, jet embroidered; white and light colored hosiery, self embroidered; plain black at $1.50 or more—either all silk, silk with lisle feet, or with lisle feet and garter top. Fancy embroidered silk stockings in all the prettiest patterns and, of course, the more practical sorts as well. What, for example, will be more acceptable than a box of Holeproof Hosiery, accompanied with a six months' guarantee? We enclose hosiery purchases in gift boxes without extra charge.

Smart Coat Sweaters

Every variation of style in modish sweater coats is here, from the short inner knitted vest to the extremely long motor coat. And what will be more acceptable for a gift?

Certain new styles are shown in plain mannish weaves and cuts, with pockets in diagonal effect; fancy weaves, too, are very pretty; a number of the cleverest styles have contrasting bands of color on collar, cuffs and pockets; some are solid colors; single and double-breasted models, collarless and with collars—in short, the cream of the very best styles, here, at ..... $2.50 TO $12

BOLD SWINDLE.

TOUCH AND GO; A NEW GAME.

Local Bank Is the Victim of Clever Forgery.

Attorney's Name Is Signed to a Large Check.

Way Is Paved for Coup by Slick Strangers.

Attorney J. C. Palen and the Home Savings Bank are victims of one of the most complicated and cleverly executed forgeries which has been brought to the attention of the authorities in months. The offense was exposed yesterday, when complaints against Robert B. Stitt and James S. Arata were filed in Justice Williams's court.

The pair have fled from the city, and the police have little hope of catching them. Who they are, where they came from, and whence they have gone is a matter for speculation.

A man representing himself as an attorney, and giving his name as Robert B. Stitt, called on Attorney Palen in his office in the Bullard block on November 27. He explained that a second-hand dealer by the name of Kornoffsky wanted Stitt substituted for Palen as attorney in a case pending in the Superior Court.

OPENING WEDGE.

Palen readily assented, drew up articles of substitution, and gave them to Stitt. He remarked that his fee was $25 for what he had already done in the action.

Two days later Stitt returned and said he had dismissed the case. Palen advised him that Kornoffsky had on file a bond for $50, and advised him to draw it down. He did so. The two men went to the Home Savings Bank, where Palen had an account.

Stitt turned the check over to Palen, who deposited it. He then gave Stitt a check for $25 and a receipt for $25, showing his charges had been satisfied.

The next day Stitt went to Palen's office and introduced a companion as James S. Arata. He stated that the latter was his client, and was being sued in the Superior Court. Stitt stated he had to go to San Diego on urgent business, and desired that Palen should handle the transaction. The attorney agreed.

Arata gave Palen a check for $480, drawn on the International Savings and Exchange Bank. The recipient of the instrument deposited it in the Home Savings Bank.

The following day Stitt is alleged to have gone to the same bank and presented a check for $406.25, which was signed with Palen's name. As he had been introduced by the apparent drawer of the check, on a previous occasion, he was given the money.

CHECK RETURNED.

One day later the Arata check was returned by the International Savings and Exchange Bank with the statement that the person who signed the paper had no account.

This left Palen's account without sufficient funds to meet the check presented by Stitt. The lawyer was immediately notified, and went to the bank. He declared the instrument bearing his name was a forgery, although he admitted that the signature was a clever imitation.

When the authorities were notified they took descriptions of the two alleged crooks. They could not find that any man by the name of Robert B. Stitt had ever had a right to practice law here.

The complaints filed with Justice Williams charge Stitt with forgery and Arata with having passed a worthless check.

The police declare that the game was without parallel, and are surprised that the men did not try to work it for a larger sum than they did.

SHEEP-LIKE.

GOES TO JAIL MEEK AS LAMB.

BLOODTHIRSTY TALK OF HORSE THIEF A BLUFF.

Would Make Willie Boy Look Like a Pink Tea Johnnie, But When He Faces Deputy Sheriff All His Fierceness Oozes—Admits Charge Against Him.

Sam Parrasoni, a Porto Rican, read the stories of the chase after Willie Boy, the Indian bandit, and told his friends that if the occasion ever arose he would kill a score or more officers rather than submit to arrest.

Yesterday morning when Deputy Sheriff Sepulveda stopped him at Fifth and Spring street and told him that he had better go along quietly or else take a chance of instant death, the fury oozed out of the would-be bad man and he went to the County Jail without a murmer.

Parrasoni spent a portion of his early life in the Ione Reform School. He was charged at the time with having hit a companion on the head with a bottle. The injured boy nearly died from the wound and Parrasoni remained in Ione until he had reached the age of 21. He left California and spent several years wandering about the country, returning here a few month ago.

He was given employment by H. W. Green of Sixty-second street. Green owned a fine horse and saddle. Parrasoni admired the animal and the outfit very much. He was allowed to ride the horse of several occasions. Because of his fierce talk and his threats to do as Willie Boy had done, Green thought it would be best to discharge him.

Two weeks after the man left the horse and saddle disappeared. Green, fearing that Parrasoni might return and cause further trouble, lived in constant alarm, but at last carried the story of the theft to the officers. Sepulveda was put to work on the case. He located the horse at Newhall. It had been purchased by a man named Yorbe. The saddle had been sold to another man of the neighborhood.

Sepulveda had a meager description of Parrasoni. Yesterday morning he was sent out on another case. He was standing at Fifth and Spring streets when a man who appeared to be a Mexican approached. Sepulveda sized him up and found that the description of Parrasoni fitted. He had heard of the man's boasts to exterminate officers and he approached him carefully. Instead of drawing a gun the suspect merely denied his identity. He was searched and then taken to the County Jail.

After denying the charge against him for some time Parrasoni finally struck a dramatic pose, tore a handful of hair from his head and cried: "I did it, I did it, take me away from here."

A charge of grand larceny was filed against him in Justice Ling's court.

EVENTS IN LOCAL SOCIETY.

RARE flowers and ferns sent by friends were used to brighten the home of Mrs. John E. Stearns, No. 27 St. James Park, who were entertained with an elaborate party in honor of the début of her charming young daughter, Miss Katherine Stearns. In the receiving line with the hostess and her daughter were Mrs. E. P. Clark, Mrs. Charles Modini-Wood, Mrs. John G. Mott, Mrs. Edwin S. Rowley, Mrs. E. H. Moore, Mrs. Henderson Hayward, Mrs. William Irving Hollingsworth, Mrs. A. J. Salisbury, Mrs. Herbert Martin Bishop, Mrs. Erasmus Wilson, Miss Grace Rowley, Miss Katherine Clark, Miss Evelyn Kennedy, Miss Marjorie Utley, Miss Julia Pierce, Miss Elizabeth Wood, Miss Florence Wood, Miss Annette Ives and Miss Cora Ives. Music was furnished by a Venetian quartette.

Miss Hole Presented.

Miss Agnes Hole was introduced yesterday at a large reception presided over by her mother, Mrs. Willitts J. Hole of West Sixth street, who entertained several hundred friends at the family home. Mrs. Hole wore an imported creation of yellow satin veiled in black marquisette, and Miss Hole wore white chiffon cloth over satin, and carried white orchids. In the drawing-room, which is furnished in lavender, and where the guests were received, garlands of violets and great mounds of the same were used in decorating. Elsewhere in the home, chrysanthemums matching in color the different rooms were attractively displayed.

Fred McComas and Miss Kie Christian sang several selections, and an orchestra played during the afternoon. Mrs. Hole and Miss Hole were assisted in receiving by Mrs. William Irving Hollingsworth, Mrs. George Bailey, Mrs. Henderson Hayward, Mrs. George H. Kress, Mrs. E. C. Dieter, Mrs. Lewis Clark Carlisle, Mrs. Fred S. Lang, Mrs. A. C. Smithers, Mrs. W. H. Jamison, Mrs. E. C. Bellows, Mrs. W. W. Orcutt, Mrs. J. B. Millard, Mrs. W. L. Jones, Mrs. Nicholas E. Rice, Mrs. Valentine Peyton, Mrs. R. J. Waters, Mrs. Reuben Shettler, Mrs. Robert Marsh, and Mrs. W. S. Cross.

Have Returned.

Mr. and Mrs. J. Roy Pridham, No. 4665 Pasadena avenue, have returned from an extended visit in the North.

Just Returned.

Mr. and Mrs. Lee A. McConnell have just returned from a two months' trip through the North and East. Among places visited were Portland, Seattle, Vancouver, St. Paul and Chicago.

Large Tea.

Mrs. Walter Leeds of Berkeley Square entertained about 250 guests yesterday afternoon with a tea party. Orchids graced the dining-room and an artistic profusion of various colored blossoms were used in the drawing-room, den, library and living-rooms. A programme of catchy airs by Arend's orchestra was a feature of the afternoon.

Mrs. Leeds was assisted in entertaining by Mrs. J. A. Graves, Mrs. Hugh Stewart, Mrs. Granville MacGowan, Mrs. I. N. Van Nuys, Mrs. Walter Newhall, Mrs. Ezra Stimson, Mrs. Hancock Banning, Mrs. J. G. Mossin, Mrs. Henry W. O'Melveny, Mrs. Cateesby Thom, Miss Louise Burke, Miss Annis Van Nuys, Miss Florence Clark, Miss Virginia Nourse, Mrs. Jefferson Chandler, Mrs. W. S. Hook, Jr., Mrs. E. Avery McCarthy, Mrs. Henry Lee, Miss Inez Clark, Miss Salley Utley, Miss Katherine Graves, Miss Grace Mellus, Mrs. Chester Montgomery, Mrs. Frank Reilley and Mrs. Nat Wilshire.

At Del Monte.

Mr. and Mrs. Joseph Simons are guests at Hotel Del Monte.

Pretty Wedding.

A pretty wedding was solemnized recently at the home of Dr. M. E. Sykes, No. 126 Ohio street, when Miss Kittie M. Boggs and Albert M. Blakesley were married. The bride wore a gown of white lace and Brussels net, and carried a shower bouquet of white carnations. Miss Jennie Ewings sang "O Promise Me," and little Sabrina Sykes carried the ring in a pond lilly. The home was attractively decorated. A canopy of greens was erected from which hung a large wedding bell of flowers and tiny electric bulbs. A pink and green color scheme prevailed in the dining-room.

Merry Evening.

Mr. and Mrs. Charles S. Mann delightfully entertained the Mountaineers of Bungalow Land recently at their home on Western avenue. Ropes of Japanese lanterns were used to light the garden, and hanging baskets of ferns and flowers were used indoors. Dancing and cards were enjoyed, and later supper was served.

Prizes were won by Mrs. E. Eldridge and Dr. Small. Los Angeles guests included Mr. and Mrs. Arthur Copps, Miss Frances Blake, Mrs. Eldridge, Miss Mae Butterworth, E. S. Butterworth, Thomas Powell, Frank Mannand, Maurice Sissons.

Guest of Aunt.

A. L. Hill of New York is the guest of his aunt, Mrs. Leland Norton. Mrs. Norton will chaperon a party for the week end at Catalina in honor of her nephew.

At Levy's

Mr. and Mrs. Stirling Booth entertained one evennig this week with a theater party at the Orpheum, followed by supper at Levy's, in compliment to Miss Hazel Bryson and Miss Nell Lockwood, who are playing there this week. The table was decorated with violets, and covers were laid for: Mr. and Mrs. Frank Bryson, Mr. and Mrs. C. A. Boyle, William Boyle, Mr. and Mrs. H. Crohn, Mr. and Mrs. Bagg, Mr. and Mrs. Leo Youngworth, George Cline, Mr. and Mrs. Peters, Dr. and Mrs. Jack McGarry, Miss Katherine Kurtz, Miss Peycke, Frances Duncan, Mr. and Mrs. Dick Ferris, Edward Maier, Mrs. J. Lockwood, George Ragland and Mr. and Mrs. Bernal Dyas.

To Receive.

Mrs. Arthur Letts, with her daughters, the Misses Edna and Gladys Letts, Hollywood, will be at home to friends Tuesday afternoon next and the first Tuesday in each month thereafter during the winter.

Dancing Party.

Mrs. W. N. Crandall, No. 679 Hoover street, entertained last evening with a dancing party in honor of the chorus of graduates who recently played in "Professor Napoleon."

Dinner Party.

Mr. and Mrs. Charles Lee Maguire of Brooklyn, N. Y., who are spending the winter in this city, gave a dinner recently at Levy's. Mr. and Mrs. Maguire's guests were Mr. and Mrs. Ed Lockhard, who are also spending the winter in this city; Mr. and Mrs. W. P. D. Hamon, formerly New Yorkers, now residents of Los Angeles. After the dinner Mr. and Mrs. Maguire took their guests to the Mason Operahouse, where the party witnessed the performance of "A Yankee Prince."

WOMEN'S CLUBS.

"Making a Newspaper."

John S. McGroarty of The Times editorial staff, and author of two books of delightful poems, "Just California," and "Songs Along the Way," spoke before the Woman's Club of Hollywood yesterday afternoon, choosing for his subject, "Making a Newspaper," which, handled in the speaker's graceful style, proved an entertaining topic.

The members of the club and their guests, were invited by Mr. McGroarty to accompany him in the day's work of getting out the paper; to imagine themselves as a living, working part of the task, taking their places as editors, reporters, "copy-choppers," printers and stereotypers, filling every position necessary for the publication of a great daily, until the papers are in the hands of the newsboys.

In this way the audience of women was given what really amounted to a practical lesson in journalism. They became intensely interested from the very start. In imagination they hurried away on their assignments, to conventions, prize fights, sermons, theaters and political meetings, doing "night and day police," hurrying to railway wrecks, editing telegraph as it came hot over the special wires from the four corners of the earth, setting up the copy at the linotype machines, reading the proofs, making up the forms, and performing the multitudinous tasks connected with getting the issue on the press.

The speaker told many incidents of newspaper life, gleaned from his own experience, as well as that of others in the profession, stories humorous and pathetic. He pictured vividly not only the making of a newspaper, but the making of a newspaper man, describing the qualities necessary to success in this work, and dwelling on the loyalty that distinguishes people who make newspapers, and the wonderful strength and spirit they put into their work.

Mr. McGroarty's lecture was invited by the club from a sense of curiosity among the members, to have explained to them the mysteries of a craft that plays so important a part in the daily lives of the people, but of which few outside the profession really understand. The result was a happy one, for the audience was both instructed and charmingly entertained.

Mrs. R. P. Johnson, presided at the meeting in the absence of Mrs. J. J. Steadman, who is ill. Hostesses at the meeting were Mmes. Will Thilenius, Robert Young, W. H. Townsend and George M. Williams.

Wednesday Morning Club.

Excellent papers, treating of the characters of Anthony and Cleopatra, were read by members of the Shakespeare section of the Wednesday Morning Club, at its meeting yesterday. Mmes. W. C. Mushet, Firgel, Davis, Tilley, Kincaid, Cowles and Dr. Davidson taking part in the programme. At noon a Shakespeare luncheon was served, the place cards being dainty affairs, containing Shakespearean quotations. In the afternoon a programme of music, songs and addresses was given.

Ruskin Art Club.

Mmes. J. E. Reckard and D. Murphy were in charge of the programme of the Ruskin Art Club at its regular weekly meeting held yesterday morning in the Woman's Club House. The interesting study of Spain, which is engaging the club through this season, was continued. "The Caliphate of Cordova," was the topic yesterday.

ENTERTAINERS OF ROYALTY.

Stringed Quartette from Austria Will Play German Compositions for Patrons of Local Hostelry.

Adolph Tandler, composer of several symphonies and an opera, accompanied by Rudolph Kopp, Axel Simonsen and Alexander Karnbach, registered yesterday at the Alexandria from Vienna, Austria. They compose the Viennese Artists' Quartette of stringed instruments, and will give concerts at the Alexandria during the coming winter months.

Mr. Tandler, the leader, has achieved considerable fame in Europe. He has received many handsome gifts from members of royal families. With his associates, he was called upon to play at the family dinner of Kaiser Wilhelm of Germany, at which King Edward and other members of the English royal family were present. The playing brought about three engagements in succeeding years for the annual dinner given at Friederichshoff, near Kromberg, in Germany. Tandler has also played several times for Emperor Franz Josef of Austria.

The latest composition of Herr Tandler is a dramatic opera, "Johanna," which is being tried out by Weingartner, the famous director of the Viennese Opera. Shrould it prove a success, Tandler will bring it to America for reproduction.

The visit of the quartette to Los Angeles was arranged by Joseph Reichl, manager of the Alexandria. The selections to be played here, will consist chiefly of Strauss folk dances, and other typical compositions by German composers.

John G. A. Leishman, the newly-appointed American Ambassador to Italy, arrived in Rome yesterday.

IRIS

Down comes the can of IRIS COFFEE three times a day in many homes.

If there is any one fault to be found with IRIS COFFEE, it is the fault of its being TOO good. When you begin serving IRIS COFFEE you have got to get a larger coffee pot. The old coffee pot will be too small. It takes two or three cups of IRIS COFFEE to satisfy one person. Just because "Iris" is so good.

½-Pound Packages, 20c. Pounds, 40c. 3 Pounds, $1.00.

All Marvel's Fur Hats At Sacrifice Prices

FOR the balance of this week, we will sacrifice all our fur hats—both trimmed and untrimmed at decisively reduced prices.

This is a splendid opportunity to buy a stylish fur hat—and almost at the beginning of a fur hat season. Our display of these fur models is the most comprehensive in the city—and includes all the very latest and most exclusive styles.

$4.50 FUR HATS	$3.00
$6.00 FUR HATS	$4.00
$7.50 FUR HATS	$5.00
$9.00 FUR HATS	$6.00
$10.00 FUR HATS	$7.00
$12.00 FUR HATS	$8.00
$15.00 FUR HATS	$10.00
$18.00 FUR HATS	$12.00
$20.00 FUR HATS	$13.50
$25.00 FUR HATS	$16.50
$35.00 FUR HATS	$25.00
$40.00 FUR HATS	$27.50
$50.00 FUR HATS	$35.00

While the sale will be continued throughout the week—providing the hats are not all sold before then—earlier selection will be broader—and it may be that if you delay coming—the very hat you want will be gone.

THURSDAY, DEC

ON DECK.

FIRST FLIERS TO GET HERE

Knabenshue and Willard Arrive Well Equipped.

Bring Their Aeroplanes and Three Dirigibles.

Frenchmen Will Soon Start for Los Angeles.

Roy Knabenshue and Charles F. Willard, the eastern aviators, arrived in Los Angeles yesterday afternoon bringing two aeroplanes and three dirigibles, in preparation for the Aviation Week events. Both are enthusiastic about the prospects for the international carnival next January.

They have been at every aviation event

Roy Knabenshue (left) and

who reached Los Angeles yesterday in dirigible balloons to take part in

"Our attempted," said Willard last night, "and nothing so ambitious has been tried as the Los Angeles events. I am anxious to have a try against the Frenchmen, you are bringing here; I think we will uphold the honor of America."

The French syndicate will start from Paris not later than the 25th inst., according to a cablegram sent to Paris by Edmund Cleary, manager for the French syndicate, containing the following statement:

TREMENDOUS COST.

"Except your proposition received and guarantee the appearance of Calhan, Mescarrol, Mafeson and other mechanicians, with two 'cross-channel' Bleriot machines and two of Calhan's own machines.

"I know where I stand, I will have to uphold the big exhibition and have you daily of the progress here. I don't think you quite realize the enormous cost of getting this show over. Calhan alone costs me $160,000 for the American tour—actual cost—and no 'show fake'—therefore I am deeply involved.

"I must get other aviators probably on more fortunate terms with an equivalent arrangement, half down here and half on the appearance and fulfillment of the contract at Los Angeles. I advise us to these possibilities and will cooperate in every way possible to make your meet a great success. We sail from Havre on the 5th, December 5."

A cablegram was received from Glenn Curtiss yesterday, assuring his attendance with his Curtiss machine at Mineola last July.

INTEREST EVERYWHERE.

Willard and Knabenshue say that a great interest in the Los Angeles meet has been aroused in the East by the proposition to raise $100,000 for a winter aviation contest was not believed at first, and when the announcement was made that it was an international importance began to pay attention to it.

The novelty of aerial navigation in winter has especially attracted attention to the local plans.

"Even in the East and on the Continent all the aeronautical gossip is about Los Angeles," said Willard. "It is the first big thing of the year, and the first chance to break records. Your efforts to have contests an international fixture have greatly stimulated interest. The French aviators are naturally anxious to show Americans what they can do, and the representatives of this country are as eager to meet them.

"I am convinced from the flights I have made that there is no difficulty in defending my honors. Willard will surpass for he has made some wonderful flights this summer."

A purse fund of $25,000 was cabled from Paris bank yesterday afternoon in accordance with the agreement with the French syndicate. Roy Knabenshue, who has been flying in Europe, who has been flying in Rooseby, who has been flying in the summer, is on his way to Los Angeles and will join the aviation

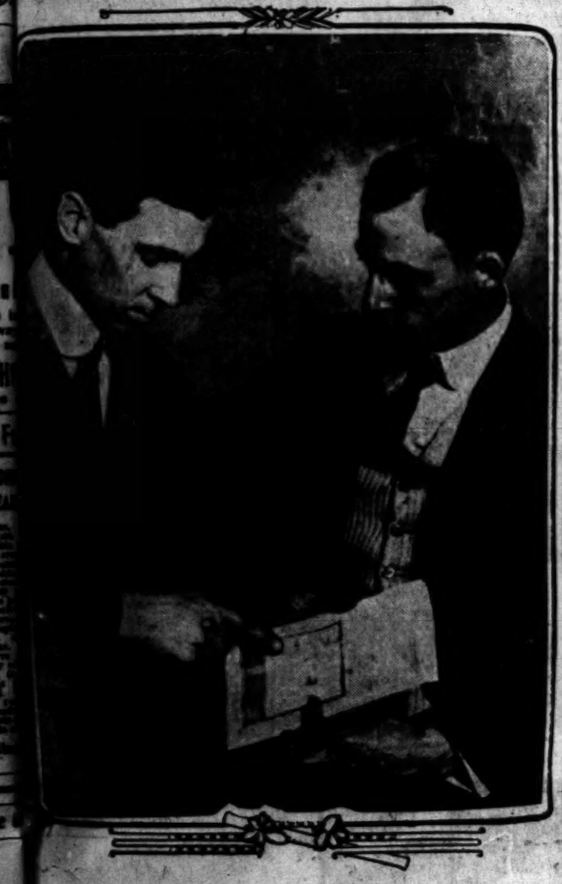
Knabenshue and Willard Are Well Equipped.

Bring Their Aeroplanes and Three Dirigibles.

Frenchmen Will Soon Start for Los Angeles.

Roy Knabenshue and Charles P. Willard, the eastern aviators, arrived in Los Angeles yesterday afternoon, bringing two aeroplanes and three dirigibles, in preparation for the Aviation Week events. Both are enthusiastic about the prospects for the great carnival next January.

"I have been at every aviation event



Roy Knabenshue (left) and Charles P. Willard, aviators who reached Los Angeles yesterday with three aeroplanes and three dirigible balloons to take part in Aviation Week contests.

far attempted," said Willard last night, "and nothing so ambitious has been tried as the Los Angeles events. I am anxious to have a try against the French men you are bringing over here; I thisik we will uphold the honor of America."

The French syndicate will start from Paris not later than the 25th inst., according to a cablegram sent to Monsieur Perzis by Edmund Cleary, manager for the French syndicate, containing the following statement:

TREMENDOUS COST.

"We accept your proposition received to-day and guarantee the appearance of Paulhan, Mescarrol, Malsson and their mechanicians, with two 'cross-channel' Bleriot machines and two of Farman's own machines.

"You know where I stand. I will do all to uphold the big exhibition and I can see daily of the progress here. I don't think you quite realize the enormous cost of getting this show here. Paulhan alone costs me $160,000 for the American tour—actual cost. No 'show fake'—therefore I am involved.

"I can get other aviators probably on more fortunate terms with an equivalent engagement, half down here and on the appearance and fulfilling of the contract at Los Angeles. I advise as to these possibilities and cooperate in every way possible to make your meet a great success. I sail from Havre on the 4th of December 5."

A telegram was received from Glenn Curtiss yesterday, assuring his attendance. The aeroplanes brought by Roy Knabenshue are the first machines to arrive on the coast. Willard has made 200 successful flights with his Curtiss machine since he met at Mineola last July.

INTEREST EVERYWHERE.

Willard and Knabenshue say that the great interest in the Los Angeles meet has been aroused in the proposition to raise $100,000 for the winter aviation contest was not received at first, and when the announcement was made that it was of international importance there was a disposition to pay attention to the matter. The novelty of aerial navigation has especially attracted the attention of the local plans.

"Both in the East and on the Pacific coast the aeronautical gossip is about Los Angeles," said Willard. "It is the first big thing of the kind, and the first chance to see Americans. Your efforts to stage an international impression are greatly stimulated interest. The French aviators are naturally anxious to show Americans what they can do, and the representatives of the country are as eager to meet them.

"Aside from the flights I feel sure Willard make that there will be no difficulty in defending the cup. Willard will surely win, as he has made some wonderful flights this summer."

A check for a fund of $25,000 was certified at a local bank yesterday afternoon in accordance with the agreement with the French syndicate. Roy Knabenshue, who has been flying with Knabenshue in Europe, is on his way to Los Angeles, and will join the aviation

ONE WAY.

OPERATE UPON ALL BAD BOYS.

PHYSICIAN SAYS THEY BEHAVE THEMSELVES BETTER.

Statistics Prove That Under Such Circumstances Juvenile Criminals Show Marked Moral as Well as Physical Improvement—Address Before Southern California Medics.

More than 65 per cent. of the boys of the Juvenile Court who are operated upon to correct physical defects show marked moral improvement.

This statement was proved by court statistics yesterday, in an address before the Southern California Medical Society at the Alexandria Hotel by Dr. John A. Colliver, medical probation officer of Los Angeles.

His paper, "Analysis of the Physical Examination of 900 Juvenile Criminals," was the feature of the day's meeting. The question of righting immoral boys by a surgical operation was taken up by Judge Wilbur several years ago. Dr. Colliver, since that time, has operated upon 150 of the boys and more than fifty others have been operated on at his suggestion.

"Good results follow the correction of physical defects in juveniles," said Dr. Colliver. "More than 65 per cent. show marked moral improvement. Parents are beginning to learn that there is a physical basis for the badness or goodness of their children. According to many authorities, when a boy reaches the age of 14 years he reverts to the nomadic stage.

"The whole system undergoes a rapid change which throws an extra strain on the already overwrought nervous system. The brain fibers are increasing rapidly, new centers being developed and new habits formed. Every sensory stimulant goes to a center, which, in turn, tends to produce stimulus in the motor nerves, resulting in action. This tendency is not to be good, but to revert. The reproductive centers developing at this time tend to overbalance and counteract the will centers, resulting in untruthfulness and weakening of the will. The boys know the difference between right and wrong, but the exaggerated impressions coming from the center overflow and block efforts to do right.

"The remedy is to remove the cause by lessening the stimulus, and this is done through operation. Out of thirty boys in the Juvenile Court for six separate offenses each, all have done well. None of these boys have been arrested since being operated on.

"The second group shows twenty-six boys of more pronounced criminal instincts, being arrested at intervals of from ten days to three months. Marked improvement morally was shown after operation. Some were arrested, but only after periods of sixteen months or more.

"Third group: Twenty boys, having been arrested once each, never appeared in court after operation. The fourth and fifth groups show boys who improved physically, but not morally, sixteen of them being of pronounced degenerate type."

SUFFRAGETTE DEPARTS.

Mrs. Pankhurst Disappointed With Inactivity of American Women for Suffrage Cause.

[ASSOCIATED PRESS DAY REPORT.]

NEW YORK, Dec. 1.—To a cheering crowd of Suffragettes, Mrs. Emmeline Pankhurst, the British Suffragette leader, waved farewell today as she departed on the steamer Teutonic, for England.

"My stay in America has been pleasing to me throughout," said Mrs. Pankhurst. "It is a matter of much regret, however, that the Suffragette movement has not yet reached greater height. Much credit is due to the good sense of the American women that they have come to appreciate the cause of women's suffrage as much as true love."

Mrs. Pankhurst will serve a 30-day sentence in an English jail on her return. She declared she and other Suffragettes who will also pass thirty days in jail, "just would not eat the prison food, but would bring on a 'hunger strike.'"

BLOWN UP BY NITRO.

CAMERON (W. Va.) Dec. 1.—With a roar that could be heard twenty-five miles away, the nitro-gylcerine magazine of the Marietta Torpedo Company, near here, exploded today. One man was blown to pieces.

TRUNK'S PRESCRIPTION FOR
RHEUMATISM AND GOUT
Will absolutely and positively overcome any kind or any case of rheumatism or gout on earth. It never fails if the patient will read and follow the directions. It is absurd, ridiculous and preposterous.
In fact, it is a pity and a shame to talk about rheumatism and gout, much less to suffer with it, either inflammatory, muscular, sciatic, lumbago or any other form of rheumatism if you will use Trunk's Internal Prescription and Adecta Liniment, and both prescriptions must be used together. Price of both, $1.50, or six of each for $7.50. You simply can't keep rheumatism or gout and take Trunk's Prescription.
This prescription does not ruin the stomach. It does not depress the heart. It does not contain any salicylate of soda, mercury, salophen, aspirin, piperazine, oil of wintergreen or lithia in any form, neither has it any morphine, opium, chloral, bromides or narcotics of any kind. There is nothing just as good as Trunk's prescriptions, and it is impossible to put up something better. Eat all the meat and good food you wish while taking this prescription. Sold by the Off & Vaughn Drug Co., 352 S. Spring St. Mail orders solicited.

REFORM FOR DOG MEN.

(Continued From First Page.)

Council authorized the commission. It began work September 20 and was allowed twelve employés, ten being inspectors. October 21 (by this time the commission had dwindled down to one man, Haley,) a request was made for more inspectors in order to accelerate the speed of license dollars in the public treasury. This the Council granted, relying on Haley's statement that it was better to cover the ground quickly and then run along the rest of the dog year with a reduced force.

The inspectors receive $90 monthly and the pay roll for November foots up $1645. The "superintendent," A. H. Clark, whose chief business is said to be keeping the fire going in the clerk's office at the dog pound, receives $125, but this is included in the pay roll.

Likewise the $80 paid Edward F. Haley, son of Francis G. Haley, is included in the pay roll. But nepotism is not one of the charges the Auditor will investigate in connection with the senior Haley.

The principal charge is that on Tuesday, November 9, which of course, was the day before Wednesday, November 10, the latter being the day of the non-partisan primary election, all the deputy inspectors were called to the municipal non-partisan dog pound by Francis G. Haley, Humane Animal Commissioner.

To each man he gave a large button with the name familiar to generations printed on it in lurid letters, towit: "Alexander." To each, also, he gave cards bearing the names of the slate indorsed by the goo-goo organization. To some he urged early presence, continuous presence and later presence at the polls on the following day and unremitting effort for the goo-goo cause.

To others he spake not. He left the button and the printed "dope" for self-explanation.

To Evans he made the request that he "get busy" at the polls. Evans said nothing, but did not "get busy." He had a remote idea that he was a civil service employé and should not "get busy" though he is a Republican precinct committeeman. So he didn't.

Payton was sick November 9, and did not get his button nor his "dope." On his way to the polls the following day he says he met Haley who asked him somewhat peremptorily, Payton recalls to be sure to vote for Alexander and Betpouski. Payton said he intended to vote the whole Republican ticket (he is a Democrat,) with one exception, and that he could not vote for either Uncle Aleck or the Seventh Ward boss. Whereat, Payton says, Haley grew angry and bitterly assailed the Republicans.

It is also charged that Haley's son worked all day November 10, at the polls at Precinct 160, where Payton voted, and that one other inspector was there part of the day.

Also that George Brown, of Precinct 154, another inspector, spent the entire day working for the goo-goo outfit in his district and that Henry Stubbe and George W. Katzenberger and Thomas Wilson, also inspectors, respected the button and the "dope" and appeared militant for the goo-goo ticket primary day.

The Auditor will seek information to verify a charge that nearly all the inspectors for at least ten days prior to the primaries were used in political work. Since the primaries, those who did not "take the dope" have been marked and Tuesday four were dismissed. It is understood others will be dropped just after the election as the dog inspection business, mixed with recall politics, hasn't paid the city, as the books of the City Clerk show.

The Auditor will also investigate the other expenses of the dog pound in an effort to learn if it has earned enough money with its horde of inspectors under the commission management to pay the great expenses.

The showing of the commission is inferior to that of the Humane Animal League, which got along quietly with ten men, and does not compare even favorably with the Vachers, who had the famous dog wagon and five men. But it seems to be great as a political adjunct of the recall administration.

COLTON.

COLTON, Dec. 1.—The topic of the Woman's Club yesterday afternoon was "Arts and Crafts." Mrs. D. W. Willetts was in charge. Papers read: "American Art," Mrs. Willetts; "Art During the Revolutionary and Colonial Period," Mrs. O. D Guire; "Art in California," Mrs. Seth Hartley. Music was furnished by Mmes. Charles Baird and M. B. Wood, piano; Miss Harriet Roberts, vocalist, and the Juvenile Orchestra.

William Short of Cananea, Mex., spent today with relatives here.

The renowned Stradivarius, with which Fritz Kreisler has entranced the world for several years and which is known far and near as the greatest of concert violins, has been purchased by a Chicago music house.

Nature makes the cures after all.
Now and then she gets into a tight place and needs helping out.
Things get started in the wrong direction.
Something is needed to check disease and start the system in the right direction toward health.
Scott's Emulsion of Cod Liver Oil with hypophosphites can do just this.
It strengthens the nerves, feeds famished tissues, and makes rich blood.

What's Dearer
—to the heart of a woman than a chafing dish?—Its the first thing thought of if there is a light lunch to get—a dish of fudge or other goodie to make
—Ask any woman what she thinks of a chafing dish and you'll know how acceptable one would be for Christmas—
—See our showing of chafing dishes on the 5th floor—you're sure to find one at just the price you want to pay—
Don't merely give gloves—give Perrin gloves—on a Perrin glove bond.
Fancy Aprons
—There's not a woman but would be delighted with one for Christmas.
—We're showing a splendid lot, daintily trimmed with lace and ribbon. See them and choose those you intend giving. Today, Second Floor.
Thermos Bottles
—Make matchless gifts for either men or women.
—They keep hot liquids hot and cold liquids cold.
—Ideal for motoring, boating, picnicking — or for the sick room. Ask about Thermos Bottles on the 3rd floor.
Comforters
—Have you seen the great display we're making on our 4th floor? There are comforters of every kind and at every price—some covered with sateen and silk—that would make gifts any woman would be glad to receive.
—Then there are fancy robe blankets in clever colorings and patterns—and dainty little blankets just right to give baby. 4th floor.

Fancy China
—The display on the fifth floor offers countless suggestions—among them are—chocolate sets (the picture shows one style)—salad sets and bowls—pitchers—vases—plates—cups and saucers—toilet articles and a world of others—
—There are all kinds and all prices—you'll find choosing a pleasure. 5th Floor.
Percolators
—make good coffee—that's why housewives like them and why one would prove an unusually acceptable gift.
—We're showing percolators in a number of different styles and at prices ranging from $2.00 to $12.50. Fifth Floor.
Shop early—early in the month and early in the day. Its much pleasanter then.

BF
The Christmas Watch
Will be Most Highly Prized
If It Comes from Brock & Feagans
THE FACT THAT THE GENERAL public fully realizes that only the most thoroughly reliable watches ever enter the Brock & Feagans stock—is one good substantial reason why the gift watch, whether it is to cost $5.00 or $1500.00, should come from this house if it is to carry the greatest degree of prestige and merit the fullest appreciation.
Our extensive variety of distinctive case designs—and high grade movements—all worthy of the close companionship so necessary of a watch, declares our stock unexcelled in the entire country.
The celebrated "Jules Jurgensen" watches—recognized as the highest grade watches in the world—and the famous "Gruen Precision" watches—for both ladies and gentlemen—are sold in Los Angeles exclusively by our house. They may be had in either solid gold or enamel cases at from $25.00 to $1400.00—the higher priced models being paved with diamonds. The watches described opposite are typical Brock and Feagans values—and are splendidly suited for holiday gift giving.
¶ The skillfully engraved monogram or initials of the recipient engraved in the case of a Brock & Feagans gift watch add nothing to the cost, but add greatly to the appreciation of the gift.
Brock & Feagans
Los Angeles.

Very fine thin model high grade Swiss watch for either boy or gentleman — gold-filled open face case, guaranteed 25 years. Special, $12.50.

Ladies' or Misses' very small open face Elgin or Waltham watch, in gold filled case—plain, satin or polish finish and guaranteed 25 years. Special $15.00.

One of our many uncommon designs in ladies' enamel solid gold watches, which are done in different colors and patterns. With the enamel chains to match, they make exquisite gifts.

ARIZONA.

DID NOT DIE AS PER SCHEDULE.

Novel Suit Filed to Annul Will and Deed.

Body Found on Desert Points to Murder.

Denied That Espee Bought Southern Lines.

[SPECIAL CORRESPONDENCE OF THE TIMES.]

TUCSON (Ariz.) Nov. 29.—A novel suit has been filed in the District Court by John Westbrook and wife, seeking to set aside a combined will and deed recorded in 1907, giving to the children of the couple, all minors, a number of pieces of land in an addition to Tucson. At the time the deed was executed, it was thought the father was in his mortal illness. Since that time, however, he has not only recovered, but two more children have been born to the couple. The distribution of the estate therefore is considered inequitable and the court has been appealed to for relief.

R. S. Woodell has been convicted in the District Court of embezzlement of funds entrusted to him for investment by Miss Anna Duncan, a domestic, from whom he secured $1300. Woodell has lived in Tucson and Phoenix for many years, operating livery stables. His wife has announced that she will sell several pieces of property, held in her own name, in order to discharge her husband's indebtedness to Miss Duncan and to another woman from whom he secured money in the same manner.

The Coroner's jury called in inquest on the death of A. J. Fink distinguished itself by returning a divided verdict. Five of the members declared that he came to his death by gunshot wounds self-inflicted, with suicidal intent. Two jurors dissented, stating they wished to bring in a verdict of accidental death. Fink's body was found in the rear of his poolroom, with the head almost blown off by the discharge of a shotgun. Evidence showed that he had used both barrels, the first shot doing little more than to wound. He had been drinking heavily and had had bad luck in business. He came to Tucson from San Diego in 1898 and has lived here and in Nogales ever since. He was married fourteen months ago in this city.

This has been a good week for accused brokers in Tucson. Two cases against Frank J. O'Brien, accused of embezzlement of money entrusted to him, have been decided in his favor. Two other cases remain to be heard in Phoenix. Judge Campbell has dismissed eleven cases against Harry Duey, over shortages in the account of Duey and Overlock, who had a brokerage establishment in Bisbee at the time of the famous slump in copper stocks two years ago. The cases were brought to Tucson on change of venue. Dismissal was at the instance of the District Attorney, who stated that he had not received sufficient data from the District Attorney of Cochise county to warrant the expense of a trial.

During the progress of the Thanksgiving football game at the university, sneak thieves entered the rooms of three of the boys in the dormitory and stole a large quantity of personal effects belonging to the students.

SIGNS POINT TO MURDER.

On the desert, near Tucson, has been found the body of what was apparently a prospector. The skull is broken, from which is adduced the man was assassinated, having been struck from behind. Pockets in the rough clothing were turned inside out, showing robbery; but this is as far as the investigation has brought the police officers in their efforts to unearth a crime or to establish the identity of the victim.

Rev. W. W. Breckinridge has been made president of the Tucson Civic League and H. V. Failor, secretary. Organized effort is to be made to transform Tucson into a "city beautiful."

The Tucson Automobile Association having completed an eighteen-mile speedway is now about to transform the road to Oracle into an automobile thoroughfare. Similar work is to be done on the roads around Globe by an automobile and goods roads association.

Jim Post, the well-known California comedian, and his wife, May Ashley, have each left a $15 fine in the Tucson Police Court, all due to a noisy row between them in a local restaurant, following an evening performance.

Rain has fallen all over Southwestern Arizona, about an inch and a half being the local precipitation.

At San Xavier Saturday were married John J. Powers of Coronado, Cal., and Miss Ada W. Adams of Rowley, Mass., the bride being met at this point. The ceremony was held in the historic old church, the romance being considered bettered by the surroundings. Rev. Father Barrett officiated.

RUMORED AND DENIED.

ESPEE HAS NOT BOUGHT LINES.

BISBEE (Ariz.) Nov. 29.—There was never a road like the El Paso and Southwestern system for the circulation of rumors that almost daily have to be denied by the management. The last rumor circulated followed the abandonment of the Southern Pacific's Courtland-Naco extension, and is to the effect that work stopped because the Southern Pacific had purchased the Mexico and Colorado road and the Nacozari Railroad from the Southwestern system, and would operate them through from Cochise Station, on the main line, by way of Douglas and Nacozari, at the last-named point connecting with the Yaqui River branch of the West Coast Southern Pacific Mexican system. Representatives of the Phelps-Dodge Company at Douglas and Bisbee absolutely deny the truth of this last story, and say that there is no probability of the alienation of any part of the Southwestern. It is believed probable, however, that some sort of traffic agreement has been entered into between the two roads, by means of which the Southern Pacific will be given an entry into Douglas, and thence to Nacosari, probably more cheaply than it could build and operate its own line. At Douglas there is a probability of connection with what is known as the Henning system of roads, the first of which will be the 22c down that point to Cananea. This Henning system is backed by the Greene-Cananea Mining Company, which is understood to be friendly to the Southern Pacific.

Judge Doan at Tombstone has denied a motion for change of venue in the case of the Territory of Arizona against William Pfankuch, the union printer who murdered A. T. Hoy and William Bocholdt in the office of the Bisbee Review on the morning of August 12. J. E. Van Eaton, a reporter on the Douglas Dispatch, and a number of other persons made affidavit of their belief that Pfankuch could not get a fair and impartial trial in this county. The case has been set for trial December 20.

CHAPTER OF MINE MISHAPS.

Friday morning in the Junction shaft William Wykoff and William McDougal were mortally injured by an odd accident as they were descending to the 1000-foot level. With them on the cage were several steel sheets, which were to be plaed at one of the stations as a floor on which to turn ore cars. The fastenings gave way and the sheets were thrown back against the men, who were unable to save themselves from the snapping and jumping sheets of metal. When the cage stopped, the two miners were found horribly cut and bruised. They died a few hours later in the Calumet and Arizona Hospital.

In the Hoatson shaft last week a cager, Pat Sullivan, had an accident with much less serious results. When descending, a clutch on the hoist broke when the cage was at the 1100-foot level, and there was a wild plunge to the bottom, a full depth from the surface of 1500 feet, the engineer being absolutely unable to turn on steam or to stop what he felt was a fatal disaster. The double-decked cage hit the water of the sump with a tremendous splash, and then sank until only the cage hood was visible to the horrified watchers on the main station. They pulled the hood aside and out came Sullivan, much bruised, but still alive, almost miraculously saved from being crushed by the floor of the mine or by the unwinding wire rope above. As the cage fell, he had pulled himself upon the bar above his head and saved himself from anything beyond a severe shaking up.

Last Tuesday, K. L. Nelson, a miner in the Calumet and Arizona shaft, committed suicide by shooting himself through the head. The tragedy occurred at his home, and was entirely without warning to his family. The verdict of the Coroner's jury was that the deed was committed while Nelson was temporarily insane. It developed that he had been acting strangely since the Sunday before, when he had been kicked on the head by a mule, which had been used in hauling ore in the lower levels of the mine.

Last Monday in Douglas, Harry Van Alen, a wholesale liquor dealer, committed suicide by shooting himself through the head, using a shotgun for the deed. He had been told that he was suffering from Bright's disease, and that death might be only a matter of months.

Warren, one of the best residential suburbs of the Bisbee district, is particularly interested in the local option fight now on in this county. The Warren ground was owned by a townsite company, which, in every deed, had inserted a clause that at no time should liquor be dispensed.

Bisbee is the home of the most notable aggregation of rifle shots known in the Southwest included within the Bisbee Rifle Club. Yet, it is a fact that at an open turkey shoot held before Thanksgiving, honors, as well as birds, were taken by a woman, Mrs. Nash.

TO BUILD NEW BRIDGE.

LOS ANGELES BIDS BEST.

[SPECIAL CORRESPONDENCE OF THE TIMES.]

PHOENIX, Nov. 30.—The Union Iron Works of Los Angeles, apparently, is the successful bidder for the construction of the Center-street bridge across Salt River, with a bid of $95,238. There seemed to be considerable variation in the opinions of engineers concerning this structure, for in the same mail came an unofficial bid of $88,000 and another of $149,000. The bridge will be built on plans made by Mayberry & Parker of Los Angeles. President Little of the Union Iron Works arrived this afternoon from Los Angeles.

The Overland Telephone Co. of Arizona has absorbed the Home Telephone Co., though the officers of the new organization are led by J. W. Foss, president, and Frank T. Alkire, secretary-treasurer, who filled similar positions with the Home Company. Contracts have been signed for $30,000 worth of local equipment, including automatic phones. It is stated that the company already has 800 subscribers in Phoenix, with 400 houses already wired; also, thirty-seven blocks of underground cable and miles of overhead wires.

WILL IRRIGATE WITH WELLS.

A large tract of land on the Agua Fria River, west of Phoenix, is to be developed by the Avondale Company, a local corporation, headed by C. B. King, with H. M. Lewis as manager. Six sixteen-inch wells are to be sunk to the depth of 300 feet, though it is probable that the water table will not be over forty feet in depth. The land is of fine quality and the section is one that will be tapped by the Southern Pacific Buckeye railroad.

Manager S. H. Mitchell of the Phoenix street railway system has returned from a conference in Los Angeles with Gen. N. H. Sherman, main owner of the system. As soon as a permanent bridge can be constructed across the Grand Canal, operation of the two-mile extension of the Indian School line will be begun. It is also proposed to extend the Indian School and Brill lines from First and Washington streets to the Santa Fé and Southern Pacific depots, a distance of about five blocks.

The Board of Trustees of Phoenix school district has advertised for plans for three new school buildings, costing in all about $90,000.

Following rains, the temperature throughout Arizona has fallen abruptly and the weather is now about as cold as it ever gets in this section of the country. At Nogales and a number of other southern points on Friday and Saturday were heavy falls of snow.

HOROSCOPE.

Thursday, December 2, 1909.

Kindly the planets now mankind survey,
And shed good influence along the way.

On this, the 336th day of the waning year, the Sun, Jupiter and Saturn are in a benefic aspect, promising favor for great and ambitious efforts, luck for salesmen and merchants, fortune for new business undertakings and wealth from things of the earth.

Uranus, however, is in an inimical position toward Neptune that warns men to be careful lest they break good resolutions or permit themselves to do things against their consciences and principles.

Mercury is in a position that augurs unusually well for all forms of advertising.

The Sun bestows special favor on the magnanimous, the charitable and the honorable.

Jupiter favors the opening of new places of business, removals, alterations and enlargements, also the beginning of new situations or duties.

The day is indicated as good for granting favors and hiring men or women.

Real estate, building, excavating and other things connected with houses are under a good sign.

In the household the indications favor anything connected with fowls.

Persons whose birth-date this is, are often gifted with the power of giving reality to high ideals. They are liable to be too blunt of speech and too hasty in judgment.

Children born today are likely to be industrious and to find more pleasure in their work than in any amusement. Therefore their careers in life should be carefully chosen.

STATE DIVISION IDEA DIES.

At a mass meeting of citizens held, in response to a call of the Los Angeles Realty Board, September 13, a committee of eleven was named to call a convention to take immediate steps for the formation of the State of South California. The convention was held October 5, and adjourned to yesterday to hear a report from a committee of nine on data and advisability of State division. Last night was the time for the report, but only B. A. Stephens, secretary of the convention was on hand and the entire agitation was dropped indefinitely.

DIRTY KIDNEYS CAUSE BACKACHE

A FEW DOSES OF PAPE'S DIURETIC MAKES OUT-OF-ORDER KIDNEYS ACT FINE.

This Harmless, Though Effective Preparation, Cleans and Regulates the Kidneys, Curing Lame Back or Any Bladder Misery—No Man or Woman Here in Los Angeles Who suffers From Any Urinary Trouble Can Afford to Leave This Remedy Untried.

A real surprise awaits every sufferer from kidney or bladder trouble who takes several doses of Pape's Diuretic. Misery in the back, sides or loins, sick headache, nervousness, rheumatism pains, heart palpitations, dizziness, sleeplessness, inflamed or swollen eyelids, lack of energy and all symptoms of out-of-order kidneys simply vanish.

Uncontrollable urination (especially at night), smarting, offensive and discolored water and other bladder misery ends.

The moment you suspect kidney or urinary disorder, or feel any rheumatism, begin taking this harmless medicine, with the knowledge that there is no other remedy, at any price, made anywhere else in the world, which will effect so thorough and prompt a cure as a 50c treatment of Pape's Diuretic, which any druggist can supply.

It is needless to feel miserable and worried, because this unusual preparation goes at once to the out-of-order kidneys and urinary system, distributing its cleansing, healing and strengthening influence directly upon the organs and glands affected, and completes the cure before you realize it.

Your physician, pharmacist, banker or any mercantile agency will tell you that Pape, Thompson & Pape, of Cincinnati, is a large and responsible medicine concern, thoroughly worthy of your confidence.

Only curative results can come from taking Pape's Diuretic, and a few days' treatment will make any one feel fine.

Accept only Pape's Diuretic—fifty-cent treatment—any drug store—anywhere in the world.

PERSONAL.

R. A. Perry, president of the American Dredging Co. of San Francisco, is at the Van Nuys.

James E. Workman of Aberdeen, S. D., is a late arrival at the HoHenbeck. He is a cattle raiser.

E. H. Falle, who has been touring the United States during the past month, is registered at the Alexandria from London, Eng.

C. Jones, a mining operator of Curtis, Nev., with his wife, is occupying an apartment at the Lankershim.

Oscar Sullivan, an oil man of Coalinga, is passing a few days at the Nadeau.

Judge Hiram Knowles, a well-known Montana jurist, is at the Van Nuys, and is accompanied by his wife. His home is in Missoula.

H. A. Crocker, of the Westinghouse Air Brake Co., is registered at the Hayward, from San Francisco.

J. H. Voigt, a wholesale dry goods merchant of Chattanooga, Tenn., with his wife and child, is at the Lankershim.

A. B. Walton, one of the large mining operators of Salt Lake City, is a guest at the Angelus.

Roy Knabenshue, the well-known aëronaut, is at the Hayward, from Toledo, O. His wife is with him.

Theodore Hess, a manufacturer of linen goods, of Binghamton, N. Y., with his wife, is at the Lankershim.

Dr. L. A. J. LaMotte and Dr. D. C. Stronf of Colton and San Bernardino, respectively, are at the Alexandria, while attending a case in this city.

W. J. Johns and wife are registered at the Hollenbeck from Aberdeen, Wash., where Mr. Johns is owner of a lumber mill.

T. L. Farrelly, proprietor of a hotel at Woodstock, Vt., is a late arrival at the Nadeau.

Mrs. B. H. Holiday and Miss Mary Holiday, prominent in society circles of Seattle, are registered at the Angelus while visiting friends here.

Don E. Johnson, Pacific Coast representative of the Mergenthaler Linotype Co., is at the Hayward from San Francisco.

A. Faget, chief engineer and manager of the Pacific Fruit Express, is at the Alexandria. He will inspect the new plant at Colton tomorrow, when operations will begin.

H. F. McManus and wife of Pueblo, Colo., are at the Hollenbeck. Mr. McManus is interested in one of the Pueblo smelters.

W. R. Crow is one of the late arrivals at the Hayward. He is the Chicago general agent of the Erie Railroad, and is here on a tour of inspection.

A party of distinguished French tourists arrived yesterday at the Alexandria, and consists of Mr. and Mrs. R. de Kersauson, Oscar Fanyan and Henry Freze, all of Paris. They will remain some time.

E. C. Convers, Jr., son of the millionaire cattleman of Texas, with his wife and E. C. Convers, III, and a nurse, have taken apartments at the Van Nuys for a few days before proceeding to their home at Santa Barbara.

Rev. S. F. Wilson, his wife and Mrs. A. Crofton, all of Victoria, B. C., are late arrivals at the Hollenbeck. They were on the steamer President during the storm which several times threatened the safety of the ship and which tore doors, chairs and other things from their fastenings.

H. Z. Osborne of the Chamber of Commerce Committee which had in charge the entertainment of the Japanese commercial commissioners, has returned from San Francisco, where he said good-by to the Japanese. He states the travelers expressed themselves as well pleased with their cordial entertainment here.

WHISKEY FOR LAME BACK

The increased use of whiskey for lame back and rheumatism is causing considerable discussion among the medical fraternity. It is an almost infallible cure when mixed with certain other ingredients and taken properly. The following is the formula:

"To one-half pint of good whiskey add one ounce of Toris compound and one ounce syrup Sarsaparilla compound. Take in tablespoonful doses before each meal and before retiring."

The ingredients can be had from any good druggist or he will quickly get them for you. Any one can mix them. Hundreds were cured by this last winter.

How's Your Stomach?

Have you been ill-treating your best friend? Have you been insulting it by offering it a variety of indigestible and unhealthful foods? Possibly it has balked at this and you are now reaping your reward in indigestion. Better apologize by offering it a diet of delicious and wholesome H-O oatmeal, and see how quickly it will respond and perform its natural functions. H-O oatmeal is the only steam-cooked oatmeal on the market. Being dextrinized and easily assimilated, it strengthens and nourishes all parts of the body. It is made from the choicest oats, and by our steam-cooking process, all the rich, nutty flavor of the virgin oats is preserved.

The medical world generally recognizes the value of H-O oatmeal and prescribes it particularly for those of delicate constitutions and for older people requiring the maximum amount of nourishment with the least digestive exertion.

H-O oatmeal is free from hulls and grit.

Do not confuse H-O oatmeal with the ordinary raw oats sold under the name of "Rolled Oats" or "Crushed Oats." H-O oatmeal is never sold in bulk; it is free from dirt, germs, and all impurities.

H-O oatmeal is manufactured from the highest grade of selected stock. After removing all foreign matter, the meat of the oat is subjected to a very high temperature, and by our own patented process is cooked for several hours under heavy steam pressure. This steam-cooking dextrinizes the starch and renders the oats easily digestible. H-O oatmeal is ready for the breakfast table after from ten to fifteen minutes' boiling, and provides an inviting dish of sweet, clean, separate, tender kernels in place of the sticky, soggy, indigestible mass obtained in cooking the usual "Rolled Oats."

Possibly the "other" kind may be cheaper; but as soon as you have tested and appreciated the quality of H-O oatmeal, you will gladly pay the few cents difference.

MOVING FAST.

MILD FROSTS RIPEN ORANGES.

PORTERVILLE SHIPMENTS ARE TEN CARS A DAY.

Returns Highly Satisfactory—Mysterious Fire Thought to Have Been Work of Burglars—Man Arrested for Horse Stealing Makes Partial Confession—Has a Prison Record.

[SPECIAL CORRESPONDENCE OF THE TIMES.]

PORTERVILLE, Dec. 1.—Shipments of oranges are now being made to the east at the rate of about ten cars a day, the late frosts having ripened the fruit with wonderful rapidity. With the exception of one car, which arrived in East green, and which sold in New York for $1.75 per box, the net returns have not been lower than $1.85. This is a good margin of profit in citriculture here at $1.00 per box. It looks as if the winter will be an exceedingly prosperous one. At present the daily shipments from this station are averaging better than $3000 a day.

MYSTERIOUS FIRE.

Last Sunday night, destroyed the home of Postmaster Harry Evans, of the village on the Southern Pacific of here. With no means of stopping the flames, the building and contents were a total loss within an hour after the blaze was discovered. The members of the family were away. The cause of the fire is a mystery.

Entertainment was being given in the Town Hall at the time the fire was discovered and some person ran from one end of the building, the auditorium on the second floor, and gave the cry of "Fire!" Several people were painfully bruised in the rush to escape from the building. It is said that evidence was discovered to show that the house had been ransacked by burglars and the fire set either accidentally or intentionally by them.

PARTIAL CONFESSION.

The man arrested at Burbank for the theft of a valuable horse from the Tapman Ranch has confessed to the Sheriff here, giving fictitious names and cities, and that he has been in prison before. The prisoner's name is John Walker. He gave the name of Ed Smith when he has owned up to a charge that he stole a horse here years ago, and, being convicted in Exeter, served a term in the penitentiary at San Quentin.

ACCIDENTALLY SHOT.

Joe Ellian, a vineyardist living in a critical condition at the hospital here from a gunshot wound received about twenty miles southeast of this city, where he was hunting on Sunday evening with a friend named H. H. Sheppard. The latter was arrested and his case investigated and dismissed by Justice Adams.

DESPERATE.

FIGHT DUEL IN LONE SPOT.

SANGUINARY ENCOUNTER TAKES PLACE NEAR HERNDON.

Victor Pleads to Be Allowed to Finish Job, Saying He Would Then Be Willing to Die Also—Many Fresno People Attend Tulare County Fair at Dinuba.

[SPECIAL CORRESPONDENCE OF THE TIMES.]

FRESNO, Dec. 1.—As the result of a duel with knives, fought in a lonely spot near Herndon yesterday, Mariano Castellano is in the County Jail and Anchi Guerra is in the County Hospital suffering from serious wounds about the face and neck.

How long the two men fought is unknown, but when persons attracted by the sounds of the struggle came upon them, Guerra was lying pinned to the ground, vainly trying to shield his face and throat. The man's face and neck were horribly slashed and his hands were cut to the bone in many places. Evidently he had grasped the blade of Castellano's knife many times endeavoring to wrench it from his adversary. Castellano himself received several severe cuts before he succeeded in overpowering and unarming Guerra.

When the two were separated, Castellano pleaded to be allowed to "finish the job," saying he would be willing to die then. After he had been brought to Fresno and lodged in jail, he lapsed into sullen silence and refused to discuss the fight. So far the only explanation of the affray he will give the officers is that "Guerra is an ex-convict and should be killed."

Though the wounded man is in a serious condition, it is thought that he will recover.

GOES OVER ROUTE.

W. G. Luce of Chicago, president of the bonding company that is to build the interurban line from Fresno to Hanford, arrived last night. He went over the route of the proposed road today.

About two weeks ago F. S. Granger, promoter, returned from Chicago bringing George A. Yuille, an expert on electric railways, who for ten years was vice-president and general manager of the Chicago Street Railway system. Granger announced that a Chicago syndicate had agreed to take the bonds if Yuille reported favorably.

Yuille made an examination and, it is said, wrote to his associates that conditions were even better than had been represented by Granger. It is announced that construction work will begin as soon as men and teams can be secured.

President Luce will remain only a few days, but Yuille will stay here until the road is completed, superintending the construction work.

The Fresno-Hanford electric line will be about fifty miles in length, and will tap some rich territory.

PIONEER DIES.

William Dodson, a pioneer who crossed the plains with an ox team, died in Selma last night after an illness of only a few days. Mr. Dodson was born in Tennessee in 1835. When quite a young man he came to California, settling in Modoc county. After many years of thrilling adventure in the numerous Indian wars which harassed that section of the State, he came to Selma and remained there until his death.

ATTEND DINUBA FAIR.

Two hundred leading business men, accompanied in many instances by their wives and other members of their families, left this morning by special train for Dinuba to spend the day at the Tulare county citrus fair, which opened Monday. This fine display of the products of the orange and lemon belt of Central California, of which the foothills of Fresno county form a considerable portion, has attracted much attention from all over the State. The Southern Pacific ran a special train from Selma and one from Fresno today and the delegations from other smaller towns was large. The fair will continue throughout the week. One of its features, from the entertainment point of view, is the third of a series of football games between the Visalia and Fresno High School teams, to be played next Saturday, to decide the tie for championship honors.

Free Lectures—All about the Great San Joaquin Valley at The Times' Branch Office, 531-533 S. Spring st. Information any time through the day. Lecture at 8 o'clock every evening (except Sunday.) Come and bring your friends.

EDUCATIONAL DRIFT.

In the annual report of Stratton D. Brooks, superintendent of schools of Boston, the subject of industrial education is discussed. The great problem of the school, says Prof. Brooks, is the one of balancing the conflicting demands of restrictive teaching for habit development, and of non-restrictive teaching for judgment development. The great difficulty that must be encountered in the era of industrial education can therefore be seen, as it will be needed to fix habits, to train judgment, and incidentally to furnish facts. The factory needs not only the automatic operator in positions requiring reflex actions merely, but it needs also men capable of advancing to the higher grades of work—operations and conditions in which the possession of good judgment becomes essential. The man for such work must be educated up, not down, and hence the results of education, whether industrial or otherwise, should be primarily to improve the conditions of the men who attend the school, and only secondarily to improve the conditions of the men who hire them.

A boy should go to college for the realization of a definite aim, for discipline and a severe training of his faculties, not for relaxation, for the release and exercise of his social powers, for the broadening effects of life in a sort of miniature world in which study is only one among many interests, says Woodrow Wilson, in Scribner's Magazine. The man who comes out of college into the modern world must have got out of it, if he has not wasted four vitally significant years of his life, a quickening and a training which will make him in some degree a master among men. If he has got less, college was not worth his while. To have made it worth his while, he must have got such a preparation and development of his faculties as will give him movement as well as mere mechanical efficiency in affairs complex, difficult, and subject to change. The good citizen must have in him the power to think at the center of it, the power of independent movement and initiative.

Of a recent class of Harvard College, the members report their probable occupations as: Business, 135; law, 99; engineering, 54; teaching, 43; medicine, 41; journalism, 18; architecture, 16; the ministry, 12, and chemistry, 9. Therefore, out of a total of 427, leaving out all men whose callings are classified as miscellaneous, and who are undecided, business claims 31 per cent.; law, 23 per cent.; engineering, 12 per cent.; teaching, 10 per cent.; medicine, 9 per cent.; journalism, 4 per cent.; architecture, 3 per cent.; the ministry, 2 per cent., and chemistry, 2 per cent.

"Too many men are prepared for salaries in the schools of the United States and too few for wages," said Prof. J. C. Monaghan, secretary of the National Educational Association, in an address in Chicago a few days ago. Prof. Monaghan formerly was a United States Consul in Germany, and said the educational system of this country suffered in comparison with that of Germany. "We pay the most money, but we don't get the results," he said. "We are spending this year $400,000,000 more than Germany is spending on its schools, its army and its navy. We boost college students along with fancy fixings and neglect the boys in the mines and factories. We don't give enough industrial instruction. Even Japan gets better results in her schools than we do."

No one supposes that Englishmen prize education less highly than Americans, but men of wealth in this country certainly express their opinion of its value by gifts that find no parallel in Great Britain, says the Youth's Companion. A year or two ago, Lord Curzon issued a powerful appeal to his countrymen for an increased endowment of Oxford University, of which he is chancellor. The amount received in response has been less than half a million dollars. The only great modern gift to education in Great Britain was that of Cecil Rhodes, which was less than $15,000,000. Rockefeller, Carnegie and Mrs. Sage have each greatly exceeded that sum in their gifts, and now a man who was not widely known as the possessor of great wealth, John Stewart Kennedy of New York, has left by his will to education alone, almost as much as the Rhodes bequest, and to religious and charitable purposes even more than that.

SUNDAY REST LAW.

Officers of International Reform Bureau Hold Conference and Outline Proposed Statute.

The International Reform Bureau yesterday decided upon what sort of a Sunday-rest law should be presented to the next State Legislature. Dr. G. L. Tufts, in charge of the work in the northern division of the State, came here from San Francisco, and met with Rev. W. N. Perry, field secretary, and the local executive committee, and they virtually decided upon a bill along the following lines:

It will provide for the closing of places of business on Sunday, and will protect labor from being compelled to work on Sunday; will provide for the closing of saloons on Sunday; will make adequate provision for all works of mercy and necessity, and under this head will come such manufacturing establishments or industrial processes as may be necessary to prevent serious loss; such work as may be necessary in an emergency to protect property, and whatever rightfully comes under head of "mercy and necessity." Ample provision will be made to protect those who wish to worship on some other day than Sunday.

The concensus of opinion was that a law should be framed, moderate in its requirements and yet give to every man a legally-protected rest day, relieving him from toil and leaving it to his own choice how he shall spend the day in seeking personal betterment.

MOUNT SHASTA.

Prince of all the snow-clad mountains,
Monarch of the western slope,
Towering in thy lofty grandeur
Emblem of thy country's hope.
Why so solemn in thy beauty?
Why so wrapped in snowy shrouds?
Why so like to crape outstreaming
Are the pennants of thy clouds?

Captain of the great Sierras,
Why that deep and solemn tone
Of the shifting wind that wanders
O'er thy steep when day has flown?
Why that secret whispered silence,
Why that wildly wailing cry
As it shudders through thy forest
'Neath the star besprinkled sky?

Art thou dreaming mighty mountain
In thy snowy winding sheet,
Of the vanished tribes and nations
That are sleeping at thy feet?
Of the pathos of their effort?
Of their cruelty and strife?
Of the folly of endeavor,
And the brevity of life?

Break thy trance, O, hill of beauty,
And concern thee not with time,
Let the breezes through thy forests
Swell a symphony sublime.
Toss the white and gauzy streamers
Of thy clouds in silver skeins
As the concert of thy voices
Sings a thousand wild refrains.

Shasta Mountain, save thy pity,
Which in tones so sad and deep,
Ye bestow upon your children
In their all-forgetting sleep,
For their hands are locked in slumber
With the one almighty cause,
And their trust is placed serenely
In the wisdom of His laws.

CARLYLE C. M'INTYRE.

THE grocer who tells you that any other kind of vanilla is "Just as Good" as BURNETT'S VANILLA, doesn't know what he is talking about.

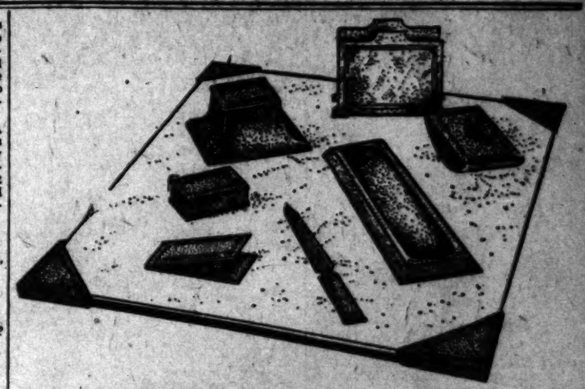
BURNETT'S VANILLA

Is as superior to the ordinary kinds of vanilla as ripe, luscious fruit is superior to hard, green fruit. You will have better desserts if you INSIST upon your grocer sending you BURNETT'S VANILLA.

Send us your grocer's name and we will mail you, FREE, thirty-six original, tested recipes for delicious dainties easily and economically prepared.

You will get new ideas from this FREE book.

JOSEPH BURNETT COMPANY, 30 Initial St., Boston



New Ideas In Desk Outfits

To supply the desk fittings complete for a friend, would make a most pleasant surprise on Christmas morning. The new ideas in Desk Sets for both men and women are charming, many of the designs being carried out to fit the different styles in furniture.

One set, like illustration, is in the very simple Colonial lines, no decorating at all—very elegant in its simplicity. Seven pieces and blotter corners—Price $22.50. This set is, of course, most appropriate for a Colonial desk.

Another set is in the Napoleon period design—head of Napoleon stamped on each piece. This set is rich and ornate, most suitable for a desk after the style of the Napoleon period, but appropriate as well for other styles. This is a gold-plated desk set. Price $45.00.

Another set is decorated with the American Eagle—appropriate for any patriotic man or woman.

Besides many more different styles in complete Desk Sets at prices from $5.00 to $50.00, we also show the separate pieces—

Paper Clips	$1.00 to $8.00
Letter Openers	50c to $1.00
Brass Inkwells and Stamp Boxes	$1.00 to $2.00

ASK TO SELL SECURITIES. J. C. cFarland instituted a suit against eorge Rhorer and Archie Thompson, king for judgment for $1250 alleged be due on a note given in January , due one day from date, and also n order to the Sheriff to sell 1920 ares of the capital stock of the rand Falls Mutual Irrigation Com- any, of Grand Falls, Texas, that had een pledged as collateral for the loan.

MONTH'S MARRIAGES. During ovember there were 453 marriage li- enses issued by the County Clerk, or n average of twenty a day, not count- g the Sundays, the holiday and half- olidays of the month.

SHINKWIN WILL. The probate of he will of Mrs. A. M. Shinkwin one f the provisions of which was the rection of a $30,000 hotel for the bene- t of the young and homeless men of os Angeles, was yesterday postponed ntil December 15. The instrument as drawn in April, 1903, and since hat date the fortune of the deceased as almost vanished the petition of he executor named in the will, alleg- ng that the entire estate is not worth o exceed $1000.

SEPULVEDA ESTATE. A petition as filed in the probate court yester- ay by Richard Mahar, who had been ominated by the widow to apply for etters of administration on the estate f Aurelio W. Sepulveda, who died in anta Monica, November 17. The roperty consists of what is known as he Sepulveda ranch, located on Ran- ho Palos Verde, and estimated to be orth $100,000. The deceased left no ill, and there are two children, both ons to inherit the property. The idow is Encarnacion Sepulveda.

OFF FOR SAN BERNARDINO. Judge Hutton left last night for San Bernardino, where he will hold court he balance of the week for Judge Or- er, who in turn will preside in De- partment Four during the absence of Judge Hutton.

NOW FOR ARGUMENT. The case brought by the First National Bank of Monrovia to recover $20,000 of the Maryland Casualty Company, on ac- ount of the burglary committed by Martin, Beaty and Sundin, the night of December 15, last, closed yesterday. The attorneys will argue their conclu- sions to Judge Hutton next Tuesday.

AGAIN POSTPONED. The case against Frank D. Turner, charged with abandoning his wife, Jeanette Turner, was set for a hearing in Judge Davis's court yesterday, but by agree- ment the matter went over until De- cember 23. The action will then prob- ably be dismissed as the complaining witness cannot be located.

JUDGE WILLIS'S COURT. James Hurley, charged with the murder of Lewis Gallagher, October 13, pleaded not guilty, and his trial was set for January 3. W. N. Waterman, who had pleaded guilty to giving a check on a bank where he had no funds, was allowed to go on four years' proba- tion. Lewis Gonsales pleaded not guilty to disposing of a fictitious check, and his hearing was set for January 27.

AN AUTO RUN IN. Frank G Hogan and his wife, Mary B. Hogan brought suit in the Superior Court yes- terday against R. M. and Jane Doug- las, to recover $3393.10 on account of a collision between autos driven by R. M. Douglas and Frank Hogan, as a result of which Mrs. Hogan was severe- ly injured. The accident occurred December 6, 1908, near the junction of Raymond and Green streets, Pasa- dena.

VERDICT FOR DEFENDANT. In the case brought by W. H. Michaels against Will C. Sheppard to recover about $800 paid on commissions in the sale of an orange orchard near Lords- burg, Judge Conrey yesterday found for the defendant.

THE INFERIOR COURTS.

LOVE LIGHT NO LONGER SHINES.

COUPLE AGREES TO DISAGREE; HUSBAND TO PAY.

Southern Woman Fails to Bring About Reconciliation With Her Husband—Defendant Must Report to Court in Six Months and Show He Has Kept His Agreement.

Mrs. C. N. Cortwright, Daughter of the Confederacy and a descendant of a prominent Ohio family, has failed to win back the love of her husband, and has agreed to allow him to go his separate way on his promise to pay her a stipulated sum each month.

She caused Cortwright's arrest sev- eral weeks ago on a charge of non- support. At the same time she was giving evidence against him, she de- clared she loved him, but that he scorned her.

The preliminary examination of Cort- wright was taken up by piecemeal and yesterday was again called. The defendant agreed to furnish his wife $20 a month and allow her to have the exclusive use of the home at No. 1850 West Twenty-second street. He will furnish a bond today to guarantee his performance of the contract.

At the end of six months, the de- fendant will be required to appear in court and satisfy the magistrate that he has made sufficient provision for Mrs. Cortwright.

ONE NIGHT IN JAIL.

BAIL FOR MRS. PETERS.

Mrs. Lillian B. Peters, who was placed in jail Tuesday night on charges of having obtained money un- der false pretenses, had not made up her mind as to how to plead when she was arraigned before Justice Wil- liams yesterday. The magistrate gave her until Saturday to consider the mat- ter.

The young man, who appears to be her husband, became very active in attempting to raise $50 as bail for her release. Shortly after noon he found two men to sign her bond. They are Dr. E. C. Stoner and J. E. Finnall, a collector.

The alleged musical imposter showed visible signs that she had not spent a pleasont night in the matron's apart- ment. She trembled as she stood up to listen to the reading of the com- plaint.

That she intends to fight the charge is indicated by the fact that she has retained an attorney. Yesterday she declared her correct cognomen to be Mrs. Victor E. Arenson. She said she was known only professionally as Mrs. Peters.

HIS FIRST OFFENSE.

SO COURT IS LENIENT.

Too much worship at the shrine of Bacchus nearly caused a disruption in the family of E. C. Blackwell, former manager of the Lawrence Café, and resulted in his arrest. Extenuating circumstances induced Justice Wil- liams to put him on probation for six months.

As the café is being torn down, Blackwell lost his position. He ob- tained the promise of other work and went on a celebration meantime. He was so affected by the liquor that he beat his wife when he went home, and was scolded on account of his condi- tion.

She swore to a complaint against him, and he was arraigned on a charge of battery. He appeared to be sorry for what he had done, and his friends spoke good words for him. Mrs. Blackwell said it was the first time they had ever had any trouble, and believed his promise to be good was sincere.

AUTO MAXIMS.

IF YOU'D RIDE, HAVE THE COIN.

REPAIRS NEVER COST LESS THAN EXPECTED.

Justice Observes That a Power Ma- chine Is an Expensive Luxury for a Poor Man—Owner Sues Mechanic. Judgment for Defendant—Some Ad- vice on the Side.

"An automobile is a dangerous insti- tution for a poor man.

"Bills for automobile repairs always amount to ten times more than you ex- pect to pay.

"If you cannot afford to be constant- ly paying large sums for repairing autos, do not own one."

These were some of the maxims laid down by Justice Stephens yesterday in returning a decision in the case of E. Brockow against E. C. Stein, in which judgment was found for the defendant.

The case was one of the most re- markable on record. Brockow owned an automobile. Something went wrong with it. The owner tinkered with the machinery, monkeyed with the engine, and finally decided that he did not know how to fix it.

He took the automobile to E. C Stein, a mechanic of more than forty years' experience. He left the machine there. Stein wheeled it back into the sacred and dark recesses of his shop and pounded and hammered and rear- ranged chunks of iron and pieces of steel with strange and uncouth names, until the machine was able to travel again.

Then Brockaw called for his car. He noticed some mud on one of the wheels. He asked if the car had been taken out of the shops. He was told that it had. He promptly filed suit in Justice Stephens's court for $30 for the use of the automobile. He alleged Stein had used it six hours at the rate of $5 an hour.

By a strange coincidence the amount of the bill against Brockow was just $30, and Stein filed a counter claim for that amount.

Yesterday Brockow testified that Stein had told him he had gone for a ride in the country with his wife, and that the Brockow machine had been used for the trip. Brockow also testi- fied that an old horn on the automo- bile had been damaged during its stay in the shop He swore that the agree- ment had been that the bill for repairs should not amount to more than $10.

Stein denied having used the ma- chine for any trip in the country. He brought two witnesses in court who testified that the only time the auto- mobile had been out of the garage was when Stein and his assistants took it out to try the machinery and see how it worked.

Stein figured his bill at forty hours of work at 75 cents an hour. He had supplied materials in the repairs free of charge. He brought his books into court to prove the amount of the bill.

"It seems to me that all repairs on automobiles ought to be made under contract, the same as in real estate bills," said Justice Stephens. "We have more trouble with these auto bills than with any other kind. No owner ever pays less than he expected for automobile repairs. On the other hand, if a man expects repairs to cost $10 he generally pays $100. That seems to be the percentage. The cost of repairs on machines ought to be made in writing so that these rows would not result. From the number of cases in this court it seems like automobiles need constant care and attention, and this care costs money. Unless a man can afford to pay for these repairs he ought not to own an automobile."

Judgment was found in favor of Stein. Brockow was allowed $2.50 for the damage to the automobile horn.

"WILD BILL" GETS BUSY.

Attaches Prize in Auto Race to Recover Small Debt—But Envelope May Be a Bluff.

After seeking many months to col- lect a debt of $2.20 from Charles Grid- der, William R. Ruess, a local auto- mobile dealer, yesterday filed an at- tachment upon a prize which Grider had put up in an automobile race last Sunday.

Grider and H. J. Crawford were the owners and drivers of the two racing machines. Both had Ford cars, and the race was arranged and given con- siderable exploitation by a morning newspaper. The course was to be to Oxnard and return, and the loser was to give the winner the losing automo- bile.

To insure the payment of the bet, the drivers each wrote out a bill of sale and placed it in an envelope, to- gether with $35 as a side bet. These envelopes were given to the repre- sentatives of the newspaper.

Grider lost the race. The notoriety given the affair called to the recol- lection of "Wild Bill" Ruess that lit- tle debt of $2.20, which he had never been able to collect. It brought up similar memories to other parties, chief among which was the Messen- ger Low Automobile Company. They remembered a debt of $62.35, which Grider had not paid. The two cred- itors combined forces and assigned their claims to N. C. Folsom, who yes- terday brought suit against Grider.

No sooner had the suit been filed than Deputy Constable Jack Adams was sent in search of the prize. He attached the envelopes, which will be opened in court, and some automo- bile men have been unkind enough to intimate that the bet was a bluff, and that the bills of sale of the automo- biles will not be found in these en- velopes.

When Adams looked for Grider, he found him acting the chief tragedy role in Judge Davis's department of the Superior Court. Grider was called to one side and informed of the case against him. He accepted service and returned to his seat.

The case on the attachment will be tried in a few days in Justice Sum- merfield's court.

HULL ESTATE TO WIFE.

The will of Edward R. Hull of Pas- adena filed for probate yesterday, leaves all of the property to the wife, Angelica Van Buren Hull; in case of her death before that of the testator, it is provided that the estate goes to the two children, Edward O. Hull and Roy B. Hull, share and share alike. The holdings amount to about $60,000, the largest asset being 540 shares of the Union Oil Company, worth $54,000; 24 shares of the Provident Company, worth $2400, and five bonds of the Pro- ducers' Transportation Company.

EVIDENCE IS LACKING.

Insufficient evidence caused the dis- missal of the case against Benjamin Reavis yesterday. Reavis is the owner of a taxicab which he operates for pub- lic hire. He was arrested on a com- plaint of the Western Taxicab and Auto Company that he had used one of the company's automobiles with- out permission on Thanksgiving Day, and had damaged the vehicle consider ably.

Get Your New Suit or Overcoat Now—

YOU'VE put off getting that new garment long enough. Come in today—get your clothes—enjoy the satisfaction and com- fort of wearing them right away.

You can do just that with the clothes you select here. You'll be amazed at their perfect fit. No trouble at all to get well-fitting, perfectly- tailored garments here, whatever your requirements.

You're selecting from superior makes — that's the reason — from Stein-Bloch or Adler-Rochester Clothes, or from garments by other makers who know how to produce well-fitting clothes.

In our clothes the parts you do not see, as well as those you do see, are right. The tailoring and workmanship are perfect. You're fitted easily, and the clothes hold their shape. The fit remains until you're done with the clothes.

Christmas Goods Are Ready!

This great Store is ready for Christmas. It's ready to meet you more than half-way in your own good resolutions—first, to give only useful gifts; second, to select them early, before the "Christmas rush" sets in. Our Christmas service this year will be right up to the mark—prompt, courteous, helpful. Take advantage of it now. You're ready—we're ready—so why not?

We Suggest—For the Men

Smoking Jackets—Silk Hosiery in all shades —Fine Isle and Fancy Hosiery—Canes and Walking Sticks — Silk Umbrellas — Bath Robes—Neckties and Scarf Pins—Christmas Suspenders — Linen Handkerchiefs — Silk Handkerchiefs—Wallets and Card Cases— Traveling Bags—Dress Suit Cases—Street and Dress Gloves—Fancy Vests—Leather Toilet Sets—Auto Caps and Gauntlets—Mil- itary Brushes in Leather cases — Sweater Coats—Shirt Studs, Cuff Links, etc.—Pumps and Slippers—Silk and Opera Hats—Night shirts and Pajamas—These are just a few suggestions.

For the Boys

Gauntlets and Gloves—Fine Flannel Shirts — Hats and Caps — Boys' Handkerchiefs — Boys' Slippers— Boys' Bath Robes—Boys' Sweater Coats—Suspenders in fancy boxes —Boys' Shoes—Fancy Hosiery— Knickerbocker Suits—Boys' Suit Cases—Cuff Buttons and Scarf Pins —Boys' Sailor Suits—Boys' Russian Blouse Suits—Novelty Headgear for Youngsters — Cravenette Coats— Rubber Coats — Top and Reefer Coats—Boys' Waists and Shirts— and many other good wearables.

Garments at $15.00

You well know that $15 will buy more Suit or Overcoat value here than anywhere else in town.

It has for years—this Fall we're stronger than ever at this price.

Smart, up-to-date Clothes, well made from splendid materials, in great variety as to pattern and coloring—and all guaran- teed.

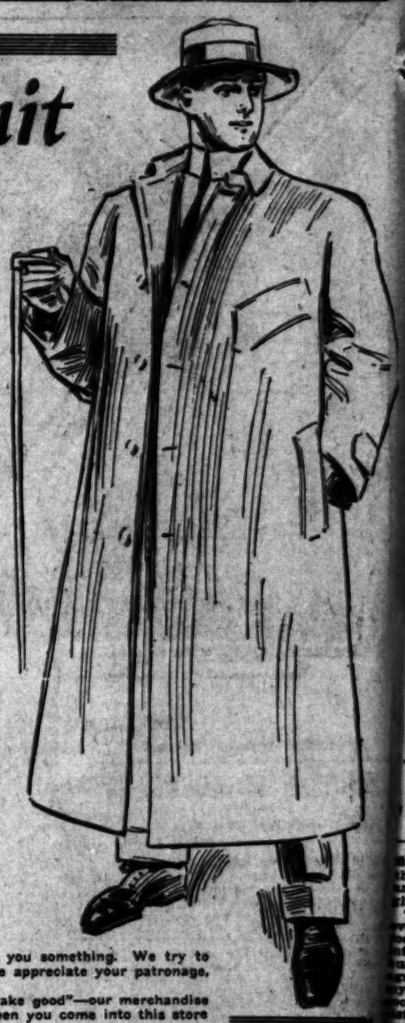
If you want a better suit we're ready with—

Other Suits & Overcoats at $18, $20, $25, $30, $35 and Up

You're sure of satisfaction here. We guarantee it—and this great enterprise is able and willing to back any guarantee it makes.

We don't try just to SELL you something. We try to SATISFY you in every way. We appreciate your patronage, make you feel this.

We retain it, because we "make good"—our merchandise and our service are "right." When you come into this store and look about, you know this and remember it.



For Misses and Women

Smart Sweater Coats—Furs, Muffs, Boas, Stoles, etc.—Tai- lored Suits and Dresses—Hand- some Coats—Warm Slippers— Smart Footwear—Silk Petticoats —Linen and Silk Waists.

Fred Murray,
the burglar captured last night in a residence on Adams street.

BURGLAR IN CLOSET.

(Continued From First Page.)

flashed his revolver into my face. I threw it up and tried to clutch him, and we went down the stairs struggling almost to the front door.

"I had no weapon of any kind, not even a knife, and when we got to the foot of the stairs, I let go and stepped into a closet under the stairs. The burglar followed me in there and tried again to shoot me. This time I got my right hand on his throat with a good grip, and I threw my left on his pistol, which I held up out of harm's way. I held him there, talking and struggling, while Mrs. Ellithorp telephoned for the police, and an officer arrived."

BURGLAR'S PLAIN.

At the City Jail, while he was being searched, Murray said that his plan was to ring the doorbell of a house early in the evening when he saw that all of the windows were dark. If some one answered the call, he would give some excuse or ask for some information and walk away. If there was no answer, and he smiled as he said it, he walked to the back door and broke in.

At the Ellithorp home a curling iron had been thrust into the key of the back door to prevent its being turned by anyone from the outside, but this impediment was readily displaced by the burglar after the glass had been broken.

E. F. Horsfall of Wisconsin, who is a visitor at the home of Dr. D. D. Mick across the street from the Ellithorp home, gave to the situation what might be called a grim touch of strenuous humor.

NEIGHBOR HELPS.

At the first crash of the conflict, Mr. Horsfall, who was out on the porch rushed across the street to render what aid he could. He grasped at once the fact that the place had been invaded by a burglar, but he did not know Mr. Ellithorp, and in his eager desire to make sure of getting the right man, he was rather impartial in the punishment he dealt out to the combatants.

Mr. and Mrs. Ellithorp, however, laughed about it last night—after the police had come and expressed their gratitude to their neighbor for his kindly intervention, albeit Mr. Ellithorp was a bit doubtful as he rubbed certain sore spots tenderly.

LOOT IN ROOM.

Murray's room was located in Eighth street, near Grand. The police will not give the exact number, as it is claimed that the man was rooming with a respectable family on whom he had imposed himself as an honest man. In his room the officers found a grip containing several articles of jewelry related to have been stolen, while, in other parts of the room, more jewelry was found, the total being estimated at between $600 and $800.

On the prisoner's person the officers found a watch and locket belonging to the Ellithorps, as well as three $2.50 gold coins, which are believed to have been stolen from a house recently burglarized on the South Side. Murray admitted that he had robbed several other houses, but declared that he could not give streets and numbers.

SEVEN BURGLARIES.

The detectives assert that Murray, who declares that he is only 17 years old, has already been connected, through the jewelry found in his room, with seven burglaries committed in various parts of the city, but chiefly on the west side.

The prisoner is a stocky young man, about five feet, eight or nine inches in height, erect in bearing and with the face of a bright schoolboy. He behaved exceedingly surly when he realized the seriousness of his position, and refused to say anything further about himself other than he had stated that he had come "back East" when he was taken in.

STRIVING TO MAKE TEAM.

Students in Debate to Determine Those Who Shall Contest With Eastern Men.

Seven students of the College of Law of the U.S.C. assailed on one hand and defended on the other the direct primary system of California last night. They were striving to get places on the debating team.

The preliminaries will continue until tomorrow night. At that time the names of the judges on all of the debates will be made public.

The rising barristers brought to bear down each other's arguments on both sides of the question, "Resolved, that the direct primary system, as adopted by the State of California, should be abolished." Each side sought to cite examples of failures and successes of this and other systems best suited for their purposes, and in the debates were matched, and there will probably be a big difference in their relative merits when announced at the end of the try-out. The third night of the try-out, which will be held next Tuesday night, Judge Frank Doherty, L. C. Kelly, Lester Moore and Allen T. Archer.

THE POLITICAL WATCH TOWER

Ten thousand and more voters, who took no part in the primary election, please write and let us all know how they will stand at the election next Tuesday. This is the message that was sent buzzing out yesterday from Republican and Silk Sock headquarters. As the thing stands now, both sides claim the victory—that is, not counting the 10,000 or so in addition to the 31,000 who took part in the primaries.

If we only could sit down here among ourselves—we of the Silk Socks and of the Republican organization—each one of us could figure out that our particular side would win. So far as the Silk Socks are concerned, of course, I could not reach their conclusion, and I am pretty well satisfied that they could not agree with us of the Republican organization. But we could juggle with the figures, any way, and it is patent that each side would claim the upper hand.

It is asserted by members of the Earl-Lissner organization that this estimated 10,000 will make the decision, and this same machine expects to corral a big majority of the 10,000. On the other hand, the Republican organization makes no such admission, and its members have figures to show that this will not be the case.

On one side, the Lissner machine asserts that the difference between the normal and the primary election vote is made up almost entirely of Alexander supporters who took no part in the primaries, satisfied that Alexander would be one of the two nominees, and that they could "come through" at the finish and elect him.

On the other side, the Republicans assert with equal sincerity that the voters were so m'xed up at the time of the primaries that they could not choose between Smith, Mushet and Farish, and that they, also, decided to wait for the general election, convinced that any one of the trio was all right.

As it turned out at the primaries, Uncle Aleck received only 12,000 votes, while the three candidates opposed to him were given a total of more than 13,000—or 6000 "to the bad" for Uncle Aleck.

This handicap of 6000 votes is pretty big for any candidate to overcome, even if the candidate be Uncle Aleck, who has a faculty of getting on both sides of the fence, likewise on top and underneath.

At least 80 per cent. of the combined vote of Mushet and Farish—more than 11,000—will, it is predicted, go to Smith, for the supporters of these two candidates at the primaries are flocking into the Republican camp. Giving Alexander the remaining 20 per cent., he is left several thousand votes behind Smith, though there are many who believe that far more than 80 per cent. of the Mushet and Farish vote will go for the Republican candidate.

Giving Alexander the benefit of the doubt, however, he will not have as good a show at next Tuesday's election as Smith will have.

Then comes the problem of the 10,000 or more votes that were not cast at the primaries, but which, judging by former records, will be cast at the general election.

The primaries brought out about 45 per cent. of the registration. Sixty per cent. of the registration, or, in the present instance, 42,000 votes, is considered a fair average for a real election.

Where will the new votes go?

Alexander got two-fifths of the primary votes. His opponents received three-fifths.

If the proportion be maintained at the election of next Tuesday, Uncle Aleck will come out with a little more than 16,000, and Smith will have 24,000.

Giving Alexander one-fifth of the votes that were cast for Mushet and Farish at the primaries, or, to be liberal, say 2500, he will have 14,500 with which to start. Give him two-fifths of the 10,000 additional votes that are expected, or 4000, and he will run up to 18,500.

Then give Smith his primary vote of 7200. The 3000 he will get from the Mushet-Farish supporters, making 15,200, and three-fifths of the new 10,000, or 6000, and he will have 21,200 votes at the general election, as against 18,500 for Alexander, a lead of 3000 for Smith over Alexander.

These are not Silk Sock figures, and they have not been "doped out" by the Republican City Central Committee. They are the result of a little figuring by a pupil at the High School, who thought he might help a little with his knowledge of arithmetic.

The only uncertain quantity is the vote that will be cast at the election of the 7th inst.

In any event, Smith will win.

The Land of Oil

We Have Gone Into the Land of Oil Where the Quality Is High and Where the Wells "Run on Forever"

Common sense is the indicator of an investment. A stock investor who puts his money into the stock of an oil company proposing to "find oil" in a new and untried field has little chance of returns—about one chance in ten thousand. This is a foolish chance, you say; then you laugh at the fool. Why invest your money in an unproved oil field? Let the fellow with millions do that.

The Home of Light Oil and High Prices

Ventura county, the home of light oil and high prices, is our chosen field of operation. Here for 25 years there has been a steady production of light oil; here was recorded the birth of the Union Oil Company in 1883, which has doubtless paid over a million dollars to stockholders in dividends. Thousands of oil seepages run from the mountain sides and acres of asphalt beds fill the low depressions. Oil is everywhere! A dry well is a rarity.

Shallow Drilling and Light Oil

The Crown Oil Company has a forty-year lease on 320 acres of oil land in the producing district of the Big and Little Sespe creeks, 3½ miles from railroad. Four transportation pipe lines are within easy reach, flowing springs on the property and, above all, a shallow and an inexpensive territory. The day we get oil we can market it. We will get oil. You will say as much the day you step foot on our land. Every man who visited the property said: "You can't miss getting oil." Now isn't this good enough for you? BUY STOCK IN OUR COMPANY AND YOUR MONEY WILL NOT BE PUT INTO THE GROUND IN A NEW AND UNTRIED OIL FIELD. We are among the producers; our immediate neighbors are the Brownstone, Los Angeles, Kentuck and Ivers wells.

It is estimated that our first well will produce from 100 to 300 barrels of oil daily, worth from $1 to $1.50 per barrel. The day we get such a well our stock should be worth 25c per share and increase in value as other wells produce. Back from the break in the formation we expect 600 to 1000-barrel wells. Would you take 35 or $10 per share for your stock the day we get such wells? Now, think this matter over. Choose—but choose quickly—where you are going to put your money. Is it going into a new field of uncertainty or into an old field of certainty? Act, for a boom in oil stocks is at hand. Reap the reward by buying into a good, legitimate oil company and buying when the stock is the cheapest—that is the time to buy for big profits on a small investment.

PROVEN OIL GROUND

A DRILLER OF 25 YEARS' EXPERIENCE SAYS: "DRILL AND YOU WILL GET OIL."

Way C. West,
Secretary Crown Oil Co.,
Los Angeles, Cal.

Fillmore, Cal., Nov. 5, 1909.

Dear Sir: Your letter received and contents noted and in answer will say that I can see no reason why the land you have in Section 7 is not just as good as the Brownstone Oil Company's property, which joins it on the north. With producing wells within 200 feet of your line, with the rock formation running directly through them all, it looks to me as though you can not help getting oil if you drill the hole. The Union Oil Company's wells have been producing about twenty years and the Brownstone Company's about seven or eight years, the oil is about 28 gravity and the wells started producing at probably from 100 to 150 barrels a day. If there is any further information that I can give you let me know and I will do so. Respectfully yours, A. A. WARD.

Remember: Crown oil stock is now selling at 5c per share. After Dec. 5th. you must pay 7c per share. Now is the time to buy unless you wish to pay the advance price. Write, call or phone your orders.

MUSIC AND MUSICIANS.

(Continued From Fifth Page.)

lasco stage this winter. "The Captain" is one of the liveliest fun-creating affairs that Broadhurst has ever turned out, and he is responsible for such successful laughing hits as "What Happened to Jones," "The Wrong Mr. Wright," "Why Smith Left Home" and "The Lady From Lanes."

Charles Giblyn of the Belasco forces has been prevented from playing for the past week on account of an operation which has kept him confined to his Glendale home for the past ten days.

The first dress and scenic rehearsals with the full orchestra of twenty-four pieces for "The Love Tales of Hoffnagh has secured special French horn players for the occasion, and on Saturday night a force of carpenters will remove the first three rows of seats in the house to make space to accommodate the orchestra. One of the costumes to be worn in the third act of the opera is the one worn by M. Dalmores when he sang the title role in Oscar Hammerstein's first production of the piece in America. The management has issued a neat twenty-page booklet, containing a biography of the composer, Offenbach, a review of the work itself, a souvenir programme of the production which will be given to the patrons of the Grand at every performance next week, and an announcement of many important future plans of Ferris Hartman and his company.

Manager Bovyer of the Los Angeles Theater received a telegram last night from the New York office of Sullivan & Considine, stating that Bere Nordlund, with Annette Kellermann, Carlotta, the young woman who became famous for looping the loop in an automobile with Barnum & Bailey's circus, will soon appear at the Los Angeles Theater. Both acts will be sent direct to the Coast from New York City, playing only Seattle and San Francisco before they arrive here, and making only three weeks on the Pacific Coast.

Harry Earl, one of the former directors of the old company at the Grand Operahouse, will on Monday open a company headed by himself and Miss Grace Ranworth, at the Unique Theater, where he will give several comedy dramas. Mr. Earl will also make the affair a continuous performance by offering several vaudeville specialties between the acts of the play, and in that way give the patrons both vaudeville and dramatic productions. The piece to be offered for the opening will be Mr. Earl's own drama, "A Wife's Peril."

At Breakfast Time

you can leave Los Angeles and be in San Francisco soon after dinner after a day of the pleasantest, most comfortable travel that you have ever enjoyed anywhere.

You can do this on the new Southern Pacific daylight train to the north, which leaves the Arcade Station at 8:00 o'clock every morning, the

Shore Line Limited

This train, which is a duplicate of the famous "OWL," represents the highest development of railway train service. Its equipment consisting of Diner, Buffet, Library, Parlor Observation and Parlor Cars, provides a luxurious comfort in travel which makes this one-day trip to San Francisco a memorable features of the road of a thousand wonders.

Arives at San Francisco at 9:30 p. m. the same day.

Stops should be made at Santa Barbara, Paso Robles Hot Springs, Del Monte, Santa Cruz, San Jose (Lick Observatory.)

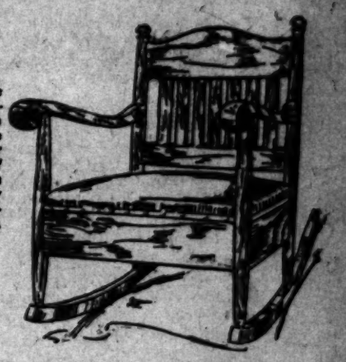
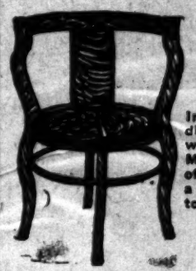
Well Conceived Pieces That Will Add Much to Any Parlor's attractiveness and that will make appreciable and inexpensive gifts for Christmas. They are offered on the Lyon McKinney Smith low-price plan, and on the Lyon McKinney Smith liberal credit service.

Rockers

We take pride in these chairs, in their construction, in their variety, in the low prices we've been able to place on them. This chair is the very latest product of the season. We show it in mahogany, golden oak, early English, spring seat, upholstered in real leather. A rare bargain at

$14.00





Here's a Chair

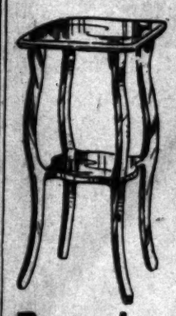
In golden oak that's decidedly an out-of-the-ordinary model. There's a big heavy curved back with massive arms and legs and a shaped seat. Most every part of this chair is quarter-sawed, of selected wood. The circular wooden rail gives a little more solidity, just a little more richness to a splendid design.

$3.75

Pedestals

Made along lines of simplicity with heavy fluted columns and bases of extra weight. Tops, edges and upper surfaces are beautifully grained quarter-sawed golden oak. The Lyon, McKinney Smith pedestals have earned a wide reputation among lovers of the artistic in furniture construction.

$2.85



Tables

For parlor or living rooms, the best designs and woods that we can buy. The patterns here are numbered by the score, and they all possess the strong, clean lines and careful finish that mark Lyon, McKinney Smith products. The type shown, in mahogany or golden oak.

$3.25

Bargains in Other Departments

NEWS REPORTS FROM CORRESPONDENTS OF THE TIMES.

PASADENA.

THINKS BOY IS PRODIGY.

Ellen Beach Yaw Will Give Him His Chance.

Newsboy Is to Be Taught by Noted Singer.

Hotel Green Opening Is Big Society Function.

Office of The Times, No. 70 S. Raymond Ave.

PASADENA, Dec. 2.—Ellen Beach Yaw thinks she has found a musical prodigy in Karl "Shorty" Brandenburg, a newsboy. She will give him lessons in singing at her home in Covina, commencing on December 16 and continuing regularly twice a week as long as she stays in Southern California.

The finding of "Shorty" came about in a way which shows that he has the ability of trying to make the best of himself in the world. He is a member of the eighth-grade class at the Wilson school. He has always shown a great interest in music and has taken advantage of the training in the public schools.

Monday night Ellen Beach Yaw gave a concert at the Lowe Operahouse under the auspices of the Shakespeare Club. Just before it started "Shorty" made his way to the rear of the stage and asked for the great singer. He was presented to her and said:

"I am a newsboy here in Pasadena and I have heard that you have taken much interest in the newsboys. I have been going to school here and I think I have a good voice for singing. I would like to have you tell me whether I have or not, for if my voice is no good I want to know it and I won't waste any time trying to learn to sing."

"I like your appearance and the deep interest you seem to want to take in your education. I shall be very glad to have you call on me tomorrow morning and I will listen to your singing. It will give me much pleasure to pass on the quality of your voice," said the singer.

Bright and early yesterday morning "Shorty" made his appearance at the home of Howard J. Fish, No. 428 South Marengo avenue, where Miss Yaw was stopping. He was ushered into the parlor, the first time he had ever had an opportunity of being inside such a beautiful place. He was undaunted when the great soprano told him to sing something, and he stood up and did his best.

At the conclusion of his efforts Miss Yaw inquired into his history. He stated that he lived at No. 525 North Madison avenue with his father, John Brandenburg, his mother and brother and sister. John Brandenburg is a conductor for the Pacific Electric Railway. Karl was born at Keswick, Iowa, and came to Pasadena seven years ago when he was 8 years old. He has been selling papers on the streets since coming here.

Karl Brandenburg.

Pasadena newsboy, whom Ellen Beach Yaw thinks is a musical prodigy and will have educated.

Miss Yaw told "Shorty" that she would [illegible] Twilight Club on the subject a wonderful voice [illegible] strongly commended the [illegible] and with so little [illegible] Pasadena for their [illegible] that he had a [illegible] and for the drastic [illegible] with proper [illegible] they adopted. Guests gather at the Green from all parts of the world. Society people from all the social centers of the globe come here for the winter.

This year the big hotel has been completely overhauled. Last night after the dinner hour the guests and visitors were invited to make a tour of inspection over the entire building. The great ballroom was brilliantly lighted and many of the visitors spent the evening in dancing.

David Simpson, the new assistant manager, was in charge last night, assisted by W. E. Grattan, a son-in-law of Col. G. G. Green. Col. Green and family and David Plummer, the new manager, will not arrive until the middle of the month.

Many dinner parties were given last night. Mr. and Mrs. Simpson and daughter were hosts of Mr. and Mrs. Walter Raymond, Mr. and Mrs. D. M. Linnard and Mr. and Mrs. F. Howland.

Mr. Grattan gave a party to Mr. and Mrs. Breckenridge and Mr. and Mrs. William F. Knight. Mr. and Mrs. Robert Neustadt had as guests Mr. and Mrs. E. M. Neustadt, Miss Marjorie Ward, Mr. and Mrs. O'Fallen, Luther Green and Calvin Green. Mrs. George Watson entertained Winthrop Howard Barnes, Miss Madeline Barnes, Miss Marjorie Bolt and DeWitt Lacy. Mrs. Artemus Lamb, who is a guest of the Green, entertained Mr. and Mrs. Colin Stewart. Mr. and Mrs. J. E. Carpenter and Mr. and Mrs. W. M. Murphy.

Other guests at the dinner were Mr. and Mrs. F. L. Slate, Mr. and Mrs. George W. Withercit, L. B. Eaton, Dr. and Mrs. O. M. Draper, Miss Hughes, Mr. and Mrs. Frank O. Bolt, Mr. and Mrs. W. L. Wright, N. W. Bell, Mr. and Mrs. William H. Veeder, Mr. and Mrs. S. P. Sanborn, Mr and Mrs. J. O. McCament, Mr. and Mrs. J. E. Parker, Mrs. Burgess, Mr. and Mrs. W. N. Van Nuys, Mr. and Mrs. C. H. Hamilton, Mr. and Mrs. Montgomery Ward, Mr. and Mrs. W. W. Hunter.

These guests have arrived at the Green for the winter: Mrs. John M. Silkerson, Miss Rita Cohegan, R. Wade Davis, Miss McGowan, New York; John E. Connelly, Cincinnati; Mr. and Mrs. William J. Starkweather, Cleveland; Mr. and Mrs. A. V. Parker, Buffalo; Mrs. W. W. Sloan and daughter, Mrs. L. S. Orcutt, New York.

WILL GET SERUM.

Following a conference yesterday morning between City Health Officer Black, Dr. F. C. E. Mattison and Dr. [illegible]

[illegible] ence of rabies among the dogs of Pasadena, Dr. Black has been instructed to send to the Pasteur Institute at Chicago and procure some of the serum used at that institute for curing hydrophobia.

Dr. Snow stated that there is no doubt of the existence of rabies in Pasadena. The fact that several people have been bitten by affected dogs warrants that everything possible must be done to protect them in case they should show symptoms of hydrophobia. When persons who have been bitten are sent at once to the Pasteur Institute at Chicago they are treated to prevent the disease becoming dangerous. As Chicago is so far away, and that any one with hydrophobia would be beyond the stage of help by the time they could get there, it has been decided to bring some of the serum to Pasadena and begin treating those who have been bitten by dogs known to be affected with rabies. One boy named Compton, living in the Arroyo Seco, was bitten by a dog wearing tag No. 9. At the time the dog was not supposed to be sick. Afterward it was found to have a well-developed case of rabies. Several children were bitten in Central Park by a dog which was found to have rabies. The names of the children are not known to the Board of Health. It is stated that there are a large number of people, especially children, who have been bitten during the past month by dogs known to have rabies. An effort will be made to find these people and treat them when the serum arrives.

[illegible] snow delivered an address be-

[illegible] ...ENS AROUND IT.

[illegible] contract made between the city and the Hotel Raymond for furnishing the latter with electricity from the municipal plant seemed to involve supplying electricity outside the city limits. However, the difficulty will be overcome. The hotel company owns three lots adjoining the grounds, which are located within the city. A building will be erected on these lots, and the meters and switchboards placed inside of the city.

Mrs. D. L. Dixon, No. 163 Carlton avenue, was painfully injured yesterday by a motorcycle which jumped over the curb and crashed into her as she was walking along the sidewalk at the corner of Marengo and Union. Edward Pickering was riding the motorcycle east on Union at a high rate of speed. As he approached Marengo he suddenly turned to avoid an automobile.

The Mayor and members of the Council visited the site of the proposed new bridge across the tracks at Columbia street yesterday, and decided to go ahead with the work at once. The City Engineer will be instructed to get out a set of plans, and other engineers will be invited to submit designs. It is thought the building of the bridge will cost $15,000.

MEMBERSHIP CAMPAIGN.

The Membership Committee of the Board of Trade has decided on an active campaign. The present membership is about 800, and the committee wants to run it up to 1000. The city has been divided into districts, with one man in charge of each. It is intended to call upon every man in the entire city and solicit his membership in the Board of Trade.

D. Alberta, arrested last Saturday charged with operating a "blind pig" near San Fernando, entered a plea of guilty yesterday morning before Justice Klamroth. There were three counts. On the first two he was sentenced to pay a fine of $100 each or serve 100 days in jail, and on the third count he was sentenced to sixty days in jail. The latter sentence was suspended on the understanding that he will not again violate the law by selling liquor.

A general meeting of the Board of Trade is called for this evening, for the purpose of discussing the Pasadena Rapid Transit Company's proposed electric short line between Pasadena and Los Angeles. The company states that it will be in position to state that the entire right of way between the terminals has been secured and that practically all the ground for terminals has been obtained. The officials say that they will be ready to [illegible]

Pasadena and Los Angeles terminals will be laid fourteen feet under ground.

Mayor Early yesterday announced that he is in favor of annexing a part of South Pasadena to Pasadena. He favors taking in that part which is naturally handled by the Pasadena sewerage system, leaving the balance independent. He states that he is not in favor of annexing enough territory to make a total acreage of 35,000 to be supplied by the Pasadena waterworks.

"We would certainly not think of any such arrangement if it necessitated the union of the governments of Pasadena, South Pasadena, Alhambra and Duarte. If the water district had no other purpose than the securing of water it might do, but it does not seem to me particularly desirable," said the Mayor.

Rev. Mr. Daniel Fox, recently elected pastor of the First Congregational Church, will arrive from Chicago this morning at 8 o'clock. He will be met at the station by a large number of the members of the church, including delegations from each of the various organizations. He will preach his first sermon on Sunday morning. For several years he has been pastor of the California - avenue Congregational Church of Chicago.

The Pasadena tennis tournament for the Early cup will begin this afternoon at Carmelita playground. The players who have drawn for today's game are Guyer vs. Turlock; Pitcairn vs. Johnson; Newell vs. Roehrig; Calt vs. Musick; Barker vs. Lockwood; Elliott vs. Meyers. Play will start at 3 o'clock.

DROPS DEAD.

Benjamin Hammer of No. 587 North Lake avenue, dropped dead at his home yesterday afternoon just after dinner. He was walking around on his lawn, apparently in good health, when he suddenly fell and died before assistance could reach him. The cause of death was heart failure. Mr. Hammer was 79 years old, and had been a resident of Pasadena for many years.

J. F. Morris and family of Ireton, Iowa, have come here to make their home. They have taken a house at No. 1053 East Orange Grove avenue. Mr. Morris was prominent in politics in Northwestern Iowa, having represented Sioux county in the State Legislature for the past three sessions.

Miss Cicely Ann Robson and Herbert E. Smith were married last night at the Lake-avenue Methodist Church. A reception was given at the home of the bride's parents, No. 359 South Catalina avenue.

Miss Abbie E. Manwaring and Walter O. Edwards were married yesterday afternoon at the home of the bride's parents, Mr. and Mrs. S. R. Manwaring, Garfield and Mission streets. An informal reception was held during the afternoon. In the evening Mr. and Mrs. Edwards departed for their new home in Monrovia.

Mrs. Leslie Learned gave a tea yesterday afternoon at the rectory, No. 123 North Euclid avenue, in honor of the Woman's Auxiliary and Woman's Guild.

The Misses Gilbert of Magnolia avenue were hostesses yesterday afternoon for the Fortnightly Bridge Club.

The Wetherby-Kayser Shoe Co., 215-217 S. Broadway, Los Angeles, is exhibiting a complete assortment of exclusive footwear, boots, oxfords, evening and toilet slippers for men, women and children, Wednesday and Thursday, Dec. 1 and 2, at the Exhibition Room of the Hotel Maryland. All are cordially invited to inspect this interesting showing.

The stock of the Pasadena Rapid Transit Company is now selling at $100 per share.

SAN PEDRO.

ALL IS BUSTLE AT THE DOCKS.

THREE LARGE FOREIGNERS ARE DISCHARGING CARGO.

Bessie Dollar from the Orient Joins Manx King and the Claverly—All Fly British Flag—Many Windjammers of Large Carrying Capacity Are Sailing Off Shore.

SAN PEDRO, Dec. 1.—With the arrival this morning of the big British steamship Bessie Dollar from the Orient, three large foreigners, all flying the British flag, are discharging cargoes at various wharves. The ship Manx King, recently arriving from Antwerp, is making good progress landing a full cargo of coke at the Southern Pacific wharf. The big turret steamship Claverly, Capt. C. Kragh, is at the same wharf with a general cargo, also loaded at Antwerp. The Claverly arrived November 29, carrying 2000 tons for San Pedro, and an additional cargo of 5000 tons for San Francisco.

The cargo of the Bessie Dollar, arriving today, consists of 400,000 feet of oak and teak timber and lumber and several thousand tons of miscellaneous cargo loaded at Hongkong and Hakodate. The cargo is being handled by the Crescent Wharf and Warehouse Company. The Bessie Dollar will complete the discharge of cargo for this port on Saturday, when she will clear for San Francisco.

The Bessie Dollar is a large steamship of 5097 tons gross, 270 feet in length, fifty feet breadth and twenty-seven feet depth of hold. She carries a crew of forty-five men, and is commanded by Capt. Gow. She was thirty-three days on the voyage, which was uneventful.

Still another British steamship, the M. S. Dollar, is due to arrive here about December 9 from Hongkong with a general cargo.

Many windjammers of large carrying capacity, formerly in the coastwise lumber trade, are now sailing off shore. The barkentine James Johnson cleared yesterday from Eureka for Newcastle and Sydney, carrying 913,000 feet of redwood lumber, with an additional cargo of shingles. The entire cargo is valued at $25,359. The schooner S. T. Alexander was cleared from the same port on the same day with 24,528 redwood ties for Salina Cruz, Mex., the cargo being valued at $9418. The schooner A. F. Coats will also load ties at Eureka for Mexican ports.

The Pacific Coast Company's steamship President, Capt. Thomas, due to arrive here last night from Seattle, via Eureka, San Francisco and Redondo, arrived this afternoon over sixteen hours late, after an exceedingly rough voyage. The President was heavy gale. After discharging passengers and cargo, she cleared tonight for San Diego. She is scheduled to arrive tomorrow afternoon, about 5 o'clock, clearing for San Francisco at 7 p.m.

John B. Radamacher, ship's carpenter on board the British ship Manx King, who was charged by Capt. Cannell, master of the vessel, with battery, was fined $15 in the justice court this morning.

With the announcement that, beginning today, the rate on lumber from Portland to San Pedro would be advanced from $4.50 to $7.50 a thousand feet, it is believed sailing tonnage coming to San Pedro and other Southern California ports will be greatly increased. For several years many windjammers formerly in the lumber trade have lain idle in Oakland Creek and at other northern ports, on account of the low freight rate which has prevailed. With the increase in rates, it is believed much of this idle tonnage will be at once placed in commission.

UNMANNERLY MAN.

WOMAN VICTIM OF A FORGER.

CHECK ARTIST DISPOSES OF WORTHLESS PAPER.

Trusting Female Employee of Typewriter Company Defrauded by Long Beach Individual—Hotel Contracts for the Establishment of an Art Gallery—Postal Receipts Larger.

LONG BEACH, Dec. 1.—The police are looking for a man who wrote the name of Jean G. Drake, secretary of the bath-house, on a check for $25, which he passed upon Miss M. L. Forbes, with a typewriter company in Los Angeles. R. S. Miller is accused of the forgery.

Nothing much is known of Miller here. He came from Santa Barbara and worked for two days at the Virginia Hotel, then quit. The check was drawn on a Los Angeles bank, which sent it here for collection, and Drake promptly repudiated it.

The directors of Hotel Virginia today completed a contract for the establishment of a $10,000 art gallery.

Charles Berger, who last week attempted to shoot Officer Austin with the latter's own revolver, was brought here today and arraigned before Justice Brayton on a charge of assault with intent to commit murder. He will have his preliminary hearing on the 9th inst. He was taken back to jail in default of $3500 bail.

In a recent civil service examination, Patrolman McCown passed the examinations for desk sergeant, and William Warren, S. J. Turk and L. Holmes passed for engineers of the fire department.

BUILDING PERMITS.

During November forty-eight building permits were issued, of the contract value of $36,540. Twenty were for new buildings, the remainder for repairs and alterations.

The Board of Education of the former Belmont Heights school district today turned over to President F. C. Yeomans of the Long Beach board all the books, documents and school property. The teachers will retain their places.

The postoffice receipts for November show the largest percentage of increase in the history of the local office. They were $4178.32, as against $2956.59 a year ago, an advance of 41 per cent.

At a meeting of the City Council last night the Belmont Wine Company, which had to quit business when Belmont consolidated with Long Beach, was given a rebate of $266.25 on its liquor license, which still had nearly three months to run.

Co. H has applied to the Council for quarters on the lower deck of the auditorium. The matter was referred to the Inspection Committee.

POMONA ACTIVITIES.

Cannery Prepares for Busy Season Putting Up Oranges—Manufacturing Company Has Big Pay Roll.

POMONA, Dec. 1.—Eugene L. Klein, who has established the Orange Canning Company here because of accessibility to orange groves and on account of this city's commercial advantages, is preparing for a busy season's work at his new plant.

The Pomona Manufacturing Company now gives employment to over sixty men and has an invested capital of $75,000. The new foundry building is now occupied and the annual pay roll amounts to over $50,000. Seven orders for the Pomona deep well pumps were received from Central California last week, ranging in price from $2500 to $4000.

Loud and Gerling have shipped sixty cars of dried apricots, peaches, prunes, raisins and walnuts this season to eastern markets and to Germany, Sweden, Holland and Belgium.

The Pomona Cannery has finished its season, shipping about 2,000,000 cans of apricots, peaches and berries.

The California Rose Company on South White avenue has hundreds of thousands of rose cuttings ready for shipment.

Mrs. Mae Guthrie Tongier lectured at the Fraternal Aid Theater last evening upon "Shasta Daisies and Folks," under the auspices of the local W.C.T.U.

ELECTION DATE FIXED.

Huntington Park Trustees Name Day for Vote on Annexation of Miramonte and Adjacent Territory.

HUNTINGTON PARK, Dec. 1.—At Tuesday night's meeting of the Trustees, January 11 was fixed as the date for a special election to decide on the proposed annexation of Miramonte and adjacent territory to Huntington Park. This election is assumed to be preliminary to a campaign for the consolidation of this entire territory with Los Angeles. Miramonte does not desire to unite with Huntington Park unless assured that the consolidation movement will go through, and it now appears that in any event there will be strong opposition.

A group of Miramonte citizens attended the meeting of the Trustees. It soon became evident that two factions were represented. H. B. Blakley of Florence fought every point for which the consolidationists contended.

As it is thought advisable by all parties to obtain some expression as to the manner in which the consolidation idea will be received by Los Angeles, the matter has been brought before the Chamber of Commerce of that city and will be up for consideration before the directors of that body tomorrow. If the chamber refuses to indorse Huntington Park consolidation the whole movement will be given a serious setback. Representatives of [illegible]

SOUTH PASADENA.

SOUTH PASADENA, Dec. 1.—The Ways and Means Committee of the Women's Improvement Association will hold a Christmas sale in the Gleason Block, No. 1118 Mission street, Friday.

City tax collections during the first week aggregated $2800 as only against about $800 the first week in 1908.

At a special meeting of the South Pasadena Chapter, Order of the Eastern Star, tomorow evening, initiation ceremonies will be held.

A Sunday-school convention of the Methodist churches of Pasadena, South Pasadena, Alhambra, Highland Park, Garvanza and Lamanda Park will be held in the Methodist Church of this city Friday and Saturday. Dr. Matt S. Hughes of Pasadena will deliver the address Friday evening.

COVINA.

COVINA, Dec. 1.—The Holy Trinity Church annual bazaar was held in the Woman's Clubhouse yesterday afternoon. The net proceeds were over $200. This sum will be applied upon the small debt on the church property.

The Odd Fellows and Rebekahs of the upper San Gabriel Valley held a reunion in the Odd Fellows' Hall last evening. Over 300 were present. Following a musical and literary programme an exhibition drill was given by the Cantons. The evening closed with a banquet and dance.

H. N. Wells, secretary of the Chamber of Commerce, is in Ventura representing this city at the "Good Streets Jubilee."

ENGINEERED LAND FRAUD.

The testimony of H. W. Blaisdell in the Imperial land-fraud case in the United States District Court yesterday brought on several clashes between the attorneys. Blaisdell pleaded guilty to a charge of conspiring to defraud the government last week. He was fined $4000 by Judge Wellborn. After hearing some of Blaisdell's testimony yesterday the court intimated that if he had known what the witness was to confess he would not have let him off with a fine. Blaisdell, in his testimony, sought to show the Chaplins and McPherrin were not parties to the alleged fraudulent acts and that he engineered the deals himself.

JEWISH SOCIAL CLUB.

The Sinai Literary and Social Society was organized last night at a meeting of the young people of Sinai Congregation in the synagogue parlors. Officers are: President, Harry Hirsch; vice-president, Dora Berres; financial secretary, Julia Komfeld; recording secretary, Carolyn Abrams; treasurer, Anna Hirsch. Executive Committee, Julia Blumenthal, Hattie Kiyanawsky, Rose Becker, Leo Cytron, Julian Cohn and I. R. Rubin. Rev. Dr. Isidore Myers was elected honorary president of the society. The first literary and social meeting will be held December 31.

PATIENT VERY LOW.

At an early hour this morning word from the hospital in which she is being treated, was to the effect that the condition of Mrs. Nicholas Jacobs was very critical and that she might not live until daylight. Mrs. Jacobs is the mother of the family, five members of which were killed in the auto tragedy of Thanksgiving Day.

IMMORALITY CHARGED.

Immigration inspectors conducted a hearing yesterday in the case of Mrs. C. J. Heyndrikx, who is charged with being an immoral alien. The evidence will be forwarded to Washington for review by Secretary Nagel of the Department of Commerce and Labor. The woman was arrested some time ago under the name of Alice Martin, alias Cecelia De Bellda. She is married, and claims that she has never lived an immoral life.

UNDELIVERED TELEGRAMS.

Undelivered messages are at the Western Union office, First and Spring streets, for Mrs. E. Lonard, George Harm, Ray Robertson, Mrs. W. B. Colbert, C. B. Hall, Dr. J. H. Cook, Mrs. C. J. Crosby, Earlimart Water Company, Dr. D. E. Martin, and Mrs. Eula Colbert.

The Exceptional Equipment

of the California Fig Syrup Co. and the scientific attainments of its chemists have rendered possible the production of Syrup of Figs and Elixir of Senna, in all of its excellence, by obtaining the pure medicinal principles of plants known to act most beneficially and combining them most skillfully, in the right proportions, with its wholesome and refreshing Syrup of California Figs.

As there is only one genuine Syrup of Figs and Elixir of Senna and as the genuine is manufactured by an original method known to the California Fig Syrup Co. only, it is always necessary to buy the genuine to get its beneficial effects.

A knowledge of the above facts enables one to decline imitations or to return them if, upon viewing the package, the full name of the California Fig Syrup Co. is not found printed on the front thereof.

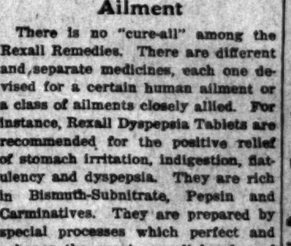
"The World's Best Table Water"

The Making of Prices on

PIANOS



We make our prices on a basis of an average of 166 piano sales every month, figuring an average profit of $20 on each piano. This means $100 to $200 less on every piano than the small dealer, handling 7 or 8 pianos a month must charge to make expenses.

A Low, One-Price, Big-Volume System

The pianos that we sell for $137, $156, $187.50, $237, $268 and $290 show the effect of this system. Our selling plan is the result of 20 years' experience. Every minute of this time has been spent in an effort to build up a mammoth business that will stand as a monumental success—the great piano house of the Southwest.

That we have succeeded no one doubts.

Not a "Cure-all"

Separate Remedies, Each Devised for the Treatment of a Particular Ailment

There is no "cure-all" among the Rexall Remedies. There are different and separate medicines, each one devised for a certain human ailment or a class of ailments closely allied. For instance, Rexall Dyspepsia Tablets are recommended for the positive relief of stomach irritation, indigestion, flatulency and dyspepsia. They are rich in Bismuth-Subnitrate, Pepsin and Carminatives. They are prepared by special processes which perfect and enhance the great remedial value of these well-known medicinal agents. This remedy sells for 25c, 50c and $1 per package. Every one suffering from stomach disorder should try Rexall Dyspepsia Tablets, inasmuch as they cost nothing if they do not satisfy.

Remember, The Owl Drug Co., Inc., Los Angeles, San Francisco, Oakland, Cal., and Seattle, Wash., are the only stores in Los Angeles where these remedies may be obtained, and every one in need of medicine is urged to investigate and take advantage of the frank and generous manner in which they are sold.

NEWS REPORTS FROM CORRESPONDENTS OF THE TIMES.

PASADENA.

THINKS BOY IS PRODIGY.

Ellen Beach Yaw Will Give Him His Chance.

Newsboy Is to Be Taught by Noted Singer.

Hotel Green Opening Is Big Society Function.

Office of The Times, No. 74 S. Raymond Ave.

PASADENA, Dec. 2.—Ellen Beach Yaw thinks she has found a musical prodigy in Karl "Shorty" Brandenburg, a newsboy. She will give him lessons in singing at her home in Covina, commencing on December 18 and continuing regularly twice a week as long as she stays in Southern California.

The finding of "Shorty" came about in a way which shows that he has the ability of trying to make the best of himself in the world. He is a member of the eighth-grade class at the Wilson school. He has always shown a great interest in music and has taken advantage of the training in the public schools.

Monday night Ellen Beach Yaw gave a concert at the Lowe Operahouse under the auspices of the Shakespeare Club. Just before it started "Shorty" made his way to the rear of the stage and asked for the great singer. He was presented to her and said:

"I am a newsboy here in Pasadena and I have heard that you have taken much interest in the newsboys. I have been going to school here and I think I have a good voice for singing. I would like to have you tell me whether I have or not, for if my voice is no good I want to know it and I won't waste any time trying to learn to sing."

"I like your appearance and the deep interest you seem to want to take in your education. I shall be very glad to have you call on me tomorrow morning and I will listen to your singing. It will give me much pleasure to pass on the quality of your voice," said the singer.

Bright and early yesterday morning "Shorty" made his appearance at the home of Howard J. Fish, No. 423 South Marengo avenue, where Miss Yaw was stopping. He was ushered into the parlor, the first time he had ever had an opportunity of being inside such a beautiful place. He was enchanted when the great soprano told him to sing something, and he stood up and did his best.

At the conclusion of his efforts Miss Yaw inquired into his history. He stated that he lived at No. 525 North Madison avenue with his father, John Brandenburg, his mother and brother and sister. John Brandenburg is a conductor for the Pacific Electric Railway. Karl was born at Keswick, Iowa, and came to Pasadena seven years ago when he was 5 years old. He has been selling papers on the streets since coming here.

Miss Yaw told "Shorty" that he had a wonderful voice for one so young and with so little training. She added that he had a clear baritone which, with proper training, should make a great voice. She said she would be very glad to give him a thorough musical education free of charge if he would come to her home in Covina twice a week.

In talking with friends later Miss Yaw stated that the boy's voice was certainly wonderful and that if he be taken care of himself he has a chance of being one of the great singers of the country.

"Shorty" is greatly elated with his prospects and states that he will do his very best to make a great singer out of himself. He was at his accustomed stand on Colorado street last night, selling papers.

Karl Brandenburg,

Pasadena newsboy, whom Ellen Beach Yaw thinks is a musical prodigy and will have educated.

HOTEL GREEN OPENS.

One of the largest social functions of the season was the opening of the Hotel Green last night. Promptly at 6 o'clock the great place was thrown open to the public and the season of 1909-10 was started. For the next four months Pasadena will be the social center of Southern California and many of the big functions will be given at the Green, which is large enough to accommodate the largest events.

Guests gather at the Green from all parts of the world. Society people from all the social centers of the globe come here for the winter.

This year the big hotel has been completely overhauled. Last night after the dinner hour the guests and visitors were invited to make a tour of inspection over the entire building. The great ballroom was brilliantly lighted and many of the visitors spent the evening in dancing.

David Simpson, the new assistant manager, was in charge last night, assisted by W. E. Grattan, a son-in-law of Col. G. G. Green. Col. Green and family and David Plummer, the new manager, will not arrive until the middle of the month.

Many dinner parties were given last night. Mr. and Mrs. Simpson and daughter were hosts of Mr. and Mrs. Walter Raymond, Mr. and Mrs. D. M. Linnard and Mr. and Mrs. F. Howland.

Mr. Grattan gave a party to Mr. and Mrs. Breckenridge and Mr. and Mrs. William F. Knight. Mr. and Mrs. Robert Neustadt had as guests Mr. and Mrs. E. M. Neustadt, Miss Marjorie Ward, Mr. and Mrs. O'Fallen, Luther Green and Calvin Green. Mrs. George Watson entertained Winthrop Howard Barnes, Miss Madeline Barnes, Miss Marjorie Bolt and DeWitt Lacy. Mrs. Artemus Lamb, who is a guest of the Green, entertained Mr. and Mrs. Colin Stewart, Mr. and Mrs. J. E. Carpenter and Mr. and Mrs. W. M. Murphy.

Other guests at the dinner were Mr. and Mrs. F. L. Slate, Mr. and Mrs. George W. Witherell, L. R. Eaton, Dr. and Mrs. O. M. Draper, Miss Hughes, Mr. and Mrs. Frank O. Bolt, Mr. and Mrs. W. L. Wright, N. W. Bell, Mr. and Mrs. William H. Veeder, Mr and Mrs. S. P. Sanborn, Mr and Mrs. J. O. McCament, Mr. and Mrs. J. E. Parker, Mrs. Burgess, Mr. and Mrs. W. N Van Nuys, Mr. and Mrs. C. H. Hamilton, Mr. and Mrs. Montromery Ward, Mr. and Mrs. W. W. Hunter.

These guests have arrived at the Green for the winter: Mrs. John M. Gilkerson, Miss Etta Cohegan, R. Wade Davis, Miss McGowan, New York; John E. Connelly, Cincinnati; Mr. and Mrs. William J. Starkweather, Cleveland; Mr. and Mrs. A. V. Parker, Buffalo; Mrs. W. W. Sloan and daughter, Mrs. L. S. Orcutt, New York.

WILL GET SERUM.

Following a conference yesterday morning between City Health Officer Black, Dr. F. C. E. Mattison and Dr. Pasadena and Los Angeles terminals will be laid fourteen feet under ground.

Mayor Early yesterday announced that he is in favor of annexing a part of South Pasadena to Pasadena. He favors taking in that part which is naturally handled by the Pasadena sewerage system, leaving the balance independent. He states that he is not in favor of annexing enough territory to make a total acreage of 35,000 to be supplied by the Pasadena waterworks. "We would certainly not think of any such arrangement if it necessitated the union of the governments of Pasadena, South Pasadena, Alhambra and Duarte. If the water district had no other purpose than the securing of water it might do, but it does not seem to me particularly desirable," said the Mayor.

Rev. Mr. Daniel Fox, recently elected pastor of the First Congregational Church, will arrive from Chicago this morning at 8 o'clock. He will be met at the station by a large number of the members of the church, including delegations from each of the various organizations. He will preach his first sermon on Sunday morning. For several years he has been pastor of the California avenue Congregational Church of Chicago.

The Pasadena tennis tournament for the Early cup will begin this afternoon at Carmelita playground. The players who have drawn for today's game are Guyer vs. Turlock; Pitcairn vs. Johnson; Newell vs. Roehrig; Calt vs. Musick; Barker vs. Lockwood; Elliott vs. Meyers. Play will start at 3 o'clock.

DROPS DEAD.

Benjamin Hammer of No. 587 North Lake avenue, dropped dead at his home yesterday afternoon just after dinner. He was walking around on his lawn, apparently in good health, when he suddenly fell and died before assistance could reach him. The cause of death was heart failure. Mr. Hammer was 79 years old, and had been a resident of Pasadena for many years.

J. F. Morris and family of Ireton, Iowa, have come here to make their home. They have taken a house at No. 1052 East Orange Grove avenue. Mr. Morris was prominent in politics in Northwestern Iowa, having represented Sioux county in the State Legislature for the past three sessions.

Miss Cicely Ann Robson and Herbert E. Smith were married last night at the Lake-avenue Methodist Church. A reception was given at the home of the bride's parents, No. 339 South Catalina avenue.

Miss Abbie E. Manwaring and Walter O. Edwards were married yesterday afternoon at the home of the bride's parents, Mr. and Mrs. S. R. Manwaring, Garfield and Mission streets. An informal reception was held during the afternoon. In the evening Mr. and Mrs. Edwards departed for their new home in Monrovia.

Mrs. Leslie Learned gave a tea yesterday afternoon at the rectory, No 123 North Euclid avenue, in honor of the Woman's Auxiliary and Woman's Guild.

The Misses Gilbert of Magnolia avenue were hostesses yesterday afternoon for the Fortnightly Bridge Club.

The Wetherby-Kayser Shoe Co., 215-217 S. Broadway, Los Angeles, is exhibiting a complete assortment of exclusive footwear, boots, oxfords, evening and toilet slippers for men, women and children, Wednesday and Thursday, Dec. 1 and 2, at the Exhibition Room of the Hotel Maryland. All are cordially invited to inspect this interesting showing.

The stock of the Pasadena Rapid Transit Company is now selling at $100 per share.

Hotel Marengo, $10.50 and up per week.

ence of rabies among the dogs of Pasadena, Dr. Black has been instructed to send to the Pasteur Institute at Chicago and procure some of the serum used at that institute for curing hydrophobia.

Dr. Snow stated that there is no doubt of the existence of rabies in Pasadena. The fact that several people have been bitten by affected dogs warrants that everything possible must be done to protect them in case they should show symptoms of hydrophobia. When persons who have been bitten are sent at once to the Pasteur Institute at Chicago they are treated to prevent the disease becoming dangerous. As Chicago is so far away, and that any one with hydrophobia would be beyond the stage of help by the time they could get there, it has been decided to bring some of the serum to Pasadena and begin treating those who have been bitten by dogs known to be affected with the rabies. One boy named Compton, living in the Arroyo Seco, was bitten by a dog wearing tag No. 9. At the time the dog was not supposed to be sick. Afterward it was found to have a well-developed case of rabies. Several children were bitten in Central Park by a dog which was found to have rabies. The names of the children are not known to the Board of Health. It is stated that there are a large number of people, especially children, who have been bitten during the past month by dogs known to have rabies. An effort will be made to find these people and treat them when the serum arrives.

Dr. Snow delivered an address before the Twilight Club on the subject of rabies. He strongly commended the city officials of Pasadena for their stand in the matter and for the drastic ordinances which they adopted. He further stated that every citizen in Pasadena should take it upon himself to assist in the enforcement of the law. He said the disease is likely to remain dormant for from six weeks to six months before showing itself.

REPORTS ON WATER.

A. L. Sonderreger, special engineer employed by the City Council to make a report on the three water plants, including an estimate of the cost, their intrinsic value, the amount of water supply available, etc., has handed it to Mayor Earley. The report will not be made public until that of Frank S. Wallace and William Thum, the special committee appointed to pass on the value of the real estate belonging to the water companies, is ready.

Eddie S. Moore Camp, No. 4, Spanish War Veterans, was mustered in and the officers installed by order of the Commander-in-Chief, through Deputy Commander P. C. Mulqueeney, last night.

GETS AROUND IT.

The contract made between the city and the Hotel Raymond for furnishing the latter with electricity from the municipal plant seemed to involve supplying electricity outside the city limits. However, the difficulty will be overcome. The hotel company owns three lots adjoining the grounds, which are located within the city. A building will be erected on these lots, and the meters and switchboards placed inside of the city.

Mrs. D. L. Dixon, No. 163 Carlton avenue, was painfully injured yesterday by a motorcycle which jumped over the curb and crashed into her as she was walking along the sidewalk at the corner of Marengo and Union. Edward Pickering was riding the motorcycle east on Union at a high rate of speed. As he approached Marengo he suddenly turned to avoid an automobile.

The Mayor and members of the Council visited the site of the proposed new bridge across the tracks at Columbia street yesterday, and decided to go ahead with the work at once. The City Engineer will be instructed to get out a set of plans, and other engineers will be invited to submit designs. It is thought the building of the bridge will cost $15,000.

MEMBERSHIP CAMPAIGN.

The Membership Committee of the Board of Trade has decided on an active campaign. The present membership is about 800, and the committee wants to run it up to 1000. The city has been divided into districts, with one man in charge of each. It is intended to call upon every man in the entire city and solicit his membership in the Board of Trade.

D. Alberta, arrested last Saturday charged with operating a "blind pig" near San Fernando, entered a plea of guilty yesterday morning before Justice Klamroth. There were three counts. On the first two he was sentenced to pay a fine of $100 each or serve 100 days in jail, and on the third count he was sentenced to sixty days in jail. The latter sentence was suspended on the understanding that he will not again violate the law by selling liquor.

A general meeting of the Board of Trade is called for this evening, for the purpose of discussing the Pasadena Rapid Transit Company's proposed electric short line between Pasadena and Los Angeles. The company states that it will be in position to state that the entire right of way between the terminals has been secured and that practically all the ground for terminals has been obtained. The officials say that they will be ready to

SAN PEDRO.

ALL IS BUSTLE AT THE DOCKS.

THREE LARGE FOREIGNERS ARE DISCHARGING CARGO.

Bessie Dollar from the Orient Joins Manx King and the Claverly—All Fly British Flag—Many Windjammers of Large Carrying Capacity Are Sailing Off Shore.

SAN PEDRO, Dec. 1.—With the arrival this morning of the big British steamship Bessie Dollar from the Orient, three large foreigners, all flying the British flag, are discharging cargoes at various wharves. The ship Manx King, recently arriving from Antwerp, is making good progress landing a full cargo of coke at the Southern Pacific wharf. The big turret steamship Claverly, Capt. C. Kragh, is at the same wharf with a general cargo, also loaded at Antwerp. The Claverly arrived November 29, carrying 2000 tons for San Pedro, and an additional cargo of 5000 tons for San Francisco.

The cargo of the Bessie Dollar, arriving today, consists of 400,000 feet of oak and teak timber and lumber and several thousand tons of miscellaneous cargo loaded at Hongkong and Hakodate. The cargo is being handled by the Crescent Wharf and Warehouse Company. The Bessie Dollar will complete the discharge of cargo for this port on Saturday, when she will clear for San Francisco.

The Bessie Dollar is a large steamship of 5097 tons gross, 370 feet in length, fifty feet breadth and twenty-seven feet depth of hold. She carries a crew of forty-five men, and is commanded by Capt. Gow. She was thirty-three days on the voyage, which was uneventful.

Still another British steamship, the M. S. Dollar, is due to arrive here about December 9 from Hongkong with a general cargo.

Many windjammers of large carrying capacity, formerly in the coastwise lumber trade, are now sailing off shore. The barkentine James Johnson cleared yesterday from Eureka for Newcastle and Sydney, carrying 913,000 feet of redwood lumber, with an additional cargo of shingles. The entire cargo is valued at $25,359. The schooner S. T. Alexander was cleared from the same port on the same day with 24,528 redwood ties for Salina Cruz, Mex., the cargo being valued at $9418. The schooner A. F. Coats will also load ties at Eureka for Mexican ports.

The Pacific Coast Company's steamship President, Capt. Thomas, due to arrive here last night from Seattle, via Eureka, San Francisco and Redondo, arrived this afternoon over sixteen hours late, after an exceedingly rough voyage. The President was heavy gale. After discharging passengers and cargo, she cleared tonight for San Diego. She is scheduled to arrive tomorrow afternoon, about 5 o'clock, clearing for San Francisco at 7 p.m.

John B. Radamacher, ship's carpenter on board the British ship Manx King, who was charged by Capt. Cannell, master of the vessel, with battery, was fined $15 in the justice court this morning.

With the announcement that, beginning today, the rate on lumber from Portland to San Pedro would be advanced from $4.50 to $7.50 a thousand feet, it is believed sailing tonnage coming to San Pedro and other Southern California ports will be greatly increased. For several years many windjammers formerly in the lumber trade have lain idle in Oakland Creek and at other northern ports, on account of the low freight rate which has prevailed. With the increase in rates, it is believed much of this idle tonnage will be at once placed in commission.

UNMANNERLY MAN.

WOMAN VICTIM OF A FORGER.

CHECK ARTIST DISPOSES OF WORTHLESS PAPER.

Trusting Female Employee of Typewriter Company Defrauded by Long Beach Individual—Hotel Contracts for the Establishment of an Art Gallery—Postal Receipts Larger.

LONG BEACH, Dec. 1.—The police are looking for a man who wrote the name of Jean G. Drake, secretary of the bath-house, on a check for $25, which he passed upon Miss M. L. Forbes, with a typewriter company in Los Angeles. R. S. Miller is accused of the forgery.

Nothing much is known of Miller here. He came from Santa Barbara and worked for two days at the Virginia Hotel, then quit. The check was drawn on a Los Angeles bank, which sent it here for collection, and Drake promptly repudiated it.

The directors of Hotel Virginia today completed a contract for the establishment of a $10,000 art gallery.

Charles Berger, who last week attempted to shoot Officer Austin with the latter's own revolver, was brought here today and arraigned before Justice Braxton on a charge of assault with intent to commit murder. He will have his preliminary hearing on the 9th inst. He was taken back to jail in default of $2500 bail.

In a recent civil service examination, Patrolman McCown passed the examinations for desk sergeant, and William Warren, S. J. Turk and L. Holmes passed for engineers of the fire department.

BUILDING PERMITS.

During November forty-eight building permits were issued, of the contract value of $36,540. Twenty were for new buildings, the remainder for repairs and alterations.

The Board of Education of the former Belmont Heights school district today turned over to President F. C. Yeomans of the Long Beach board all the books, documents and school property. The teachers will retain their places.

The postoffice receipts for November show the largest percentage of increase in the history of the local office. They were $4178.32, as against $2956.59 a year ago, an advance of 41 per cent.

At a meeting of the City Council last night the Belmont Wine Company, which had to quit business when Belmont consolidated with Long Beach, was given a rebate of $266.25 on its liquor license, which still had nearly three months to run.

Co. H has applied to the Council for quarters on the lower deck of the auditorium. The matter was referred to the Inspection Committee.

POMONA ACTIVITIES.

Cannery Prepares for Busy Season Putting Up Oranges—Manufacturing Company Has Big Pay Roll.

POMONA, Dec. 1.—Eugene L. Klein, who has established the Orange Canning Company here because of accessibility to orange groves and on account of this city's commercial advantages, is preparing for a busy season's work at his new plant.

The Pomona Manufacturing Company now gives employment to over sixty men and has an invested capital of $75,000. The new foundry building is now occupied and the annual pay roll amounts to over $50,000. Seven orders for the Pomona deep well pumps were received from Central California last week, ranging in price from $3500 to $4000.

Loud and Gerling have shipped sixty cars of dried apricots, peaches, prunes, raisins and walnuts this season to eastern markets and to Germany, Sweden, Holland and Belgium.

The Pomona Cannery has finished its season, shipping about 2,000,000 cans of apricots, peaches and berries.

The California Rose Company on South White avenue has hundreds of thousands of rose cuttings ready for shipment.

Mrs. Mae Guthrie Tongier lectured at the Fraternal Aid Theater last evening upon "Shasta Daisies and Folks," under the auspices of the local W.C.T.U.

ELECTION DATE FIXED.

Huntington Park Trustees Name Day for Vote on Annexation of Miramonte and Adjacent Territory.

HUNTINGTON PARK, Dec. 1.—At Tuesday night's meeting of the Trustees, January 11 was fixed as the date for a special election to decide on the proposed annexation of Miramonte and adjacent territory to Huntington Park. This election is assumed to be preliminary to a campaign for the consolidation of this entire territory with Los Angeles. Miramonte does not desire to unite with Huntington Park unless assured that the consolidation movement will go through, and it now appears that in any event there will be strong opposition.

A group of Miramonte citizens attended the meeting of the Trustees. It soon became evident that two factions were represented. H. B. Blakley of Florence fought every point for which the consolidationists contended.

As it is thought advisable by all parties to obtain some expression as to the manner in which the consolidation idea will be received by Los Angeles, the matter has been brought before the Chamber of Commerce of that city and will be up for consideration before the directors of that body tomorrow. If the chamber refuses to indorse Huntington Park consolidation the whole movement will be given a serious setback. Representatives of

SOUTH PASADENA.

SOUTH PASADENA, Dec. 1.—The Ways and Means Committee of the Women's Improvement Association will hold a Christmas sale in the Gleason Block, No. 1115 Mission street, Friday.

City tax collections during the first week aggregated $2800 as only against about $300 the first week in 1908.

At a special meeting of the South Pasadena Chapter, Order of the Eastern Star, tomorow evening, initiation ceremonies will be held.

A Sunday-school convention of the Methodist churches of Pasadena, South Pasadena, Alhambra, Highland Park, Garvanza and Lamanda Park will be held in the Methodist Church of this city Friday and Saturday. Dr. Matt S. Hughes of Pasadena will deliver the address Friday evening.

COVINA.

COVINA, Dec. 1.—The Holy Trinity Church annual bazaar was held in the Woman's Clubhouse yesterday afternoon. The net proceeds were over $200. This sum will be applied upon the small debt on the church property.

The Odd Fellows and Rebekahs of the upper San Gabriel Valley held a reunion in the Odd Fellows' Hall last evening. Over 300 were present. Following a musical and literary programme an exhibition drill was given by the Cantons. The evening closed with a banquet and dance.

H. N. Wells, secretary of the Chamber of Commerce, is in Ventura representing this city at the "Good Streets Jubilee."

ENGINEERED LAND FRAUD.

The testimony of H. W. Blaisdell in the Imperial land-fraud case in the United States District Court yesterday brought on several clashes between the attorneys. Blaisdell pleaded guilty to a charge of conspiring to defraud the government last week. He was fined $4000 by Judge Wellborn. After hearing some of Blaisdell's testimony yesterday the court intimated that if he had known what the witness was to confess he would not have let him off with a fine. Blaisdell, in his testimony, sought to show the Chaplins and McPherrin were not parties to the alleged fraudulent acts and that he engineered the deals himself.

JEWISH SOCIAL CLUB.

The Sinai Literary and Social Society was organized last night at a meeting of the young people of Sinai Congregation in the synagogue parlors. Officers are: President, Harry Hirsch; vice-president, Dora Berres; financial secretary, Julia Komfeld; recording secretary, Carolyn Abrams; treasurer, Anna Hirsch. Executive Committee, Julia Blumenthal, Hattie Klyanawsky, Rose Berres, Leo Cytron, Julian Cohn and I. R. Rubin, Rev. Dr. Isidore Myers was elected honorary president of the society. The first literary and social meeting will be held December 31.

PATIENT VERY LOW.

At an early hour this morning word from the hospital in which she is being treated, was to the effect that the condition of Mrs. Nicholas Jacobs was very critical and that she might not live until daylight. Mrs. Jacobs is the mother of the family, five members of which were killed in the auto tragedy of Thanksgiving Day.

IMMORALITY CHARGED.

Immigration inspectors conducted a hearing yesterday in the case of Mrs. C. J. Heyndrikx, who is charged with being an immoral alien. The evidence will be forwarded to Washington for review by Secretary Nagel of the Department of Commerce and Labor. The woman was arrested some time ago under the name of Alice Martin, alias Cecelia De Belida. She is married, and claims that she has never lived an immoral life.

UNDELIVERED TELEGRAMS.

Undelivered messages are at the Western Union office, First and Spring streets, for Mrs. E. Lonard, George Harm, Ray Robertson, Mrs. W. B. Colbert, C. B. Hall, Dr. J. H. Cook, Mrs. C. J. Crosby, Earlimart Water Company, Dr. D. E. Martin, and Mrs. Eula Colbert.

The Exceptional Equipment

of the California Fig Syrup Co. and the scientific attainments of its chemists have rendered possible the production of Syrup of Figs and Elixir of Senna, in all of its excellence, by obtaining the pure medicinal principles of plants known to act most beneficially and combining them most skillfully, in the right proportions, with its wholesome and refreshing Syrup of California Figs.

As there is only one genuine Syrup of Figs and Elixir of Senna and as the genuine is manufactured by an original method known to the California Fig Syrup Co. only, it is always necessary to buy the genuine to get its beneficial effects.

A knowledge of the above facts enables one to decline imitations or to return them if, upon viewing the package, the full name of the California Fig Syrup Co. is not found printed on the front thereof.

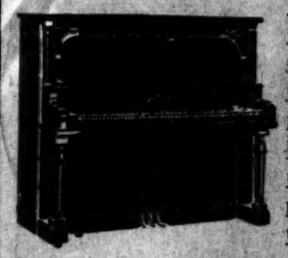
"The World's Best Table Water"

The Making of Prices on

PIANOS



We make our prices on a basis of an average of 166 piano sales every month, figuring an average profit of $20 on each piano. This means $100 to $200 less on every piano than the small dealer, handling 7 or 8 pianos a month must charge to make expenses.

A Low, One-Price, Big-Volume System

The pianos that we sell for $137, $156, $187.50, $237, $268 and $290 show the effect of this system. Our selling plan is the result of 20 years' experience. Every minute of this time has been spent in an effort to build up a mammoth business that will stand as a monumental success—the great piano house of the Southwest.

That we have succeeded no one doubts.

Not a "Cure-all"

Separate Remedies, Each Devised for the Treatment of a Particular Ailment

There is no "cure-all" among the Rexall Remedies. There are different and separate medicines, each one devised for a certain human ailment or a class of ailments closely allied. For instance, Rexall Dyspepsia Tablets are recommended for the positive relief of stomach irritation, indigestion, flatulency and dyspepsia. They are rich in Bismuth-Subnitrate, Pepsin and Carminatives. They are prepared by special processes which perfect and enhance the great remedial value of these well-known medicinal agents. This remedy sells for 25c, 50c and $1 per package. Every one suffering from stomach disorder should try Rexall Dyspepsia Tablets, inasmuch as they cost nothing if they do not satisfy.

Remember, The Owl Drug Co., Inc., Los Angeles, San Francisco, Oakland, Cal., and Seattle, Wash., are the only stores in Los Angeles where these remedies may be obtained, and every one in need of medicine is urged to investigate and take advantage of the frank and generous manner in which they are sold.

MANY ATTEND THE JUBILEE.

Ventura Celebration Starts With Coronation.

On a Gorgeous Throne Queen Greets Subjects.

Novel Parade and Big Ball Today's Features.

VENTURA, Dec. 1.—The jubilee to celebrate the completion of the paving of twelve miles of streets, started today with a swing which presages the complete success of the four days of jubilation. Four thousand people witnessed the coronation of Queen Dacy. On a beautifully-decorated throne the queen sat, surrounded by her court, She was enthusiastically welcomed with shouting, music and fireworks. After the coronation she was presented with the key to the city by Superior Judge Robert M. Clarke, the president of the occasion. The address of welcome was made by Hon. Don Bowker, and responses followed by S. D. Thacher of Nordhoff, O. J. Stowe of Fillmore, S. B. Bagnall of Oxnard and City Attorney Rogers and W. E. Shepherd of this city and Hon. Charles Barlow of Bakersfield. After the speaking came fireworks, music and a vaudeville show. After the coronation exercises the crowd dispersed to enjoy itself among the Pay-Streak shows. The town is splendidly decorated with the jubilee colors—green and gold—and these colors prevail in the fine street illumination.

COUNTY DAY.

Tomorrow, County Day, will be the big one of the jubilee. Under the direction of T. J. Donovan, chairman of the Parade Committee, and his assistants, a street display of many original and diversified features will be held. Maj. Driffill will be grand marshal, and with him will ride Don Nicholas Covarrubias, who was Don Gasper de Portola at the San Francisco celebration.

These officers will be followed by members of the Board of Supervisors, City Trustees and other officials in automobiles, members of the Executive Committee of the jubilee, and some invited guests. Then will come exhibits of the Ventura fire department and the Montgomery Street Paving brigade, followed by a stock display from the large ranches in the county. Marching organizations will have floats and there will be three bands. The boys from the Thacher School will appear on horseback and in a decorated tallyho. The starting hour is 11 o'clock sharp.

The parade will form at the Plaza and will march east on Santa Clara to Kalorama, north on Kalorama to Main, west on Main to Palm and around to Main again west of the avenue, countermarching on Spruce and Santa Clara and Palm to Main to the lines of formation and then disbanding. After the parade will come judging of the horses by Messrs. Milo Potter, Maj. R. C. Durfee and Francis Underhill of Santa Barbara.

The first of the series of lima bean dinners, made up of beans and county products will be served to visitors tomorrow. At night Queen Dacy will give a ball at the armory.

For some time stockmen and others in the eastern end of the county have been troubled with loss of stock. Sheriff McMartin investigated with the result that he arrested Juan de Dios Verdugo and his two sons, Juan and Pedro, and C. Scnogia. The complaint was sworn to by U. Del Valle of the Camulos. When the Sheriff went to make the arrests he found the meat, hide and head of a young steer in the Verdugo barn. The arrested men say the animal was their property.

Ex-Sheriff Charlebois was arrested this morning on a warrant sworn out by County Game Warden Kuhlman. He is charged with killing an eagle, which is a misdemeanor under the State law. The ex-officer pleaded guilty and will appear later for sentence. When Charlebois was hunting a few days ago he thoughtlessly blazed away at the big bird, which was about to swoop down on a flock of wild ducks which the hunter was after. The eagle measured seven feet from tip to tip of wings.

MARRIED IN THE EAST.

Nuptials of Redlands Man and Chicago Girl Are Celebrated—Couple Will Come West.

REDLANDS, Dec. 1.—A dispatch from Chicago says:

The marriage of Miss Ella Mosher Dunham, daughter of Mrs. James S. Dunham, to Laurence L. Moore of Redlands, took place this afternoon at 4 o'clock at the residence of the bride's brother and sister-in-law, Mr. and Mrs. Robert J. Dunham, in Hubbard Woods. Rev. H. W. Starr of Winnetka performed the ceremony.

Miss Anna May Dunham, sister of the bride was maid of honor, and the Misses Gretchen Moore and Janet Moore acted as bridesmaids. Francis W. Moore was best man. There were no ushers. Young Miss Caryl Dunham, niece of the bride, was flower girl.

Mr. and Mrs. Moore will make their home at Redlands.

SOUND TALK.

MERCHANTS ARE WELL ADVISED.

SUPERVISOR DISCUSSES GOOD ROADS CAMPAIGN.

Urges Associated Chambers of Commerce of Orange County to Educate the People Up to the Need of Voting Bonds to Improve Highways—Fullerton Banquet.

FULLERTON, Dec. 1.—At the meeting of the Associated Chambers of Commerce of Orange county in this city last night, Supervisor Talbert stated that the board would be willing to call the county election to vote on the matter of he proposed bonded indebtedness to improve the highways throughout the county as soon as the members were assured the proposition would probably carry. He also stated that many farmers in the county who were not on the main highways to be improved would vote against the bonds, while the people in the cities would be largely for the bonds. Mr. Talbert believed there should be a campaign of education before the election is called, as it requires a two-thirds majority to carry the proposition. He does not think the Supervisors should go ahead and spend $5000 or $10,000 until there is hope of the bonds carrying. He said that the expense of the highway commission, surveyors, and the election would alone cost several thousand dollars.

At the associated meeting in Anaheim a month ago, it was stated that a Japanese society was soliciting advertising matter from a number of the Orange county chambers of commerce to be distributed in Japan for the purpose of encouraging Japanese to come to California. At that time a committee was appointed to draft resolutions in opposition to the movement, H. V. Weisel of Anaheim offered the resolutions last night. These held that an increase of Japanese settlement on this Coast would be undesirable and detrimental to the welfare of Southern California. The Associated Chambers of Commerce of this county advise the various chambers to refuse to grant the request made by the Japanese association for literature and to discourage all similar enterprises. After discussing the resolution it was adopted almost unanimously.

Nearly every one who spoke was in favor of the resolution, although A. T. Pendleton of Placentia stated that he was compelled to employ seven Japanese to pick his orange crop on account of the scarcity of local help. W. J. Wickershim, a local business man, also declared that the Japanese are a very industrious class of people. He was in favor of considering the resolution at least a month before any action was taken.

In a brief speech H. H. Hale of Placentia told of the work that section had done in raising $20,000 in cash to pay for the right of way for the Fullerton-Richfield railroad cut-off by way of Placentia.

The meeting last night was one of the most successful, social and business gatherings ever held in the county.

The hall was tastefully decorated, there being more than 5000 roses on the tables. The room was also decorated in the national colors.

The next meeting will be held at Huntington Beach, the 29th inst., and the matter of bonding the county for improving the highways will probably come up for discussion.

The marriage of Miss Alice Perry of Bakersfield and Oliver Perry of Buena Park is announced, the ceremony having been performed in Bakersfield. Mr. and Mrs. Perry will reside in Buena Park.

J. J. Schneider has been appointed horticultural inspector of northern Orange county.

Mrs. and Miss Harvey, mother and sister of O. J. Harvey, have arrived from Indiana to spend the winter.

ORANGES OF FINE QUALITY.

New Association Begins Packing at Santa Ana—Ten Carloads for the Holidays.

SANTA ANA, Dec. 1.—A new orange packing concern was opened today, when the Tustin Hills Fruit Association began its pack for the present season. Prospects are good, as a gratifying number of orchardists have signed up. A large quantity of fruit is coming in, all of fine quality and already well colored. About ten carloads will be shipped for the holidays.

The officers and directors of the Tustin Hills organization are: J. M. Akins, president; R. Brinsmead, secretary and manager; John McFadden, vice-president; P. H. Covington, D. H. Sharpless.

A number of club women of Santa Ana left today for San Diego, where the Southern District of the State Federation of Women's Clubs is holding its eighth annual convention. These included Mrs. S. M. Davis, State vice-president; Mrs. E. M. Neally, president of the Santa Ana Valley Ebell Club; Mrs. J. W. Earhart, president of the Women's Club.

The committee on revision of the articles of incorporation and the constitution of the Santa Ana Valley Irrigation Company yesterday held a meeting with the Board of Directors and Attorney E. E. Keech. It was decided to submit a proposition to the stockholders for an increase of the capital stock by $250,000.

William D. Brown has filed a suit in the Superior Court against Clark D. Hinshaw, of Long Beach, for $6810 as damages for injuries sustained by the plaintiff and his wife in a collision between Hinshaw's automobile and Brown's wagon. The accident occurred at Bell's Station on September 19. The plaintiff outlines the various amounts paid out for medical attendance for himself and wife, and says the latter is probably permanently injured. He affirms that Hinshaw was a poor automobile driver and was indifferent to the safety of other vehicles on the highway.

ELSINORE.

ELSINORE, Dec. 1.—Chapter No. 243, O. E. S., held public installation exercises last evening in the Masonic Hall. The officers are: Worthy Matron, Mrs. James Stewart; Worthy Patron, W. P. Haworth; Associate Matron, Mrs. H. Neiman; Conductress, Mrs. Ida Merrifield; Associate Conductress, Mrs. Ruth McClintock; Treasurer, C. D. Pool; Secretary, Mrs. Frances Marsh; Chaplain, Mrs. W. P. Haworth; Marshal, Mrs. C. D. Pool; Warder, L. Young; Sentinel, James Stewart; Ruth, Miss Beatrice Clark, Esther; Mrs. Charles Electa; Mrs. H. E. Lawrence, Martha; Organist, Miss Ruth Frothingham.

The Odd Fellows entertained Monday evening in their hall with a "smoker." Mrs. C. D. Pool, president of the Woman's Club, and Mrs. O. W. Amsden, delegates to the Woman's Club State convention.

Mrs. M. A. Gardner, whose valuable painting, the Madonna of the Chair, which was stolen recently from the parlors of Lakeview Inn, has offered a reward of $50 for the return of the picture and $100 for the return of the picture and the conviction of the thief.

Lakeview Inn arrivals are: Mrs. E. A. Shores, Mrs. G. A. Scroggs, M.D., E. D. Brittle, A. H. Moore, Mrs. H. H. Sherman, Corona; W. E. Kessler, Venice; Mrs. Eureka; J. J. Conner,

SO SAD.

LOVE'S GOLDEN DREAM IS O'ER.

BREACH OF PROMISE SUIT HAS TAKEN ITS PLACE.

Comely Woman Says She Has Suffered Much Pain, Mortification and Mental Distress Because San Diego Auto Man Has Failed to Keep His Word to Marry Her.

[BY DIRECT WIRE TO THE TIMES.]

SAN DIEGO, Dec. 1.—[Exclusive Dispatch.] Asserting that her affections have been greatly injured and that she has suffered mortification, much pain and mental distress, Miss Grace Taylor, a comely proprietress of a lodging house in Los Angeles today began suit for breach of promise against Roy M. Bowzer, local representative of the Tourist Automobile Company. She asks for $5000 damages.

Miss Taylor alleges that, September 1, a marriage contract was entered into between herself and Bowzer, that she has been to much expense and inconvenience in preparing her trousseau, that she received dozen of letters from Bowzer in which he mentioned that their nuptials would take place Thanksgiving Day. The wedding did not come off. She declares Bowzer ceased writing to her in October, and has refused to see her. Previous to October, she declares, Bowzer conversed daily with her over the telephone. She says his bills will show that his courtship was expensive for this item alone.

Bowzer is now in Los Angeles, having his eyes treated by a specialist.

DAMAGES FOR FALSE ARREST.

A jury in Superior Court tonight awarded A. F. Runo $5000 damages against C. A. G. Williams, because of alleged malicious prosecution. This is the first instance in the history of local courts that damages have been recovered for false arrest. Williams is a wealthy resident of National City. Runo is a contractor. The latter built a number of houses for Williams, who, in July, caused the arrest of the contractor on an embezzlement charge. After a tedious trial Runa was acquitted, and recently instituted a suit for damages. Hearing of the case was begun Monday and ended tonight. Williams will probably appeal.

FUNDS FOR FAIR.

Subscriptions to the Panama Exposition fund are being obtained at the rate of $50,000 a day, according to reports of the Finance Committee. A meeting has been called for Friday night at which financial enthusiasm will be worked up for the purpose of hurrying along the needed money. At the close the committee will make public for the first time the total amount subscribed.

PROGRAMME FOR NOBLES.

Final arrangements for entertaining the Nobles of the Mystic Shrine upon their pilgrimage to this city, Saturday, are completed. They include a banquet at Hotel del Coronado, Saturday night, and an automobile ride Sunday to various points of interest throughout the county. The famous Arab patrol of Los Angeles, accompanied by Al Malaikah Temple's noted band, will be a feature of a parade to be held Saturday evening previous to the ceremonial session at Coronado. The initiatory work on a large class of candidates will take place in the ballroom of the hotel.

CLUB WOMEN CONVENE.

Fully 500 club women from all parts of Southern California are here attending the eighth annual convention of the federation of the southern district. Mrs. John C. King of Banning presides at the sessions, of which there are to be two daily, morning and afternoon, until Friday. A feature of today's session was an address by the State president, Mrs. John B. Hume of Berkeley, whose subject was "Modern Renaissance." Tomorrow's programme will include an address by Dr. John Willis Baer, president of Occidental College.

STERNE-WILLIAMS.

Miss Ruth Sterne and Charles J. Williams were married at noon yesterday, and have gone East on an extended wedding trip. The bride is a daughter of Charles E. Sterne, president of the West Coast Gasoline Engine Company. She is a graduate of Stanford and a member of the Phi Beta Phi and of the Phi Beta Kappa. Mr. Williams is an engineer in the employ of the San Diego and Arizona Railroad.

MRS. SEBREE RETURNS.

Mrs. Sebree, wife of Admiral Uriel Sebree of the Pacific fleet, has returned to Coronado, after an extended visit with her husband at San Francisco and Honolulu. She will spend the winter at Coronado, and in February will be joined by Admiral Sebree, who will arrive in San Francisco from the Orient, to be formally retired from active service on February 15.

CONTEST OVER WILL.

Papers filed in the Superior Court indicate that a lively contest is likely to be waged to secure possession of about $800 in money left by Albert Beverage, whose remains were found near Linda Vista after his disappearance two years ago. Persons in England, who claim to be relatives and direct heirs, presented a claim to the estate through Attorneys Mills & Hizar, who took up the administration of the estate with Public Administrator Layne.

Patrick Walsh, a longshoreman and boon companion of Beverage, claims the cash under a will purported to have been made out and signed two years ago.

Walsh was a neighbor of Beverage, and his friends say he performed many kindly acts for the deceased.

STARS AGAINST THEM.

Letters in Divorce Case Refer to Planetary Conditions—Part of Will Set Aside.

SANTA BARBARA, Dec. 1.—Letters read in the divorce suit brought in the Superior Court yesterday by Rufus E. Dade revealed the fact that his wife, who refuses to leave Missouri and come and live at Santa Maria with her husband, said he resembled Guiteau, the assassin of President Garfield. Dade apparently is a believer in astrology, for in certain letters read in court he says that the planetary conditions are not right for harmony between his wife and himself.

He alleges desertion and extreme cruelty, whereas the wife asserts the desertion was on his part. Depositions were read showing that Dade had a good reputation when Mayor of the city of Fulton, Ill.

ACTION IN WILL CASE.

The will of W. R. Broome, in so far as it makes his widow trustee of his $500,000 estate, was declared invalid by Judge Crow yesterday. Under the laws of California, Mrs. Broome could not be given a life interest in trust so far as the California property is concerned, and this will be divided, not according to the will, but by the State law, two-thirds going to the widow and the other third jointly to the three children. The remainder of the will is valid. Broome was an Englishman and part of the property is in England. Most of the remainder consists of the Guadalasca ranch in Ventura county. This alone has been appraised at $500,000.

Judge Crow denied the petition of Thornhill Broome, as executor, that 1000 acres of virgin soil on the ranch be leased for three years to the American Sugar Company. Mrs. Broome opposed this petition, and the court ruled that, inasmuch as the estate is debt-free and ready to be distributed, it should not be tied up by a long lease. The judge complimented the young executor on his conscientious handling of the property.

There are other matters to be decided, but these were postponed until January. The case has been in court for months. R. B. Canfield represented Thornhill Broome, and R. L. Horton of Los Angeles acted for Mrs. Broome.

RINCON RANCH SOLD.

With It Goes the First Frame House Built in Escondido—Flume Line Is Improved.

ESCONDIDO, Dec. 1.—The Land and Town Company has sold the Rincon place, so called, on North Lime street, to Louis Cassou, for $9000. The ranch consists of ninety-five acres and on it is the first frame house built here. For years it was the home of Wolfskill, at one time owner of the 13,000 acres, then a sheep pasture, which is now Escondido. Cassou will develop water and raise alfalfa on a large scale.

The work of making the permanent improvements on the upper flume line of the Mutual Water Company, is being done by twenty-five men, under direction of Edward Westmoreland. The portion of the ditch line to be overhauled this season will be completed within three weeks. At the end of that time the water will be turned in from the San Luis Rey.

President Seth Hartley of the Escondido Utilities Company states that an arrangement may be made for the sale of some of the surplus power developed by his electric plant for the operation of the proposed railway between San Diego and Escondido.

The Escondido Land and Town Company has sold two tracts of ten acres each on East Grand avenue to John C. Young and R. T. Jones.

Rev. Dana W. Bartlett of Los Angeles, gave a lecture Monday evening in the Congregational Church on "Settlement Work in Los Angeles."

ONTARIO.

ONTARIO, Dec. 1. — The Country Club building was thrown open night before last for the first time since last March. The Reorganization Committee called a meeting and had an outline of a constitution and set of bylaws prepared for consideration. The old club was for men only; now women are to become members. The total monthly expenditure necessary to keep up the club is $200. Until a sufficient number of signers to the membership list is secured to assure the amount the club will stay closed.

J. B. Moores has sold for L. E. Hayes ten acres of orange grove property located at Tenth street and Mountain avenue, to P. E. Walline of Upland for $16,000. He has also sold to L. E. Hayes the home property of P. E. Walline, consisting of a two-story house and a lot, located on North Euclid avenue, for $6800.

IMPORTANT LAND DEAL.

BANNING, Dec. 1.—Announcement is made of the sale of 2500 acres by C. O. Barker to the Consolidated Reservoir and Power Company of Los Angeles. The land is situated two miles north of Banning. The Consolidated company is composed of Los Angeles men who are diverting the water of the Whitewater River at an elevation of 7000 feet, leading the water through a cement pipe line to Banning, erecting two power-houses along the way for the development of electrical energy. The company will have a flow of 1000 inches. The president is H. Edwin Moore, capitalist of Los Angeles, and W. B. Scarborough, secretary, a well-known lawyer of Monrovia.

The First National Bank of Banning will open bids this week for the construction of an addition to the banking house, which will give double the room. An up-to-date vault and a burglar-alarm system are to be installed.

W. B. Wood, a contractor residing here, has purchased a business location and will begin the construction at once of a concrete building containing two storerooms.

COUGHS, COLDS AND BRONCHITIS
are cured to stay cured by
Vinol
Because it removes the cause. We have not known a case wherein it did not succeed. But if it should not in your case, we will return your money. This is a genuine offer and should be accepted.
THE OWL DRUG CO., Los Angeles.

WORKS WONDERS
For Nervous Men and Women, Too.
Undoubtedly the following prescription will work wonders for that great class of men who, through dissipation of their natural strength, find themselves in their "second childhood" long before the three score and ten allotted to life's pleasures and enjoyments are reached.
It is presumed to be infallible, and highly efficient in quickly restoring in "nervous exhaustion," weak vitality, melancholia and the functions.
First get fifty cents' worth of compound fluid balmwort in a one-ounce package, and three ounces syrup sarsaparilla compound; take home, mix and let stand two hours; then get one ounce compound essence cardiol and one ounce tincture cadomene compound (not cardamom.) Mix all in a six or eight-ounce bottle, shake well, and take one teaspoonful after each meal and one when retiring, following by a drink of water.
By mixing it at home no man need be the wiser as to another's shortcomings, and expensive fees are avoided.
Lack of poise and equilibrium in men is a constant source of embarrassment, even when the public least suspects it. For the benefit of those who want a restoration to full, bounding health, and all the happiness accompanying it, the above home treatment is given. It contains no opiates or habit-forming drugs whatever. Mix it at home and no one will be the wiser as to your affliction.

Oh! My Back
Every Man and Woman Reading This Paper Who Suffers From Kidney Troubles Is Invited to Prove the Benefit of Electropodes.
At last diseases of the kidneys, of which pain in the back is usually the merciful warning, seem to have met their conqueror.
This is not conjecture or a mere hope; it is a fact, accomplished and proven. The discovery, or rather the invention, is the most simple contrivance imaginable. No medicines are used since none of these have been found to do any more than merely stimulate for the time being.
This discovery, which is working such wonders in the treatment of diseases, is called "Electropodes." It causes an effective electric charge to penetrate the entire body, especially the vital organs and the nerves. Electricity has been called life. Now it has been proven to be even more,—it is health supreme and vigor unsurpassed.
Electropodes, as a result, have been proven to have a remarkable curing power over kidney troubles, backache, lumbago, rheumatism, stomach and liver troubles, neuralgia, nervous prostration, insomnia and weak heart.
A few days' use of Electropodes proves it. Electropodes are different from any other electric appliance, in that they make no electricity except when actually in use. They are in the form of metallic insoles placed inside the heels of the shoes.
Electropodes are so made that they can never be uncomfortable when worn, and are invisible. They are designed to electrify the whole body, turn it into a healthy, powerful magnet, and disease disappears.
If this is hard for you to believe, it will cost you nothing to prove it absolutely. Electropodes are sold at drug stores on an iron-clad written legal contract, signed by your druggist, for $1.00 a pair. If at the end of a full 30 days you are not satisfied with the Electropodes and cannot say they are the most wonderful treatment you ever used, your money will be cheerfully refunded.
If your druggist has no Electropodes no hand, have him order a pair from Western Wholesale Drug Company, Los Angeles, Pacific Coast Distributors.

We Redeem Piano Credits

Having just made special arrangements with piano manufacturers to allow us several thousand dollars for advertising, we are now able to obtain from them the amount of your credit, even though it may be for as much as $100.00, and charge the same to their advertising department, which enables us to sell a piano at the same price if a credit is used as though we got all cash, or even if you prefer purchasing on small monthly payments.
Our prices are considered to be lower than those of any other piano establishment on the Coast, considering the high quality of pianos, and just at this time we have a special sale of Exposition prize-winning models of the old time-honored makes. Reduced $125, $150, $175 and even $350 from the regular list prices. Used pianos $150 to $475.
If you are the holder of a piano credit of any kind, no matter by whom issued, bring it to our store at once, and see how much more it will enable you to buy here than elsewhere.
Call or write, Piano Department.

THE MARKETS.

LOCAL PRODUCE MARKET.

Yesterday was rather a quiet day in all branches of the market. There were no features of any great consequence. Prices were practically the same and arrivals were merely normal. The dry fruit market is the past week has been pretty active. This is particularly true of raisins and currants. Cleaners and packers of currants are taxed to their limit in supplying the demand, which comes not only from this country, but also from England. In addition to this, The Grecian marking where a large part of the European supply is drawn, has gone higher on currants, which all points to the fact that higher prices would not be unexpected. There have been no changes in the egg market with the good call. They are one product which is selling at the cost of production or even less. Jobbers and retailers are carrying light stocks according to reports from various sources. Prunes are bringing good quotations and they are expected to go higher with any advance which may come in other dried fruit lines.

Egg receipts were 64 cases. There was no surplus of local eggs to offer on the open market, all being taken by regular trade. The demand for eastern stock was slow for the day.

Butter receipts were 17,182 pounds. A curious fact was apparent on the market for creamery extra stock. It clearly demonstrated that the present quotation on that grade is too high. The quotation stands at 35 cents. There were no buyers for creamery extra butter at 72½ cents yesterday morning.

Northern fresh cheese advanced from ½ to 1 cent a pound. It was bringing from 19 to 19½ cents and the quotation was advanced to 20 cents flat. There were no further changes in the list. Oregon daisy cheese was the best seller of the day. Receipts reported were 138 pounds.

A decline in the price at Watsonville and Salinas potatoes came not unexpectedly. The market on the two varieties has been a trifle heavy for a week past and there was considerable underselling of prices as they existed. The new quotations of the stock are from $1.50 to $1.60 per hundred, against $1.75 at which they were quoted. Receipts of spuds were 2580 sacks.

Onion arrivals continued heavy, 630 sacks and this is cause for the weakness in the market. There has been no break as yet, but one is being looked for.

Bean receipts were 1228 sacks. Blackeye beans were higher by 25 cents, the new quotations on them being $4.75 per hundred. Other beans continued the same and the market was just steady. Sweet potatoes were in fairly good call. Some as low as $1.25 per hundred. The better grades however, brought nearer $1.50. Receipts were 202 sacks.

Apple arrivals were 1419 boxes. The market on apples was steady on nearly all varieties. Some winesaps were sold as low as $2.40. They were only choice stock, however.

Berries are rather scarce. Good strawberries are bringing 10 cents a basket. Blacks are selling as high as 12 cents, and what raspberries are obtainable bring 15 cents.

Prices Current.

LOS ANGELES STOCK EXCHANGE.

ANIMATION IS HERE TO STAY.

BROKERS BID SPIRITEDLY ON ALL ISSUES LISTED.

Associated Oil Again Leads With Price Slightly Lower Than Tuesday — Other Petroleums Show Strength and Demand—Utilities and Bank Stocks Figure in Trades.

It is daily more apparent that business animation on the Los Angeles Stock Exchange has come to stay. Yesterday the brokers on the floor of that institution bid in a spirited way on almost every issue listed, and trading was recorded in all three of the stock columns.

Associated Oil was again the leader in activity. The price commanded averaging about ¼ point lower than those of Tuesday. In all 270 shares changed hands at figures ranging from an opening at 50.62½ up to 51.00 and back to a close at 50.87½. Eighty shares of the lot sold at 51.00, buyer 30 days. The issue closed 50.75@50.87½, off ¼ point in each quotation.

Fifty of American Petroleum common were handled at 76.50 and 10 at 76.62½. The close at 76.00@76.75 was unchanged in the bid and down ¼ point in the asked.

Central Oil was marketed at 1.24 and 1.23½ to the amount of 1500 shares.

Four hundred of Cleveland Oil sold at 27½ @28.

Both the preferred and common stocks of Mexican Petroleum Ltd., were strong, the former being transfered at 68.00 to the amount of 50 shares and 20 of the latter issue selling at 36.25.

A thousand of the newly listed Section Six Oil changed hands at 87½.

Union, which was quoted dividend off, sold at 103.50 to the amount of 20 shares.

The utilities were represented in the trading by San Diego Home, 20 shares of which sold at 25.00 and by Los Angeles Investment Company stock, 1000 shares of which sold at $2.30.

Four shares of the stock of the First National Bank were marketed at 495.00. The bid was 500.00 bid. The rest of the list was steady.

In the mining section 1000 of Clark Copper sold at 5½; 100 of Daisy at 7½ and 2000 of Johnnie Mining and Milling at 10½@10⅝.

SAN FRANCISCO LIST.

Slight Improvement in Goldfield Consolidated—Changes in Tonopahs. Comstocks Show Strength.

[Special service to The Times by B. F. Taylor, 112 West Third street.]

SAN FRANCISCO, Dec. 1.—There was slight improvement in Goldfield Consolidated today, the stock closing 4.05 bid, up 7½. Florence was 2.72½ bid, at 2.80, up 4 cents in the ask price. Daisy was unchanged. Jumbo Extension gained 1 point in the bid. A flood of selling orders broke Combination Fractional from 50 to 46. These were the only changes of consequence in the Goldfield list.

Of the Tonopah list Jim Butler lost 1 point. Montana was up 2 to 85 bid. The balance were unchanged.

The Hawthides, Pittsburg Silver Peak and Nevada Hills were the same as yesterday.

Round Mountain was in demand, and closed 58 bid, with no stock offered.

A telegram received here today said that the Pittsburg Silver Peak Company had taken in the Valcalva, an adjoining property, which has a very large body of ore which will average better than $10 per ton.

The Comstocks showed considerable strength and animation and gains were recorded running all the way from 1 to 10 points throughout the list.

Following are the closing bid and asked prices:

Goldfield	—Close—		Tonopah	—Close—

NEW YORK, Dec. 1.—Butter, firm; held rough voyage. Eggs, firm, unchanged.

GENERAL EASTERN.

STRIKE PROVES BEAR FACTOR

WHEAT DROPS IN SPITE OF RAILWAY TIE-UP.

Cause of Drop Is Found in Closing of Minneapolis Flour Mills Because of Labor Troubles—Corn Was Weak in Sympathy, But Oats Were Firm. Provisions Lower.

[ASSOCIATED PRESS NIGHT REPORT.]

CHICAGO, Dec. 1.—The switchmen's strike failed to affect the wheat market today, as a bullish factor, but on the contrary it was used as a bearish influence. Reports from Minneapolis claimed that all flour mills in that city had been closed, owing to the labor troubles, and these advices caused considerable selling pressure here late in the day. Aside from a mild flurry in the December delivery at the start, the market was inclined to be weak. Deliveries of only 120,000 bushels of wheat on which December contracts were brought out some covering by shorts during the first few minutes, which caused ⅛ advance in December, but the demand was soon satisfied and prices again declined on profit taking. The market was quiet. The market closed at almost the bottom, with December at 1.05 5-8 and May at 1.05 3-8@1.05¼. Despite unsettled weather in the corn belt, sentiment in corn was bearish all day. The heaviness of wheat was the principal weakening influence. The market closed weak, with prices 1-8 to 1@1 1-4 lower. Oats were relatively firm. The market closed unchanged to ¼ higher. Provisions closed 20 to 47½ lower.

Cash quotations were as follows: Flour steady; No. 2 red, 72@74½; feed or mixing barley, 49@53; fair to choice malting, 60@67; flax seed, No. 1 Southwestern, 1.73; No. 1 Northwestern, 1.75; timothy seed, 3.75; clover, 9.50@14.00; mess pork, per barrel, 21.75@24.00; short ribs, sides (loose,) 11.87½@12.12½; short clear sides (boxed,) 12.00@12.25.

Safe Investments
At Prices to Yield From
3.85 to 5.15 Per Cent

During the past twenty-seven years we selected and purchased, after careful investigations, over nine hundred million dollars of bonds, which have been sold to a constantly growing list of conservative clients. In buying bonds of this institution the investor secures the benefit of the extensive experience and trained judgment gained through the selection of this large amount of safe investments. We now own and offer for conservative investment over 250 different issues of carefully selected municipal, railroad and public service corporation bonds, a few of which are briefly described below:

tion of House of Lords on Eng-
h Budget Has Restraining Effect.
ll Loan Rate Advances to 5½ Per
nt.—Failure to Settle Switchmen's
rike Disappointing.

ASSOCIATED PRESS NIGHT REPORT.]

NEW YORK, Dec. 1.—Prices of stocks had substantial rally today. A general demand to cover outstanding shorts came from many and the withdrawal of selling orders marked the subsidence of the apprehension that several days over the anti-trust programme at Washington.

Another influence was the formal action of the House of Lords in London in appealing to the Budget decision to the electorate. Opinion holds that the steps made necessary in British fiscal affairs by this action, as well as the unsettling condition on public employment of the grave governmental issues involved, are destined to have a restrictive effect on financial markets for some time.

Some mixed view may be said to hold a larger outlook in the corporation reports which appear today of the quarterly period. On the part of the department of Justice in the American Tobacco case before the court, a review of this report for December, 31, 1908, to the end of the year from the standpoint of an evil day from the supposed beginning of corporation prohibition for the early 4 a condition as which was stimulated principally by some of the leading railroad issues, renewal of dealings in the speculative issues, consistently absent features. These centered in the Union and St. Louis and San Francisco shares, the possible alternative allotment might be made to the retention of the American smelting division of the New York Central, the dissolution of the Northern Securities stocks from advancing with Chicago and Northwestern furthermore of the recent tendency to the stock increases are to the stockholders the subscription privilege of which are made. The settlement of the rise in call loan rates of gold for export from the banks have narrowed the demand. The settlement of labor controversies in other directions.

Los Angeles	66	47	57	Seattle	44	40	42

*The maximum is for day before yesterday. The minimum for yesterday. The mean is the average temperature for the two days.

LOCAL OFFICE, U. S. WEATHER BUREAU, Los Angeles, Dec. 1.—[Reported by W. J. Bennett, Observer, temporarily in charge.] At 5 o'clock a.m. the barometer registered 30.02; at 5 p.m., 29.94. Thermometer for the corresponding hours showed 49 deg. and 58 deg. Relative humidity, 5 a.m., 76 per cent.; 5 p.m., 9 per cent. Wind, 5 a.m., northeast, velocity 7 miles; 5 p.m., southwest, velocity 6 miles. Maximum temperature, 66 deg.; minimum, 47 deg. Rainfall for season, 1.93 inches; rainfall past season to date, 2.63 inches. Barometer reduced to sea level.

Weather Conditions. — Practically no change in weather conditions has occurred in southern California during the last twenty-four hours, while rain has fallen generally over that part of the State from San Francisco northward, and rain continued at the time of observation at every station reporting. The pressure has fallen slightly over the Pacific Coast and considerably over the southern plateau, now forming a part of the disturbance that has moved from the plateau to the Mississippi Valley since Monday. Rain continues from the Rocky Mountains to the Mississippi River, rainfalls in excess of one inch being reported from North Platte and Galveston.

Fair weather continues from the Mississippi eastward. Owing to the decreasing pressure on the Coast and the barometric depression over the plateau, we may expect partly cloudy to cloudy and unsettled weather in Los Angeles and vicinity during the next forty-six hours, probably with showers tonight and Thursday.

Forecasts.—Local forecast for Los Angeles and vicinity: Cloudy and unsettled weather, probably with showers Wednesday night and Thursday; light, variable winds.

SAN FRANCISCO, Dec. 1.—Rainfall data:

Stations—	Past twenty-four hours.	Seasonal to date.	Normal to date.
Eureka	.36	11.53	9.50

Fresno	.23	4.98	4.17
Independence	.37	2.88	2.48
Yuma	T.	2.49	2.66

FORECASTS.

San Francisco and vicinity: Fair Thursday, with some cloudiness; cooler; moderate northerly wind.

Sacramento and Clara Valley: Clearing, cooler; light to fresh wind.

San Joaquin Valley: Fair, cooler; brisk north wind.

Coast: Thursday, fair; Friday, fair, except possibly rain or snow in north portion.

YUMA (Ariz.) Dec. 1.—[Exclusive Dispatch from the U. S. Reclamation Service.] Gauge height Colorado River, 13.80 feet.

Estimated Flow of Streams.

The following is a statement of the estimated flow of certain Southern California rivers in cubic feet per second, or second-feet, one second-foot equaling fifty miner's inches. The record is furnished by W. B. Clapp, engineer in charge of Water Resources Branch of the United States Geological Survey in California.

No Alterations or Exchanges During This Sale

SALE OF WOMEN'S $45 to $65 SUITS

Most all of the $45.00 and $65.00 price tags had disappeared from our stock by the time this sale started Wednesday morning. We had determined to make it one of the biggest sales in our history and so it is turning out to be. Come and see.

$35

Just think of a saving of from $10 to $20 on a strictly up-to-date suit offered right at the height of the season. The assortment comprises some of the most artistic Fall and Winter models we have shown this season. No exceptions or reservations.

The choice offered in this sale is almost unlimited, including, as it does, the popular diagonals and whipcords, wide wales, and choice imported broadcloths. There are plainly but beautifully tailored models, and again others that are artistically embroidered or appliqued with silk braid. The plaited skirts hang gracefully. The long-roll shawl collars give the suits an air of distinction and elegance—in fact, they're the kind of garments the enviable reputation of our suit department has been built up on. There are all the late Fall shades as well as black—and there are all sizes.

The Reductions Are Radical, as This is an Energetic Clearance Sale in the Strictest Sense of That Word.

SURE.

GERMANS LAUD SMITH CAUSE.

Republican Candidate Given Their Firm Support.

Assemblyman Rech Tells Why Party Man Should Win.

Leading Democrat Is Out Strong Against Alexander.

Members of the German-American alliance greeted George A. Smith, Republican candidate for Mayor, with ringing cheers last night. Smith did not reach Turner Hall, on South Main street, until after 9 o'clock. The audience in the interim listened to excellent speeches by Col. R. W. Richardson, M. J. McGarry, Assemblyman Rech and others. The big hall was jammed.

As Smith and several of his friends entered the hall, the audience broke into hearty cheering, hundreds rising to their feet and applauding.

"Gentlemen, this greeting is appreciated," said Smith. "We have just come from another meeting. I guess I have already said all you electors want to hear. My record stands for itself. The direct primary may be a good test, but it is awfully hard on the poor candidates.

"I can't tell you anything new; the papers keep you posted, particularly that portion which is supporting Alexander. [Laughter.]

"There is one thing I would like to explain—that is about the voting machines. I have been called all kinds of a machine-made candidate, and now is the voting machine. [Laughter.] I want to tell you the plain facts; they cannot be denied. When there was the first talk about voting machines, eastern cities were using them with good advantage. They were supposed to facilitate the counting of the ballot, and to prevent frauds of all kinds. There were several talks on the subject before the Supervisors. Finally the Supervisors decided to buy some. When it was thought a good idea if the city should pay part of the purchase price, so that both city and county governments could utilize the machines.

"I, in common with the rest, I honestly thought the machines would be a good thing. Now let Mr. Alexander come out and admit his part in the affair. It would be the only fair and honest thing to do."

FRANKNESS APPLAUDED.

This frank talk by Smith started a storm of applause, both from the audience and from the other speakers.

"I expect to be the next Mayor," enthused Smith. "If I am elected, the laws must be obeyed. I will be everybody's Mayor. I think I know pretty well what the people want. I know I want to see a good Council elected."

Assemblyman Rech gave a straight-from-the-shoulder, old-fashioned Republican talk that evoked much enthusiasm. He said the G.G.O. was trying to make it appear that all virtue is on its little fence and that everything on the other side is bad and belongs to the devil.

"The best sort of argument is a reflection upon you and me," declared the speaker. "There is no reason why the moral element in the city should be taken of in asserting terms. I thank God we are liberal. [Applause.] We don't want a narrow form of government, such as the Goo-Goos would put upon us. I tell you, I believe in a convention idea. Men believe in a candidate being responsible to his party. The man who stands alone is responsible to no one."

The speaker said great issues are at stake. He said that the Republican party must resist all attempts to divide it upon local issues as well as on state and national questions.

M'GARRY MAKES HIT.

J. McGarry, one of the city's leading Democrats, made a great hit with the audience. He said: "I am not for Dr. Houghton, who claims to be an orphan. As a Democrat supporting George A. Smith, for Mayor, I have many of fellow-Democrats with me (Prolonged applause.)

"Lest we forget,' as the Express would say, I want to call your attention to some facts about George Alexander. I wonder the papers have not put into his record more at length.

"It has been said that the first time Alexander said when he arrived in Los Angeles was: 'When is the next train?' I give him more credit for something than that. What he did say was something like this: 'How long will I be here before I can hold office?' (Laughter.)

"Alexander boasts he is an honest man. What of it? Is he the only honest man in the city? What's the matter with Smith? (Cheers.)

"I feel, as a good deal behind that has never been brought to light. It makes me sick when some tourist goes to see through the columns of the Express how eager the people in Los Angeles are to hear about George Alexander. I wonder if the folks back east are really bothering their heads about him?

"Mr. Alexander, he is an honest servant of the people. When he got into office he, as a rule, he at once demanded the resignation of the members of the Civil Service Commission, though they had been appointed for a designated term. Why? Because he said he knew they were against him.

"My friends, George Alexander is a great kind of a political hypocrite. (Applause.) I have known him and followed his career ever since he was in office in the City Hall. He was then in the Tax Collector's office for two years. Then he got a job for two years as a deputy in the street department. Then he was switched to the Courthouse as a deputy in the County Recorder's office for four years. Then back he went to the City Hall for two years. Then back he went to the Courthouse to become Supervisor. He was there four years. With the amount of public money he has swallowed, I should say he has swallowed, I should say he would be out of order to tell you. (Laughter.)

"Alexander's ear is always to the ground, getting in working himself into office. He is working himself salaries from the city. He became Mayor as a stepping-stone. He wants to remain in the chair for a full term." (Applause.)

MURPHY FOR SMITH.

Murphy was introduced as a supporter who now is a W. P. man. "As one of the following, I want to say that I am for George A. Smith. Alexander declared Williams. I think it proper to make a statement myself, but I have sympathies lie."

Dr. Houghton made a short speech. He said the question in his mind is whether the 'Uncle Tom' under the 'Uncle Sam' will have a change. He said he is too large a man to be a narrow-minded

persons who would try to make it conform to village ideas.

Black said that great issues are at stake, and that Republicans must stand together against the machine that masquerades under the name of the Good Government Organization. He urged all present to talk the matter over with their friends and neighbors in order to get out a big vote for Smith next Tuesday.

Fred J. Spring and others closed the meeting. There were a number of prominent men on the platform, including former supporters of Mushet, regular Republicans and Democrats.

PEPPERY.

REPUBLICANS OUT IN FORCE.

PICO HEIGHTS GIVES SMITH A FINE GREETING.

Mayoralty Candidate Pours Hot Shot Into Opponent on Voting Machine and Other Matters, and Former Leaders of Mushet and Parish Forces Tell Where They Stand.

Old-time enthusiasm, red fire and a drum corps made things hum at a Republican meeting in St. Thomas Hall on Pico Heights, last night. A large crowd was in attendance and added plenty of ginger to the keen points of the several speakers.

George A. Smith, Republican candidate for Mayor, opened the ball in great shape by giving a detailed history of the buying of voting machines for the city and county.

"I want to tell you something about the purchase of these voting machines, about which the 'Goo-Goos' are making such a howl," said Smith.

"The Supervisors, of which George Alexander was one, examined them, believed them to be a good thing and bought thirteen for a trial in the county precincts. They were so well satisfied with the experiment that they sent a committee down to the City Hall to tell us of the Council that they wanted to buy fifty more of the machines. They asked the City Council to go in with them on the purchase and the machines could be used by both city and county. We considered the matter, discussed it with the committee and then fell in with them, and if any blame is to be attached to the City Council in the matter I would like to know where Alexander gets off." [Applause.]

Herbert White, formerly assistant secretary of the Mushet Campaign Committee, created much enthusiasm by his positive statements concerning the attitude of the former supporters of Mushet for the Mayoralty nomination.

"I want to impress upon you," said White, "the fact that the Mushet forces and Smith forces are united, and that they are going to vote solid for Smith.

"I also wish to take this opportunity to say to you that I am here not only with the consent and approval of Mr. Mushet, but with the approval of the Mushet Executive Committee. [Applause.]

"Practically every election board in the city was in the hands of Alexander men, and if Mushet was counted out, it was done by Alexander men. Do you imagine that any man who had the cause of Mushet at heart could go over to the Alexander camp? [Cries of 'No.']

"Alexander has never been Mayor of Los Angeles and I'm going to prove it. Ira J. Francis was a member of the Mushet Advisory Committee, but he was also connected somewhat with the Gamewell fire alarm system, and Mr. Mushet had in his office safe a number of unpaid warrants in favor of the Gamewell people, which he claimed were illegal and refused to pay.

"Francis went to Mayor Alexander after the City Council had passed the ordinance purchasing another system, and told the Mayor that if he would refuse to sign the ordinance, he (Francis) would resign from the Mushet committee and publish it in all the newspapers and it would be a great campaign argument. Alexander promised Francis that he would not sign the ordinance, but the Good Government people went to the Mayor and told him he had to sign the ordinance, and he did. Now, I'd like you to tell me who was Mayor of Los Angeles in that instance."

Grove L. Walter, who was prominent in the campaign of Parish for the nomination for Mayor, made a strong speech for the whole Republican ticket, in which he said:

"The Republican ticket is made up of men of efficiency, experience, knowledge and truth, while on the other side you have simply deceit and boodism.

"I am here to state the belief that 80 per cent. of those men who supported Parish will vote for George A. Smith for Mayor." [Cheers.]

Walter declared that the Silk Socks start on a false proposition, and would have the people believe that they embody all the virtue of civic righteousness in the city.

"One Woolwine, who was set aside by the District Attorney," said Mr. Walter, "has been going about saying that every man on the Republican ticket is a blackguard and has been placed there by some machine or corporation, and that if they are elected this great city will go to destruction. Now, I need not tell you that this is all 'tommyrot.' The 'Goo-Goos' are simply after getting hold of the city offices for what they can get out of them, and I desire to urge you to vote the whole Republican ticket and secure the best possible results." [Applause.]

R. Heffelfinger, candidate for Treasurer; E. E. Bostwick, candidate for Auditor, and E. E. Johnson, candidate for Tax Collector, were all presented and made short speeches. Council Candidates C. J. Letts, Percy W. Ross, W. E. McKee, W. H. O'Connell and Henry H. Lyon made addresses and were enthusiastically received by the crowd.

BEACH HARGIS MUST SERVE.

FRANKFORT (Ky.) Dec. 1.—The Court of Appeals today affirmed the life sentence given Beach Hargis, for the murder of his father, former Judge James Hargis, the noted feudist of Jackson, Ky.

MYSTERY.

GIRL DRUGGED BY KIDNAPERS.

Found Unconscious in Chicago Park by Police.

Escapes from Convent in Which She Was Prisoned.

Claims Abduction Was by the Agents of a Relative.

[BY DIRECT WIRE TO THE TIMES.]

CHICAGO, Dec. 1.—[Exclusive Dispatch.] Mystery enshrouds the identity of a well-dressed young woman, found unconscious in Lincoln Park, at the foot of Wisconsin street, shortly before 2 p.m. today. The girl, refined looking and apparently of good family, was found by the Lincoln Park police and rushed to the Columbus Memorial Hospital. On the way to the institution in the police ambulance she recovered consciousness long enough to murmur feebly that her name was Hazel Robinson; that she was 20 years old. Then she again lapsed into unconsciousness.

Later at the hospital she recovered herself and declared that her name was Hazel Elizabeth Robertson Dillon and that her father was an official of the Oregon Short Line. Her mother, she averred, lived in Holland, Mich., and her father in Glenn's Ferry, Idaho. She said she had escaped from a convent in the East.

Following this declaration she again subsided into coma. When she again awakened she continued her remarkable story, maintaining that she had been kidnaped from Holland, Mich., by men whom she believed to be agents of a relative. Her father, she said, is separated from her mother.

She asserts that she was at St. Mary's College, which was either in New York or New Jersey, she could not remember which. She said that in order to escape she was obliged to climb a tree within the college walls and thus scale the barrier to freedom, dropping to the ground outside.

At the Plaza Hotel it was said that a young woman answering to the description furnished by the police had registered at the hotel late last night as Hazel Robinson, but had gone immediately to her room and had not been seen since.

At the hospital it is said her condition is critical. It has not been determined what was the nature of the drug from which she is suffering.

DENIES SHE'S HIS DAUGHTER.

[ASSOCIATED PRESS NIGHT REPORT.]

GLENNS FERRY (Idaho) Dec. 1.—The only Dillon in Glenns Ferry is W. F. Dillon, formerly foreman in the Oregon Short Line shops. He disclaims all knowledge of an Elizabeth Robertson Dillon, the name given by the girl found unconscious in a Chicago park today. His brother, living at Grand Rapids, Mich., has a daughter, but her name is not Elizabeth.

REICHSTAG IS DIVIDED.

Opposition Parties Decline All Offers to Take Offices Tendered Them by Majority.

[ASSOCIATED PRESS NIGHT REPORT.]

BERLIN, Dec. 1.—The first business session of the Reichstag gave striking evidence of the tension between the political parties as a result of a quarrel over the reform of the empire's finances.

After the House had reelected Count Ude von Stolberg-Wernigerode President; Dr. Spahn, Clerical, as First Vice-President, displacing Dr. Hermann S. Paasche, National Liberal, it elected Paasche as Second Vice-President. The latter, however, declined to serve, declaring the National Liberal party had decided unanimously not to accept office in the reorganization.

The Imperial party, or Conservatives, also declined to take part in the organization, while the Radicals went so far as to decide that they would cast blank votes. These three parties are determined to place the full responsibility for coming legislation upon the German Conservatives and Clericals.

GALE REACHED FAR.

Storm Which Recently Swept North Pacific Wrecked Alaskan Light Station.

[ASSOCIATED PRESS NIGHT REPORT.]

PORTLAND (Or.) Dec. 1.—That the storm which swept the North Pacific Coast on November 28 was far-reaching is indicated in a dispatch received here from Wrangel, Alaska, today, reporting the wrecking of the Lincoln Rock light station, Southeastern Alaska.

Anton Horel, one of the three keepers, today telegraphed J. M. Ellicott, lighthouse inspector, as follows:

"A gale November 28 destroyed front of station. The trumpet, boats and provisions are lost. The light is good, but it is not safe to stay."

The Lincoln station is more than a mile from the mainland and it is not known how Horel got ashore to send the dispatch, as the telegram says the boats were lost.

A telegram has been sent to Wrangel arranging for a crew of mechanics to go to the station to make repairs. Provisions will be sent also.

ROLAND FOR HER OLIVER.

Dr. Krauss Counters Wife's Charge of Vagrancy With Allegations of Infidelity.

[BY DIRECT WIRE TO THE TIMES.]

VICKSBURG (Miss.) Dec. 1.—[Exclusive Dispatch.] Dr. William Krauss, dean of the University of Mississippi Medical School here, is held under $500 bond for his appearance to answer a charge of abandonment and vagrancy, filed by his wife, Daisy Krauss, of Memphis, who alleges that he has violated a contract to allow her $150 per month pending divorce proceedings, which she has filed against him in Memphis, Tenn.

Dr. Krauss has filed a sensational affidavit, alleging the unfaithfulness of his wife and her alleged immoral association with one F. H. Griffin of Redding, Cal., whom the defendant says Mrs. Krauss stopped with at a hotel as man and wife. The case is set for Friday, pending the arrival of O. Sample of Chicago, whose testimony the defendant claims will be introduced as soon as he can be had here.

OILS TROUBLED WATERS.

German Chancellor Seeks to Mollify the Wrath Aroused by Ambassador to America.

[BY DIRECT WIRE TO THE TIMES.]

BERLIN, Dec. 1.—[Exclusive Dispatch.] As a result of the vigorous protest of the German expansionists and Pan-Germans against Ambassador Bernstorff's characterization of them in his recent Philadelphia speech on the Monroe doctrine, the government has found it advisable to issue a declaration on the subject. The statement, which has just been published in Chancellor Bethmann-Hollweg's official organ, the Norddeutsche Allgemine Zeitung, is designed to mollify the irate Pan-Germans, who were described by Herr Bernstorff as "of no importance and without the slightest influence on the government." It declares that while the Chancellor does not identify himself with Pan-American policies, he not only has no bias against them, but does full justice to the patriotic motives inspiring them.

The Chancellor has no intention of disavowing the Ambassador's utterances as his speech "against the harmful intermixing of the official policy of the empire and Pan-German ideals has given no ground for reproof."

WIFE'S WILL IS LOST.

Actor William Collier Becomes Legatee, Though He and Wife Lived Apart for Years.

[BY DIRECT WIRE TO THE TIMES.]

NEW YORK, Dec. 1.—[Exclusive Dispatch.] Through the mysterious disappearance of the last will of his wife, Mrs. Louise Allen Collier, executed and attested to two days before her death, on November 9 last, William Collier, actor, may inherit all of the personal property, valued at $50,000, and in addition an equity for life in Mrs. Collier's country estate at St. James, L. I.

During the last few years Mrs. Collier and her husband lived apart, and in the will executed forty-eight hours before her death, Mrs. Collier bequeathed all her property, both personal and real, to her mother, Mrs. Rachael Allen.

Mrs. Allen has begun an action, in which she asks the Supreme Court to establish the will and testament of her daughter.

OBITUARY.

Brig.-Gen. Thomas McCurdy Vincent.

WASHINGTON, Dec. 1.—Brig.-Gen. Thomas McCurdy Vincent, famous as an Indian fighter, and in charge of the organization of volunteer forces during the Civil War, died here yesterday, day, aged 77.

Capt. H. A. Thompson.

ALAMEDA, Dec. 1.—Capt. H. A. Thompson, who has commanded deep sea vessels plying between Pacific Coast ports and Australia for many years, and who served one term as warden of this port during the administration of Gov. Pardee, died at his home in this city yesterday. He was 72 years of age, and followed the sea for sixty years.

Port Items.

After having discharged a part cargo of lumber at Redondo, the steamer Claremont, Capt Christensen, arrived today from Gray's Harbor, carrying 700,000 railroad ties, consigned to the Southern Pacific.

The British steamship Bessie Dollar, Capt. Gow, arrived this morning, out thirty-three days from Hongkong, via Hakodate, after an uneventful voyage. She brought 800,000 feet of oak logs from Japan and 3500 tons of miscellaneous oriental cargo, consigned to the Crescent Wharf & Warehouse Company. The Bessie Dollar will complete the discharge of cargo for this point on Saturday and will clear for San Francisco with the remainder.

The steamer Santa Barbara, Capt. Zaddart, completed the discharge of a lumber cargo and cleared tonight for Gray's Harbor to reload, taking freight and passengers for San Francisco.

The steamer Daisy Freeman, Capt. Johnson, arriving yesterday from Willapa Harbor with a full cargo of lumber for the E. K. Wood Lumber Company.

The Independent Steamship Company's steamer Hanalei, is due tomorrow from San Francisco direct, with freight and passengers.

The schooner Expansion, at Portland, has finished loading 750,000 feet of lumber and is scheduled to sail today for Redondo.

Capt. Thomas Gunderson has been licensed as master of the steamer Helen A. Drew.

The barkentine John Smith, Capt. Halvorsen is reported off the lighthouse tonight. She is sixteen days from Gray's Harbor with 700,000 feet of lumber.

REDONDO BEACH.

The steamer Raymond and Yosemite are due here tomorrow with cargoes of lumber.

SAN FRANCISCO, Dec. 1.—Arrived: Steamer City of Topeka, from San Diego.
Sailed: Steamer Coos Bay, for San Pedro.

How I Took The Hair Off My Face

The Same Sure Remedy Which Cured Me Will Be Sent You FREE. It Will Not Burn or Injure the Skin.

Don't Use a Razor.

"Yes, there was a time when I could hardly bear to look at myself in the glass," said a well-known society beauty. "I was hideous and I knew it and my friends knew it, even if they said nothing to me.

"I don't care whether it's just a few stray hairs or a full-fledged mustache, hair on a woman's face will spoil her beauty. That's all there is to that. I know. Of course I tried the electric needle and all the other remedies I ever heard of. And, of course, the hair came back. It always will with such remedies. They don't really kill the hair. They just burn it off the surface and stimulate the roots. Sometimes I just couldn't bear to face anybody with that horrible growth on my face and arms. I was about to give up in despair, when some friend sent me a bottle of Elec-tro-la. I hadn't faith in the remedy before I used it, but it took just one treatment to convince me. The way that hair came off was a marvel, and no matter how long I left the remedy on it would not burn or smart. That's the secret of its success. You can leave it on long enough to reach the roots and kill the hair and a cure with Elec-tro-la is a cure that lasts. See, my face is as soft and smooth as a little child's, and it's been months since I cured myelf. If you don't believe this, just try Elec-tro-la and see."

We want every reader of this paper who is troubled with superfluous hair to prove this sure remedy just as thousands of others affected with objectionable hair have done. If you want a permanent, lasting cure, not merely temporary relief, Elec-tro-la is what you should use.

All that is necessary to get a free trial bottle is to just fill out the coupon and send to us with a two-cent stamp to help cover cost of mailing. The regular sized bottle is $1.00 and your money will be refunded if Elec-tro-la does not do all we claim. We don't ask you to take our word for what Elec-tro-la will do. Fill out the Trial Coupon and mail with a two-cent stamp today.

FREE TREATMENT

Fill in your name and address on dotted lines below and send it to Kon-Rec-Tiv Co., 5106 State St., Chicago, Ill., enclosing a two-cent stamp to help cover mailing, and we will send at once a free trial bottle that will show you what Elec-tro-la will do for you. B810.

LOS ANGELES BREWING COMPANY.

HEWITT ADV. CO.

HOW SHE CURED HER RHEUMATISM

I wish every rheumatic sufferer to know what S. S. S. did for me. I had been afflicted with Rheumatism for twenty years, sometimes being entirely laid up by it, and always lame in some part of my body. It grew worse until it was misery to attempt to walk at all; my right knee was nearly twice its natural size and was drawn up considerably shorter than the other one. A friend advised me to take S. S. S., which I commenced. I had tried so many things that I must say I had very little faith that it would do me any good, but was willing to try anything that promised relief. Before I had been using it long I was greatly encouraged, and continuing the medicine I soon found I was entirely cured. The lameness and soreness all left, and I can straighten, move or bend my leg as well as any one. I am sixty-five years old, but have had no symptoms of Rheumatism since S. S. S. cured me.

MRS. IDA M. PALMER.

No. 195 Fulton St., Brooklyn, N. Y.

The sincere and truthful tone of Mrs. Palmer's letter must impress every one who reads it. She had suffered with the agonies of Rheumatism for twenty years, and when she found a medicine that proved its worth by curing her, a humane interest in others who were suffering from the disease prompted her to recommend it.

Rheumatism is due to a diseased condition of the blood cells and corpuscles, brought about by an excess of uric acid in the circulation. This uratic impurity gets into the blood usually because of systemic irregularities, such as constipation, imperfect kidney action, indigestion, and other minor stomach disturbances. These common ailments prevent the proper working of the eliminative members, and thus a certain percentage of the refuse matter which should pass off is left in the system to sour and form uric acid, which is absorbed into the blood. Then the corpuscles of the circulation which ordinarily furnish nourishment to the body, are saturated with the uratic impurity, which they deposit into the muscles, nerves, bones and joints. This causes inflammation and the pains, aches, and stiffness of Rheumatism.

External applications, such as plasters, liniments, hot applications, etc., cannot have any permanent effect on Rheumatism. Temporary relief from its pains is sometimes afforded by such measures, but the old cause is always at work in the blood, and as soon as the local treatment is left off every symptom will return.

There is but one way to cure Rheumatism, and that is to purify the blood—cleanse the circulation of the uric acid impurity. S. S. S. goes into the blood and attacks the disease at its head, and by removing every particle of the inflammatory uratic matter, and building up the blood to a healthful condition, this medicine destroys the cause and cures Rheumatism. When S. S. S. has cleansed the blood of the acrid impurity, enriched and thickened the circulation, then the nerves are quieted, the muscles become elastic, the blood tissues are cooled, and the hot, feverish flesh is soothed and made comfortable. Nothing equals S. S. S. as a blood purifier, and for this reason nothing equals it as a cure for Rheumatism. Book on Rheumatism and any medical advice free.

Sore Throat

Colds, Coughs, Croup and Catarrh Relieved in Two Minutes

All the above nose and throat troubles are caused by an inflammation of the mucous membrane.

The sensible treatment is to soothe as quickly as possible this highly inflamed membrane so that it will heal promptly.

Breathe soothing, healing Hyomei over the inflamed membrane and relief comes at once—it cures a cold in a day.

Complete outfit, including inhaler, $1.00, at druggists everywhere, who sell it on money-back plan. Mail orders filled by Booth's Hyomei Co., Buffalo, N. Y.

FORTUNE INVOLVED.

GRAY-HAIRED SPINSTER ACCUSED OF MURDERING HER YOUNG NIECE.

[ASSOCIATED PRESS NIGHT REPORT.]

NEW YORK, Dec. 1.—Virginia Wardlaw, a gray-haired spinster, was arraigned at East Orange, N. J., today, charged with the murder of her young niece, Mrs. Ocey W. N. Snead, whose body was found in a bathtub in a deserted house in East Orange Monday.

Death, according to the Coroner, was due to drowning in less than a foot of water. In view of many features of the case—the young woman's detention in deserted houses while having a $20,000 insurance policy on her life, the fact that she owned property in Brooklyn worth $16,000, and her apparent helplessness for months—Miss Wardlaw was held without bail.

Two women said to have been associated with the victim are under surveillance.

The police theory is that Mrs. Snead had been in a helpless condition for months, unable to direct her own affairs, and was at the mercy of whoever acted as her guardian.

A will has been discovered, said to have been signed by the victim, which gives $500 to an infant son and bequeathes the rest of the estate to Mrs. Snead's grandmother, Martha Eliza Wardlaw. The son was born last August, but was taken from his mother and presumably placed in an institution.

ATHENS ACRES

December 20

Prices Advance 25 per cent

The last chance to get any of these beautiful acres at

OPENING PRICES

You cannot afford to miss this opportunity. Best bargain, best location, highest land, finest soil and most inspiring view and, remember,

Watkins & Belton

Classified Liners.

Times Classified Rates: The rate for inserting Want-ads in The Daily Times is 1c per word for each insertion; in the Sunday issue 1½c per word each insertion; minimum charge, 25c; except under following classifications, the rate for which is 10c per line, minimum charge 50 cents: "Society Meetings," "Personals," "Special Notices," "Church Notices," "Miscellaneous" and "Baths and Massage."

"Liner" (classified) advertisements for Sunday insertion received over the counter or by telephone after 11:30 o'clock Saturday nights will be inserted under heading "Too Late to Classify."

Sunday real estate advertisements, to be classified properly, must be in The Times office before 10:30 o'clock Saturday night. Rates 1½c per word.

The Sunday circulation of The Times exceeds 77,000 copies, and more "liners" are regularly printed in its columns than in the five other Los Angeles newspapers combined.

Telephone your want advertisements. Ring up "The Times" any time of day or night and secure prompt and careful attention.

The Times cannot guarantee accuracy or assume responsibility for errors of any kind occurring in telephoned advertisements.

THE TIMES will not be responsible for more than one incorrect insertion of any advertisement ordered for more than one time.

Advertisers should retain receipts given by The Times in payment for "liners," as no mistakes can be rectified without them.

SPECIAL NOTICES—

NOTICE OF COMPLETION.

To Whom it May Concern: This is to certify that the contract entered into between the McKinley Industrial Home Society as owners, and Charles E. Warren as contractor, in which Dennis & Parwell were named as architects; the same being recorded in the office of the County Recorder of Los Angeles County on the 18th day of October, 1905, for the following work, viz: the erection of a one-story brick building building (24x38 feet) on Vermont ave., near Gardena, or upon property owned by said McKinley Industrial Home Society, which said property is situated 1½ miles south of Gardena and is now within the city limits of Los Angeles, California, and that the same was duly completed and accepted on the 30th day of November, 1905, and I hereby acknowledge the full completion and acceptance of the same.

THE McKINLEY INDUSTRIAL HOME SOCIETY, by
C. A. CANFIELD, Pres.
x2 and FLORENCE C. PORTER, Secy.

SUNDAY REAL ESTATE LINERS—Classified real estate advertisements for insertion in THE SUNDAY TIMES must be in the office not later than 10:30 o'clock Saturday nights. Such advertisements for Sunday final insertion will be taken over the counter until 11:30 p.m.

The great volume of liners printed in The Sunday Times, numbering regularly over 5000 separate announcements, makes this regulation absolutely necessary in order to get the ads classified in time.

PROFIT IN TIMES LINERS.

A splendid opportunity is offered real estate dealers and owners in the classified department of the forthcoming Midwinter Number of The Times, to be issued on January 1. This special edition, with a guaranteed circulation exceeding 125,000 copies, will be an unusually desirable medium through which to exploit attractive offers for the sale of agricultural properties as well as city homes. Copy will be accepted until December 28. Rate, 3 cents per word.

TIMES COOK BOOK NO. 3, NEW EDITION, now on sale. Largest, most elaborate and comprehensive cook book of the series issued by The Times.

TYLER & COMPANY,
x4 600 UNION TRUST BLDG.

FOR SALE— BEAUTIFUL, NEW WILSHIRE HOME. ONE OF THE BEST HOUSES IN THE FASHIONABLE DISTRICT.

A $12,000 house, just completed for owner, who cannot occupy it, on account of business elsewhere and has made a price of $10,250 to effect a quick sale.

Two-story, ten rooms and large reception hall, finished in mahogany and bird's eye maple. Wilshire. Lot 60 feet front, east frontage.

DOWNSTAIRS, reception hall, living-room and dining-room in solid quartered oak; den, library in mahogany, all rooms hand-rubbed and dull finish. Servants' quarters, kitchen and butler's pantry in white enamel.

UPSTAIRS, reached by wide easy stairway, are five large, sunny bedrooms, finished in mahogany and white enamel; nursery and sleeping porch. Open fireplace in one living room. Furnace heat and hardwood floors throughout. Two bathrooms completely equipped.

The interior finish all over the house is exceptionally fine. Lighting fixtures, buffet, mirrors, especially designed, and of the most possible quality. Large cement cellar, good garage and cemented drive.

We are confident that at the price of $10,250 there is no finer house in the district to approach this place.

Shown by appointment only; ring up for auto.

FOR SALE—
10-acre orange grove, near Alhambra. Has netted $1000 per year. Yielded 2232 boxes of oranges last year. The outlook is better for this year. If sold soon the buyer gets the crop. Beautifully located, occupying 5 corners of fine leading avenues; has 1000 feet street frontage of 4617 feet, making it a very desirable property for subdivision. Well watered. Come and learn more about it.
H. GREENAWALT, 833 Pacific Electric Bldg. x3

FOR SALE—ORANGE GROVE AT DUARTE. The finest location for oranges in Southern California. Can show by books and trees the net returns for last eight years of 20 per cent. of selling price.
If you are looking for a grove do not fail to see this, as such a property is seldom put on the market at anything like a reasonable figure.
STEPHENS INVESTMENT CO.,
230 Wilcox Bldg.
Los Angeles, Cal. 2

FOR SALE—25 ACRES—$6250.
One-half planted to navels and Valencias and ½ vacant. Water stock alone worth $1250. Adjoining developed properties $2000 per acre. It will pay you to investigate this, as it will not remain long at the price.

NEWS AND BUSINESS.

Carrier Changes.

Charles S. Morse has been appointed carrier of Los Angeles on rural route No. 12, vice Quinn Cole, and Claribel M. Morse substitute vice Charles S. Morse, according to a dispatch from Washington.

Fall With Scaffold.

Edward Bartlett, Fourth and Saratoga streets, and George Tweeten, No. 529 Ezra street, carpenters, were bruised yesterday, when a breaking scaffold allowed them to fall fifteen feet, while they were working on a new house at No. 713 South Chicago street.

For Navajo Indians.

Messrs. McGregor & McFall, contractors of Gallup, N. M., are the successful bidders for the new Indian school to be built near Fort Defiance, on the Navajo Indian Reservation. A number of Los Angeles contractors are interested in the supplying of materials.

Local Man Wins.

Government Contractor J. H. Owen of this city received word yesterday that he has been awarded the contract at Washington, D. C., for the assembly hall, dining hall, and water and sewer system at the Nevada Indian School, near Wadsworth, that State. The sum involved aggregates $20,000.

Chance for Pointers.

A regular meeting of the Los Angeles W.C.T.U. will be held this afternoon at 2 o'clock in the First M. E. Church, Sixth and Hill streets. Mrs. Jennie Woodruff will give an address in which she will tell "How to Prepare for Christmas." It will be followed by a discussion.

Burdette at Occidental.

Dr. Robert J. Burdette will be the speaker before the students of Occidental College at 11 o'clock Friday morning, and they are arranging to give him a great reception, something in the way of a farewell send off, prior to his departure for Japan on a six months' visit. The public is invited to hear the address.

In Chamber of Commerce.

At yesterday's Chamber of Commerce directorate meeting, the following-named were elected to membership: P. P. Gardiner, Woodbury-Kling Company; J. Griffith Jones, Thompson and Gilliam; Naumann and Schill, South Pasadena Chamber of Commerce, Lawrence Holmes, Nelson & Nelson, and the Machinery Company of the Pacific.

Will Bring Business Men.

The Chamber of Commerce has received a communication from the Jepson and Ostrander Steamship line to the effect that one of its boats will call at this port January 14, en route for the west coast ports of Mexico. On board will be a number of business men from Seattle, Tacoma and other cities who are to visit Mexico with a view to building up trade. The chamber here has been asked to send a delegation on the trip. The Excursion Committee will report at the next directorate meeting.

San Gabriel Church Affair.

Society women of Los Angeles, Pasadena and Alhambra are uniting to make a success the "As You Like It" fair that is to be given at the Parish House of the Episcopal Church of Our Savior at San Gabriel next Saturday afternoon from 2 o'clock until 5. Mrs. George S. Patton will pour tea. Delicious refreshments will be served and there will be on sale a variety of articles that will prove both useful and attractive as Christmas presents. It is a novel feature of this fair that no one is asked to buy anything. While the sales always add materially to the incomes of the church, the fair has come to have prominence as a social event. It is an occasion on which denominational bars are down.

BREVITIES.

Profit in Times liners—A splendid opportunity is offered real estate dealers and owners in the classified department of the forthcoming Midwinter Number of The Times, to be issued on January 1. This special edition, with a guaranteed circulation exceeding 125,000 copies, will be an especially desirable medium through which to exploit attractive offers for the sale of agricultural properties, as well as city homes. Copy will be accepted until December 26. Rate, 3 cents per word.

Replies to tThe Times Want Ads, addressed to the Branch Office, No. 531 South Spring, may be left for delivery at the Main Office. They will be promptly sent to the Branch Office.

SAN DIEGO EXPOSITION.

Resolutions of Support and Co-operation Framed by Committee of Local Chamber of Commerce.

The Committee on Resolutions to which was referred the matter of indorsing the San Diego exposition, planned for 1915, presented the following resolution at yesterday's Chamber of Commerce directorate meeting:

"Whereas, through the efforts of the San Diego Chamber of Commerce, a Panama-California exposition will be held in 1915 in the city of San Diego; and, whereas, the plan of procedure indicates a business-like administration calculated to assure a successful and profitable exposition; and, whereas, the San Diego Chamber of Commerce has requested the approval and co-operation of the representative commercial organizations of the Pacific Coast, therefore be it resolved: That the Los Angeles Chamber of Commerce sends its heartiest congratulations to the San Diego Chamber of Commerce and extends its earnest and enthusiastic support in making the proposed exposition a success, that will be in keeping with the Panama project and attract to our southland tourists and sightseers from all parts of the globe."

Our Great Mid-Season Millinery Sale

The first sale of the season in which every trimmed hat, no matter how desirable it may be, is radically reduced in price. The hundreds of women who wait for this event are unanimous in their praise of its unmatchable money-saving possibilities.

Visit Our Second Floor Thursday

FEAST your eyes on the magnificent display of rarely beautiful hats that practically takes up the entire floor—any one of them can be purchased at a price that means sure savings of from one-third to one-half. Large, small and medium shapes in every wanted material, including silk velvet, French felt and all smart silks—a color to match every gown. Remember that Jacoby Hats are style leaders always, and the following reductions are, to say the least, out of the ordinary:

$50 Trim'd Hats $35	$20.00 Trimmed Hats $12.50
$75 Trim'd Hats $50	$25.00 Trimmed Hats $16.50
$30 Trim'd Hats $20	$ 7.50 Trimmed Hats $ 3.95
$35 Trim'd Hats $25	$10.00 Trimmed Hats $ 5.00
$40 Trim'd Hats $30	$15.00 Trimmed Hats $10.00

The Budget
is causing a political row in King Ed's domain. This matter of appropriations is always a serious one. Many men think they can't afford to wear tailor-made garments, although they know it is the only way to get clothes satisfaction. The fact is B. & K. System tailor-made suits and overcoats are less expensive than ready-mades. They cost no more and they wear longer and look better. "Men who know" are loud in their praise of our superb garments. See the exclusive Winter woolens we are offering.
Suits to order $20 to $50.
Overcoats to order $20 to $40.

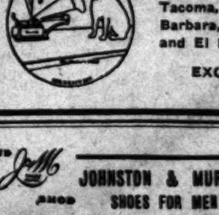
Better Pianos At Smaller Prices



In no store in Los Angeles can be seen such a ment of fine pianos as is shown on the floors of our big way establishment. Our stock comprises the most and the most famous lines of the piano maker's art. the World's Greatest piano, the wonderful Mason & the Conover, Hardman, Packard, Ludwig, Harrington & Teeple, the matchless Milton, and many others in regular styles, upright and grand, while our player department offers a choice of the finest players in the Knabe-Angelus, the Emerson-Angelus, and the piano, all containing the greatest invention of the piano the "Melodant," which separates melody and harmony as in hand playing. The Conover Inner-Player, the man and Harrington, the Carola and Kingsbury Inner all in 88 note types and of latest construction, possess attractive features.

No matter what may be your piano desire, no matter may be your income, we are in position to satisfy you and to make the ownership of a really good piano or piano a more economical proposition than can any other

For December especially fine pianos are shown at prices and on most liberal terms. A really good piano than $200, fully guaranteed and exchangable at any time in one year in part payment for a Knabe at full purchase is an especially attractive bargain this week. Easy p
